

# Jobs Bulletin

March 2012

The LINGUIST List Jobs Bulletin

is a publication which lists all LINGUIST List job announcements that are active at the time of printing. This print publication is distributed four times a year in March, June, September, and December.

The LINGUIST List Jobs Bulletin

is available by subscription for an annual fee of US\$120. Single issues are available for US\$35. Credit card payment is required. To order the print publication, fill out the form at:

<http://linguistlist.org/jobs/subscribe.cfm>.

As a service to LINGUIST subscribers, a pdf copy is also downloadable free of charge from the LINGUIST List site:

<http://www.linguistlist.org/jobs/jobs.pdf>

Questions should be addressed to:

[jobs@linguistlist.org](mailto:jobs@linguistlist.org)

## 24/7 Customer Inc. Computational Linguistics: Speech Scientist/Engineer, 24/7 Customer Inc.

<http://linguistlist.org/issues/23/23-1210.html>

Rank: Speech Scientist/Engineer  
 Posted on: 09-Mar-2012  
 Deadline: Until Filled  
 Ling Field(s): Computational Linguistics  
 Speech Technology Development  
 Language(s):  
 Employer: 24/7 Customer Inc.  
 Department: Application Design & Speech  
 Analytics

### Job Description

[24]7 is looking for a Speech Engineer or Scientist with a strong background in speech recognition. This person will provide technical leadership and be primarily responsible for enhancing the speech recognition capabilities of our applications and the platform.

Ideally, we are looking for a motivated leader with a passion for Speech Technology Development with experience in enterprise or academic speech recognition systems. Using the mature platform and tools here at [24]7, this person will work with our Speech Science, Analytics, Platform Engineering and Application teams to ensure that the speech models built and delivered meet the needs of the partners and markets in which they are being delivered.

### Responsibilities:

The Speech Engineer/Scientist should be familiar with and have had hands on experience with specification, development and tuning of:

- Lexicons & Pronunciation Dictionaries
- Language Models
- Acoustic Models
- Text Normalization
- Accuracy Tuning
- Performance Tuning

- Acceptance Testing

### Requirements:

- Ability to translate complex processes in to a repeatable model producing high quality results, excellence in thinking and execution.

- A passion for the new user experience paradigms incorporating speech technologies.

- The ability to drive end to end Speech Recognition system diagnosis and quality investigations.

- Desire for cost-effectiveness improvement.

### Qualifications:

- MSc or PhD in CS/EE/Computational Linguistics (with focus in one or more of Acoustic Modeling, Language Modeling or Speech Applications) or equivalent experience.

- 3+ years of Speech R&D in an Academic or in an Enterprise setting.

- Software development skills, aptitude for process design.

- Programming with scripting languages.

## Academia Sinica Mandarin Chinese; Ling: Asst Research Fellow, Academia Sinica

<http://linguistlist.org/issues/22/22-3875.html>

Rank: Assistant Research Fellow or  
 Above  
 Posted on: 04-Oct-2011  
 Deadline: Until Filled  
 Ling Field(s): General Linguistics  
 Theoretical Linguistics  
 Language(s): Chinese, Mandarin

Employer: Academia Sinica  
Department: Institute of Linguistics

#### Job Description

1. The Institute of Linguistics invites applications for tenure-track research-only position (at the rank of Assistant Research Fellow or above). Special consideration will be given to applicants with a research focus on theoretical linguistics, especially semantics.

2. The positions will be open until filled.

3. Applicants must already possess or will soon receive a Ph.D. degree. Non-citizen applicants are required to have a working knowledge of spoken and written Chinese.

4. The starting salary of an Assistant Research Fellow, equivalent to a university assistant professor, is NT\$ 1,022,558 per annum.

#### Application Procedure:

1. The processing period is from October 1st to November 15th. Applicants must submit the following to the application address below:

(1) a letter of application

(2) curriculum vitae in English and Chinese

(3) publication list in English and Chinese, and copies of representative publications for the last five years (Applicants for the assistant research fellow rank must submit his/her Ph.D. dissertation; or, if not yet defended, a draft of the complete dissertation)

(4) a research plan in English and Chinese that describes the applicant's research goals for the next five years

(5) names and contact information of three references

2. Notification to shortlisted applicants will be given within one month after the closing dates.

#### Application Address:

Chiu-yu Tseng, Director  
Institute of Linguistics  
Academia Sinica  
Nankang, Taipei 115  
Taiwan

#### Contact Information:

Arielle Pi-fen Hsu

## AECOM

### Various Languages; Lexicography: Linguists, AECOM

<http://linguistlist.org/issues/22/22-4616.html>

Rank: Linguists  
Posted on: 17-Nov-2011  
Deadline: Until Filled  
Ling Field(s): Lexicography  
Language(s): Arabic, South Levantine

Somali  
Urdu  
Aramaic, Old

Employer: AECOM  
Department: Language Research Center

#### Job Description

##### Linguist Positions Available

The Language Research Center, a division of AECOM, has openings for full-time temporary and full-time permanent Urdu, Bantu, Somali, Jordanian, and Syrian linguists to join our staff to prepare language-training materials such as bilingual dictionaries, readers, grammars, and textbooks. The ideal candidates will be native speakers and have near native fluency in English; Ph.D is preferred; BA or BS degree or equivalent experience with language and/or literature will be considered. Must be a U.S. citizen or eligible to work in the United States. Potential candidates will be given a low level security check.

## Albert-Ludwigs-Universitaet Freiburg

### Frequency Effects in Language: PhD Scholarships, Albert-Ludwigs-U

<http://linguistlist.org/issues/23/23-901.html>

Rank: 8 PhD Scholarships  
 Posted on: 21-Feb-2012  
 Deadline: 15-Apr-2012  
 Ling Field(s): General Linguistics  
 Frequency Effects in Language

Language(s):  
 Employer: Albert-Ludwigs-Universitaet  
 Freiburg  
 Department: Research training group "frequency  
 effects"

**Job Description**

The University of Freiburg, one of Germany's Universities of Excellence, invites applications for 8 fully-funded Ph.D. scholarships on the topic of frequency effects in language, beginning no earlier than October 1, 2012, and no later than March 1, 2013. Successful applicants will be members of the Research Training Group on "Frequency effects in language" (Graduiertenkolleg GRK 1624/1) funded by the German Research

Foundation (DFG).

Frequency is assumed to be a possible determinant in usage-based models of language change, language acquisition and language processing. In the Ph.D. projects this determinant will be investigated with a view both to its explanatory potential and its limitations. The envisaged research combines quantitative approaches to language with cognitivist-psycholinguistic approaches and is empirically based on experimental and corpus data for standard and non-standard varieties of different languages.

We offer a high-profile research environment, an interdisciplinary teaching programme, a full grant of 13,200 EUR per annum for a period of up to 3 years, and additional grants covering travel and research expenses.

Web address for applications:

<http://frequenz.uni-freiburg.de/announcement-scholarships2012&language>

**Application Address:**

Monika Schulz  
 Graduiertenkolleg DFG 1624/1 "Frequenzeffekte in der Sprache"  
 Albert-Ludwigs-Universität Freiburg  
 D-79104, Freiburg  
 Germany

**Contact Information:**

## Alelo TLT, LLC

### Computational Linguistics; Scientist:

#### Alelo TLT, LLC

<http://linguistlist.org/issues/22/22-3938.html>

Rank: Scientist

Posted on: 07-Oct-2011

Deadline: Until Filled

Ling Field(s): Computational Linguistics

Language(s):

Employer: Alelo TLT, LLC

Department: Science

#### Job Description

Alelo develops interactive computer-based products for learning foreign languages and intercultural skills. Our mission is to help people overcome communication barriers due to language and cultural differences. Learners practice their communicative skills in simulated conversations with animated characters, using spoken language and patented multimodal communication technologies. Courses are delivered as multi-player games, via the Web, and on mobile devices. Please visit us at our website address linked above. We are recruiting a Speech Technologist to take full-time responsibility for our Automatic Speech Recognition technology.

Your responsibilities will be:

- Improve and maintain Alelo's ASR runtime (outward-facing ASR capabilities)
- Develop the runtime (Java applet, C code, and Julius integration)
- Maintain browser compatibility
- Implement and maintain build systems for these

- Develop methods for analyzing learner speech fluency and accuracy

- Implement improved exposure of the underlying ASR capability to our products (e.g. to other runtimes)

- Maintain and develop the ASR pipeline (inward-facing ASR capabilities)

- Create Acoustic models (manage/collect data, train, benchmark, augment)

- Manage and improve the acoustic and language modeling pipelines

- Maintain and apply current knowledge of the state of the art in ASR approaches

Your experience must be:

- MSc or higher in Computer Science or related field

- 3+ years experience in industry software development

--OR--

- BSc or higher in Computer Science or related field with

- 5+ years experience in industry software development

You must have:

- Competence with UNIX OS and scripting languages: bash/tcsh/perl/python

- Excellent knowledge of C/C++

- Excellent knowledge of ASR algorithms and at least one ASR toolkit (e.g. Julius, Sphinx, Nuance)

- Strong computer science fundamentals and software engineering best practices

- Strong organization and communication skills

You should have:

- Sufficient expertise and maturity to take a leadership role on speech technology problems

- Ability to set priorities and communicate them to others, within and across teams

- Ability to communicate with customers and Alelo-external collaborators
- Ability to work toward well-engineered solutions, not just proof-of-concept prototypes
- Motivation to work on the kinds of interesting and challenging problems that Alelo takes on
- Interest in language learning and/or underresourced languages is a definite plus

#### Details:

This is a full time position. We offer a comprehensive benefits package that includes health/dental insurance, 401k, vacation time, sick time, and paid holidays.

Please visit the application URL below to apply. No phone calls or recruiters please.

## Appen Butler Hill

Thai; Comp Ling; Phonetics:

### Computational Phonetician, Appen Butler Hill

<http://linguistlist.org/issues/23/23-1312.html>

Rank: Consultant, Thai Computational  
Phonetician

Posted on: 14-Mar-2012

Deadline: Until Filled

Ling Field(s): Computational Linguistics  
Phonetics

Language(s): Thai

Employer: Appen Butler Hill

Department:

#### Job Description

Appen Butler Hill is currently looking for a Thai Computational Phonetician for an upcoming project. The consultant will work remotely for approximately 4 hours per week with occasional peaks of 20 with reasonable advance notice. The contract is expected to begin soon, and last until 12/31/12. Requirements:

- Highly skilled in Computational Linguistics or Phonetics (Master's or PhD), preferably Computational Linguistics.

- Experience in development of language assets of Speech Recognition and Text-To-Speech technologies.

- Familiar with running command-line tools and higher-than-average computer literacy (ability to use scripting language, such as Perl or Python, is a plus.)

- Availability of at least 4 hours per week with occasional peaks of 20 hours per week or more (with reasonable advance notice).

Preferred Skills (Degrees, Skills and Abilities):

- Knowledge of a third language is important.

- Some basic programming and understanding of at least one programming language, e.g. PERL, Python or C#.

- Knowledge of regular expression (RegEx) use.

- Experience using Visual Studio.

- Creation of Text Normalization (TN) and Inverse Text Normalization (ITN) rules.

- Run simple scripts and work with command-line-based tools.

- Analyze test results and propose solutions.

- Bug management with Product Studio.

Summary of Experience:

- Completed MA or PhD in Computational Linguistics or Phonetics

- Fluent in spoken and written English.

- Experience in language technology, particularly in Speech Processing - either in academia or industry.

- Knowledge of XML structures.

- Experience with bug management and the software release lifecycle.

- Experience with command-line interfaces.

- Knowledge of the International Phonetic Alphabet.

How to Apply:

Please see the application URL below.

## Appen Butler Hill

### French; Syntax: Linguists/Syntacticians, Appen Butler Hill

<http://linguistlist.org/issues/23/23-672.html>

Rank: Linguists/Syntacticians  
 Posted on: 07-Feb-2012  
 Deadline: 28-Feb-2012  
 Ling Field(s): Syntax  
 Language(s): French  
 Employer: Appen Butler Hill  
 Department:

#### Job Description

Appen Butler Hill is seeking French (France) linguists/syntacticians to help improve the syntax parsers for a leading global IT company. Main responsibilities include reviewing and annotating the language data according to specified dependency rules and refining the tag set. The successful candidate has a background in Theoretical Linguistics with emphasis on syntactic and semantic analysis. Previous experience in interpreting semantic and syntactic representations and familiarity with Dependency Grammars is a big plus.

The project will start as early as the middle/end of February 2012 and will continue for 3-4 months with possibility of extension. All work is done remotely; average time commitment will be approximately 20-30 hours per week.

#### Required Skills:

- B.A. degree or higher in Computational Linguistics, Linguistics or related field
- Native or near-native knowledge of written French
- Excellent written communication skills in English
- Strong background in syntax and grammar engineering
- Ability to quickly understand new linguistic technologies and client/project needs
- Strong analytical and problem-solving skills
- Demonstrated organizational skills with attention to

detail

#### Additional Information:

The project requires excellent English reading, writing and communication skills. Strong computer skills in a Windows environment and greater than average comfort with software and technology are expected. You will be required to sign a legally binding non-disclosure agreement at the time of contract negotiation.

#### Compensation:

We offer a competitive, hourly pay rate DOE (to be paid as 1099 self-employment income).

## Appen Butler Hill

### Phonetics: Croatian Linguist/Phonetician, Appen Butler Hill

<http://linguistlist.org/issues/23/23-1063.html>

Rank: Croatian Linguist/Phonetician  
 Posted on: 01-Mar-2012  
 Deadline: 15-Mar-2012  
 Ling Field(s): Phonetics  
 Language(s): Croatian  
 Employer: Appen Butler Hill  
 Department:

#### Job Description

Appen Butler Hill is currently looking for a Croatian Linguist/Phonetician for an immediate opening. Ideal candidates should have a great attention to detail, possibly experienced as a teacher, and be highly motivated in a fast pace environment.

Time requirements are as follows:

- Commitment of 15 hours/week required through May 15
- 10 hours through June 30
- 5 hours after July 1st

(Preference is some availability every day in order to check email and respond to client requests twice a day)

Position Requirements:

- Croatian linguist with experience in phonetic transcription
- Native Croatian language skills
- Linguistic degree (BA) with expertise in Phonetics

Preferred Skills (Degrees, Skills and Abilities):

- Experience with phonetic description desired

Tasks:

- Review and correct the input/output of the tokenizer
- Review and correct the input/output of the formatter
- Review and correct word prons
- Review and lexicalize out of vocabulary words
- Review, correct and add spoken forms to word names
- Serve as language expert for research
- Review and clean up lexicon-origin attributes
- Phonetic transcription

Additional Information:

Projects require excellent English reading, writing and communication skills. Strong computer skills in a Windows environment and greater than average comfort with software and technology are expected. US residents must have US work authorization (US citizen or permanent resident). Unfortunately, Appen Butler Hill

cannot sponsor employment visas at this time. You will be required to sign a legally binding non-disclosure agreement at the time of contract negotiation.

This is a contract position.

Compensation:

We offer a competitive, hourly pay rate DOE (to be paid as 1099 self-employment income).

## Appen Butler Hill Mandarin Chinese: Software Tester/Linguist, Appen Butler Hill

<http://linguistlist.org/issues/23/23-622.html>

Rank: Software Tester/Linguist

Posted on: 06-Feb-2012

Deadline: 28-Feb-2012

Ling Field(s): General Linguistics  
Software Testing

Language(s): Chinese, Mandarin

Employer: Appen Butler Hill

Department:

### Job Description

Appen Butler Hill is currently looking for a US based Chinese

Traditional/Chinese Simplified Software Tester/Linguist for an immediate project. The consultant will work remotely for approximately 20 hours per week until the end of 2012.

The Software Tester/Linguist is responsible for reviewing the quality of localized software, documentation, and training content through linguistic testing, across multiple projects and will work with Localization Project Managers, external vendors, software development, and product

management to design, develop, deliver, and maintain high-quality localized products.

**Key Responsibilities:**

- Testing products, documentation, and training prior to release

- Owning, seeking feedback on, and resolving language-related issues

- Creating language-specific test cases

- Auditing vendor deliverables

- Managing terminology and translation memory

- Developing and maintaining translation style guide

**Required Skills:**

- Degree in Linguists, Computer Science, or other related field

- Very strong attention to detail

- Experience with software testing

- Experience translating or reviewing products, documentation, or training content

- Solid knowledge of software development practices

- Exceptional communication abilities and interpersonal skills

- Proven ability to lead and influence others across multiple teams
  - Proactive person who takes initiative and suggests improvements
  - Desire to work in a dynamic, fast-paced environment
  - Native speaker
- Preferred Skills:
- Experience in international business
  - Experience with translation memory and translation memory management
  - Knowledge of translations tools such as Trados or SDLx
  - Experience with software translation tools such as Passolo or Catalyst

## Appen Butler Hill Spanish; Syntax: Linguists/Syntacticians, Appen Butler Hill

<http://linguistlist.org/issues/23/23-835.html>

Rank: Linguists/Syntacticians

Posted on: 17-Feb-2012

Deadline: 15-Mar-2012

Ling Field(s): Syntax

Language(s): Spanish

Employer: Appen Butler Hill

Department:

### Job Description

Appen Butler Hill is seeking Spanish (Spain) linguists/syntacticians to help improve the syntax parsers for a leading global IT company. Main responsibilities include reviewing and annotating the language data according to specified dependency rules and refining the tag set. The successful candidate has a background in Theoretical Linguistics with emphasis on syntactic and semantic analysis. Previous experience in interpreting semantic and syntactic representations and familiarity with Dependency Grammars is a big plus.

The project will start as early as the middle/end of February 2012 and will continue for 3-4 months with possibility of extension. All work is done remotely; average time commitment will be approximately 20-30 hours per week. Required Skills:

- B.A. degree or higher in Computational Linguistics, Linguistics or related field

- Native or near-native knowledge of written Spanish (Spain)

- Excellent written communication skills in English

- Strong background in syntax and grammar engineering

- Ability to quickly understand new linguistic technologies and client/project needs

- Strong analytical and problem-solving skills

- Demonstrated organizational skills with attention to detail

**Additional Information:**

The project requires excellent English reading, writing and communication skills. Strong computer skills in a Windows environment and greater than average comfort with software and technology are expected. You will be required to sign a legally binding non-disclosure agreement at the time of contract negotiation.

**Compensation:**

We offer a competitive, hourly pay rate DOE (to be paid as 1099 self-employment income).

**How to Apply:**

## Aptima, Inc.

English; NLP; Statistical Modeling:

Scientist, Aptima, Inc.

<http://linguistlist.org/issues/23/23-301.html>

Rank: Scientist  
Posted on: 16-Jan-2012  
Deadline: Until Filled  
Ling Field(s): Applied Linguistics  
Computational Linguistics  
Cognitive Science  
Natural Language Processing;  
Statistical Modeling  
Language(s): English  
Employer: Aptima, Inc.  
Department: Analytics, Modeling & Simulation

Job Description

Human Language Technologies Scientist/Engineer

Boston; DC; Dayton

Aptima currently has openings for passionate, creative Scientist/Engineers interested in working on a variety of applied projects related to topics such as Statistical Modeling, Human Language Technologies, Natural

Language Processing (NLP), Machine Learning, and Computational Linguistics. Most of our work with these technologies involves applying existing methods and integrating them with other capabilities to address particular customer problems or evaluating the use of such methods for such problems. The ideal candidate will possess strong skills in problem analysis, mathematical formulation, algorithm development, model implementation and analysis.

Minimum Requirements:

- Ph.D. or Masters degree in Computational Linguistics, Applied Mathematics, Computer Science, Cognitive Science, or a related field; Suitable applicants may range from recent masters graduates through established mid-career professionals; expectations, responsibilities, and compensation will be commensurate with experience

- Understanding of underlying theories and at least 2 years of experience developing and implementing solutions using several of the following approaches:

\* Statistical NLP techniques (Latent Semantic Analysis, Latent Dirichlet Allocation, or other topic modeling techniques)

\* Machine learning techniques (supervised, unsupervised, semi-supervised)

\* Clustering, classification, or regression analyses (support vector machines, Bayesian classifiers, Kernel methods, Hidden Markov models) \* Communication and network analyses (social network analysis, epidemiological modeling)

\* Non-parametric learning techniques

\* Information extraction and retrieval

\* Cognitive modeling

\* Application and evaluation of technologies that utilize NLP technologies (GATE, WEKA, etc.)

- Experience implementing complex algorithms and models in Java or C#

- Journal and/or other refereed publications

- Experience writing technical reports and/or proposals

- U.S. Citizenship

- Active security clearance preferred; must be able to obtain Secret security clearance

- Ability and willingness to travel

The ideal candidate will also have experience/interest in at least three of the following:

- Knowledge of basic software/data design methods, data structures, and modeling standards
- Experience collaborating with software engineers, mathematicians, and intelligence analysts
- Experience in project management, business development, and/or proposal writing
- Experience in database development and application (SQL Server, MySQL, etc.)
- Experience in creating high performance/scalable/distributed applications

Aptima will compensate applicants for any travel or relocation expenses to fill this position. All applicants must be willing to work onsite in one of Aptima's office locations, Monday through Friday (no telecommuting or compressed schedules). Qualified candidates should submit a cover letter, resume/vita, and publications list to the application email address below. All applicants selected will be subject to a government security investigation and must meet eligibility requirements for access to classified information.

Affirmative Action Equal Opportunity Employer M/F, Vets/Disabled

## Arizona State University German; Applied Linguistics: Assistant Professor, Arizona State U

<http://linguistlist.org/issues/23/23-44.html>

Rank: Assistant Professor  
Posted on: 03-Jan-2012  
Deadline: Until Filled  
Ling Field(s): Applied Linguistics  
Language(s): German  
Employer: Arizona State University  
Department: School of International Letters and Cultures

#### Job Description

The School of International Letters & Cultures at Arizona State University invites applications for a tenure-track, Assistant Professor in German. The appointment starts August 16, 2012.

Responsibilities will include:

- Teaching German language and linguistics courses within SILC
- Conducting and publishing scholarly research in the field of German Applied Linguistics/Second Language Acquisition
- Supervising/training graduate student teaching assistants
- Assisting with the coordination of the first- and second-year German language curriculum

Candidates must possess:

- A Ph.D at the time of application
- Near-native or native proficiency in German
- Demonstrated knowledge in the field of applied linguistics and expertise in Second Language Acquisition with a special focus on German
- Experience teaching German at the university level
- Ability to integrate new media and technologies across the German language curriculum
- Knowledge of techniques and methodologies within second language acquisition

Desired: Experience in training and supervision of graduate teaching assistants, as well as experience developing and teaching online courses.

To be considered applicants must follow these submission procedures: Send the following via regular postal mail to the application address below:

- Letter of application that includes a statement of teaching philosophy and discusses research interests
- Full curriculum vitae

- Three current (within last year) letters of recommendation addressing research, teaching, and coordinating abilities

ALSO, please send the following via electronic submission to the application email address below:

- Letter of application
- Full curriculum vitae

Application deadline is 02/06/2012. Review of applications will begin immediately and continue weekly until the search is closed. A background check is required for employment. Arizona State University is an affirmative action, equal opportunity employer committed to excellence through diversity. Women and minorities are encouraged to apply.

## Ashwin-Ushas Corporation

General Ling or Phonology:

Editorial/Promotional Asst,

Ashwin-Ushas Corporation

<http://linguistlist.org/issues/23/23-1169.html>

Rank: Editorial/Promotional Assistant

Posted on: 07-Mar-2012

Deadline: Until Filled

Ling Field(s): General Linguistics  
Phonology

Language(s):

Employer: Ashwin-Ushas Corporation

Department:

#### Job Description

The editorial/promotional assistant will assist in editing, promotion and marketing of two works in the field of phonology and phonemic

classification. This position requires a background in linguistics or phonology. Experience and/or familiarity with publicity or promotion is a plus but not required.

This is a part-time position with entirely flexible hours. Anticipated hours may range from as little as 6 hours per week to as much as 25 hours per week. The candidate can work from home as desired. Ideal 'pocket-money' for a graduate or senior undergraduate student.

The proposed pay rate is US\$60 to US\$80 per hour, depending on

qualifications and commitment.

Apply to HRO at the application email below. Include a CV either within body of the email or as an attachment. We are physically located in Marlboro, New Jersey 07746, USA. Persons applying from within a 100-mile radius to this location may be given preference due to the possible convenience of periodic personal meetings; however, this is not a requirement, and the work can be done via email/phone contact from a distance. No phone calls, please.

## Attensity

English; General Linguistics: Knowledge  
Engineer, Attensity

<http://linguistlist.org/issues/23/23-1610.html>

Rank: Knowledge Engineer

Posted on: 29-Mar-2012

Deadline: Until Filled

Ling Field(s): General Linguistics

Language(s): English

Employer: Attensity

Department:

## Job Description

Attensity helps the world's leading brands leverage customer conversations as a business asset. Using Attensity's integrated suite of customer analytics and response applications, organizations can tap the wealth of data stored in both internal and online sources, and use that information to improve the customer experience with their brands. Attensity's award-winning Customer Experience Management (CEM) solutions are built on a massively scalable text analytics platform that enables organizations to listen, analyze, relate and act on customer conversations, no matter where they take place. Requirements of the Position:

- Work closely with Attensity Business Analysts and customers to identify and map business processes to Knowledge Engineering and Text

### Aggregation rules

- Use internal tools to build and maintain a linguistic knowledge base, which can be used to perform linguistic extractions

- Create and maintain lists of objects, including: dictionaries, entity rules, typos and phrases

- Develop text analysis expertise and contribute to Attensity's Center of Excellence (COE)

- Leverage expertise to provide consultation and best practice advise

- Assist in the development of best practices and tool kits

### Qualifications:

- Successful candidates will possess significant knowledge of the workings of the English language, including grammar, parts of speech, morphology, syntax and semantics

- Linguistics training (minimum 1 year in syntax and semantics) preferred Skills:

- Excellent communication skills, both verbal and written

- Advanced Microsoft Excel knowledge

- Highly organized and motivated

### Pluses:

- Computational Linguistics experience

- Experience developing ontologies or information hierarchies

### Education:

- BA degree in Linguistics, English, or Computational Linguistics, or a BS degree in Computer Science with experience in NLP, computational linguistics, ESL, or foreign languages

## Bangor University

### English; Cognitive Linguistics or Bilingualism: Asst/Assoc Prof, Bangor U

<http://linguistlist.org/issues/23/23-1269.html>

Rank: Asst/Assoc Professor  
Posted on: 12-Mar-2012  
Deadline: 05-Apr-2012  
Ling Field(s): Cognitive Science  
Bilingualism  
Language(s): English  
Employer: Bangor University  
Department: School of Linguistics and English Language

### Job Description

Department: College of Arts and Humanities, School of Linguistics and English Language

Post Title: Lecturer in Cognitive Linguistics, or Bilingualism

Salary: Grade 7 or 8: £30,122 - £44,156 p.a.

As part of an exciting expansion of the School of Linguistics & English Language, applications are now invited for a permanent lecturer in either Cognitive Linguistics or Bilingualism. Outstanding applicants are sought who will have an emerging or established research programme in either (or both) of these areas, and have evidence of producing, or the potential to produce research outputs that are judged to be internationally excellent. Candidates will be able to contribute to a wide range of undergraduate teaching in Linguistics, and English Language Studies, as well as more specialist topics in one or more of the School's MA and MSc programmes, especially in the areas of Cognitive Linguistics, or Bilingualism. The ability to offer undergraduate teaching in the areas of language and society, discourse and variation, sociolinguistics, and teaching English as a foreign language may be an advantage. Information on Linguistics & English Language, including its staff and their research interests can be found at <http://www.bangor.ac.uk/linguistics/>

Salary will be on the appropriate grade dependant on experience. This post is tenable from 1st September 2012.

Closing date for applications: 1.00 p.m. Thursday 5th April 2012. Interviews will take place on Wednesday 9th May 2012.

Committed To Equal Opportunities

## Bangor University

### Spanish; CHAT/CLAN; Transcription: Consultant, Bangor University

<http://linguistlist.org/issues/23/23-584.html>

Rank: Consultant  
Posted on: 03-Feb-2012  
Deadline: 20-Feb-2012  
Ling Field(s): CHAT/CLAN; Transcription  
Language(s): Spanish  
Employer: Bangor University  
Department: ESRC Centre for Research on Bilingualism

Job Description

Help required from Spanish-speaking users of CHAT/CLAN. This is a request for short-term help from competent users of CLAN/CHAT in completing a transcription project.

At the ESRC Centre for Research on Bilingualism in Bangor, U.K. we are currently doing final pre-publication work on a Welsh-Spanish corpus of spoken conversations from Patagonia and an English-Spanish corpus from Miami. Both will be available under a free license (the GPL).

Some of our team who were working on the corpora have moved on in the last couple of months to other jobs, so there are a few areas where external input would help us to achieve our target publication dates in the next couple of months. The transcription of the corpora follows the conventions of the well-known CHAT/CLAN system (<http://childes.psy.cmu.edu/clan>), and the transcriptions will be presented with the spoken text, a part-of-speech layer, and an English translation of non-English text.

We are seeking input from anyone who is fluent in Spanish, and who is also familiar with the CHAT/CLAN system, to help us with checking the accuracy of some of the Spanish transcriptions. The task would be to listen to the audio file while following the draft transcription and correcting any errors. Payment (£14 per hour) would be made in arrears on presentation of an invoice to the ESRC Centre.

Collaborators will be named in the headers of the published files, and on the website (<http://bangortalk.org.uk/collaborators.php>). Applications to include a CV sent to [bilingualism@bangor.ac.uk](mailto:bilingualism@bangor.ac.uk) as soon as possible with a brief statement regarding candidates' competence in Spanish and their experience using CHAT and CLAN, plus the names and contact details of two referees.

Language(s):  
Employer: BCL Technologies  
Department:

## Job Description

\*Please note that this job is available in either Santa Clara, CA or Kuala Lumpur, Malaysia

We are looking for an enthusiastic, creative, and skilled Computational Linguist/NLP software engineer to develop software in IR-related technology. In this role you will write programs, for example, to extract named entities - date - value triples from well-formed written English text. You should have very strong programming skills (C/C++, C#, and/or Java) with knowledge of relevant linguistic theories and familiarity with current state-of-the-art tools. Desired experience and qualifications are:

- Four-year college degree or equivalent, preferably in Computer Science or Computer Engineering

- Must be able to write excellent code in C/C++, C#, and/or Java; STL, ASP.NET, Windows API, .NET framework, COM, Design Pattern, and Algorithm

- 3 years+ programming experience

- Experience in building production quality software, and understanding of full cycle

- Deep knowledge of Windows Operating system and its applications

- XML and HTML experience will be a plus

- Excellent English verbal and written communication skills

- Attention to detail is extremely important

BCL Technologies is a leader in document management solutions and professional services, serving Global 1000 clients such GE, Adobe, Johnson & Johnson, IBM and Intel, since 1994.

Please visit our website listed above for more information.

## Brandeis University Chinese; Syntax; Lexical Semantics; NLP: Post Doc, Brandeis U

<http://linguistlist.org/issues/22/22-3960.html>

Rank: Post Doc  
Posted on: 10-Oct-2011  
Deadline: Until Filled  
Ling Field(s): Computational Linguistics  
Syntax  
Lexical Semantics; Natural  
Language Processing  
Language(s): Chinese, Mandarin  
Employer: Brandeis University  
Department: Computer Science Department

## Job Description

Applications are invited for postdoc/research associate positions in the Department of Computer Science at Brandeis University to work on a large-scale Chinese language processing project funded by the U.S. government. The postdoc/research associate is expected to conduct research in Chinese language processing, and/or performing syntactic and semantic analysis on large-scale Chinese language data sets in a variety of genres. We are looking for either theoretical linguists who have a strong interest in computer processing of natural languages and have acquired significant programming skills, or computational linguists who are interested in fundamental natural language processing problems such as sentence boundary detection, word segmentation, part-of-speech tagging, syntactic parsing and semantic role labeling.

## Qualifications:

- Ph.D. or M.A. in computational or theoretical linguistics, especially in syntax and lexical semantics

- Native or near-native level of proficiency in Mandarin Chinese. Expertise in Chinese syntax and lexical semantics is especially valuable

- Project management skills and able to supervise a small team of annotators.

- Programming skills in Python, Perl and/or Java

- Comfortable working with Unix/Linux platforms

Applications including a CV and the contact information of three references should be sent via email to Prof. Nianwen Xue, Department of Computer Science, Brandeis University.

## Brock University

### Applied Ling; General Ling: Assistant Professor/Lecturer, Brock U

<http://linguistlist.org/issues/23/23-1097.html>

Rank: Lecturer, Assistant Professor/Lecturer  
Posted on: 03-Mar-2012  
Deadline: Until Filled  
Ling Field(s): Applied Linguistics  
General Linguistics  
Language(s): None  
Employer: Brock University  
Department: Applied Linguistics

#### Job Description

The Department of Applied Linguistics at Brock University invites applications for a 12-month Instructional Limited-Term Appointment in Applied Linguistics at the rank of Lecturer or Assistant Professor starting July 1st 2012.

Applicants must have a PhD in Linguistics or a closely related field in hand or near completion, with course work and/or thesis concentration in the areas of the designated courses. Applicants must also have teaching experience in the context of a university-level linguistics (or closely similar) program, as instructor responsible for all aspects of one or more courses. Because some courses to be taught under this contract are part of a program for TESL

Ontario Adult ESL Certification, applicants must hold or be eligible to obtain TESL Ontario TESL Trainer Accreditation at least for Theory.

The courses to be taught include eight single-term assignments, which we anticipate will be balanced four/four over the autumn and winter terms: LING 1F94 (Introduction to General Linguistics: 2nd half of a two-term course), LING1P92 (Introduction to the Psychology of Language), LING2P50 (Phonetics), LING2P53 (Phonology), LING3P61 (Child Language Acquisition: Early Stages), LING3P71 (Syntax), LING3P94 (Semantics and Pragmatics), and LING3P95 (Discourse Analysis).

The Department of Applied Linguistics at Brock has eleven permanent faculty members plus one limited term appointment, and has a vibrant undergraduate program and an M.A. program.

Review of applications will commence on April 25, 2012 and will continue until the position is filled. Applicants should submit a letter of application accompanied by a curriculum vitae and evidence of teaching competence, and should arrange for the submission of three letters of reference. All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.

The position is subject to final budgetary approval. Applications should be sent to the application address or email address below. Electronic submissions are acceptable.

Brock University is actively committed to diversity and the principles of Employment Equity and invites applications from all qualified candidates. Women, Aboriginal peoples, members of visible minorities, and people with disabilities are especially encouraged to apply and to voluntarily self identify as a member of a designated group as part of their application. Candidates who wish to have their application considered as a member of one or more designated groups should fill out the Self-Identification Form available at [http://www.brocku.ca/webfm\\_send/1095](http://www.brocku.ca/webfm_send/1095) and include the completed form with their application.

More information about Brock University can be found on the university's website (<http://www.brocku.ca>); information about the Department of Applied Linguistics

can be found on the department's website

(<http://www.brocku.ca/humanities/departments-and-centres/applied-linguistics>).

## Carnegie Mellon University Syntax; Treebanking: Post Doc, Carnegie Mellon University

<http://linguistlist.org/issues/23/23-29.html>

Rank: Post Doc  
Posted on: 29-Dec-2011  
Deadline: Until Filled  
Ling Field(s): Syntax  
Treebanking  
Language(s):  
Employer: Carnegie Mellon University  
Department: Language Technologies Institute

#### Job Description

We are seeking a post-doctoral researcher for a tree-banking project. The job will involve converting existing treebanks into a standard format for dependency treebanks. The post-doctoral researcher will formulate guidelines related to headedness; identify structures in existing treebanks that are not consistent with the headedness guidelines; and formulate rules that will convert those structures into the new standard format. Ideal qualifications:

- Ph.D. in linguistics, specializing in syntactic theory

- Expertise one or more of these sub-areas: grammatical relations, dependency grammar, construction grammar, typology, transitivity alternations, auxiliary verbs, light

verbs, structure of NP and DP, theories of headedness with respect to lexical (open class) and functional (closed class) categories

- Knowledge of one or more of these languages: Arabic, French, German, Hindi, Japanese, Korean, Spanish

- Experience with rule writing, grammar formalisms, or computer programming

- Experience in industry or funded academic projects with timelines The salary is \$36,000 (USD) plus benefits. The candidate must spend twelve full months on the project. The candidate will work at the Language Technologies Institute at Carnegie Mellon University (Pittsburgh, PA, USA), although this is joint work with Columbia University.

To apply, email a CV and names and contact information for three references to Lori Levin (email address below), with the subject header 'Postdoc Application'. There will be further instructions on how to submit an official application to CMU.

There is no specific deadline for application, but we expect to make a decision by the end of January.

Lori Levin will be available to meet with candidates at the annual meeting of the LSA in Portland.

### Job Description

English (Linguistics/TESOL): Assistant Professor  
[#C12-071]

Central Connecticut State University invites applications for a full-time tenure-track Assistant Professor in the Linguistics and TESOL program within the English Department.

Required Qualifications: Ph.D. in Linguistics, Applied Linguistics, Second Language Acquisition, or TESOL; record of theoretically grounded research in applied linguistics or TESOL; commitment to serving culturally, ethnically, and linguistically diverse communities.

Preferred Qualifications: Experience in both teaching ESL/EFL and training or supervising novice teachers of ESL/EFL; experience in or knowledge of L2 writing methods, content-based methods, and/or L2 assessment; experience in or familiarity with TESOL in K-12 contexts; evidence of a solid foundation in theoretical linguistics, including syntax, phonology, and SLA theory. For full consideration, applications must be received by April 5, 2012. For job description and application instructions, go to the application URL below. For more information, contact Dr. Matthew Ciscel, TESOL Coordinator, Department of English, contact information below.

## Centre for General Linguistics (ZAS)

Lang Acq; Morphology; Phonetics;  
Semantics; Syntax: Researcher, Centre  
for General Linguistics (ZAS)

<http://linguistlist.org/issues/23/23-1622.html>

Rank: Researcher  
Posted on: 30-Mar-2012  
Deadline: 30-Apr-2012  
Ling Field(s): Morphology  
Phonetics  
Semantics  
Syntax  
Language Acquisition

Language(s):  
Employer: Centre for General Linguistics  
(ZAS)

Department:

### Job Description

The Centre for General Linguistics (ZAS) invites applications for up to three research positions in linguistics with a starting date between July 1st and October 1st 2012 subject to final availability of funding. Contracts can be extended maximally until December 31, 2013. The ZAS is a research institute of the State of Berlin receiving major financial support from the German Federal Government. Its five main divisions currently focus on the general research program 'Embedding, linkage and constituent boundaries in speech, grammar and discourse'. It offers in-house experimental facilities for phonetics and eye-tracking (Tobii T60). EEG and possibly other methods could be conveniently accessed through local collaborations.

Duties are primarily research-oriented, which can include some administration and acquisition of external funding. It is possible to teach at any university in the Berlin area.

The position is remunerated according to E13 of the German TVOeD pay scale. Applicants must have completed their Ph.D. by the time of appointment, and proven research experience and an active research agenda. Overall academic promise and accomplishment are the

primary selection criteria. Special consideration will be given to applicants whose research integrates well with the existing strengths of the ZAS and its core research program, and we specifically seek to strengthen the following four areas:

1) Phonetics/phonology: Applicants should have a background of experimental research guided by theoretical questions, with a focus on experimental prosody. The research proposal should include either acoustic or articulatory experiments related to prosodic constituents and/or experiments that include the manipulation of acoustic signals for the purpose of elucidating the role of prosody in meaning and

discourse structure.

2) Lexical aspects of clausal embedding: Applicants should have a strong background in lexical semantics and syntax and have native-like competence of German. In addition, applicants should have experience in dealing with MySQL-databases and German online corpora (e.g. DWDS, DeReKo). The research plan should concern the semantics of clause-embedding predicates in German (possibly in cross-linguistic perspective).

3) Language acquisition: Applicants should have a strong background in experimental research, specifically eye-tracking studies with children or adults. Research experience and plans should focus on the

acquisition of discourse coherence phenomena in grammar and/or pragmatics. Fluent competence in German is required though research on languages other than German is highly welcome.

4) Theoretical Syntax: Applicants should have a strong background in generative syntax and its interface to morphology and/or its interface to semantics. The research plan should concern phenomena in the

syntax of embedding and concatenation. Research that employs

experiments and/or corpora would be particularly

welcome.

Applications must be submitted via electronic mail and include the following four items: 1) a curriculum vitae including a complete list of publications; 2) electronic copies of three representative publications in pdf-format; 3) a letter of intent specifying research experience and plans in detail; 4) the names of at least two scholars to be contacted for letters of recommendation. Please name your documents along the following convention: zas2012-no. of position-last name-document content.pdf, e.g. zas2012-1-smith-cv.pdf

## Cepstral LLC

### Comp Ling: Speech Synthesis

### Researcher/Developer, Cepstral LLC

<http://linguistlist.org/issues/22/22-4308.html>

Rank: Speech Synthesis  
Researcher/Developer  
Posted on: 27-Oct-2011  
Deadline: Until Filled  
Ling Field(s): Computational Linguistics  
Natural Language Processing;  
Text-To-Speech

Language(s):  
Employer: Cepstral LLC  
Department:

## Job Description

Cepstral LLC is a global leader and innovator in Text-To-Speech (TTS). Cepstral is a successful 10-year old CMU spin-out whose computer speech technology makes desktop, server, and online applications talk. Cepstral is seeking an innovative member of our core technology team to work on the next generation of our core synthesis engine and its web delivery and client software. The successful candidate will be both a Researcher and Software Developer who is interested in speech technology, has experience in Natural Language Processing (NLP), Computational Linguistics, Digital Signal Processing, and/or web development. If you are sharp, innovative, and want to create in this space, we want to meet you.

The candidate will have a voice in company direction, development agenda and target markets. A chance to author and create in a funded, high energy environment. Board of Directors, client, and partner interaction and collaboration. Great Southside offices in a secure building.

### Requirements:

- Required: Advanced degree or equivalent experience in one or more of the following:

\* Speech Synthesis technology (Unit selection experience desirable) \* Natural Language Processing.

\* Computational Linguistics especially in the context of speech synthesis/recognition

- Required: High proficiency in C or C++ is a must.

- Highly desirable:

\* 3 to 5 years experience writing / maintaining software in a commercial setting.

\* Digital Signal Processing in the context of audio processing. \* Web tools development

\* Good communication skills, within the team and facing customers and partners.

\* Interest in product and Web/mobile delivery development.

- Desirable:

\* Knowledge of Java, Perl, Mac, Windows, Linux

\* 1 year experience in writing and debugging multi-threaded software. The job is located in Pittsburgh and is not a telecommuting position. Cepstral offers a compensation package which includes:

- Paid vacation and sick days
- Medical and Dental coverage
- 401 K
- Equity - Unit Option Plan

Candidates should e-mail resume to the application email address below. Be sure to reference the title, Speech Synthesis Researcher/Developer, in the subject line. Relevant degree or its foreign equivalent is required. See us on the web at the URL listed above and [www.voiceforge.com](http://www.voiceforge.com)

## City University of Hong Kong English Language and Literature: Asst Prof, City U of Hong Kong

<http://linguistlist.org/issues/22/22-4924.html>

Rank: Assistant Professor  
Posted on: 08-Dec-2011  
Deadline: Until Filled  
Ling Field(s): English Language and Literature  
Language(s): English  
Employer: City University of Hong Kong  
Department:

### Job Description

City University of Hong Kong is a dynamic, fast-growing university that is pursuing excellence in research and professional education. As a publicly-funded institution, the University is committed to nurturing and developing students' talent and creating applicable knowledge to support social and economic advancement. Currently, the University has six Colleges/Schools. Within the next two years, the University aims to recruit 100 more scholars from all over the world in various disciplines, including science, engineering, business, social sciences, humanities, law, creative media, energy, environment, and other strategic growth areas.

Applications are invited for:

Assistant Professor

Department of English [Ref. C/117/49]

The Department of English is a leading centre for English studies in the Asian region, and has an international reputation for its research on English language and literature. Faculty in the Department typically teach five courses a year, covering a wide range of subjects such as Asian Englishes, Asian literature in English, creative writing, discourse analysis, English for academic purposes, English in China, genre analysis, intercultural communication, pragmatics, second language acquisition, sociolinguistics, world Englishes, and world literature in English. Further information of the Department is available at <http://www.cityu.edu.hk/en/>.

Duties: Applications are invited from well-qualified candidates in any of the above specialisations. New faculty will be expected to teach on the first-year foundation course in 'Gateway English' (GE), in addition to their areas of specialisation. Currently, the GE English program includes courses on discipline-specific English (English for Business Communication, English for Science, and English for Engineering), British and American Literary and Cultural Studies, Creative Writing, Asian Literature in English, Travel Writing, Life Writing, Film, Theater/Drama and Popular Culture. In addition, faculty are expected to contribute significantly to the Department's research profile.

The post is a substantiation-track position. Applications from candidates interested in a Visiting Assistant Professor position, tenable for 2 years, are also welcome.

Requirements: A PhD in English Studies or a closely-related subject. Experience and background in teaching English to Asian students is desirable but not essential. An enthusiasm for research and publishing is, however, both expected and required.

Remuneration package will be driven by market competitiveness and individual performance. Excellent fringe benefits include gratuity, leave, medical and dental schemes, and relocation assistance (where applicable). Initial appointment will be made on a fixed-term contract.

For further information or queries about the post, please email Professor Rocio Davis at [rdavis@cityu.edu.hk](mailto:rdavis@cityu.edu.hk). Please send the application with a current curriculum vitae and names of three referees to the application address, email address, or fax number below. Applications and nominations received by 15 January 2012 will receive full consideration. The University reserves the right not to fill the position. Personal data provided by applicants will be used strictly in accordance with the University's personal data policies, a copy of which will be provided upon request.

City University of Hong Kong is an equal opportunity employer and we are committed to the principle of diversity. We encourage applications from all qualified candidates, especially those who will enhance the diversity of our staff.

## City University of Hong Kong Disciplinary Writing; English for Specific Purposes: Asst/Assoc Prof, City U of Hong Kong

<http://linguistlist.org/issues/23/23-1616.html>

Rank: Asst/Assoc Professor  
Posted on: 29-Mar-2012  
Deadline: 15-Apr-2012  
Ling Field(s): Applied Linguistics  
Disciplinary Writing; English for  
Specific Purposes  
Language(s): English  
Employer: City University of Hong Kong  
Department: Department of English

#### Job Description

City University of Hong Kong is a dynamic, fast-growing university that is pursuing excellence in research and professional education. As a publicly-funded institution, the University is committed to nurturing and developing students' talent and creating applicable knowledge to support social and economic advancement.

Applications are invited for:

Associate Professor/Assistant Professor

(Disciplinary Writing/English for Specific Purposes -  
Interdisciplinary Appointment)

Department of English [Ref. C/134/49]

Duties:

Assist in teaching, curriculum development and administration of programs in discipline-specific English for students in various schools and colleges across the University including the College of Science and Engineering, the College of Business, the College of Liberal Arts and Social Sciences, the School of Law, the School of Creative Media, and the School of Energy and Environment; conduct research related to fields such as disciplinary writing, English for Specific Purposes, and Rhetoric and Composition; and assist the Department in a variety of academic and administrative duties. The successful candidate will be offered a joint appointment with another academic unit of the

University. The post is a substantiation-track position.

Requirements:

A PhD in English Linguistics/Applied Linguistics/Rhetoric and

Composition/Business or Technical Communication or related

disciplines, with a strong and ambitious research agenda. Experience and background in teaching discipline-specific writing and

communication skills to ESL students is desirable.

Ideally, candidates should combine a knowledge of specific subject areas (engineering, science, business) with research interests in ESP/EAP and an interest in working from an interdisciplinary perspective.

Salary and Conditions of Service:

Remuneration package will be driven by market competitiveness and individual performance. Excellent fringe benefits include gratuity, leave, medical and dental schemes, and relocation assistance (where

applicable). Initial appointment will be made on a fixed-term contract. Information and Application:

For further information or queries about the post, please email Dr. Rodney Jones, email address below.

Please send the application with a current curriculum vitae to the application address below, by fax to (852) 2788 1154 or (852) 3442 0311, or by email to [hrojob@cityu.edu.hk](mailto:hrojob@cityu.edu.hk). Applications received by 15 April 2012 will receive full consideration. Applications received earlier will receive immediate attention. Shortlisted candidates for the post of Assistant Professor will be requested to arrange for at least 3 reference reports sent directly by their referees to the Department, specifying the position applied for. The University reserves the right not to fill the position. Personal data provided by applicants will be used strictly in accordance with the University's personal data policies, a copy of which will be provided upon request.

City University of Hong Kong is an equal opportunity employer and we are committed to the principle of diversity. We encourage applications from all qualified

candidates, especially those who will enhance the diversity of our staff.

City University of Hong Kong was ranked the 110th among the world's top universities and the 15th in Asia according to the Quacquarelli Symonds 2011 surveys.

## CNRS - Ecole Normale Supérieure Semantics; Pragmatics; Syntax/Semantics Interface: Post Doc, CNRS - Ecole Normale Supérieure

<http://linguistlist.org/issues/23/23-942.html>

Rank:	Post Doc
Posted on:	23-Feb-2012
Deadline:	Until Filled
Ling Field(s):	Pragmatics Semantics Syntax

Language(s):	
Employer:	CNRS - Ecole Normale Supérieure
Department:	Institut d'études de la cognition

### Job Description

Institut Jean-Nicod (CNRS, Paris) expects to offer a 1-year postdoctoral position in formal semantics to begin in September 2012 or relatively shortly thereafter (the applicant's PhD thesis should have been defended and filed by the starting date). The net salary will be of approximately 2,060 euros/month.

The postdoc's primary responsibility will be to conduct research in semantics/pragmatics or the syntax/semantics interface, within Institut Jean- Nicod's linguistics group (<http://lumiere.ens.fr/~lingmaster/sigma.htm>). The postdoc will also have small organizational and teaching responsibilities. Institut Jean-Nicod is a member of the Institut d'Etude de la Cognition at École Normale Supérieure, which also includes dynamic groups in psycholinguistics (LSCP) and philosophical logic (IHPST).

For full consideration, please send an application and arrange to have letters of reference sent by March 16th, 2012. All materials should be sent by e-mail to the application email address below (letters of reference may be sent in scanned form).

The file should include a CV, a very brief statement of research interests, a writing sample, as well as links to papers (or electronic versions thereof).

## Colorado State University English; Applied Linguistics: Assistant Professor, Colorado State University

<http://linguistlist.org/issues/23/23-1474.html>

Rank: Assistant Professor  
Posted on: 22-Mar-2012  
Deadline: 16-Apr-2012  
Ling Field(s): Applied Linguistics  
TESL/TEFL Language Assessment  
Language(s): English  
Employer: Colorado State University  
Department: English

### Job Description

Assistant Professor of English: Applied Linguistics/  
English as a Second/Foreign Language

Colorado State University

Nine-month, tenure-track appointment with a 2-2 course load to begin August 16, 2012.

### Required Qualifications:

- Ph.D. in Applied Linguistics or equivalent in hand at time of appointment
- Evidence of scholarly potential in Applied Linguistics
- Demonstrated expertise in language assessment
- Native or near-native English skills

### Preferred Qualifications:

- Ability to help plan and deliver professional development on language assessment to CSU faculty working with international students to ensure the students' academic success
  - Evidence of scholarly agenda with quantitative and qualitative empirical research in applied linguistics
  - Demonstrated record of professional activity in TESL/TEFL or Applied Linguistics
  - Record of effective college teaching at the undergraduate and graduate level
  - Experience in mentoring or working with students of diverse backgrounds
- To Apply:

Send letter of interest, current curriculum vitae, a statement of teaching philosophy, graduate transcripts, and evidence of teaching effectiveness. Also include evidence of scholarship and professional development, and three letters of recommendation to application address below.

Applications will be considered until the position is filled; however, for full consideration, applications must be postmarked by April 16, 2012. Routine inquiries and electronic applications to be directed to Sue Russell at the contact information below.

For a complete position description, visit the department web site at the application URL below.

CSU is an EO/EA/AA employer. Colorado State University conducts background checks on all final candidates.

## Concordia University Montreal Standard Arabic; Semitic Langs; Applied Ling: Lecturer, Concordia U Montreal

<http://linguistlist.org/issues/23/23-1504.html>

Rank: Lecturer  
 Posted on: 25-Mar-2012  
 Deadline: 01-May-2012  
 Ling Field(s): Applied Linguistics  
 Semitic Languages  
 Language(s): Arabic, Standard  
 Employer: Concordia University Montreal  
 Department: Classics, Modern Languages &  
 Linguistics

#### Job Description

The Department of Classics, Modern Languages and Linguistics invites applications for one extended-term appointment in Modern Semitic Languages. Applicants must have a PhD or ABD status in Arabic Studies, Arabic Linguistics, or a closely related field, with the proven ability to teach and/or supervise courses in modern Semitic languages. The ideal candidate will have previous experience in successful language coordination, and competency in Modern Arabic and at least one other Semitic language. The successful candidate will support the revision of the curriculum; help address the shortage of highly specialized FT and PT faculty in the area of current language teaching methodology; present and discuss relevant literature and contemporary cultural issues; and supervise PT faculty and support them in their pedagogical planning and execution.

Applications should consist of a cover letter, a current curriculum vitae, a statement of teaching philosophy/interests, and evidence of teaching effectiveness. Candidates should arrange for three letters of reference to be sent directly to the application address or email address below (electronic applications preferred).

This position is subject to budgetary approval and need, and is full-time, normally at the rank of Lecturer beginning July 1, 2012. Under the provisions of the current CUFA Collective Agreement, individuals are initially appointed for a three-year period with the possibility of re-appointment in accordance with article 12.04 d.

All inquiries about the position should be directed to Dr. Nelson, email address below. Review of applications will begin as they are received and will continue until the required position has been filled. All applications should reach departments no later than May 1, 2012. For additional information, please visit our Website at: <http://artsandscience.concordia.ca> All qualified candidates are encouraged to apply; however, Canadian citizens and permanent residents of Canada will be given priority. Concordia University is committed to employment equity.

**CUNY Graduate Center  
Spanish; English; Literacy: Research  
Assistant, CUNY Grad Center**

<http://linguistlist.org/issues/22/22-4627.html>

Rank: Research Assistant  
Posted on: 17-Nov-2011  
Deadline: Until Filled  
Ling Field(s): Language Acquisition  
Reading and Literacy  
Language(s): English  
Spanish  
Employer: CUNY Graduate Center  
Department: Linguistics

**Job Description**

\* This position has been filled.

**Research Assistants Needed**

RISLUS and the Second Language Acquisition Lab at CUNY Graduate Center are seeking RAs for a Language Assessment project.

The project focuses on the creation of a computer-adaptive literacy assessment for Students with Interrupted Formal Education (SIFE). We are seeking RAs interested in the study of bilingual literacy, low-literacy adolescents and adults, reading research, assessment, and evaluation. Your principal responsibility will be designing test items for an item bank. This includes researching reading levels, finding and possibly adapting culturally and linguistically appropriate materials, and collaborating with other RAs

on the task.

As an RA you will:

- Have taken courses in reading development, language acquisition, or bilingual education

- Be interested in the development of literacy

- Be aware of the challenges SIFE students encounter in the public school system

Priority will be given to Native Spanish Speakers.

**Hours and Compensation:**

The position will be for up to 19 hours per week (negotiable) for a period of 32 weeks at a rate of \$20 per hour (\$12,160 total).

**Start Date:**

As soon as possible. Must be available during the month of January. To Apply:

Please contact Dr. Gita Martohardjono and Shannon Webb with your C.V. at the following addresses: GMartohardjono@gc.cuny.edu,

SWebb@gc.cuny.edu

**Contact Information:**

Shannon Webb

**CUNY Hunter College  
Applied Linguistics; ESL: Asst/Assoc  
Prof, CUNY Hunter College**

<http://linguistlist.org/issues/23/23-392.html>

Rank: Asst/Assoc Professor  
Posted on: 23-Jan-2012  
Deadline: 17-Feb-2012  
Ling Field(s): Applied Linguistics  
General Linguistics  
ESL  
Language(s): English

Employer: CUNY Hunter College  
 Department: English

#### Job Description

Job ID: 5271

Full/Part Time: Full-Time

Regular/Temporary: Regular

FLSA: Exempt

#### General Duties:

Performs teaching, research, and guidance duties in area(s) of expertise as noted below. Shares responsibility for committee and department assignments, performing administrative, supervisory, and other functions as may be assigned.

#### Campus Specific Information:

The Department of English at Hunter College, City University of New York (CUNY) invites applications for the position of Assistant or Associate Professor in Applied Linguistics/ESL to begin in Fall 2012. Candidates should have strong records of scholarly research publication and effective teaching experience in areas of applied linguistics. We are seeking an experienced scholar who will maintain an active research agenda and who will coordinate, develop, and teach our ESL course sequence, as well as teach undergraduate and graduate courses in linguistics. Administrative duties for the ESL program come with a reduced teaching load, and oversight of the ESL summer program including summer salary. We are strongly committed to achieving excellence through cultural diversity. Minimum Qualifications:

Ph.D. degree in area(s) of expertise, or equivalent as noted below. Also required are the ability to teach successfully, interest in productive scholarship or creative achievement, and ability to cooperate with others for the good of the institution.

#### Other Qualifications:

Applicants must have a Ph.D. in Linguistics, Applied Linguistics, Educational Linguistics, TESOL, Second Language Acquisition, or closely related field. Of particular interest are candidates whose experience, research,

and teaching focus are on one or more of the following areas: phonetics, phonology, multilingualism, and urban immigrant language use. Candidates should exhibit a strong commitment to teaching undergraduate and graduate students from diverse cultural backgrounds.

#### Compensation:

Assistant Professor: \$42,873 - \$74,133

Associate Professor: \$55,602 - \$88,418

Commensurate with education, accomplishments and experience.

#### How to Apply:

Please submit a letter describing research and teaching interests and a dossier, including a CV, writing sample, and three letters of

recommendation to the application address below.

Interviews will be held at the AAAL Conference in Boston on March 24-27, 2012.

#### Closing Date:

All materials must be received by February 17, 2012.

#### Equal Employment Opportunity:

We are committed to enhancing our diverse academic community by actively encouraging people with disabilities, minorities, veterans, and women to apply. We take pride in our pluralistic community and continue to seek excellence through diversity and inclusion. EO/AA Employer.

## Decisive Analytics Corporation Comp Ling; NLP: Scientist, Decisive Analytics Corporation

<http://linguistlist.org/issues/23/23-244.html>

Rank: Scientist  
Posted on: 12-Jan-2012  
Deadline: Until Filled  
Ling Field(s): Computational Linguistics  
Natural Language Processing  
Language(s):  
Employer: Decisive Analytics Corporation  
Department:

### Job Description

The DECISIVE ANALYTICS Corporation's Analytic Products Division is focused on developing and implementing advanced analytical algorithms for military and intelligence community applications. In particular, we are working on developing a solution to the problem of having too much unstructured data. Whether this data is in the form of unstructured text, video, or audio, we want to be able to allow users of our product, Contour (<http://contour.dac.us>), to be able to find exactly what they need to solve their problem as quickly as possible.

To support these efforts, DAC is seeking applicants with backgrounds in algorithm development for Natural Language Processing. The successful candidates will:

- Maintain an understanding of the current and emerging trends in Natural Language Processing
- Participate in the development of cutting edge algorithms for Natural Language Processing
- Provide end-to-end research and development from project conception and proposal through algorithm development and prototyping
- Aid in driving the growth of this employee-owned company through expansion into tangential areas of interest

### Required Experience and Skill Sets:

- Career experience in Natural Language Processing or equivalent academic experience

- Basic familiarity with Java or Matlab
- Demonstrated ability to convert academic ideas into realized prototype solutions
- Strong skills working within a collaborative team environment  
Required Education: Bachelor's degree or higher in Computational Linguistics, Computer Science, or a related discipline with significant software development experience  
Desired Education: Master's degree or higher in Computational Linguistics, Computer Science, or a related discipline with significant software development experience

Security Clearance: Applicants must have a secret clearance or be able to obtain a DoD secret clearance upon hire

Must be a U.S. Citizen

## East Carolina University Theoretical Linguistics: Asst Prof, East Carolina University

<http://linguistlist.org/issues/22/22-4153.html>

Rank: Assistant Professor  
Posted on: 24-Oct-2011  
Deadline: Until Filled  
Ling Field(s): Linguistic Theories  
Language(s):  
Employer: East Carolina University  
Department: English

### Job Description

The Department of English at East Carolina University is seeking to fill a tenure-track position at the Assistant Professor level, specializing in theoretical linguistics, to begin August 13, 2012.

Candidates should have expertise in theoretical linguistics and be prepared to teach in at least three of the following areas: morphology, phonetics, phonology, semantics, and syntax. Secondary interest in at least one area of applied linguistics and/or sociolinguistics a plus. The successful candidate is expected to support and contribute to teaching, research, and innovative curriculum development in graduate and undergraduate programs. Appropriate service to the university, community, and profession is expected.

PhD and record of scholarship required. Screening begins November 15, 2011, and will continue until the position is filled.

For complete job description, requirements, and application instructions, see the application web address below.

Equal Opportunity / Affirmative Action Employer.

## English Language Institute of Singapore

### Applied Ling: English Language Specialist, English Language Institute of Singapore

<http://linguistlist.org/issues/23/23-1126.html>

Rank: English Language Specialist

Posted on: 04-Mar-2012

Deadline: Until Filled

Ling Field(s): Applied Linguistics

Language(s): English

Employer: English Language Institute of Singapore

Department:

#### Job Description

Reporting to the Programme Director (PD), the English Language Specialist is responsible for the design, implementation, facilitation, and evaluation of ELIS's language programmes in accordance with ELIS's mission and vision. English is the medium of instruction in all Singapore schools as well as a subject of study for all primary and secondary school students.

The English Language Specialist should be able to effectively engage teacher-learners who teach at the primary, secondary and pre-university levels in Singapore schools. These teacher-learners will typically have the equivalent of IELTS 6 to 8 in English. They require enhanced skill in the use English in the teaching of their subjects and in professional communication settings within the school.

#### Key Roles and Responsibilities:

- Plan, design, and facilitate professional development courses in effective communication skills, and supporting materials and resources, to meet the needs of English medium teachers

- Assist the Programme Director in marketing such programmes to target audiences

- Maintain quality of courses and support by monitoring programmes on a regular basis, and conduct an annual evaluation of programmes using an agreed evaluation framework

- Conduct research into language use in the context of classroom interaction within content area teaching

#### Entry Requirements:

- A relevant Master's degree, with specialisation in English Language (as a first language) or Linguistics

- A minimum of 8 years of teaching experience, with knowledge of adult learning methodologies preferred; Experience of holding posts of responsibility, such as Head of Department, would be an advantage

- Recent experience of school-based research or participation in action research projects as part of a professional learning community preferred

- Extensive experience in developing in-service English Language communication skills courses or programmes

- Expertise in the development of curriculum for the use of English in the teaching of specific subjects (e.g. English for Physics) will be highly desirable

- Proven facilitation skills in the context of teacher development workshops

- Proven skills in planning, managing and writing up

research projects Application Details:

If you wish to be considered for interviews between April to September 2012, please email your curriculum vitae, completed application form and transcript of your degrees to the application email address below by 31 Aug 2012. Please also include 'ELIS 2012: Application' as the subject of your email. Only shortlisted candidates will be notified.

Successful candidates will be offered an attractive remuneration package of up to SGD120,000 per annum, which is commensurate with educational qualifications and work experience\*.

\*All terms and conditions are subject to review and change from time to time without prior notification. We reserve the right to decide on the terms and conditions to be offered. No reasons will be provided for the selection and non-selection of candidates.

Employer Summary:

About ELIS (<http://www.elis.edu.sg/>)

The English Language Institute of Singapore (ELIS) is a young and dynamic institute that provides English Language teachers in the Singapore Education Service and the region with professional

development opportunities. It aims to be a leader in providing such professional development opportunities through the use of engaging pedagogy that is informed by research.

## ETS (Educational Testing Service) NLP: Researcher, ETS (Educational Testing Service)

<http://linguistlist.org/issues/23/23-431.html>

Rank: Researcher  
Posted on: 27-Jan-2012  
Deadline: 27-Jul-2012  
Ling Field(s): Natural Language Processing  
Language(s):  
Employer: ETS (Educational Testing Service)  
Department:

Job Description

ETS (Educational Testing Service), with headquarters in Princeton, NJ, is a global \$1.3B not for profit organization. Our mission is to advance quality and equity in education by providing fair and valid assessments, performing educational research and influencing policies that promote learning, performance, education and professional development. As a nonprofit corporation and an innovator in developing tests for clients in education, government and business, we are dedicated to advancing educational excellence for the communities we serve.

With more than 2,500 global employees worldwide, ETS develops, administers and scores more than 50 million tests annually in more than 180 countries, at 9,000+ locations worldwide. In addition to assessments, we conduct educational research, analysis and policy studies and develop a variety of customized services and products for teacher certification, English language learning and elementary, secondary and postsecondary education.

We presently seeks a Research Associate to join our Research

Coordination and Support Group. In this role, you will provide support to Research Scientists working on a branch of computer science and computational linguistics known as Natural Language Processing (NLP). Be prepared to assist with the management of resources across numerous projects, lead communication efforts both internally and externally, and participate in all phases of research projects, including research design, project management, data collection and analysis. You will also be offered the opportunity to collaborate with researchers

in responding to external requests for information, external grant applications, and with preparing study results for publication or presentation.

**Qualifications:**

- A Master's degree in linguistics, computer science, and/or natural language processing (NLP)
- At least four years of progressively responsible research experience in linguistics or natural language processing
- Ability to craft high-quality written communications for technical and non- technical audiences
- Experience managing a large number of concurrent projects

We offer a competitive salary and excellent compensation package including medical, dental, vision, 403(b) retirement plan, life and disability insurance, paid time off and an employee assistance program. Please apply online at:

## Federal Bureau of Investigation Foreign Language

### Distance/Self-Learning: Instructional Systems Specialist, FBI

<http://linguistlist.org/issues/23/23-991.html>

Rank: Instructional Systems Specialist

Posted on: 27-Feb-2012

Deadline: Until Filled

Ling Field(s): Applied Linguistics

Foreign Language

Distance/Self-Learning;

Instructional Design

Language(s):

Employer: Federal Bureau of Investigation

Department: Foreign Language Training  
Program

#### Job Description

The Federal Bureau of Investigation's Foreign Language Training Program will have an upcoming vacancy announcement on <http://www.usajobs.gov> for an Instructional Systems Specialist (ISS).

The ISS will serve as an expert in instructional technology, self-directed language education, and the development/evaluation of foreign language curricula, training tools and instructional materials. The ISS position does not require language teaching, but the ISS will coordinate foreign language classes offered to FBI employees, introduce language teaching tools to instructors, and evaluate courses of instruction for a variety of language schools and training conducted by the FBI.

Someone with an educational background in Instructional Design Practices, Instructional Product Development, Learning Theory, Psychology of Learning, or Computers in Education and Training would be an appropriate candidate. Foreign language skill is not required, but anyone interested must have experience designing and evaluating English and/or foreign language training

programs.

The position is a full time government position, with all attendant benefits, located in Washington D.C. (downtown). Relocation expenses will be paid, if required. The starting salary range is \$74,872 - \$89,033 (GS12 to GS13) and will be based on your previous experience and educational level. The position should be posted on usajobs within the next week. More information about salary pre-requisites and federal benefits will be in the posting itself. Any additional questions about the job duties and responsibilities can be directed to [linguist\\_postings@ic.fbi.gov](mailto:linguist_postings@ic.fbi.gov).

**Ferris State University  
Languages & Lit; Administration:  
Department Head, Ferris State U**

<http://linguistlist.org/issues/22/22-4487.html>

Rank: Chair of Department  
Posted on: 07-Nov-2011  
Deadline: Until Filled  
Ling Field(s): Languages & Literature;  
Administration  
Language(s):  
Employer: Ferris State University  
Department: College of Arts and Sciences

**Job Description**

The College of Arts and Sciences at Ferris State University invites applications for the position of Languages and Literature Department Head to begin July 1, 2012. The successful candidate will assume leadership and administrative responsibilities of a large department with 36 tenure track faculty and approximately 18 adjunct faculty. The primary responsibility of the department is teaching writing, literature, and languages (primarily French, German, and Spanish) to students needing General Education courses and to majors and minors in English Education, English, Technical and Professional Communication, and modern languages. The department manages the University Writing Center and the student newspaper, The Torch. The Department Head will also provide leadership in the areas of planning, assessment, budgeting, program evaluation, faculty recruitment and supervision, student recruitment, student engagement, and fostering a supportive environment for grant writing and fund raising.

**Required Qualifications:**

Applicants must have a doctorate in one of the disciplines represented in Languages and Literature (Composition, English, Folklore, Journalism, Linguistics, Literature, Modern Languages, Technical Writing, or closely related field), undergraduate teaching experience in a relevant discipline, successful academic administrative experience, and strong interpersonal, written, and oral communication skills.

To apply, access the electronic applicant system by logging on at the application URL below. Ferris State University is sincerely committed to being a truly diverse institution and actively seeks applications from women, minorities, and other underrepresented groups. An Equal

Opportunity/Affirmative Action employer.

**General Dynamics IT**  
**Computational Linguistics; NLP:**  
**Scientist, General Dynamics IT**  
<http://linguistlist.org/issues/23/23-1061.html>

Rank: Scientist  
Posted on: 01-Mar-2012  
Deadline: Until Filled  
Ling Field(s): Computational Linguistics  
Natural Language Processing  
Language(s): English  
Employer: General Dynamics IT  
Department:

## Job Description

General Dynamics IT is seeking an inventive, creative, and enthusiastic computational linguist to serve as the new member of a team engaged developing in text exploitation and natural language processing technologies for a variety of customers. The selected candidate will perform specialized and technical tasks associated with the most current natural language processing (NLP) technologies being applied to free text extraction. Experience in object oriented programming, especially Java, and familiarity with the UIMA framework a plus. Work will be performed at the General Dynamics IT Buffalo, NY office. Candidates must be U.S. citizens and eligible for DOJ/DOD security clearance.

### Principal Duties/Responsibilities:

- Performs basic CL work requiring application of standard techniques, procedures and criteria
- Analyzes problems and applies theoretical techniques to develop solutions
- Performs laboratory research
- Analyzes and organizes technical data and reports into summaries for management or customer review
- Prepares technical reports, manuals, and procedures
- Defines and describes laboratory tests to be performed
- Participates in test programs and prepares reports of test results
- Maintains records, prepares reports, and conducts analysis and investigation
- Maintains current knowledge or relevant technologies as assigned
- Participates in special projects as required

### Education and Experience Requirements:

- Bachelor's or Master's Degree in computational linguistics (preferred) or Bachelor's or Master's Degree in computer science with a concentration in computational linguistics (minimum)
- 0-2 years of related experience in computational linguistics, analysis and/or engineering

### Skills and Abilities:

- Basic knowledge of the principles, methods, and techniques used in computational linguistics
- Basic knowledge of the related equipment and systems used in computational linguistics

To apply for this position, go to the application URL below, click Job Opportunities, and search for Job ID Number 196180 (or go directly to [http://www.resumeware.net/gdns\\_rw/gdns\\_web/job\\_detail.cfm?recnum=1&totalrecs=3&start=1&pagestart=1](http://www.resumeware.net/gdns_rw/gdns_web/job_detail.cfm?recnum=1&totalrecs=3&start=1&pagestart=1)).

## Georgia Institute of Technology Language and Culture: Chair, Georgia Institute of Technology, USA

<http://linguistlist.org/issues/22/22-4407.html>

Rank: Chair of Department  
Posted on: 04-Nov-2011  
Deadline: Until Filled  
Ling Field(s): Language and Culture  
Language(s): English  
Employer: Georgia Institute of Technology  
Department: School of Modern Languages

## Job Description

The School of Modern Languages of the Georgia Institute of Technology seeks an entrepreneurial, collaborative Chair to lead a dynamic and innovative faculty team dedicated to redefining the study of language and culture for the 21st century. The School is united around a vision of applied foreign language and cultural proficiency coupled with understanding of intercultural issues as crucial for careers in the global workplace. The ideal candidate will have a strong record of scholarship, evidence of successful grant-writing experience, and a program orientation toward applied and interdisciplinary approaches to language and culture studies. The Chair must support faculty scholarship, cultivate shared governance, and be an effective advocate to elevate the School's stature and capacity, articulating the School's innovative programs within an Institute committed to expanding connections between the humanities, sciences and technology, and international education.

The School of Modern Languages, one of six schools in the Ivan Allen College, offers an innovative B.S. degree in Applied Languages and Intercultural Studies (ALIS; see

<http://www.modlangs.gatech.edu/degrees/alis>) as well as degrees in Global Economics and Modern Languages (GEML); and International Affairs and Modern Languages (IAML) and is currently undertaking the design of a Master's program. Twenty-three tenure-track faculty members provide administrative and instructional support to an ever-growing number of majors, dual majors, and minors. Oversight of our academic programs requires a strong commitment to progressive education, international programs, and multi-disciplinary collaboration in the College and the Institute. Additional information pertaining to the School of Modern Languages is available at <http://www.modlangs.gatech.edu/>.

The successful candidate must possess a Ph.D. or other appropriate terminal degree and a scholarly record that merits a tenured appointment at the rank of full professor. The individual should have demonstrated leadership, preferably in higher education; a proven aptitude for effective financial, academic, and personnel management; and experience in strategic planning and fund-raising.

Located in midtown Atlanta, Georgia Tech enrolls over 21,000 students and is consistently ranked as one of the top seven public universities in the country. Georgia Tech

is a unit of the University System of Georgia and an AA/EO employer; women and minorities are strongly encouraged to apply. Applicant review will begin on 01 November 2011 and continue until the position is filled. To receive full consideration, application materials should include: (1) a letter of interest describing the candidate's relevant experience and vision for the position, (2) curriculum vitae, (3) examples of scholarly work, and (4) the names, positions, and contact information of five references who will be contacted only with the candidate's approval - please include a brief statement of your relationship to each reference.

The application package can be uploaded and submitted at the application URL below.

\*Materials may also be sent to the application address below. Applicant files will be treated confidentially.

## Ghent University

### Dutch; (Diachronic) Construction Grammar: Ph.D Position, Ghent U

<http://linguistlist.org/issues/23/23-496.html>

Rank: Researcher/Ph.D. Position  
 Posted on: 31-Jan-2012  
 Deadline: 29-Feb-2012  
 Ling Field(s): (Diachronic) Construction Grammar  
 Language(s): Dutch  
 Employer: Ghent University  
 Department: Linguistics Department

### Job Description

The Department of Linguistics at Ghent University (Section Dutch) offers a full-time four-year (2 x 2-year) PhD position in (diachronic) construction grammar, as part of a research project on 'Argument structure

constructions in varieties of Dutch'. This project

addresses the interrelated areas of diachronic and synchronic variation in constructional semantics, through an extensive corpus-based investigation of the semantic properties of Dutch argument structure constructions across diachronic, regional, and stylistic varieties of the language. On the basis of the qualitative and quantitative evaluation of corpus data representing various sub-stages and varieties of (Early) Modern Dutch, the PhD researcher will examine patterns of variation and change in the semantic structure of selected argument structure constructions and will reflect on the implications of these findings for theories of argument structure semantics. The project's supervisor is Timothy Colleman.

The PhD project includes writing a dissertation as well as submitting at least two research articles for publication in international peer-reviewed journals. In addition, the researcher may be asked to assist in the supervision of MA students working on related topics.

Applicants for the position should have a Master's degree (or equivalent) in Languages and Literature, Linguistics, Dutch studies, or a related field, a thorough command of Dutch, and a genuine interest in grammatical research. A specialization in Dutch linguistics is not required but will be considered an asset. Other assets include a demonstrable knowledge of construction grammar and/or theories of language variation and change and previous experience with corpus-based methods of investigation (e.g. in the framework of a Master's dissertation). Since the project will include an important quantitative component, the appointed researcher will be expected to thoroughly acquaint him/herself with advanced statistical tools and methods.

The researcher will be hired on a scholarship program ("doctoraatsbursaal"), which excludes candidates with an academic job seniority of more than one year.

The preferred starting date is April or May 2012.

Applications should include:

- A letter of motivation (in Dutch or English)
- A CV
- A sample of written work (e.g. MA and/or BA thesis, research paper, published article)

**Application Address:**

prof. dr. Timothy Colleman

## Ghent University

### Spanish Linguistics: Professor, Ghent University

<http://linguistlist.org/issues/23/23-426.html>

Rank: Professor  
 Posted on: 26-Jan-2012  
 Deadline: 02-Mar-2012  
 Ling Field(s): General Linguistics  
 Language(s): Spanish  
 Employer: Ghent University  
 Department: Department of Linguistics

#### Job Description

The Faculty of Arts & Philosophy invites applications for the full-time position of professor in the rank of Lecturer (Tenure Track system) in the Department of Linguistics, taking effect on October 1, 2012. Responsibilities will include academic teaching, research, and service in the field of Spanish linguistics.

#### Profile:

- On the day of application, candidates are required to hold a PhD with a doctoral thesis in the field mentioned (or equivalent thereof)
- Candidates are required to have at least two years of postdoctoral experience on October 1, 2012
- Candidates are required to have research experience in the field of Spanish linguistics, as is evident from contributions to international conferences and recent publications in international books and/or peer-reviewed journals
- Candidates are required to possess an excellent oral and written knowledge of Spanish
- Candidates are required to possess the necessary didactic, organizational and communicative skills for teaching Spanish Linguistics and Spanish Language Proficiency in an academic context
- An international 'profile' gained, for instance, through participation in research programmes at institutions other than one's own, will be considered an asset

Candidates are required to show their willingness to learn Dutch (insofar as they do not speak this language on the day of application).

#### Method of Application:

The candidates are required to submit:

- An outline (max. 1500 words) explaining their views on research, teaching and administrative duties in relation to this vacancy
- The required transcripts (copies of degrees)

#### Selection Procedure:

- Candidates will be short-listed on the basis of their curriculum vitae, bibliography, and the outline
- Short-listed applicants will be invited for an interview and required to present a short class (of twenty minutes), on the basis of which the final selection will be made

This full-time position is a tenure-track appointment for a period of five years, at the end of which a tenure decision will be taken, depending on an overall evaluation.

For further information about this vacancy, applicants are welcome to contact Professor Renata Enghels, (tel: +32 (0)9 264 40 50 and [Renata.Enghels@ugent.be](mailto:Renata.Enghels@ugent.be)) and/or Professor Stef Slembrouck, Head of Department (tel: +32 (0)9 264 37 94 and email:

[Stef.Slembrouck@ugent.be](mailto:Stef.Slembrouck@ugent.be)).

Applications should be sent in duplicate, and by registered mail to the application address below. The standard application forms for Autonomous Academic Staff ("ZAP") should be used, with required transcripts (copies of degrees) attached. Applications must be sent no later than March 2nd, 2012.

The application forms for Autonomous Academic Staff ("ZAP") can be downloaded from the following URL:

<http://www.ugent.be/nl/werken/aanwerving/formulieren/zap/formulier.doc/view>

**H5 Asia Pacific Pvt. Ltd.  
 Information Retrieval, NLP:  
 Manager/Lead, H5 Asia Pacific Pvt. Ltd.**

<http://linguistlist.org/issues/23/23-1341.html>

Rank: Manager, Lead  
 Posted on: 16-Mar-2012  
 Deadline: Until Filled  
 Ling Field(s): Computational Linguistics  
 Text/Corpus Linguistics  
 Information Retrieval, Natural  
 Language Processing  
 Language(s): English  
 Employer: H5 Asia Pacific Pvt. Ltd.  
 Department: Research and Development

**Job Description**

Advanced Research & Development (ARD) Lead –  
 Mumbai or Bangalore Position Overview

H5AP is seeking a senior lead candidate to initiate its R&D effort in India. The successful candidate will be fully capable of functioning as a productive contributor to H5's global research and development effort, focused on developing innovative approaches to dealing with large-scale unstructured natural language and corporate data. Following a successful initial deployment, the candidate will work with US counterparts to hire and supervise a team of junior contributors.

**About the Company**

- H5 is an information retrieval firm that helps Fortune 500 corporate legal departments and leading law firms search, assess, and manage electronically stored information

- H5AP is a wholly owned subsidiary of H5 with offices in Mumbai and Bangalore, India

- For more information please visit [www.h5.com](http://www.h5.com) and [www.h5ap.com](http://www.h5ap.com) Responsibilities

The ARD Lead for India is responsible for the following core areas:

- Taking on research and development tasks as defined by global R&D leadership

- Producing working software implementation in short-order

- Taking idea through design, development, testing, and implementation with minimal direction

- Investigating feasibility of proposed implementations that may or may not lead to actual implementations

- Tackling complex data manipulation and analytic tasks for H5 client engagements requiring rapid determination on course of action and execution often within a matter of hours or days

- Coordinating effectively across the internal Professional Services and Product Development Groups

Once effectively working with the global ARD team and substantially steeped in H5 technologies and processes, the ARD Lead for India will become responsible for the following additional areas (ideally this would be 6 months into the role):

- Identifying additional R&D roles to staff in India
- Driving the recruiting efforts for new local R&D roles
- Onboarding and training new hires
- Project managing workflow for new India R&D team
- Serving as technical resource for junior members, stepping in to solve problems or implement solutions when other cannot

**Requirements**

The following are key technical requirements for this role:

- Information Retrieval (IR), Machine Learning (ML), Natural Language Processing (NLP), Very Large Database (VLDB) or other expertise with unstructured data

- Comfortable with both UNIX and Windows environments

- SQL database experience

- Strong programming skills (Java, C/C++, or C#)

- Scripting language experience (Perl, Python, Ruby)

In addition to the key technical requirements, we are looking for candidates with a strong professional and leadership profile including:

- Strong problem-solving and independent decision-making skills

- Self-motivated and focused with an overall “can-do” attitude

- Fast learner and open to learning new technologies

- Demonstrated ability to adapt to changing priorities

- Excellent communication with both local and international professionals

- Experience mentoring, training, and leading others

- At least 6 years of relevant experience with a strong technical and team leadership focus

Qualifications

Master’s degree in the following or related areas:

- Computational Linguistics / NLP

- Information Retrieval

- Machine Learning

- Computer Science

- Cognitive Science

- Mathematics

- Electrical Engineering

Location

- Role is based out of Mumbai or Bangalore, India

- Extended travel to San Francisco office will be

involved

## H5 Asia Pacific Pvt. Ltd.

### Research & Analysis: Senior Analyst, H5 Asia Pacific Pvt. Ltd.

<http://linguistlist.org/issues/23/23-1342.html>

Rank: Researcher, Senior Analyst

Posted on: 16-Mar-2012

Deadline: Until Filled

Ling Field(s): Computational Linguistics  
Information Retrieval, Research & Analysis

Language(s): English

Employer: H5 Asia Pacific Pvt. Ltd.

Department: Research, Modeling and Analysis

### Job Description

Title/Designation: Senior Analyst (Mumbai)

Looking for a rewarding and exciting opportunity to make a significant contribution to a unique company in a new industry? H5 Asia Pacific is hiring Senior Analyst to join and collaborate within cross-functional teams to design and build information retrieval solutions for our clients. We are seeking intelligent individuals with a strong work ethic and superior attention to detail who are looking to grow and be challenged in a startup environment. H5 Asia Pacific offers above-market compensation, a congenial work environment, and a U.S.-style corporate culture with advancement based on merit and performance.

### About the Company

H5AP is a wholly owned subsidiary of H5 based in Mumbai, India

For more information please visit [www.h5.com](http://www.h5.com) and [www.h5ap.com](http://www.h5ap.com)

### Responsibilities

The specific responsibilities of the Senior Analyst role involve the following:

- Review and analyze documents in large corpora to assess relevancy vis-à-vis project requirements
- Rapid synthesis and understanding of unfamiliar subject matter areas
- Identifying key content using 3rd party and proprietary Information Retrieval (IR)/search software
- Proactive identification and elaboration of key trends and risks related to projects
- Timely and comprehensive communication and documentation of findings and proposals
- Active contribution to planning, efficiency, and quality control related tasks/initiatives
- Active involvement in solution and workflow design based on project requirements

This is a fast-paced, rewarding role with a steep learning curve, where senior analysts are expected to deliver quality results on a wide variety of project environments, all the while updating their skills and developing their leadership acumen.

#### Requirements

- Excellent written and oral communication skills in English
- Comfortable and adept at dealing with ambiguity and change
- Passion in applying core analysis and problem-solving skills to deliver innovative business solutions
- Strong service orientation with both internal and external clients
- Exceptionally high commitment to ensuring quality output
- Ambitious, organized, self-driven, a quick learner, and unrelentingly curious
- Comfortable tackling challenges involved in collaborating across and reporting to onshore teams

- Motivated by interactive team environments with shared mandates

- Expert in usage of Microsoft Office Suite

#### Qualifications

- A Masters degree in Linguistics or related field
- 6+ years experience (preferred in applying research and analysis skills in developing business solutions)
- Relevant post-graduate work and research can apply to baseline work experience requirement

#### Location

- Role is based out of Mumbai, India
- Extended travel to San Francisco office likely once confirmed

## Hanyang University General Linguistics: Rank Open, Hanyang University

<http://linguistlist.org/issues/23/23-361.html>

Rank: Rank Open  
Posted on: 19-Jan-2012  
Deadline: 01-Mar-2012  
Ling Field(s): General Linguistics  
Language(s):  
Employer: Hanyang University  
Department: Department of English Literature & Linguistics

#### Job Description

The Department of English Literature and Linguistics, Hanyang University (Seoul) invites foreign applications for a tenure track faculty position with the rank open in linguistics to start on September 1, 2012.

The area of specialization is open (e.g., phonetics, phonology, syntax, semantics, discourse, psycholin-

guistics, sociolinguistics, applied linguistics). (Candidates in psycholinguistics with spoken word/sentence processing are particularly encouraged to apply, but we value a strong

research/publication record in any subfield of linguistics.) Minimum qualifications:

- Must hold Ph.D before the job starts
- Must have about 0.8 articles per year (since PhD was obtained) already published in international scholarly journals
- Must hold a foreign nationality with a (near) native command of English Responsibilities:
- Teaching and advising students
- Teaching two or three courses in linguistics per semester depending on the candidate's qualification

Salary/Benefits:

The average annual salary for the position is as follows: Assistant Professors from US\$44,000 to US\$51,000; Associate Professors from US\$52,000 to US\$62,000; and Professors from US\$62,000 to

US\$100,000, which frequently varies depending on the exchange rates. A residence or housing subsidy may be provided for up to 3 years. Other benefits may include a start-up fund and possible annual university research funds. In addition, each faculty member is granted one research assistantship to hire a graduate student. Currently, a special research allowance (considered as additional salary) is additionally granted for each international journal paper published in SSCI and A&HCI indexed journals. Hanyang University is one of the top 5 private universities in Korea to which top 5% or better high school students are generally admitted. The department has 6 linguistics and 6 literature faculty members. The department has recently built a state-of-art Phonetics/Psycholinguistics Laboratory (director: Taehong Cho) to promote research programs in experimental linguistics. It is equipped with a magnetometer system (EMA), an Eye-tracking system (Eye-Link II), a professional sound booth, two perception booths and other necessary computer facilities. The successful applicant will have a full access to the lab facilities.

## Heidelberg University

### Comp Ling: Post Doc/Researcher, Heidelberg University

<http://linguistlist.org/issues/23/23-1301.html>

Rank: Post Doc, Researcher  
 Posted on: 14-Mar-2012  
 Deadline: Until Filled  
 Ling Field(s): Computational Linguistics  
 Language(s):  
 Employer: Heidelberg University  
 Department: Computational Linguistics

#### Job Description

POSTDOC/PHD POSITION IN COMPUTATIONAL LINGUISTICS,

HEIDELBERG UNIVERSITY, GERMANY

The chair of Linguistic Informatics at the Institute for Computational Linguistics, Heidelberg University, Germany, invites applications for a research associate position (Phd or PostDoc) in the research project 'Cross-language Learning-to-Rank for Patent Retrieval' funded by the Deutsche Forschungsgemeinschaft (DFG).

The goal of the project is to develop a synergetic combination of patent translation and patent retrieval in a well-defined machine learning framework. The project is led by Stefan Riezler whose work focuses on statistical machine translation and machine learning for natural language processing. The Institute for Computational Linguistics (ICL) in Heidelberg ([www.cl.uni-heidelberg.de](http://www.cl.uni-heidelberg.de))

is a lively research environment and one of the largest centers for computational linguistics in Germany.

The ideal candidate will have a PhD or Master's degree (for the Postdoc and PhD position, respectively) in computational linguistics, computer science, or a related field. A profound background in machine learning and statistics and excellent programming skills (C/C++/Python) are required.

The appointment is a full position for 3 years, with a start date of May 1, 2012 or soon thereafter. Salary is paid according to the German TV-L 13 scale. Applications should be in PDF format and include a statement of

research interests, university transcripts, a CV, and the names of two references. Review of applications begins at once and will continue until the position is filled. Please send inquiries and applications to Anke Sopka & Corinna Schwarz, Sekretariat ICL at the application email address below. Anke Sopka & Corinna Schwarz, Sekretariat ICL

sekretariat@cl.uni-heidelberg.de

## Heidelberg University Computational Linguistics: Post Doc/PhD Student, Heidelberg U

<http://linguistlist.org/issues/22/22-3876.html>

Rank: Post Doc/PhD Student  
Posted on: 04-Oct-2011  
Deadline: Until Filled  
Ling Field(s): Computational Linguistics  
Language(s):  
Employer: Heidelberg University  
Department: Institute for Computational  
Linguistics

#### Job Description

\* This position has been filled.

The Institute for Computational Linguistics (ICL) at Heidelberg University invites applications for a research associate position in the EU-funded project EXCITEMENT on multilingual semantic processing. This position can be filled by a Postdoc or a PhD student.

The goal of the EXCITEMENT project is to develop generic semantic 'engines' or platforms for robust textual inference that are applicable across languages and linguistic frameworks. These inference platforms will be leveraged for unsupervised text exploration on customer interaction data. Concrete systems will be developed for English, German, and Italian. The other project partners are Bar-Ilan University, DFKI Saarbrücken, FBK Trento, Almwave S.r.l, NICE Systems, and OMQ GmbH.

At Heidelberg, the project will be led by Sebastian Pado. Work will focus on cross-lingual and cross-framework interoperability and multilingual resource acquisition for textual inference. The ideal candidate will have a PhD or Master's degree (for the Postdoc and PhD position, respectively) in computational linguistics or computer science/linguistics with a specialization in NLP. Prior experience with semantic processing, machine learning, corpus-based methods or statistics are highly desirable. Strong programming skills (Java, C++, or Python) are required. Fluency in German is a plus. ICL at Heidelberg ([www.cl.uni-heidelberg.de](http://www.cl.uni-heidelberg.de)) is a lively research environment and one of the largest centers for computational linguistics in Germany. PhD students can take part in the joint doctoral program 'Semantic Processing' ([semproc.cl.uni-heidelberg.de](http://semproc.cl.uni-heidelberg.de)) run in collaboration with the Heidelberg Institute for Theoretical Studies (HITS).

The appointment is for 3 years, with a start date of 1 January 2012 or soon thereafter. Salary is paid according to the German TVöD 13 scale (100% for postdoc, 50% for PhD student).

Review of applications begins at once and will continue until the position is filled. Applications received by 31 October 2011 are guaranteed full consideration. Applicants should send a statement of research interests, university transcripts and a CV to

Anke Sopka & Corinna Schwarz

## Hermann Paul School of Linguistics Basel-Freiburg

General Ling; Specialty Open: PhD  
Researcher/Scholarship, Hermann Paul  
School of Linguistics Basel-Freiburg

<http://linguistlist.org/issues/23/23-1621.html>

Rank: Researcher  
Posted on: 30-Mar-2012  
Deadline: 22-Apr-2012  
Ling Field(s): General Linguistics  
Language(s):  
Employer: Hermann Paul School of  
Linguistics Basel-Freiburg

Department:

### Job Description

The Hermann Paul School of Linguistics at the University of Basel (Switzerland) and the Albert-Ludwigs University of Freiburg (Germany) is offering two scholarships for PhD candidates in Basel and two scholarships in Freiburg, to be occupied by earliest 1 July and latest 1 September 2012.

As a PhD candidate you will be part of a lively and active research community located in the upper Rhine region. The graduate

programme is internationally recognized and presents inter-university collaboration. The scholarships comply with different requirements in Basel and Freiburg. For more information on the respective

specifications, please visit the application URL below. Scholarships are granted for two years and may be subject to an extension of up to one year with successful project development.

Prerequisite for application is a good to excellent degree (MA or equivalent) in the field of language sciences. As part of an international community your PhD project should constructively add to the research environment. Please inform yourself about the research areas at the HPSL before the application or get in touch with your preferred first supervisor for more details (find the list of supervisors at

<http://www.hpsl-linguistics.org/faculty> and the list of linguistic fields at <http://www.hpsl-linguistics.org/research>). The application should include an informative outline of your research interests and PhD project.

Please note that PhD scholarships at the University of Basel or the University of Freiburg must be supervised by a first supervisor affiliated with the respective university which grants the scholarship.

Applications, including curriculum vitae, copies of educational certificates, an informative outline and a writing sample (seminar paper or master thesis) should be submitted both in postal form (hardcopy) AND electronically.

The selection process will take place mid-May and acceptances and refusals will be sent out by the end of May. For the filing of the documents in electronic form, please note the details at

<http://www.hpsl-linguistics.org/hpsl-application2012>.

## HITS gGmbH Computational Linguistics; NLP: Post Doc, HITS gGmbH

<http://linguistlist.org/issues/23/23-871.html>

Rank: Post Doc  
Posted on: 20-Feb-2012  
Deadline: 25-Mar-2012  
Ling Field(s): Computational Linguistics  
Natural Language Processing  
Language(s):  
Employer: HITS gGmbH  
Department: NLP Group

### Job Description

Postdoctoral scholarship available in the NLP group at the Heidelberg Institute for Theoretical Studies (HITS) in Heidelberg, Germany One postdoctoral scholarship is available for a scientist working in Natural Language Processing/ Computational Linguistics, in particular in the areas of Discourse Processing, Natural Language Generation, Knowledge Extraction, Ontology Learning. Different topics may be possible as long as they are within the general interests of the NLP group (semantics, pragmatics, discourse, generation, see <http://www.h-its.org/nlp>). The scholarship will be granted initially for two years with the possibility for a one year extension after successful evaluation (please refer to

[http://www.h-its.org/english/info/ST\\_postdoc\\_scholarship.php](http://www.h-its.org/english/info/ST_postdoc_scholarship.php) for terms and conditions).

The candidate should have a strong background in computational linguistics and possess a PhD in either computational linguistics, computer science, or linguistics with a specialization in Natural Language Processing. Experience with machine learning and corpus-based methods, knowledge about statistics as well as strong programming skills, preferably in Java, are required. HITS gGmbH is a private non-profit research institute carrying out multidisciplinary research in the computational sciences. It receives its base funding from the Klaus Tschira Foundation.

The NLP group at HITS is an interdisciplinary research group that works on applications in the area of discourse and dialogue, in particular coreference resolution, lexical semantics, text generation, automatic summarization, and

knowledge extraction from semistructured input. The NLP group at HITS works closely together with the Computational Linguistics Department at the University of Heidelberg. The postdoctoral scholar will participate in a jointly

organized PhD colloquium.

To apply, please enter your application via the following link:  
<https://application.h-its.org/intern/register.php?id=nus0k12>  
(reference Postdoc

NLP HITS-02-2012)

Applications must be submitted by March 25, 2012. Please note that applications not submitted via the online system will not be considered. Inquiries about the position can be directed at Michael Strube, email address below.

## Indiana University Turkish; Applied Ling; Lang Acquisition: Lecturer, Indiana U

<http://linguistlist.org/issues/23/23-796.html>

Rank: Lecturer  
Posted on: 16-Feb-2012  
Deadline: 03-Mar-2012  
Ling Field(s): Applied Linguistics  
Language Acquisition  
Language(s): Turkish  
Employer: Indiana University  
Department: Turkish Language Flagship

### Job Description

Indiana University Turkish Language Flagship Center seeks full-time, non-tenure-track lecturer in Turkish beginning June 1, 2012. This is a federal grant-funded position with possibility for renewal contingent on continued grant funding.

Requires M.A. (prefer Ph.D.) in second language acquisition, applied linguistics, language teaching, or linguistics with focus on second language acquisition. Applicants should have native or native-like proficiency in Turkish and English, demonstrated knowledge and experience in multiple level Turkish language teaching in an American or Turkish institution of higher education, ability to develop content-based teaching

materials/courses and teach content-based courses in Turkish, and commitment to maintaining and strengthening the Turkish Language Flagship Center at IU. Demonstrated excellence in teaching Turkish at the university level is expected.

Submit letter of application, curriculum vitae, documentation of teaching ability (such as a summary of teaching evaluations), a statement of teaching interests, and the names and email addresses of three referees by mail or email to the application address or email address below. Letters of reference should be submitted directly by three recommenders. For full consideration, materials must be received by March 3, 2012.

Indiana University is an Equal Employment/Affirmative Action Employer. Women and minorities are especially encouraged to apply.

Second Language Studies  
Language(s):  
Employer: Indiana University  
Department: Department of Second Language  
Studies

### Job Description

The Department of Second Language Studies at Indiana University is seeking applicants for a Postdoctoral Fellowship in Second Language Studies. The fellowship is designed to mentor recent Ph.D. recipients in their transition toward a regular tenure-track position, including both teaching and research experience. Fellows will be expected to take an active role in the research life of the Department and University. Fellows should, therefore, consult with faculty, participate in research, present on-going work at the SLS colloquium, and attend conferences and workshops. Fellows with research programs on any aspect of learner language development (including revitalization contexts and untutored environments) are invited to apply. Fellows will teach three 8-week sections of a course (SLST-T125, 3cr: Academic Language and Culture at US Universities for International Students) in the fall. Spring will be fully devoted to research activities. Fellows will remain in residence. The Postdoctoral Fellowship is a 10-month appointment, with healthcare benefits included and compensation commensurate with other Postdoctoral fellowships in other similar disciplines/fields. Fellows will be appointed for a period of 2 years, starting Fall 2012. Native or near-native knowledge of English is required. For the 2012–2014 fellowship, applicants must have a Ph.D. in hand by July 31, 2012. Degrees must be granted no earlier than January 1, 2010.

## Indiana University-Bloomington Language Technology: Director, Indiana University-Bloomington

<http://linguistlist.org/issues/22/22-5148.html>

Rank: Director  
Posted on: 21-Dec-2011  
Deadline: Until Filled  
Ling Field(s): Applied Linguistics  
Language Technology &  
Instructional Enrichment

Language(s):  
Employer: Indiana University-Bloomington  
Department: Center for Lang Tech &  
Instructional Enrichment

### Job Description

Director of Center for Language Technology and Instructional Enrichment (CeLTIE). The College of Arts and Sciences at Indiana University, Bloomington is seeking a new director for our language technology center, which is a venue that places the College at the leading edge of language pedagogy and technology. The new Director will provide strong

leadership for the Center and vision for enhancing the use of CeLTIE by units in the College by reaching out to those departments; oversee the Language and Computer Laboratories; collaborate with language

instruction faculty across the campus to support language pedagogy across the College's departments and area studies/Title VI programs; provide support for less

commonly taught languages; work with the language departments to help proficiency assessment experts; contribute to outreach efforts; and promote the presence of Indiana University at regional, national and international foreign language conferences. The Director will support on-line language learning opportunities such as CourseShare, and will assist in the planning of other new initiatives in language teaching and learning for the 70+ languages taught in the College.

The Director's appointment will include a coterminous appointment as Lecturer or Senior Lecturer, depending upon experience and

qualifications.

Qualifications: PhD in hand at time of application; doctorate with training and experience in second language acquisition and pedagogy. Previous experience in administration and classroom language teaching required. Experience in grant-writing, as well as training in instructional technology, strongly preferred. 12-month, 3-5 year term, renewable pending favorable annual reviews; begins July 1, 2012. Highly competitive salary. Please send a c.v., 3 letters of recommendation addressing your administrative and/or pedagogical abilities, and other supporting documentation as appropriate to the application address below. Review of applications will begin on January 15th, 2012 and continue until the position is filled. Indiana University is an equal opportunity / affirmative action employer committed to excellence through diversity. The University actively encourages applications of women, minorities, and persons with disabilities.

## Indiana University of Pennsylvania Applied Ling; Assessment: Asst Prof, Indiana U of Pennsylvania

<http://linguistlist.org/issues/22/22-4348.html>

Rank: Assistant Professor

Posted on: 01-Nov-2011

Deadline: Until Filled

Ling Field(s): Applied Linguistics  
Critical Assessment

Language(s):

Employer: Indiana University of Pennsylvania

Department: English

#### Job Description

Indiana University of Pennsylvania

Assistant Professor in Applied Linguistics and Critical Assessment Indiana University of Pennsylvania invites applications for a tenure-track position at the Assistant Professor level to begin Fall, 2012. We seek a teacher-scholar with proven expertise in critical approaches to language teaching and assessment. The ideal candidate is an applied linguist who understands and researches social and political complexities of literacy and can apply these to issues of assessment in second language. Teacher-scholars who deal with multi-cultural interactions and critical approaches to (language) education are considered important for this position. Knowledge of critical theory and L1 composition considered as advantages, as is evidence of leadership ability and grant writing ability. A proven record of publication is a requirement.

Candidates must be qualified to teach doctoral, master's, and undergraduate courses, and must demonstrate excellence in teaching and scholarship. Participation in the graduate program also includes teaching graduate students during one five-week summer session (with additional

compensation).

The IUP English Department's commitment to broad faculty participation in the liberal studies offerings requires that all faculty are prepared to teach first-year college writing, research writing, introductory humanities literature, as well as courses in language studies. Active participation in departmental service and student advising

is also expected.

Qualifications: Ph.D. must be in hand at the time of employment. In addition to expertise and scholarship in the specified field, all candidates must have documented training and experience in teaching composition, proven excellence in teaching, and a demonstrated commitment to service. Candidates must communicate effectively and perform well during the interview process, which may include a teaching demonstration. All applicants must be work eligible.

How to Apply: Please indicate you are applying for the English faculty position in Applied Linguistics and Second Language Literacy. Send a letter of application, CV, transcripts, three current letters of recommendation, scholarly publication in applied linguistics and critical approaches to (language) education, and a one-page statement of teaching philosophy to Dr. Tina Perdue at the application address below.

For full consideration, completed applications are due by November 28, 2011 and will continue until the position is filled. We plan to screen applicants by telephone and will be inviting candidates for campus visits in early spring 2012.

Women and minority candidates are strongly encouraged to apply. IUP is an equal opportunity employer M/F/H/V. For more information about IUP, visit our website at <http://www.iup.edu>.

Indiana University of Pennsylvania is a member of the State System of Higher Education.

#### Application Address:

Dr. Tina Perdue, Recruitment Chair

## Infogain Corporation

### English: Language Engineer, Infogain Corporation

<http://linguistlist.org/issues/23/23-1566.html>

Rank: Language Engineer  
Posted on: 27-Mar-2012  
Deadline: 30-Jun-2012  
Ling Field(s): Computational Linguistics  
Language(s): English  
Employer: Infogain Corporation  
Department: Human Resources, Staffing

#### Job Description

This job involves working with Oracle Knowledge software to help customers implement Oracle Knowledge tools and to manage the implementation once it goes live. Oracle Knowledge encompasses 3 main technologies: Search (Natural Language Search Engine), Information Manager (Content Management System), and Analytics (data on how the tools are being used). The Language Engineer will learn to configure and operate all 3 technologies and apply that knowledge in new implementations of the software package, upgrades, and Managed Services. They will lead the design and implementation of the 3 technologies, so they must be comfortable speaking with customers about the technologies and to think on their feet about design recommendations and be able to solve problems within the parameters of what the technologies allow.

This is a hybrid role that walks a fine line between engineering the natural language search engine to fit the needs of a business, and software consultation, so the ideal candidate should be comfortable wearing both the engineer hat and the business analyst hat. The ideal candidate will be comfortable working with technology, and quick to pick up new technologies while possessing a strong intuition about language and how search engines process language.

The skills requirement is as follows:

Required:

- Excellent command of the English language.
- Excellent written and verbal communication skills.

- A genuine interest in language, how it works. Someone with a degree in a Foreign Language, Linguistics, or English.
  - Some technical background, preferably light programming experience or experience using scripting or matching languages like Perl, Python, Regular Expressions, grep, etc.
  - Experience troubleshooting technical issues. Someone with 5 years experience working as a technical support agent in IT or Software.
  - Comfortable working in Windows and Unix environments.
  - Experience working with multiple projects, that can self-direct with minimal guidance.
  - A valid US driver license (this is so they can drive themselves around if the need to go on site).
  - Experience working remotely with client, working over VPN and holding conference calls with client.
  - Required to provide presentations to clients, training them on a product, and communicating with them on issues.
  - Greater than 3 years experience working for a corporation.
  - Flexible about working late hours as this is sometimes required to coordinate with India.
- Preferred:
- Consulting experience, preferably in software.
  - Some experience working with search engines, indexing content, and content management systems.
  - Experience working with Analytics data, particularly around content workflows, content systems, and search.
  - Familiarity with SQL and SQL reports.

## Institute of Information Science, Academia Sinica

### Mandarin; NLP: Assistant Research Fellow, Academia Sinica

<http://linguistlist.org/issues/23/23-242.html>

Rank: Assistant Research Fellow or Above

Posted on: 12-Jan-2012

Deadline: Until Filled

Ling Field(s): Natural Language Processing

Language(s): Chinese, Mandarin

Employer: Institute of Information Science,  
Academia Sinica

Department:

#### Job Description

The Institute of Information Science, Academia Sinica, Taiwan, R.O.C. is recruiting junior and senior research fellows (equivalent to the rank from assistant professors, associate professors, to full professors) on the areas of natural language processing (NLP), in particular, Chinese language processing. All candidates for the position should have a Ph.D. degree in computer science with specialties in NLP, machine learning or semantic processing and with a good research background as well as publication record.

Academia Sinica is the highest national academic research institution in Taiwan. Led by Dr. Chi-Huey Wong, Academia Sinica conducts research on a broad spectrum of subjects in science and humanities. The Institute of Information Science (IIS) is committed to high quality basic research in computer and information science and engineering. We have a strong track record of Chinese NLP, and are considered by many to be a major base for research on traditional Chinese. In addition to research funding supported by Academia Sinica, external funding through government agencies and industry-

sponsored institutions is also available. Full-time research fellows in the Institute have no teaching obligations, and are free to pursue their own research directions. The areas of our current research include Algorithms and Computation Theory, Parallel Computing, Language and Knowledge Processing, Computer Vision and Multimedia Technologies, Bioinformatics, Ubiquitous Computing, Operating Systems and Networking, and other Internet related research. We will also launch a major collaborative research project on Web intelligence and social network.

Salary is based on individual qualifications. Additional salary support from the Advancement of Outstanding Scholarship is available for applicants with exceptional qualifications. Senior candidates must demonstrate strong leadership, and have an international reputation evidenced by publications, patents, industrial practical experience, or other academic and scholarly achievements.

All candidates should send detailed curriculum vitae, copies of selected publications, a doctoral degree certificate or a letter indicating completion of the relevant degree, and at least two letters of recommendation to: Fluency in Chinese would be an advantage. For additional information, please see <http://www.iis.sinica.edu.tw>.

## International Baccalaureate Translation: Spanish Translator, International Baccalaureate, Maryland, USA

<http://linguistlist.org/issues/23/23-1433.html>

Rank: Translator, Spanish Translator  
Posted on: 13-Mar-2012  
Deadline: 14-May-2012  
Ling Field(s): Translation  
Language(s): Spanish  
Employer: International Baccalaureate  
Department: Language Services

#### Job Description

The Language Services department provides language and translation services to the whole of the organization to ensure that support is given in the IB's languages to all external stakeholders including schools, teachers, examiners, governments, universities etc. The department also manages the translation of all the IB's web platforms, including the public web site. The International Baccalaureate is currently looking for a:

#### Spanish Translator

A talented linguist with solid experience, some of which preferably gained in an in-house position, the Spanish Translator's main responsibilities will be to:

- Revise the translations of individual print and online texts produced by external translators and other members of the team to ensure the quality and consistency of Spanish materials

- Translate publications and documents from English into Spanish, including on line material to meet deadlines and quality standards

- Edit and proofread individual print and online publications to ensure the quality and consistency of Spanish materials.

#### Candidate profile:

- University graduate with a qualification in translation
- Solid experience as a translator/reviser, preferably in an in-house position

- Proven translation, editing and revising skills
- Excellent command of English, to be able to interpret correctly and with minimal assistance complex texts
- Excellent command of Spanish, equivalent to that of an educated native speaker
- High level of computer literacy
- Good analytical skills
- Excellent eye for detail
- Good communication and organizational skills
- Able to work independently and proactively, and to meet deadlines
- Aware of linguistic and cultural differences

Experience with CAT tools and good knowledge of other IB languages will be beneficial.

**Location:**

The Language Services department is a global function and has a presence in several sites in the organization. This post will be located in the IB Global Centre in Bethesda, Maryland, USA.

## International Center for Language Studies

### Foreign Lang Division Director, Int'l Center for Language Studies

<http://linguistlist.org/issues/22/22-4859.html>

Rank: Director, Foreign Language Division

Posted on: 05-Dec-2011

Deadline: Until Filled

Ling Field(s): Language Acquisition

Language(s):

Employer: International Center for Language Studies

Department:

**Job Description**

Well-established language training company in the Metro DC area seeks qualified individuals to apply for a position in a highly competitive, fast-paced environment as the Director of its Foreign Language Division. The Director provides leadership for the entire Foreign Language Division, which consists of an administrative staff and over 100 instructors. The Director's responsibilities include the following:

- Managing language training programs which bring adult professionals from the US government and private sector to high levels of language proficiency in speaking, listening and reading.
- Monitoring students' progress and finding solutions to address learning and instructional issues.
- Maintaining close contact with client agencies and ensuring compliance with their contractual requirements, as well as promoting the language programs to develop new clients for the company.
- Overseeing the recruitment, training, and development of instructors who provide job-related proficiency-based language and culture training at all levels, from beginning to advanced, in an intensive immersion-based classroom environment.
- Overseeing language proficiency testing.
- Overseeing the design of new courses and/or

extensive revisions to existing training courses.

The successful Candidate will be an energetic, enthusiastic individual who has:

- Supervisory and management experience at a commensurate level, able to work with limited direction on sometimes ambiguous tasks. The ability to effectively manage time, multiple priorities and projects is essential.

- Excellent interpersonal and written communication skills, able to manage and resolve conflict. Demonstrated ability to help adult professionals resolve problems is highly desirable.

- A Master's Degree. A degree in Teaching, Linguistics, Education, or a related field is preferred, but other subjects are acceptable if relevant experience can be demonstrated.

- Familiarity with current best practices in all aspects of foreign language teaching methodologies, e.g. curriculum design, teacher training, classroom pedagogy, and materials development.

- Familiarity with Federal Government contracting procedures, especially for the Department of Defense and the GSA schedule

- Experience learning a foreign language, preferably as an adult, and proficiency in at least one language other than English. Having lived overseas is also desirable.

- Knowledge of ILR proficiency levels, as well as familiarity with proficiency-based language testing formats.

- The ability to work in a multicultural setting.

Prior management and supervisory experience is of primary importance. Based on the candidate's experience and qualifications, salary range can be expected to be \$70,000 - \$85,000.

## Janya Inc.

### Various Languages; Multilingual

### Development: Manager, Janya Inc.

<http://linguistlist.org/issues/23/23-992.html>

Rank: Manager  
Posted on: 27-Feb-2012  
Deadline: Until Filled  
Ling Field(s): Discourse Analysis  
Multilingual Solutions  
Language(s):  
Employer: Janya Inc.  
Department:

#### Job Description

Janya Inc., located in suburban Buffalo, New York, is a leader in semantic technology pertaining to natural language processing, machine learning, information extraction and text mining. We are seeking a computational linguist to serve as manager of Janya efforts to support text and data analysis in languages other than English.

The candidate will (i) lead a small but growing team working to enhance multilingual processing capabilities of Janya technologies, (ii) will participate in government sponsored research and development efforts, (iii) will directly support product enhancements to Janya platforms by adding new language processing capabilities; and (iv) will represent Janya in engagements with customers and partners.

This position will be based in Buffalo, NY or Washington, DC. Salary will be commensurate with education and experience. Janya offers a

generous benefits package that includes health insurance, 401 (k) plan and vacation time.

#### Requirements:

- PhD or Masters degree in Computer Science or Linguistics

- 3-5 years hands-on experience in development or support of Natural Language Processing systems

- Expertise in programming required

- Expertise in discourse-level processing and/or semantics is required
- Fluency in Chinese, Arabic, Spanish, French, Portuguese, or another language other than English
- Linux and Windows development experience
- US citizenship
- Must possess or be able to obtain a US Security Clearance
- Expertise in corpus-based, empirical, machine learning approaches to language is highly desirable

For immediate consideration, please send your resume to

careers@janya.com. Janya is an Equal Employment Opportunity

employer.

Important: The subject field of your email must include Manager, Multilingual Development.

## Lancaster University, UK

Social Psychology of Language:

Lecturer/Asst Prof, Lancaster U

<http://linguistlist.org/issues/23/23-775.html>

Rank: Lecturer/Assistant Professor  
 Posted on: 15-Feb-2012  
 Deadline: 13-Apr-2012  
 Ling Field(s): General Linguistics  
 Psycholinguistics  
 Social Psychology of Language &  
 Communication  
 Language(s):  
 Employer: Lancaster University, UK  
 Department: Psychology

## Job Description

Lecturer in the Social Psychology of Language and Communication We wish to appoint a Lecturer in the Social Psychology of Language and Communication who will join our newly established Centre for Social and Cognitive Research in the Public Interest (SCORPIO). This Centre has a core complement of 12 members of academic staff, including social, forensic and cognitive psychologists. All members of the Centre conduct theoretically informed research that addresses societal concerns in areas such as criminal justice, skill acquisition, behavioural economics, collaborative decision-making, educational enhancement and social inclusion. The Centre is keen to appoint an individual who will strengthen research in one or more of its current research units:

- The Social Interaction & Social Cognition Unit
- The Knowledge & Skills Unit
- The Investigative Expertise Unit

You should be an excellent researcher with a proven track record of high- quality publications and evidence of engagement with securing external research funding. You will join a strong academic team and will play an important role in addressing Lancaster's ambition to retain its position as a top 10 UK university and to achieve its goal of becoming one of the world's top 100 institutions. Working to enhance Lancaster's distinctive ethos of innovative thinking and interdisciplinary collaboration, you will contribute excellent research and teaching to strengthen the reputation of the SCORPIO Centre and the Psychology Department.

The SCORPIO Centre is well resourced, with excellent testing facilities including eye-tracking equipment, 3D movement registration systems and audio-visual recording laboratories. The Centre is also developing a state-of-the-art interviewing facility. The Centre has strong links with a range of regional and national agencies, especially in relation to security, law enforcement, criminal justice and education. Members of the Centre also work closely with other departments within the University, including Computing & Communications, Linguistics, Economics, Educational Research, Law and Management Science. The SCORPIO Centre

additionally has strong collaborative links with other regional, national and international universities.

The quality of the Department's international research is mirrored by the quality of its teaching (e.g., The Telegraph currently features Lancaster as a top-10 UK undergraduate psychology course). The Department's post-graduate provision is thriving and includes ESRC-recognised PhD and Masters programmes. The Department's undergraduate community is likewise extremely buoyant. We offer a supportive and collegiate environment, with moderate and carefully managed teaching and administration loads.

Informal enquiries can be made to the Head of Department, Dr Linden J Ball ([l.ball@lancaster.ac.uk](mailto:l.ball@lancaster.ac.uk)), the Director of the SCORPIO Centre, Prof Tom Ormerod ([t.ormerod@lancaster.ac.uk](mailto:t.ormerod@lancaster.ac.uk)) or the Coordinator of the Social Interaction & Social Cognition Unit, Prof Susan Condor ([s.condor@lancaster.ac.uk](mailto:s.condor@lancaster.ac.uk)). Further information about the Department is available at <http://www.psych.lancs.ac.uk>

Salary: £31,948 to £35,938.

For more information see <https://hr-jobs.lancs.ac.uk/Vacancy.aspx?id=875>

## Language Computer Corporation NLP: Research Scientist, Language Computer Corporation

<http://linguistlist.org/issues/23/23-809.html>

Rank: Researcher  
Posted on: 16-Feb-2012  
Deadline: Until Filled  
Ling Field(s): Natural Language Processing  
Language(s):  
Employer: Language Computer Corporation  
Department:

## Job Description

We are seeking a Ph.D-level research scientist for R&D in natural language processing and retrieval. Successful candidate will manage all aspects of research including proposal writing, conducting novel research, reporting, presenting, and publishing. Candidate will also work with a team of researchers and engineers to improve existing products and develop brand new technologies.

### Requirements:

- Ph.D in NLP or a related discipline, such as computational linguistics, machine learning, or artificial intelligence
- Track record of relevant publications in peer-reviewed conferences and journals
- Knowledge of state-of-the-art methods coupled with the creativity and intelligence to advance it
- Leadership abilities necessary to head projects
- Strong programming skills

### Desirable Qualities:

- BS or MS in Computer Science
- Industry R&D experience
- Expertise in Machine Learning and Bayesian modeling
- Experience programming in the Java platform

Language Computer Corporation (LCC) is a privately-owned company committed to the development of next-generation natural language processing technologies. Since our founding in 1995, we've provided both government and commercial customers with intelligent, semantically-informed search and discovery software. We unlock value by creating tools that actually understand the information in large collections of text.

Please submit your resume and a 1 page statement detailing the advances you have made to your field.

## Leapforce Inc.

### Multiple Langs; Web Research: Search Engine Evaluator, Leapforce

<http://linguistlist.org/issues/23/23-494.html>

Rank: Search Engine Evaluator  
 Posted on: 30-Jan-2012  
 Deadline: Until Filled  
 Ling Field(s): Web Research  
 Language(s): Arabic, Standard Chinese, Mandarin English German Portuguese  
 Employer: Leapforce Inc.  
 Department:

### Job Description

Leapforce is looking for highly educated individuals for an exciting work from home opportunity. Applicants must be self motivated and internet savvy. This is an opportunity to evaluate and improve search engine results for one of the world's largest internet search engine companies. Search Engine Evaluators will need to combine a passion for analysis with an understanding of various online research tools. Applicants must be detail oriented and have a broad range of interests.

Ideal Search Engine Evaluators will possess the following skills:

- Have in-depth, up-to-date familiarity with American social culture, media, and web culture
- Excellent comprehension and written communication skills in English
- Broad range of interests, with specific areas of expertise a plus
- University degree or equivalent experience (degrees in-progress are acceptable). Advanced degrees a plus
- Excellent web research skills and analytical abilities.
- Ability to work independently under minimal supervision

- Possess a high speed internet connection (DSL, Cable Modem, etc.) Search Engine Evaluators provide feedback on search engine results by measuring the relevance and usefulness of web pages in correlation to predefined queries, by providing comparative analysis of sets of search engine results and various other techniques.

All candidates are required to take and pass a two-part qualification exam before becoming a Search Engine Evaluator. Part 1 of the exam contains 32 theory based questions. Part 2 of the exam contains 144 simulated evaluation tasks. Supplied study materials can be used during both parts of the exam.

Please Note: We are unable to offer more than one Search Engine Evaluator position per household.

To apply, please visit the application URL below.

## Leiden University

### English; General Linguistics: 3 PhD

### Students, Leiden University

<http://linguistlist.org/issues/23/23-595.html>

Rank: 3 PhD Students  
Posted on: 31-Jan-2012  
Deadline: 15-Mar-2012  
Ling Field(s): General Linguistics  
Language(s): English  
Employer: Leiden University  
Department: Leiden University Centre for  
Linguistics

#### Job Description

Three PhD students 'Bridging the Unbridgeable: Linguists, Prescriptivists and the General Public'

The project, which started on 1 September 2011 and will run until 31 December 2016, is led by Prof. I.M. Tieken-Boon van Ostade

(<http://hum.leiden.edu/lucl/hison-conference/organising-committee/ingrid-tieken.html>). For more information on the project, see:

<http://bridgingtheunbridgeable.com/>. Specific details on

the nature of the 3 PhD projects will be sent to interested candidates upon request. The candidate will be expected to:

- Conduct original research on a topic specified within the context of the relevant research project (see a. or b. above)
- Write a PhD thesis
- Submit research results for publication in peer-reviewed academic journals
- Present papers at (international) conferences
- Do some teaching in the second and third year of the appointment
- Participate in activities in the relevant research project as well as within LUCL as a whole

The candidate should have:

- Master's or equivalent degree in a relevant field (the MA thesis should be completed before the start of the appointment)
- An inquisitive, enterprising and creative mind and excellent analytical skills, evidence of which should emerge from the MA thesis
- Good English writing and presentation skills
- The ability to work both independently and as part of a research team We offer:

The appointment as a PhD student will be for a period of four years (initially for a period of 18 months with an extension of 30 months after positive evaluation of progress and skills development) leading to a successful completion of a PhD thesis. The gross monthly salary is set on EUR 2.042,00 in the first year increasing monthly to EUR 2.612,00 gross per month in the final year. See website for further details.

Applicants are kindly requested, in the specified format, to submit the following documents electronically (in English):

1. A letter stating your motivation for the position, including a stated and motivated preference for the relevant project as well as for the specific PhD topic

within that project

## 2. CV

3. Contact details of two academic references. One of these should be your MA thesis supervisor

4. A three-page discussion of the subject of the selected PhD topic, in which you should address the following issues:

- a. Why this particular topic is of interest to you
- b. The methodology you will expect to adopt

c. The aims of the research in the context of the wider research project 5. Copies of your academic transcripts (Dutch cijferlijst)

6. Copy of your MA thesis, and any other publication(s) in English that may be illustrative of your research qualities

Please submit these documents in two files:

1. Containing documents 1 to 4 ( PDF or Word file), using your last name underscore 1 as document name (e.g., BROWN\_1.pdf)
2. Containing documents 5 and 6 (PDF or Word file), using your last name underscore 2 as document name (e.g., BROWN\_2.pdf)

Applicants should submit their application before 15 March 2012 to [vacatureslucl@hum.leidenuniv.nl](mailto:vacatureslucl@hum.leidenuniv.nl), indicating the vacancy number 12-009. Selected candidates will be invited for an interview in the week of 14 May 2012. You are kindly requested to be available in this period.

## Mango Languages American Sign Lang; Course Development: Teacher, Mango Languages

<http://linguistlist.org/issues/22/22-5125.html>

Rank: Teacher  
Posted on: 19-Dec-2011  
Deadline: Until Filled  
Ling Field(s): Language Acquisition  
Course Development  
Language(s): American Sign Language  
Employer: Mango Languages  
Department: Human Resources

### Job Description

A course developer uses their native-language expertise to develop an entire on-line language course while working in cooperation with team members until course is successfully completed.

#### Responsibilities:

- Create lessons based on relevant and real conversations. A course developer is responsible for creating a language course that teaches practical and pragmatic lessons based on real conversations using company software and methodologies. Content will need to be precise and comprehensive, teaching language and culture by producing an optimal and natural language learning experience for the student.

- Ensure exceptional translations. The course developer must be an excellent translator who provides literal translations, understood meanings and idiomatic expressions where necessary.

- Create original culture and grammar notes to accompany lessons. In addition to the conversation, the developer will include grammar and culture notes that provide the student with insightful explanations of culture and grammar when needed.

#### Requirements:

- Native Speaker: Course developers must be native speakers of ASL, which includes a thorough understanding of grammar, culture, and idiomatic expressions.

- Fluent in English. The courses are developed for English speakers. Full understanding and fluency of the English language and its grammar is needed for course creation.

- Bachelor's Degree in Teaching ASL as a Foreign Language, Second Language Acquisition, Linguistics or Foreign Language Teaching.

- 2 Years ASL Language Teaching Experience Preferred.

- Flexible scheduling: All work will be done online. Need to have availability of a minimum of 20 hours a week.

- Ability to work well with other team members.

- Reliable internet connection and basic computer skills.

- Excellent time management and communication skills.

Please include cover letter with resume when applying for this position.

## Meertens Instituut Dutch; Phonology: PhD Position, Meertens Instituut, Netherlands

<http://linguistlist.org/issues/23/23-246.html>

Rank: PhD Position  
Posted on: 13-Jan-2012  
Deadline: 12-Feb-2012  
Ling Field(s): Phonology  
Language(s): Dutch  
Employer: Meertens Instituut  
Department: Variationist Linguistics

## Job Description

The Meertens Instituut is a research institute of the Royal Netherlands Academy of Arts and Sciences, focusing on research and documentation of Dutch language and culture.

The Department of Variation Linguistics at the Meertens Institute offers a PhD position in phonology, as part of the programme 'The Life Cycle of Liquids', an internal research project at the Meertens Instituut. This programme studies different aspects of ongoing and past changes in the behaviour of the Dutch liquids /l/ and /r/, and does so in a perspective which combines phonological theory, sociolinguistics and phonetics or experimental linguistics. The researchers include Ben Hermans, Frans Hinskens and Marc van Oostendorp. A more complete description of the project can be found on the website.

The PhD project will concentrate on the question what is the phonetic substance that phonological primes (features, elements) refer to, e.g., whether it is articulatory or acoustic in nature, or rather 'substance-free'; whether it is exemplar-based or more abstract, etc. The PhD will collect experimental data from Dutch speakers in different regions and will try to assess them within the framework of modern phonological theory and sociolinguistics.

The PhD project includes writing a dissertation within a maximum position duration of 3.5 years. It also involves research training, such as graduate courses offered by the Dutch National Graduate School in Linguistics (LOT).

Applicants should have:

- A Master's degree (or equivalent) in linguistics, phonetics, sociolinguistics or a related field
- Demonstrable knowledge in at least one of the following areas: prosody, phonetics, phonology, sociolinguistics, experimental linguistics; knowledge in more than one of these areas is highly desirable; interest in all of them is essential
- Excellent command of English, both spoken and written
- High proficiency in Dutch, or willingness to acquire this very fast
- The ability to quickly learn the use of experimental

methods (e.g. involving ultrasound) and new methods of data analysis

- The willingness to work in a closely collaborating team
- The ambition to pursue an academic career in an internationally oriented scientific community

Work conditions:

We offer a full-time PhD-position (38 hours/week) for 3,5 years (preferred starting date: April 2012). The starting salary will be EUR 2042,- gross per month in the first year up to EUR 2612,- gross per month in the last year. Favorable conditions of employment include holiday allowance and flexible working hours. Also, there will be opportunities to visit national and international conferences and workshops, summer schools etc.

Applications should include:

- CV (including contact and personal details)
- A letter of motivation
- Academic transcript
- A sample of written work (e.g. a copy of the MA thesis, a term paper, or a published article)
- Contact details of two referees (names, affiliations, phone numbers, and e-mail addresses)
- Two reference letters (optional)

Job interviews, live or Skype, are expected to take place in the first week of March.

Experience working collaboratively with secondary and/or primary teachers of Chinese to strengthen articulation throughout the language learning sequence is preferred. Familiarity with communicative language teaching is a must and the person will benefit from a supportive language community that includes the Center for Language Teaching Advancement, a strong Second Language Studies doctoral program, world-renowned study abroad initiatives and the Asian Studies Center. We welcome applicants whose research would especially benefit from collaborative opportunities in an interdisciplinary work environment. Teaching responsibilities will include Chinese language courses in the Chinese Program, including a descriptive course on Chinese language for teaching purposes. This position requires a dynamic person with strong management skills and scholarly interest in language teaching and learning, including the use of multimedia. Review of applications will begin December 1, 2011 and will continue until the position is filled.

Letters of reference should be sent by the writers to Thomas Lovik at the application email address below.

### Psycholinguistics: Assistant Professor, Michigan State University

<http://linguistlist.org/issues/22/22-4841.html>

Rank: Assistant Professor  
 Posted on: 05-Dec-2011  
 Deadline: Until Filled  
 Ling Field(s): Psycholinguistics  
 Language(s):  
 Employer: Michigan State University  
 Department: Linguistics and Languages

#### Job Description

The Department of Linguistics and Germanic, Slavic, Asian and African Languages at Michigan State University seeks to fill a tenure-system appointment in Psycholinguistics at the Assistant Professor level to begin August 16, 2012. A Ph.D. in Linguistics, Psychology, or a closely related field is required by time of appointment. Candidates should be able to demonstrate the relevance of their research interests to other areas of linguistics, such as phonology, syntax, formal semantics, language acquisition, sociolinguistics or neurolinguistics. We especially welcome candidates whose research is crosslinguistic in nature.

This position will complement strengths in formal and experimental linguistics in the Linguistics Program. The successful candidate should have a record of publication and/or presentations, expertise in adult language processing (comprehension or production), and outstanding potential to obtain external funding. We seek applicants who can contribute to collaborative research and teaching across subdisciplines within linguistics and to interdisciplinary research in Cognitive Science. The position holder will benefit from the interdisciplinary MSU Cognitive Science Program, which fosters scholarship and research that transcends traditional disciplinary boundaries in the pursuit of the nature of mind, and provides a structure for graduate training designed to produce new scholars and scientists in the field. Contributions to the linguistics curriculum at both the graduate and undergraduate level are expected, as well as the ability to teach an introductory course in Cognitive Science.

Review of applications will begin December 31, 2011 and will continue until the position is filled. For more

information contact Alan Munn, Chair of the Search Committee (email address below). Applications must be submitted electronically to the Michigan State Human Resources web site (application URL below; posting #5543). Applicants should submit a CV and a letter describing research and teaching interests as well as the names and email addresses of 3 potential referees.

MSU is an affirmative action, equal opportunity employer. MSU is committed to achieving excellence through cultural diversity. The University actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities.

## Michigan State University

### Chinese Language and Culture: Rank Open, Michigan State U

<http://linguistlist.org/issues/22/22-4287.html>

Rank: Rank Open  
 Posted on: 28-Oct-2011  
 Deadline: Until Filled  
 Ling Field(s): Chinese Language and Culture  
 Language(s): Chinese, Mandarin  
 Employer: Michigan State University  
 Department: Linguistics and Germanic, Slavic,  
 Asian, & African Languages

### Job Description

Michigan State University, a leader in global education is pleased to invite applications (open rank) for our growing Chinese language and culture program. The ideal candidate will provide strong, innovative leadership for the Chinese Program in the Department of Linguistics and Germanic, Slavic, Asian and African Languages in the College of Arts & Letters beginning August 16, 2012. Rank and salary are commensurate with experience. PhD required. We seek a dynamic faculty member with primary interests and extensive experience in the teaching and learning of Chinese culture with a commitment to innovative language study. Experience with a variety of teaching methods and curricular perspectives is desirable. The successful candidate will benefit from a rich supportive language and culture community that includes the Center for Language Teaching Advancement, a strong Second Language Studies doctoral program, world-renowned study abroad initiatives, a wide variety of cross-disciplinary initiatives led by MSU's Office of China Programs, a Confucius Institute in the College of Education, and the Asian Studies Center. We welcome applicants whose research would especially benefit from collaborative opportunities in an interdisciplinary work environment and who have a good record of obtaining external funding. Strong interest in fostering collaborative opportunities and strategic partnerships with key Chinese research and educational institutions as well as an interest in building cultural, economic and civic bridges between China and the State of Michigan is expected.

Teaching responsibilities will include Chinese language and culture courses in the Chinese Program, as well as Integrated Arts and Humanities or Global Studies courses on Chinese or Asian culture in the global context. Applicants should submit: a current CV, writing sample, statement of research interests, statement of teaching philosophy, and three letters of reference. Applicants who are not U.S. citizens or permanent residents must provide

documentation evidencing employment authorization in the United States. Review of applications will begin November 7, 2011 and will continue until the position is filled. In addition to applying online, send all materials to the application address below. Persons with disabilities have the right to request and receive reasonable accommodation.

All applications for this positions (#5366) must be

submitted electronically at the Michigan State Human Resources website, see application URL below. MSU is an affirmative action, equal opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities.

## Michigan State University Communicative Sciences & Disorders: Open Rank Faculty Search, Michigan State U

<http://linguistlist.org/issues/23/23-1028.html>

Rank:	Rank Open
Posted on:	28-Feb-2012
Deadline:	Until Filled
Ling Field(s):	Communicative Sciences and Disorders
Language(s):	
Employer:	Michigan State University
Department:	Communicative Sciences and Disorders

### Job Description

The Department of Communicative Sciences and Disorders at Michigan State University seeks to fill a faculty position with an individual committed to developing an outstanding program of research and teaching. The ideal candidate will be an energetic teacher/scholar who is excited at the opportunity to join an innovative and growing department.

This position is tenure system at Assistant, Associate, or Full Professor rank. Qualifications of preferred candidates include a Ph.D. in communicative sciences and disorders or a related discipline, and distinguished scholarship with emphasis on basic or clinical research in speech-language disorders. Candidates must demonstrate success (or the promise of success) in obtaining external funding for their research and the potential for multidisciplinary collaboration.

The Department of Communicative Sciences and Disorders

(<http://comdis.msu.edu>) is housed within MSU's world-renowned College of Communication Arts and Sciences and is located in East Lansing, Michigan. The College of Communication Arts & Sciences at Michigan State University, established in 1955, was the first such college in the country. Today, with more than 4,000 students, it is one of the largest and most respected. The college combines a research-intensive faculty with a strong professional mission to prepare students for rewarding careers and emerging technologies.

To apply for this position, please refer to posting #5885 and complete an electronic submission at the Michigan State University Employment Opportunities website <https://jobs.msu.edu>. Applicants should submit electronically a cover letter summarizing qualifications for the position, a vita, and the names and addresses of three references. Please direct inquiries about this position to Professor Brad Rakerd, contact information below. The search committee will begin its evaluation of applicants April 15, 2012, and will continue until an exceptional candidate is selected. MSU is an affirmative action, equal opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans, and persons with disabilities.

## Microsoft

### Computational Linguistics: Internship, Microsoft

<http://linguistlist.org/issues/22/22-4611.html>

Rank: Internship  
 Posted on: 16-Nov-2011  
 Deadline: Until Filled  
 Ling Field(s): Computational Linguistics  
 Language(s):  
 Employer: Microsoft  
 Department: Language Technology Team

#### Job Description

Would you like the opportunity to contribute to Microsoft Natural Language technology development? Are you interested in Natural Language Processing and Computational Linguistics? Do you know what an

agglutinative language is and how it differs from other languages? If so, we might just have the position for you.

The Language Technology Team (LTT) is a member of Information Worker division of Microsoft responsible for providing Proofing Tools to several Microsoft applications including Microsoft Office.

Our team is looking for a person that will help to evaluate the specifications of proofing tools, conduct linguistic tests on newly created proofing tools and support vendors creating these tools. If you have a passion for language and technology, this is an ideal opportunity to gain experience in the world of computational linguistics.

We also have a position available in Office Online focused on language technology integration in the global content delivery and translation process. Here we look at machine translation & post-editing, multilingual search, controlled language and translation memory.

#### Responsibilities:

- Review Linguistic documents/specifications for Spellers, Grammar Checkers, Thesauri and Hyphenators

- Work alongside linguistic vendors and Natural Language Group in US to determine the quality of the Proofing Tools

- Support vendors with linguistic issues/linguistic tool support and drive issues to resolution

- Look to improve linguistic processes within the project

- Work on Machine translation, translation memory and controlled language integration, validation and testing

- Conduct research and pilots into novel uses of language technology in translation and develop prototype tools and solutions

#### Requirements:

- Current student of linguistics, computational linguistics or computer science which includes natural language processing

- Good communication skills are a must, both written and verbal

- Good programming skills. Some knowledge of any of the following languages: C#, Java, Visual Basic.Net or C++

- Fluency of a foreign language would be advantageous but not essential Note: This position is open for European Union Citizens undergraduate, graduate and post-graduate students that have the ability to take a break in their studies. The standard duration is 12 months but shorter time periods can also be considered. You must be returning to full-time study after the completion of the internship, the position is not open to applicants who have already completed their degree, or will do so before the start of the internship.

To apply please send your CV and Cover Letter to the application email address below.

## Microsoft

### Computational Linguistics: International Project Engineer, Microsoft

<http://linguistlist.org/issues/23/23-1138.html>

Rank: International Project Engineer  
Posted on: 06-Mar-2012  
Deadline: 16-Mar-2012  
Ling Field(s): Computational Linguistics  
Language(s):  
Employer: Microsoft  
Department: Language Technology Team

#### Job Description

Would you like the opportunity to contribute to Microsoft Natural Language technology development? The Language Technology Team (LTT) is

responsible for providing Proofing Tools (Spell Checking, Grammar Checking, Thesauri and Hyphenators) to Microsoft Office and other Microsoft products and services.

We are looking for a talented computational linguist to help design, build and evaluate the next generation of high quality intelligent productivity software in a significant number of languages markets. We are passionate about leveraging state of the art techniques to deliver exciting natural language related technologies to benefit millions of customers across the globe.

Our team is looking for a person that will help evaluate current Proofing Tools, contribute to their development and assist in developing new proofing tools. We are looking for a highly self-motivated candidate with an experienced background in computational linguistics, who is energetic and can help us deliver new features.

If you're excited by what you have read so far, we want to hear from you. Contact us today!

#### Qualifications:

- BA/BS in Computational Linguistics or related discipline
- 4+ years of industry experience with a demonstrable understanding of the product life cycle

- Demonstrable organisational, problem solving, and prioritisation skills

- Good communication skills (written and verbal), strong linguistics aptitude, and coding proficiency

Additional, preferred qualifications include:

- Experience developing, debugging and maintaining code in C, C++, C#, or Java

- Experience shipping one or more medium to large scale products

- Experience with 1+ full product life cycles

## Microsoft Corporation

### Comp Ling; Int'l Project Engineer 2, Microsoft Corporation

<http://linguistlist.org/issues/22/22-4026.html>

Rank: International Project Engineer 2  
Posted on: 13-Oct-2011  
Deadline: Until Filled  
Ling Field(s): Computational Linguistics  
Language(s):  
Employer: Microsoft Corporation  
Department: Microsoft Office Division - Natural Language Group

#### Job Description

Do you have a passion for language and technology? Do you love figuring out how to apply the latest research in practical ways? Do you want to provide groundbreaking user experiences to a worldwide audience?

The Natural Language Group (NLG), part of the Office

Division, is looking for a talented computational linguist to help design, build and evaluate the next generation of high quality intelligent productivity software in a significant number of languages markets. NLG ships features in a wide range of products. We are passionate about leveraging state of the art techniques, like Machine Learning, to deliver exciting natural language related technologies in the Office ecosystem to benefit millions of customers across the globe. If you share that passion, you are a great candidate for the NLG team!

This position offers a great opportunity to join a talented engineering team at the forefront of developing natural language technology for Microsoft products. We have expertise in shipping software with high linguistic quality for multiple languages in areas such as spellchecking, grammar checking, statistical language models and other data-driven approaches, e-mail prioritization, named entity recognition, and much more.

Required qualifications include:

- Advanced degree in Computational Linguistics, Linguistics, or related technical field
- 2 years of experience using C++ and/or C#
- 1 year of software industry experience
- Familiarity with the literature in the areas mentioned above
- Detail-oriented, results-driven individual with strong cross-group collaboration and strong communication skills
- Demonstrated ability to generate new ideas and innovate

The following qualifications are preferred:

- Native proficiency in a language other than English
- Experience developing or evaluating commercial or high-quality research software
- Experience developing GUI tools

## Morehead State University General Ling; Semantics; Socioling: Asst Prof, Morehead State U

<http://linguistlist.org/issues/22/22-4964.html>

Rank: Assistant Professor  
Posted on: 08-Dec-2011  
Deadline: Until Filled  
Ling Field(s): General Linguistics  
Semantics  
Sociolinguistics  
Language(s): English  
Employer: Morehead State University  
Department: English

### Job Description

Morehead State University, recognized as one of the top public universities in the South by U.S. News & World Report, is accepting applications for a tenure-track position as an Assistant Professor of English in the Department of English beginning August 2012. Salary is commensurate with qualifications and experience.

Responsibilities: Expertise in either semantics or sociolinguistics; ability to teach semantics, sociolinguistics, and composition with a load of four courses per semester; interest in teaching undergraduate and graduate courses, both face-to-face and on-line; interest in aiding the department, college and the university through service commitments and collegiality; interest in aiding the department in recruitment, retention and graduation of majors.

Qualifications: The qualified applicant will have earned a Ph.D. in Linguistics by August 2012 and show evidence of ability to teach and advise at the college level.

Desired Qualifications: Ability to teach History of English, knowledge of Old English. Review of applications will begin January 23, 2012 and will continue until position is filled.

To apply, visit the application URL below to complete the MSU Application for Employment and to upload/attach a cover letter addressing how your qualifications fit the position, a curriculum vitae, a writing sample (no more than 10 double-spaced pages; may be an excerpt of longer work), three letters of reference, and an unofficial transcript of graduate coursework. Files can be attached to

your MSU Application for Employment after submission by visiting the Applicant Home Page and clicking on 'Manage Uploads.' Contact the Office of Human Resources at (606) 783-2097 with questions about uploading documents. Morehead State University is an EO/AA educator and employer with a strong commitment to community engagement.

Department: NLP & Computational Linguistics

### Job Description

\*\*Please note that this position was posted by a third-party recruiter operating on behalf of a company who has asked him not to advertise their name. He can and will openly give interested parties this information directly, but not publicly. Please send an email to the email address below arrange a time to speak with Mr. Gallimore.\*\*

Formed in 2011, this start-up aims to bring a concise and efficient web browsing experience to mobile and desktop devices through its innovative summarization technology.

Based on Machine Learning and NLP techniques, this solution has generated significant amounts of press and industry attention and has resulted in the capture of significant funding. We are now looking for a hands-on technologist/CTO to drive the product's development and help create a fully licensable, enterprise-grade summarization technology. Responsibilities:

- Take a lead role in the design and development of current and future iterations of this product

- Take a lead role in the development process and roadmap for this product

- Lead a team of developers working to continually enhance and improve this product

Qualified candidates will:

- Have extensive coding experience, preferably in a commercial environment (specific languages not important)

- Have an understanding of what it takes to develop and release a successful commercial product

- Have an extensive understanding of Natural Language Processing and Machine Learning techniques

Any experience or knowledge of summarization would be a significant plus, but is far from a prerequisite.

Language(s): English  
Employer: Nanyang Technological University  
Department: College of Humanities, Arts, and  
Social Sciences

Job Description

The College of Humanities, Arts, and Social Sciences,  
Nanyang

Technological University, Singapore, invites applica-  
tions for up to 11 postdoctoral fellowships for Academic  
Year 2012.

The College comprises 3 Schools: Humanities and  
Social Sciences; Art, Design, and Media; and Wee Kim  
Wee School of Communication and Information.

This year, one fellowship will be available at the  
School of Humanities and Social Sciences in Linguistics  
and Multilingual Studies for:

- Sociolinguistics in Singapore
- Research in bilingualism, multilingualism and  
language contact in Singapore, including studies on  
Language Variation, Language and Identity, Language  
and the Elderly, Language Maintenance and Shift Super-  
visor: A/P Francesco Cavallaro

The successful applicant will work closely with the  
listed faculty supervisor. For details of the School/Divi-  
sion, please visit:

<http://linguistics.hss.ntu.edu.sg/Pages/default.aspx>

Application:

Applicants should possess a doctoral degree issued no  
more than 3 years prior to the time of application. Applica-  
tions must be submitted in one single document  
(Microsoft Word format) using the official application  
form, which can be downloaded at

[http://cohass.ntu.edu.sg/Research/Pages/PostdoctoralFello  
wships2012.aspx](http://cohass.ntu.edu.sg/Research/Pages/PostdoctoralFello<br/>wships2012.aspx)

Please send completed application forms to:

Associate Dean (Research)

Email: [AD-HASS-RESEARCH@ntu.edu.sg](mailto:AD-HASS-RESEARCH@ntu.edu.sg)

Applications must reach the College by April 2, 2012.

Further Information:

Postdoctoral fellowships are for one year, renewable  
for a second year, subject to satisfactory performance.  
Postdoctoral fellows may be required to assist in teaching,  
up to the equivalent of one semester-based course per  
academic year.

Nanyang Technological University, Singapore, consist-  
ently ranks among the top 100 universities in the world in

## Nanyang Technological University Sociolinguistics: Post Doc, Nanyang Technological University

<http://linguistlist.org/issues/23/23-1303.html>

Rank: Post Doc  
Posted on: 14-Mar-2012  
Deadline: 02-Apr-2012  
Ling Field(s): Sociolinguistics  
Language(s):  
Employer: Nanyang Technological University  
Department: Linguistics and Multilingual  
Studies

### Job Description

A postdoctoral position is available for a researcher to participate in ongoing projects on bilingualism, multilingualism and language contact in Singapore. The ongoing projects include studies on Language Variation, Language and Identity, Language and the Elderly, Language Maintenance and Shift. These projects are based in Singapore and its geographical region. The successful applicant is expected to work on one or more of the projects listed above.

This is a unique opportunity for a self-motivated and enthusiastic individual to tap into the School of Humanities and Social Sciences's multidisciplinary research strengths, to work in a multilingual and multicultural environment and to be part of a dynamic research team.

Candidates will need a PhD in linguistics, preferably with a specialization in sociolinguistics, and previous experience of undertaking research based on linguistic and survey data. Preference will be given to candidates with the ability to manage large data sets and able carry out quantitative data analysis. More details about the department can be found at:

<http://linguistics.hss.ntu.edu.sg/Pages/default.aspx>

Language(s): Japanese  
Malay  
Employer: Nanyang Technological University  
Department: School of Humanities and Social  
Sciences

### Job Description

Nanyang Technological University, Singapore

School of Humanities and Social Sciences (HSS)

Lecturer in Japanese or Malay (3 years renewable contract)

The School of Humanities and Social Sciences, Nanyang Technological University (NTU) is seeking to appoint a Lecturer in Japanese and a Lecturer in Malay in the newly established Centre for Modern Languages. Applicants who have experience in coordinating courses as well as developing and using multimedia course materials will have an advantage. We are seeking two experienced lecturers with a serious commitment to teaching Japanese or Malay to tertiary students, developing pedagogical materials and incorporating technological innovations into the curriculum. Selection Criteria:

- Postgraduate qualification in a relevant area
- Native or near native proficiency in written and spoken Japanese or Malay
- Experience and demonstrated excellence in teaching Japanese or Malay, preferably at tertiary level
- Experience in developing Japanese or Malay materials, including web-based materials
- Experience with multimedia and computer-based

instructional technologies

- Good command of English

The School currently offers electives in ten modern languages (Arabic, Chinese, French, German, Japanese, Korean, Malay, Spanish, Thai and Vietnamese) and there are plans to increase the number of languages offered in the Centre. The Centre places great importance on enhancing the intercultural knowledge and skills of the learners as well as their linguistic competence.

For further information about the current Modern Language Electives, please refer to the following website:

<http://cml.hss.ntu.edu.sg/AboutCML/Pages/Introduction.aspx>

To apply, please refer to the Guidelines for Submitting an Application for Faculty Appointment

(<http://www.ntu.edu.sg/ohr/Career/SubmitApplications/Pages/Faculty.aspx>) and send your application letter, curriculum vitae (including records of innovative curriculum development and teaching experience), teaching statement, and the names and contact details of at least three referees to the application address, application email address, or fax number below. Enquiries about the position can be addressed to:

## National Chiao Tung University

### Phonology: Assistant Professor or

### Above, National Chiao Tung U

<http://linguistlist.org/issues/23/23-112.html>

Rank: Assistant Professor or Above  
Posted on: 05-Jan-2012  
Deadline: Until Filled  
Ling Field(s): Phonology  
Language(s):  
Employer: National Chiao Tung University  
Department: Department of Foreign Languages & Literatures

#### Job Description

The Department of Foreign Languages and Literatures at National Chiao Tung University invites applications for one full-time tenure-track position in phonology until the vacancy is filled. The position is tenable from August 1, 2012.

Applicants should have in hand a Ph. D degree in linguistics before August 1, 2012. Special consideration will be given to applicants whose research can be integrated with the existing strengths of the Linguistics section of the Department.

Regular duties include graduate and undergraduate teaching, research, student advising, as well as Institute, Department, and College service assignments as required of University faculty members.

Applicants should send the following to the application address below: 1) curriculum vitae

- 2) copies of representative publications
- 3) photocopy of diploma
- 4) research summary and teaching portfolio
- 5) two letters of recommendation

## 6) transcripts

(5 & 6 are optional for applicants with Associate Professorship) For further details please contact Miss Lu-ying Chen at the email address below.

**Application Address:**

Search Committee  
Department of Foreign Languages and Literatures  
National Chiao Tung University  
Hsinchu City 30010,  
Taiwan

**Contact Information:**

Lu-ying Chen  
luyingchen@mail.nctu.edu.tw

- Demonstrate a sound record of and strong commitment to teaching, with a minimum of five years' classroom experience at the tertiary level

- Show involvement in publication and/or presentation at

regional/international conferences in ELT or related field

**Teaching Responsibilities**

The successful candidate is expected to:

- Develop and teach various courses, both at undergraduate and postgraduate levels

- Undertake pedagogical/academic research

- Serve the Centre and the University through involvement in ELT-related projects and activities

**Additional Information:**

The commencing salary is competitive and will depend on the candidate's qualifications, experience and level of appointment offered. The successful candidate will be required to commence work either in December 2012 or July 2013. Only shortlisted candidates will be notified.

For more job opportunities, please visit the Centre for English Language Communication website.

**How To Apply:**

Candidates should submit the following documents to the Recruitment Committee via email or mail by 30 April 2012. Please provide:

- A cover letter

- A detailed curriculum vitae or resume

- Copies of transcripts/degree scrolls

- Course outlines of courses taught in the last 3 years

- Student feedback and peer review on courses taught in the last 3 years

- Statement of teaching philosophy and methodology (maximum of 1000 words)

## NetBase Solutions

Various Lang; Comp Ling; NLP; Comp  
Linguist: NetBase Solutions

<http://linguistlist.org/issues/22/22-3936.html>

Rank: Computational Linguist  
Posted on: 06-Oct-2011  
Deadline: Until Filled  
Ling Field(s): Computational Linguistics  
Natural Language Processing  
Language(s): Italian  
Japanese  
Portuguese  
Employer: NetBase Solutions  
Department: NLP

### Job Description

Want to join a winning team in transforming the world of consumer insight research? We are seeking computational linguists to be part of our NLP development team to extend our insight extraction system to Japanese, Italian, and Portuguese.

This job involves developing and running test scripts on large content sets for grammar validation (stemming, part of speech tagging and parsing). You will also develop and debug a rules-based system for extracting information relevant to consumer opinions about brands and products.

### Requirements:

- Native or near-native fluency in Japanese, Italian, or Portuguese.

- Experience using a scripting language such as Python.

- Familiarity with development and debugging in a software development environment.

- MA or PhD in Computational Linguistics or a related field.

- Authorization to work in the US (including Canadian citizens) and willingness to relocate.

### Preferred skills:

- Experience with Java programming.

- Experience with developing computational grammars and/or lexicons. Compensation depends on background and experience. The position also features the benefits of working for a fast-moving startup company, including a small team environment and stock options.

Location: Mountain View, CA

Send your resume and cover letter via email to the application email address below with the subject line "Computational Linguist".

NHH Norwegian School of  
Economics

Communication: PhD Scholar, NHH  
Norwegian School of Economics

<http://linguistlist.org/issues/23/23-31.html>

Rank: Researcher/PhD Scholar  
Posted on: 03-Jan-2012  
Deadline: 01-Feb-2012  
Ling Field(s): Professional/Intercultural  
Communication  
Language(s):  
Employer: NHH Norwegian School of  
Economics  
Department: Dept of Professional &  
Intercultural Communication

Job Description

PhD research position in professional/intercultural communication The Norwegian School of Economics is pleased to announce the

availability of a limited number of PhD Research Scholarships. These scholarships are available for the six specializations in the PhD programme at NHH; Accounting and Auditing, Economics, Professional and

Intercultural Communication, Finance, Management Science, and Strategy and Management.

The PhD programme offered by the Department of Professional and Intercultural Communication aims to give dedicated students solid training in performing high quality research within one of the Department's five research areas: language resources and technology, terminology and terminography, discourse analysis and genre studies, specialised translation, and intercultural communication. Candidates may be included in current research projects.

The programme is based on close cooperation with other national and international institutions offering similar programmes. The Department is a member of The National Research School in Language Science and Philology.

Each scholarship is for a period of four years and combines taking a PhD programme at NHH with working as a research scholar. PhD research scholars are required to work as a teaching and/or research assistant for the department they are admitted to on enrolling in the PhD programme. The work requirement corresponds to 25 % of a full position a year, with the remaining 75 % being dedicated to the successful completion of a PhD. The annual salary for PhD research Scholars is set according to the Norwegian State Salary Scale: State Salary Scale 48, which is currently 391,100 NOK gross (approximately EUR 51,000 or about USD 67,000). The scholarships are subject to Norwegian taxes and benefits, including health care provision and membership of the Norwegian Public Service Pension Fund.

Applicants must fulfil the admission requirements of the PhD programme. Qualified applicants with research proposals that fit best with the research interests of the department concerned will be prioritised. The prioritised research areas within Accounting and Auditing, Economics, Professional and Intercultural Communication, Finance, Management Science, and Strategy and Management are outlined in the programme information provided for each of the six specialisations. In the event of equivalent qualifications, female applicants will be given preference.

Further information about the PhD programme and admission requirements can be found at <http://www.nhh.no/phd>. Enquiries regarding admission requirements, PhD Research Scholarships, application procedures, etc. may be directed to the PhD admission office at NHH: [phd@nhh.no](mailto:phd@nhh.no). The application for the PhD Research Scholarships is combined with the overall application to the PhD programme. All applicants to the PhD programme will automatically be considered for scholarships, unless they request otherwise. The deadline for the current round of applications is 1 February 2012.

To apply for this position, go to the application URL below.

## Northern Arizona University English Language Teaching & Learning: Director, Program in Intensive English, Northern Arizona U

<http://linguistlist.org/issues/23/23-1080.html>

Rank: Director, Program in Intensive English

Posted on: 02-Mar-2012

Deadline: Until Filled

Ling Field(s): Applied Linguistics  
Language Acquisition  
English Language Teaching & Learning

Language(s):

Employer: Northern Arizona University

Department: English, Program in Intensive English

#### Job Description

Northern Arizona University (NAU) seeks a successful, experienced academic administrator to serve as director of its Program in Intensive English (PIE), starting as early as June 2012. The Director will be eligible for a non-tenured faculty appointment depending on experience and qualifications. The initial contract is for three years and is renewable. This is a twelve-month appointment. The director reports to the Chair of the Department of English and the Dean of the College of Arts and Letters. The successful candidate will be committed to international education and will be able to work effectively in a team environment. The position involves overall responsibility for the academic and financial success of PIE; for leading an academic and professional staff of approximately 50; and for maintaining and enhancing the program's mission of instructional excellence, teacher training, and applied research.

#### Job Description:

Ensure effective delivery of existing programs and the development of new programs; supervise PIE faculty and staff; lead professional development of faculty; develop and oversee program budgets and facilities; hire, supervise, evaluate academic and administrative staff; collaborate closely with the Center for International Education (CIE) on international student welfare, academic success,

recruitment and retention; ensure that PIE is in compliance with NAU policies and procedures; represent PIE on campus; participate actively in local, regional, and national professional organizations; and participate as a member of the Applied Linguistics graduate faculty; occasionally teach courses, such as TESL Practicum. Required Qualifications:

A doctorate in Teaching English as a Second Language (TESL), Applied Linguistics, or related field AND at least 3 years of Intensive English Program (IEP) management experience in a university setting; OR a master's degree in Teaching English as a Second Language (TESL), Applied Linguistics, or related field AND 5 years experience as director, associate director, or assistant director of a university IEP

Preferred Qualifications:

- Administrative and/or program development, testing and program assessment experience
- Experience with budget oversight and personnel management
- Experience in teacher training and development
- Record of on-going professional development (including attendance at NAFSA, TESOL, or AAAL)
- Doctorate in TESL, Applied Linguistics, or related field.
- Strong record of effective teaching experience
- Applied knowledge of current theories and issues relevant to second language teaching and learning
- Experience teaching ESL/EFL abroad
- Demonstrated ability to develop technology and media applications for EAP instruction
- Excellent written and oral communication skills consistent with those of an educated native speaker of English
- The ability to communicate diplomatically with diverse constituencies Please provide cover letter; CV; unofficial transcripts of graduate program(s); documentation of administrative /supervisory/teaching excellence; supporting materials such as observation reports, peer

reviews, and student evaluations, and copies of any published materials relevant to this position. Three confidential letters of recommendation should be delivered directly from the recommenders to the e-mail or physical addresses listed below.

Language(s): Arabic, Standard  
Employer: Northern Arizona University  
Department: Modern Languages

Job Description

Position: Modern Languages, Lecturer of Arabic

Vacancy Number: 558925

Department: Modern Language

Status: Full-Time, Regular

Location: Flagstaff

**Special Information:**

This full-time, benefit eligible, non-tenure eligible position is renewable on a year-to-year basis contingent upon performance, departmental needs and university funding. This position will begin on August 20, 2012. Application Procedure:

Application materials should include: a letter of application, curriculum vitae, three recent letters of recommendation, and a teaching portfolio (teaching philosophy, syllabi, teaching evaluations). Finalists for this position will be required to provide original transcripts of graduate coursework. Send all application materials electronically as Word or PDF e-mail attachments to the application email address below. Letters of recommendation should also be sent electronically. If recommenders are unable to send electronically, they may mail to: Professor Joseph Collentine at the application address below. Job Description:

- Teach lower-division Arabic language courses, with the possibility of some upper division courses
- Advise language students on completing language requirements, minors, and study abroad
- Promote and participate in the academic and cultural activities of the department, college and university

**Minimum Qualifications:**

- Master's degree in Arabic pedagogy, literature, linguistics or related field (e.g., TESOL, Applied Linguistics)
- Experience teaching Arabic language courses at the post-secondary level
- Advanced proficiency in both Arabic and English (written and spoken) Preferred Qualifications:
  - Demonstrated use of teaching methods and strategies fostering oral and written proficiency
  - Experience advising language students
  - Experience in and commitment to working with diverse faculty, students, and staff
  - Proficiency and knowledge of a third foreign language adequate to teach lower-division courses at the

post-secondary level

**General Information:**

Northern Arizona University is a 25,000-student institution with its main campus in Flagstaff, a four-season community of about 65,000 at the base of the majestic San Francisco Peaks. NAU's emphasis on undergraduate education is enhanced by its graduate programs and research as well as distance learning. The university is committed to a diverse and civil working and learning environment.

Northern Arizona University requires satisfactory results for the following: a criminal background investigation, an employment history verification and a degree verification (in some cases) prior to employment. You may also be required to complete a fingerprint background check. Additionally, NAU is required to participate in the federal E-Verify program that assists employers with verifying new employees' right to work in the United States. Salary: \$36,000 - \$40,000, depending on experience.

This position will be open until filled or closed. Review of applications will begin on November 25, 2011.

FLSA Exempt.

## Northern Arizona University English; Applied Linguistics: Asst Prof, Northern Arizona U

<http://linguistlist.org/issues/23/23-623.html>

Rank: Assistant Professor  
Posted on: 06-Feb-2012  
Deadline: 01-Mar-2012  
Ling Field(s): Applied Linguistics  
Language(s): English  
Employer: Northern Arizona University  
Department: English

### Job Description

The applied linguistics faculty in the English Department at Northern Arizona University invite applications for a tenure-track assistant professor beginning in August 2012. We seek a colleague whose primary teaching and research interests are in any area of applied linguistics, including assessment, bilingualism, corpus linguistics, discourse, experimental psycholinguistics, language and technology, L2 phonology, L2 pedagogy research, pragmatics, quantitative or mixed methods, second language acquisition, and sociolinguistics. Responsibilities include teaching courses in the MA-TESL program, the applied linguistics doctoral program, and the English undergraduate program. With regard to teaching, responsibilities include teaching up to 9 hours per semester, with reassigned time based on dissertation committee work and College policies. Responsibilities also include active research; student advising and mentoring; doctoral committee work; and department, college, university, and professional service.

#### Minimum Qualifications:

- Doctorate in applied linguistics or related field, in hand at time of appointment

- Primary research interests in Applied Linguistics

#### Preferred Qualifications:

- Refereed publications in Applied Linguistics

- Evidence of empirical research agenda

- Evidence of professional activity in core areas of TESL/Applied Linguistics

- Demonstration of ability to teach graduate and undergraduate courses in TESL/applied linguistics

- Experience mentoring graduate and undergraduate students

- Experience working and interacting with diverse populations

- Experience teaching ESL/EFL

#### General Information:

Northern Arizona University's applied linguistics faculty are active scholars, teachers and mentors, and professionals. Our group focuses on the learning and teaching of English as a second/foreign language and the description of spoken/written English. We engage in empirical and theoretical inquiry of language and language pedagogy, from both linguistic and cognitive orientations. Our primary teaching mission is to serve students in two graduate programs: MA-TESL and PhD in Applied Linguistics. We also have a Program in Intensive English that serves the English learning needs of NAU international students and provides teaching and research opportunities for faculty and graduate students. We offer undergraduate courses for BA English and BS Ed English

majors/minors, and Liberal Studies' requirements.

Visit us at

[http://www.cal.nau.edu/english/tesl\\_default.asp](http://www.cal.nau.edu/english/tesl_default.asp)

#### Application Procedure:

Review of applications begins March 1, 2012. This position will be open until filled or closed. Submit the following materials to the application address below:

1. Letter of interest & CV
2. List of courses taught (titles, levels, and locations)
3. Sample publications
4. Complete set of graduate school transcripts
5. Three reference letters addressing qualifications for the position, sent directly to the search committee

Salary:

Competitive

**Application Address:**

Professor Randi Reppen  
 Applied Linguistics Search Committee Chair  
 PO Box 6032, Liberal Arts Building  
 Flagstaff, AZ 86011-6032  
 USA

**North Side Inc.**
**Natural Language Processing:  
 Programmer, North Side Inc.**

<http://linguistlist.org/issues/23/23-594.html>

Rank: Programmer  
 Posted on: 03-Feb-2012  
 Deadline: Until Filled  
 Ling Field(s): Computational Linguistics  
 Natural Language Processing  
 Language(s): None  
 Employer: North Side Inc.  
 Department:

**Job Description**

Java Programmer – NLP (Natural Language Processing)

At North Side (<http://www.northsideinc.com>) we're developing a natural language dialogue pipeline.

Our first application will be the Bot Colony (<http://www.botcolony.com>), an online adventure video game where the player converses with the characters to advance in the game. Bot Colony will also be played by people who are interested to improve their English in a fun way (especially English as a Second Language/ESL). Check out Bot Colony online for more information.

The language pipeline we're developing is generic, enabling computers to converse with people on a wide-range of day-to-day topics. We expect that our language understanding technology will find additional applications besides the game.

We have two openings in our Montreal facility for

work on Word Sense Disambiguation and knowledge-acquisition and structuring for use in dialogue.

The following qualifications are mandatory:

- Strong Java skills
- SQL/ Object-oriented databases
- Basic knowledge of English grammar (more in-depth knowledge of English syntax, semantics and pragmatics would of course be great)
- B.Sc. in Computer Science is a minimum requirement

Background in any Computational Linguistics sub-domain is highly desirable: we have work in parsing, disambiguation, co-reference resolution, Question Answering, Dialog management, ontologies, Corpus processing, knowledge-acquisition, and evolving large lexical databases.

Education-wise, a M.Sc. or Ph.D degree in Computational Linguistics is also desirable.

We stress, however, that Computational Linguistics background is not mandatory, and we will interview very strong Java programmers, with experience in databases and online applications. Even if you don't have the formal background, you should have an interest in language processing and the desire you to learn.

The working environment at North Side is relaxed and dynamic. You will be part of a growing, multi-disciplinary team working on language R&D, 3D graphics, gameplay programming (the game is scripted in natural language) and art.

## Northwestern University Comp Ling; Natural Language

### Processing: Post Doc, Northwestern U

<http://linguistlist.org/issues/22/22-4720.html>

Rank: Post Doc  
Posted on: 27-Nov-2011  
Deadline: Until Filled  
Ling Field(s): Computational Linguistics  
Natural Language Processing  
Language(s):  
Employer: Northwestern University  
Department: Linguistics Department

#### Job Description

Applications are invited for an anticipated postdoctoral position at Northwestern University in the area of computational modeling of the lexicon in many different languages. The postdoctoral fellow will work with linguistics professor Janet Pierrehumbert as a member of an interdisciplinary team that includes outstanding computer scientists and electrical engineers at four other American research institutions. The Northwestern component of the collaborative project will focus on novel methods for bootstrapping lexical networks from sparse statistical samples. The ideal candidate will have a Ph.D in computational linguistics, EECS, applied mathematics, physics, or a related field, and the demonstrated ability to create and document robust software. Familiarity with C, Python and Unix/Linux environments are a plus. Negotiable start date in early 2012. Competitive salary scale comparable to postdoctoral positions in computer science. Initial appointment for one year with renewal subject to performance and availability of funding. Please apply by email with a statement of research interests and a CV including the names and contact information for three references. Send the application to: [linguistics@northwestern.edu](mailto:linguistics@northwestern.edu) using the subject line: Pierrehumbert postdoc Consideration of applications will begin on December 10, 2011, and will continue until the position has been filled.

Northwestern is an Equal Opportunity Employer, and applications are encouraged from all qualified junior researchers. Hiring is contingent on eligibility to work in the United States. Non-US-residents will receive consideration for the position.

## Nuance Communications Various Lang; Comp Ling; Linguist Engineer, Nuance Communications

<http://linguistlist.org/issues/22/22-4556.html>

Rank: Linguist Engineer  
Posted on: 14-Nov-2011  
Deadline: Until Filled  
Ling Field(s): Computational Linguistics  
Phonetics  
Perl or Python Scripting Skills;  
NLP  
Language(s): English  
Employer: Nuance Communications  
Department:

#### Job Description

Nuance Communications, Inc. is looking for computational linguists for speech recognition projects. This is a one year contract work opportunity for computational linguists.

#### Primary Responsibilities:

- Evaluating design and quality of pronunciation dictionaries
- Identifying new entries for general and specialized dictionaries
- Correcting existing dictionary entries
- Managing language consultant contractors
- Develop, enhance and debug NLP grammars
- Serving as a language expert resource for engineers and researchers
- Phonetic transcription
- Merging in house resources

#### Required Skills:

- Native speaker of English or near-native fluency
  - A post-graduate degree in computational linguistics, or linguistics
  - Ability to program in a scripting language (Perl or Python a must)
  - Experience with phonetic transcription and the International Phonetic Alphabet
  - Ability to work independently
  - Working knowledge of Unix/Linux (navigating directory structures, copying files, etc.)
  - Familiarity with a text editor (e.g. emacs or vi)
- Desirable:
- A computational linguist with some experience in industry
  - Knowledge of other languages from the following list: Arabic, Finnish, Hebrew, Japanese, Thai, Vietnamese

#### Contact Information:

## Oracle

### Various Languages; Comp Ling: Computational Linguist, Oracle

<http://linguistlist.org/issues/23/23-647.html>

Rank: Computational Linguist  
 Posted on: 07-Feb-2012  
 Deadline: 31-May-2012  
 Ling Field(s): Computational Linguistics  
 Language(s): Finnish  
 Lithuanian  
 Macedonian  
 Persian, Iranian  
 Employer: Oracle  
 Department: ATG Search & Language Group

#### Job Description

ATG is an eCommerce company recently acquired by Oracle. ATG

developed language technology to support search in various applications. Oracle is investing in a 'Lexer' project to separate the language technology for all of Oracle software to use, including other search products. The ATG Lexer software currently supports 20 languages, and will support at least 32 by 2013. The group has engineers to develop the software and computational linguists to develop the language dictionaries and other data needed to perform language analysis.

#### Brief Posting Description:

Design, develop, troubleshoot and debug software programs for

databases, applications, tools, networks etc.

#### Detailed Description:

As a member of the software engineering division, you will apply basic to intermediate knowledge of software architecture to perform software development tasks associated with developing, debugging or designing software applications or operating systems according to provided design specifications. Build enhancements within an existing software architecture and occasionally suggest improvements to the architecture.

#### Job Requirements:

Duties and tasks are standard with some variation; displays understanding of roles, processes and procedures. Performs moderately complex problem solving with assistance and guidance in understanding and applying company policies and processes. BS degree or equivalent experience relevant to functional area. 1 year of software engineering or related experienced. We are seeking Computational Linguists for research and development related to a multi-language natural language processing system.

Candidates should be native or near-native speakers of at least one of the following languages:

- Persian
- Slavic language (other than Russian)

- Finnish
- Lithuanian, Latvian, Estonian

Proficiency in at least one additional language is a strong plus.

Preferred Skills:

- 2+ yrs of professional experience as a computational linguist
- Academic degree or professional experience in computational linguistics
- 2+ yrs of C/C++ programming skills
- Experience with creating morphological rules for languages both familiar and unfamiliar
- Proficiency with regular expressions and basic Unix/Linux shell commands
- Excellent written and oral communication skills in English
- Strong analytical skills
- Ability to work independently
- Proficiency in a scripting language (Perl, Python, Ruby, etc.) is a plus The candidates will be responsible for:
  - Creating, developing, and maintaining lexicons and morphological rules in a variety of languages
  - Quality assessment of existing language work
  - Ongoing testing and evaluation of language-related aspects of search product
  - Researching and evaluating alternative tokenization and morphological analysis techniques
  - Collecting, evaluating, and maintaining training corpora

## Orbis Technologies

### Computational Ling; Semantics; NLP: Scientist, Orbis Technologies

<http://linguistlist.org/issues/23/23-313.html>

Rank: Scientist  
 Posted on: 17-Jan-2012  
 Deadline: Until Filled  
 Ling Field(s): Computational Linguistics  
 Semantics  
 Natural Language Processing  
 Language(s): None  
 Employer: Orbis Technologies  
 Department:

#### Job Description

This position will support the development of Natural Language Processing (NLP) based solutions in large scale computing environments. The work involves evaluation, development and testing of NLP algorithms, tools and approaches for their implementation.

#### Required qualifications:

- A Bachelor of Science in Computer Science or equivalent
  - Strong experience developing and implementing NLP algorithms and systems
  - 7 + years experience developing Web Services, Service-Based Software System design and XML technologies (XSLT, XQuery, XPath, etc.)
  - Proficiency in both Windows and Linux
  - U.S. citizenship and willingness to obtain a DoD security clearance Preferred qualifications:
    - TS/SCI with Poly clearance
    - An advanced degree
    - Experience developing and implementing NLP algorithms and analytics in a cloud environment.
    - Exposure to Oracle 10g/11g (or other RDBMS), HTML, CSS, Javascript libraries and frameworks, J2EE, JSP, Struts, JSF, and JSON
    - Experience with Web 2.0 technologies/methodologies such as AJAX, RSS, Microformats, wikis, social tagging, and social networking
    - Knowledge of web development languages such as Ruby on Rails, PHP, and Python
    - Exposure to MapReduce and Hadoop
- The ideal candidate is creative, driven, and self-motivated and has a strong interest in Semantic Web concepts, Ontology Design, Semantic Representation Languages, Semantic Query Languages, and Machine Reasoning. The position presents a uniquely exciting opportunity to apply cutting-edge NLP and semantic techniques to significantly impact real- world

problems in important domains.

## Pearson

### Applied Linguistics; Language Testing: Senior Test Developer, Pearson

<http://linguistlist.org/issues/23/23-1029.html>

Rank: Senior Test Developer  
Posted on: 29-Feb-2012  
Deadline: Until Filled  
Ling Field(s): Applied Linguistics  
Language Testing; Educational  
Measurement  
Language(s): English  
Spanish  
Employer: Pearson  
Department:

### Job Description

Pearson has one defining goal: to help people progress in their lives through learning. We champion innovation and we invest in models for education that deliver on our promise for effective, accessible, and personal learning from early literacy, college and career readiness to professional education, through data informed instruction and inventive applications for mobile and digital learning.

Pearson, the world's leading learning company, has global-reach and market leading businesses in education, business, and consumer publishing and is listed on the London and New York stock exchanges (UK: PSON; NYSE: PSO). For more information, visit

<http://www.pearson.com>.

Pearson is an Equal Opportunity and Affirmative Action Employer, and a member of E-Verify. All qualified applicants, including minorities, women, veterans, and people with disabilities are encouraged to apply. Pearson's Knowledge Technologies (KT) group provides products and services based on proprietary and patented machine-learning technology for language understanding.

### Summary:

The Test Development group is responsible for designing reliable and valid language tests based on theories of linguistics and psychology, and informed by an understanding of automatic speech recognition. Test Developers are required to manage the development of new assessment products at various stages of their construction, from designing tasks and item specifications through to data collection, validation, documentation and deployment.

### Duties and Responsibilities:

To perform this job successfully, an individual must be able to perform the following essential functions:

- Designing test tasks and writing test specifications
- Creating test items
- Coaching voice talent
- Recruiting participants for data collection
- Analyzing data and writing technical reports
- Screening, training and managing groups of external consultants (item writers, reviewers, transcribers, raters)
- Participating in technical customer support
- Assisting customers with cut-score decisions based on their individual requirements
- Giving academic or technical presentations at meetings and conferences
- Designing, carrying out and writing up validation experiments
- Conducting original research for publication in the field of test development and validation

Test developers are responsible for the success of the projects they manage, and as such are expected to: run projects according to schedule and within budget; anticipate and correct problems or shortcomings; interact with our Engineering and Research & Development depart-

ments; manage large teams of external consultants (typically between 10 and 50 consultants per project).

An MA or PhD in language testing, educational measurement, applied linguistics, or related field is required.

**Qualifications:**

Preference given to candidates with the following experience:

- Excellent verbal and written communication skills
- The ability to manage projects independently and work well with others at least five years of relevant work experience in linguistics, education, or assessment
- A proven track record of research or publications

Additionally, the following qualifications are desirable:

- Knowledge of programming such as SQL or Perl
- Knowledge of statistics or psychometrics (e.g. Rasch, IRT)
- Fluency in more than one language

**Potsdam University, Germany**  
**Modern English Language; General**  
**Linguistics: Full Prof, Potsdam U**

<http://linguistlist.org/issues/23/23-1270.html>

Rank: Full Professor

Posted on: 12-Mar-2012

Deadline: 01-Apr-2012

Ling Field(s): General Linguistics

Language(s): English

Employer: Potsdam University, Germany

Department: English and American Studies

## Job Description

The Faculty of Arts and the Department of English and American Studies at Potsdam University, Germany, invite applications for the following post, preferably for the winter semester of 2012/13:

Professorship for Modern English Language and Linguistics (W3). The successful candidate will have a commitment to representing the discipline in its entirety in research and teaching. Teaching responsibilities will be in the teacher-training and non-teacher training BA/MA-degree programmes in the Department, as well as in the interdisciplinary MA programmes "Fremdsprachenlinguistik" ('the Linguistics of Foreign Languages') and "Linguistik: Kommunikation, Variation und Mehrsprachigkeit" ('Linguistics: Communication, Variation and Multilingualism'). It is anticipated that the successful candidate will be in charge of the latter programme. The focus of his/her research should be on the empirical analysis of language structures and their use in contemporary English, alongside a proven competence in the core areas of English linguistics (phonetics/phonology, morphology, syntax, semantics, and lexicology). Ideally, pragmatics and discourse analysis are additional fields of research.

The successful candidate should be willing to connect his/her research to one of the areas of the key research theme "Kulturelle Begegnungsräume" ('Spaces of Cultural Encounters') of the Faculty of Arts and to contribute to its advancement. He/she will be expected to have a track record of successful grant applications, the organisation of research projects, and administrative service.

Applicants must meet the legal requirements for the appointment of professors in accordance with § 39 Brandenburgisches Hochschulgesetz (BbgHG): university degree, pedagogical qualification, special aptitude for academic work, extensive competences in the science management as well as additional academic credentials, such as a habilitation or equivalent academic publications. A working knowledge of German is desirable. The appointment will be made in accordance with § 39 BbgHG. Especially in case of a first appointment to the position of a professor, the employment will not be tenured, according to § 41, section 1, BbgHG. The obtention of tenure later does not require another application procedure.

The University of Potsdam seeks to increase the

proportion of women in research and teaching, and encourages qualified female scholars to apply. Preference will be given to disabled persons with equal qualifications. Applications should be sent to the application address below within a period of 3 weeks.

## Queens College, CUNY

### Korean Languages and Linguistics: Asst Prof, Queens College, CUNY

<http://linguistlist.org/issues/23/23-499.html>

Rank:	Assistant Professor
Posted on:	31-Jan-2012
Deadline:	05-Mar-2012
Ling Field(s):	Applied Linguistics Korean Languages and Linguistics
Language(s):	Korean
Employer:	Queens College, CUNY
Department:	Classical, Middle Eastern & Asian Languages

### Job Description

The Department of Classical, Middle Eastern and Asian Languages and Cultures at Queens College, City University of New York, has authorization to make a tenure-track appointment in Korean language and linguistics at the rank of Assistant Professor, to begin in the Fall semester of 2012. Responsibilities include overseeing and teaching in the Elementary Program in Korean language, teaching undergraduate courses on Korean linguistics, and contributing to departmental programs in Korean and East Asian Studies and as well as to the College's liberal arts curriculum. Applicants should have proven experience and a demonstrated commitment to teaching Korean language at all levels as well as evidence of an active research program in linguistics. Preference will be given to candidates with a research specialty in phonology, phonetics, semantics, and/or language acquisition. A PhD and native or near-native competency in Korean and English are required. Preference will be given to applicants who have a PhD in hand at the time of application.

Review of completed applications will begin March 5, 2012. Submit to the address below (by mail only, not email or fax) a letter of application, curriculum vitae, and samples of scholarly work or writing. In addition, please provide three professional letters of reference. These may be sent directly or included with your application in signed/sealed envelopes. Salary is competitive, commensurate with qualifications and experience. Excellent benefits. AA/EOC/ADA.

Disorders

### Job Description

The Department of Linguistics and Communication Disorders of Queens College of the City University of New York seeks to fill a tenure-track position at the Assistant Professor or Lecturer title in the Fall of 2012. Salary: commensurate with qualifications and achievement; excellent benefits. The person who fills this position will teach in bachelor's and master's programs in TESOL and applied linguistics. Candidates must have a specialization in ESOL teacher education, with emphasis on testing and assessment, student teacher supervision, and literacy. Experience with urban schools is desirable. Candidates for the Assistant Professor title must have earned a doctorate in Linguistics, Applied Linguistics, Educational Linguistics, or a related field; they must have a strong commitment to research and evidence promise of excellence in teaching and scholarship. Candidates for the Lecturer title must have earned a master's degree in Linguistics, Applied Linguistics, Educational Linguistics, or a related field; they must evidence promise of excellence in teaching. A minimum of 5 years of teaching experience in an ESL or Bilingual classroom is desirable.

Candidates should submit a letter of application and a current curriculum vitae. In addition, letters of reference should be submitted directly by three professional recommenders. This position will be open until filled; the review of applications will begin on February 15, 2012. All application materials should be sent to the application

address below.

Queens College is an Equal Opportunity/Affirmative Action Employer

## Radboud University Psycholinguistics: PhD Student, Radboud University

<http://linguistlist.org/issues/23/23-696.html>

Rank: PhD Student  
Posted on: 09-Feb-2012  
Deadline: Until Filled  
Ling Field(s): Psycholinguistics  
Language(s):  
Employer: Radboud University  
Department: Center for Language Studies

### Job Description

PhD project: Multiple source stream integration in human listeners The FP7 Marie Curie Initial Training Network Investigating Speech Processing In Realistic Environments (\*INSPIRE\*) will provide research opportunities for \*13 PhD students and 3 postdocs\*.

As a PhD student you will become a member of an international team of researchers whose aim is to gain a better understanding of how listeners recognize speech, even under non-ideal circumstances. You will contribute to urgently needed solutions that help alleviate the serious communication problems that arise, especially for older and hearing-impaired persons, when different combinations of 'adverse' conditions affect the speech processing system. More information on the INSPIRE-project can be

found here: <http://www.ru.nl/clst/projects/speech/inspire/>

Your research will focus on questions such as: How do listeners integrate different information streams, such as lexical and acoustic information, in order to understand speech? What is the importance of these information streams for normal and hearing-impaired listeners, in noisy and in noise-free environments, and under cognitive load? Listeners may differ in how well they are able to use information efficiently during speech processing, depending on their cognitive and linguistic abilities. By investigating how listener-intrinsic abilities with respect to information stream integration interact with external adverse listening conditions, we aim to obtain a realistic view of how speech processing works in everyday situations. Prerequisites:

Applicants should be able to demonstrate a strong background in speech and/or language research and statistics. Experience with setting-up and running psycholinguistic listening experiments and knowledge of programming would be an advantage.

Host: Centre for Language Studies  
(<http://www.let.ru.nl/>), Radboud University Nijmegen, The Netherlands

Primary host: Dr Odette Scharenborg  
([Odette.Scharenborg@mpi.nl](mailto:Odette.Scharenborg@mpi.nl)), Max Planck Institute for Psycholinguistics (<http://www.mpi.nl>) & Dr Esther Janse  
([Esther.Janse@mpi.nl](mailto:Esther.Janse@mpi.nl)), Centre for Language Studies Radboud University Nijmegen, The Netherlands

Secondary host: Prof Sven Mattys  
([Sven.Mattys@bristol.ac.uk](mailto:Sven.Mattys@bristol.ac.uk)), who will move to York University (UK) from summer 2012 onwards

### Eligibility:

You should comply with the rules set forward by the FP7 Marie Curie ITNs, i.e. you should:

- Come from abroad, i.e. not be of Dutch nationality, and should not have resided in the Netherlands for more than 12 months in the last three years;
- Be willing to work in at least one other country in the INSPIRE network;
- Have less than 4 years of research experience since you obtained your Master's degree, and not hold a PhD.

Salary: The starting salary is EUR 2,042 per month on a full-time basis; the salary will increase to EUR 2,492 per month in the third year.

Envisaged starting date: 1 April 2012

How to apply:

- Details on how to apply can be found at:

[http://www.ru.nl/vacatures/details/details\\_vacature\\_0?recid=507304](http://www.ru.nl/vacatures/details/details_vacature_0?recid=507304)

- Application deadline: \*A first review of applications will begin on 15 February 2012 and will continue until the position is filled.

## Radboud University Nijmegen Various Languages; Foreign Speech Comprehension: PhD-student, Radboud University Nijmegen

<http://linguistlist.org/issues/23/23-1246.html>

Rank: PhD-student  
Posted on: 10-Mar-2012  
Deadline: 15-Apr-2012  
Ling Field(s): General Linguistics  
Foreign Speech Comprehension  
Language(s): Dutch  
English  
French  
Spanish  
Employer: Radboud University Nijmegen  
Department: Faculty of Arts

#### Job Description

Three PhD Students for Foreign Speech Comprehension (1,0 fte)

Vacancy number: 23.09.12

Responsibilities:

As a PhD student you will participate in one of two research projects on how non-native listeners learn and process reduced pronunciation variants that are highly frequent in spontaneous speech (e.g. English *mis* instead of *mist*). One project is funded by a Starting Grant from the European Research Council, other by a VICI Grant from the Netherlands Organization for Scientific Research. Both projects are directed by Professor Mirjam Ernestus. You will write at least three papers on the basis of this research for high-impact international journals.

#### General descriptions of the project:

The ERC and VICI projects investigate in detail how adult learners of a foreign language develop and use lexical representations for reduced pronunciation variants and how their listening skills can be improved. The projects aim at providing a first theory of how listeners learn to understand words in conversational speech in a foreign language.

PhD project E1 will investigate the nature of lexical representations that advanced late learners have developed for reduced variants in their foreign language, how they use these representations, and how this can be improved. It will study how native speakers of Dutch process vowel devoicing and categorical deletion of schwa in French.

PhD project E2 will investigate advanced late learners' sensitivities to subtle details of speech signals which act as cues to reduced sounds and how their comprehension of words can be improved with these subtle cues. It will study how native speakers of Spanish process gradient reduction of schwa and of word-final consonant clusters in English.

PhD project V1 will investigate how starting learners store phonetic details of reduced pronunciation variants in their lexical representations, how these representations develop over time, and the role of the native language therein. It will study how Dutch and Spanish young adults learn pronunciation variants with reduced vowels in English and French.

#### Work environment:

Radboud University Nijmegen is strategically located in Europe and is one of the leading academic communities in the Netherlands. Established in 1923 and situated in the

oldest city of the Netherlands, it has nine faculties and enrolls over 17,500 students in 107 study programmes.

The Faculty of Arts consists of ten departments in the areas of language and culture, history of arts, linguistics and business communication, which together cater for about 2,700 students and collaborate closely in teaching and research. Research at the Faculty of Arts is embedded in two research institutes: the institute for Historical, Literary and Cultural Studies (HCLS) and the Centre for Language Studies (CLS).

What we expect from you:

- You should have, or shortly expect to obtain an MSc degree in an area related to speech processing: such as psychology, cognitive neurosciences, phonetics, or linguistics;
- You should have an excellent written and spoken command of English and demonstrable knowledge of data analysis;
- You should be able to quickly learn new research methods and data analysis methods.

## Reed College

### General Linguistics: Assistant Professor, Reed College

<http://linguistlist.org/issues/23/23-1166.html>

Rank: Assistant Professor  
 Posted on: 06-Mar-2012  
 Deadline: 30-Mar-2012  
 Ling Field(s): General Linguistics  
 Language(s):  
 Employer: Reed College  
 Department: Linguistics

#### Job Description

Reed College seeks applications for a one-year visiting position in Linguistics at the Assistant Professor level for the 2012-13 academic year, to commence August 2012.

We seek outstanding candidates from all areas of linguistics. However, we especially invite applications from candidates with a specialization in two or more of the following areas: morphology, phonology, phonetics, semantics. Experience in experimental or field methods, or research on an under-studied language or language family, are a plus. Experience teaching and advising student research projects on a wide range of topics, including sociolinguistics, is also highly desirable. PhD or ABD in Linguistics required for appointment.

Reed College is a selective liberal arts institution with a commitment to teaching excellence and scholarship. The appointee will join a small but comprehensive undergraduate linguistics department and offer five semester courses over the academic year. The position also involves supervising year-long senior thesis projects. We are particularly interested in candidates with a strong interest and experience in working with a diverse population of students.

The Linguistics Department is using Interfolio to collect applications for this position electronically. Through Interfolio, please submit a letter of application describing teaching and scholarly interests, along with CV, samples of scholarly work, and three letters of recommendation. In the letter of application, we encourage you to articulate ways in which you would support the College's commitment to diversity, inclusion, and intellectual pluralism. For more information and

application instructions, see the application URL below.

All application materials must be received by March 30, 2012. For further information about this position, please contact Matt Pearson, email address below.

An equal opportunity employer, Reed encourages applications from members of underrepresented groups.

Web address for applications:  
<http://www.interfolio.com/apply/8391>

## RightNow Technologies

### Text/corpus Ling: Computational Linguist, RightNow Technologies

<http://linguistlist.org/issues/22/22-4113.html>

Rank: Computational Linguist  
Posted on: 20-Oct-2011  
Deadline: Until Filled  
Ling Field(s): Computational Linguistics  
Text/Corpus Linguistics  
Natural Language Processing  
Language(s): None  
Employer: RightNow Technologies  
Department:

#### Job Description

RightNow Technologies is seeking a Computational Linguist, fluent in German and English, with experience in a software development environment for its location in Amsterdam, NL. As a Computational Linguist at RightNow, you will help drive development and delivery of our question and answer product, Intent Guide. You will also work directly with RightNow Research to continue to push Intent Guide functionality to the next level. Intent Guide is an efficient way to engage with self-service consumers online, shaping next generation customer experiences. This powerful solution identifies the intent behind the query to eliminate irrelevant search results and get to the high value answers that customers are seeking. Contextual offers are delivered with the answers to help customers get more out of each interaction. Fast and accurate results will improve customer satisfaction, increase customer loyalty and drive higher conversion.

This is a permanent position at 40 hours/week.

#### Essential Duties and Responsibilities:

- Building tools and automating process to improve matching for question and answer technology
- Experience interfacing with customers, both onsite and via email
- Must have a keen interest in supporting Sales and dynamic Product Management initiatives
- Experience leveraging statistical methods in natural language engineering to build automated semantic search engines

#### Essential Knowledge, Skills, Abilities, and Background:

- Fluency in English and German required; fluency in Dutch preferred
- 3+ years experience with relational databases
- Scripting in Python and/or Perl
- 3+ years in a software production environment (R&D)
- 3+ years of industry experience in corpus and computational linguistics (dictionary creation, list management, corpus acquisition, tagging, kb management)

- Experience with statistical methods in natural language engineering
- Experience in a Unix/Linux environment
- Advanced coursework in computational linguistics
- Good to have: C++ programming experience

## Rutgers, The State University of New Jersey

### Non-Colonial Language of Africa; General Ling: Post Doc, Rutgers, The State U of New Jersey

<http://linguistlist.org/issues/23/23-1167.html>

Rank: Post Doc  
 Posted on: 07-Mar-2012  
 Deadline: Until Filled  
 Ling Field(s): General Linguistics  
 Non-Colonial Language of Africa  
 Language(s):  
 Employer: Rutgers, The State University of  
 New Jersey  
 Department: Linguistics

### Job Description

The Department of Linguistics at Rutgers University in New Brunswick is offering a half-year fellowship for postdoctoral residence at Rutgers University, for spring, 2013. All applicants must have a Ph.D. in hand before their residency and must be native speakers of a non-Colonial language of Africa. This postdoctoral position is funded by the NSF-supported Afranaph Project and the Afranaph Fellow will be expected to spend at least 20 hours per week working on the project. Preference will be given to applicants within five years of the completion of their degrees, but interested candidates with more experience are encouraged to apply. Successful applicants will be those who most closely fit the needs of the project. The six months of support includes a stipend of \$22,000 and funds to cover round-trip travel expenses from the candidate's country of origin. Further details are to be posted at <http://www.africananaphora.rutgers.edu> Applications should include a curriculum vitae, three letters of reference, a cover letter that names those writing in support, supporting documents, such as essays in progress or published work (limited to no more than two), and a short statement including a summary of research interests. Applicants who do not have a Ph.D. when applying, but who expect to have their Ph.D. in hand before the fellowship begins, should include a letter from their advisor concerning their expected date of completion. Applications received before April 15, 2012 are assured consideration, but we will continue to accept applications until the position has been filled. All applications, letters of reference and materials should be sent to the application address below or sent online to [safir@ruccs.rutgers.edu](mailto:safir@ruccs.rutgers.edu), with 'Afranaph Postdoc Application' in the subject heading.

Rutgers University is an AA/EO employer.

### Application Address:

Attention Ken Safir , Afranaph Project,  
 Department of Linguistics  
 Rutgers University  
 New Brunswick, NJ 08901  
 USA

## SAP Labs

### German; Computational Linguistics:

#### Senior Developer, SAP Labs

<http://linguistlist.org/issues/23/23-536.html>

Rank: Senior Developer  
Posted on: 01-Feb-2012  
Deadline: Until Filled  
Ling Field(s): Computational Linguistics  
Named Entity Extraction  
Language(s): German  
Employer: SAP Labs  
Department: TIP BAT EIM Information Quality and Insight

#### Job Description

Position Title: Computational Linguist

Location: Cambridge, Massachusetts, USA

Work Area: Software - Design and Development

Expected Travel: 0%

Career Status: Professional

Employment Type: Regular Full-Time

Please forward your resume to Jackie Hall at the application email address below.

#### Purpose and Objectives:

The Text Analysis team at SAP focuses on the development of Natural Language Processing (NLP) Information Extraction technologies. The team combines the talents of computational linguists and skilled software engineers to deliver best-of-breed Text Analysis functionality in all major languages. This groundbreaking technology includes a comprehensive set of advanced text analysis tools such as search, categorization, and entity extraction that is being used in SAP applications ranging from business intelligence to semantic search.

#### Expectations and Tasks:

- Assumes ownership of one or more language modules in our NLP products
- Creates, maintains and augments machine-readable

dictionaries, grammar rules and parsing algorithms

- Develops and maintains tools for the automation and support of linguistic tasks
- Enhances the accuracy of our core technologies
- Optimizes the performance of core engines to achieve breakthrough results
- Researches and implements new functionality

#### Education and Qualifications/Skills and Competencies:

- Minimum of B.A. in Computational Linguistics or equivalent and 2+ years of experience in the NLP industry, or M.A. in Computational Linguistics or equivalent
- Native or near-native knowledge of German and/or other major world languages in addition to English
- Strong background in syntax and morphology
- Proficiency in at least one data manipulation language (Perl or Python preferred)
- Understanding of statistical approaches to NLP (e.g., Bayesian algorithms, HMMs, SVMs, supervised or unsupervised learning)
- Familiarity with UNIX® environments

#### Work Experience:

- Experience with regex languages and finite state automata for NLP applications
- Experience developing named entity recognition functionality or in-depth knowledge of other text-based linguistic applications
- Experience working in a production-oriented development environment
- Agile/SCRUM development processes

#### Contact Information:

**Job Description**

In preparation for a new university-wide foreign language requirement, the Department of World Languages and Literatures at Southern Methodist University seeks to hire a Language Program Director at the rank of Professor of the Practice. Applicants must have a PhD in Foreign Language Education, SLA, Applied Linguistics or a related field, with emphasis on Second Language Pedagogy and Instructional Methodology. The ideal candidate will have a demonstrated record in language coordination, curriculum development, and foreign language assessment, the ability to coordinate and oversee cognate and non-cognate languages, the ability to teach at least one language currently offered by the Department, and a record of outstanding teaching.

Responsibilities include collaboration with the Department's first and second year language coordinators to develop and implement common learning outcomes, the promotion of best teaching practices at all levels of instruction, and oversight of the foreign language requirement. This is a non-tenure-track position with a three-year renewable contract and a teaching load of one 3-credit course per semester.

Applicants for the position should forward a letter of application, CV, 3 letters of reference, and an official transcript by April 16, 2012, to Professor Denise DuPont at the application address below. SMU will not discriminate on the basis of race, color, religion, national origin, sex, age, disability, or veteran status. SMU is also committed to

nondiscrimination on the basis of sexual orientation. Hiring is contingent upon the satisfactory completion of a background check.

**Application Address:**

Professor Denise DuPont, Interim Chair  
Department of World Languages and Literatures  
Southern Methodist University  
Dallas, TX 75275-0236  
USA

## St. Cloud State University

### Applied Ling: Director-Intensive English Center, St Cloud State U

<http://linguistlist.org/issues/22/22-4739.html>

Rank: Director of Intensive English Center  
 Posted on: 28-Nov-2011  
 Deadline: Until Filled  
 Ling Field(s): Applied Linguistics  
 Language(s):  
 Employer: St. Cloud State University  
 Department: English

#### Job Description

St. Cloud State University seeks a director of the Intensive English Center (IEC). Appointment will begin in Fall 2012 with the possibility of Summer 2012 employment.

#### Responsibilities:

The successful candidate will be a teacher educator and director of the IEC. The assignment will be equally divided between: (1) teaching 12 credits per year in the MA-TESL Program including 8 credits for supervising graduate assistants teaching in the IEC and (2) leading a medium-sized intensive English program. For the IEC, the director is the primary decision maker for the budget, for assessment and testing, for the curriculum, and for the scheduling and management of courses. The director also works with a program coordinator, support staff, and adjunct and fix-term faculty. In addition, responsibilities will include academic advising, service on thesis committees, and participation in department committees. The collective bargaining agreement requires that SCSU faculty demonstrate effective teaching; engage in scholarship and research; show evidence of continued preparation and study; contribute to student growth through advising and other means; and provide service to the university, especially through committee assignments, and service to the community.

#### Qualifications and Experience:

Doctorate in applied linguistics, TESL, or closely related field; at least three years of full-time ESL teaching experience; experience in administering intensive English

programs, experience in teaching linguistics, second language acquisition, language teaching methods, qualitative and quantitative research methods in TESL/applied linguistics. Primary academic area of research in TESL/applied linguistics is open. Demonstrated ability to work effectively with people from diverse cultural and linguistic backgrounds.

#### Preferred:

Publications and other professional activities, teaching experience in an MA TESL/Applied Linguistics program. Personal communication skills, knowledge of budgeting, experience supervising and mentoring graduate students, instructors, and office staff in an intensive English program. Application Information & Deadline:

Send letter of application, curriculum vitae, transcripts (copies acceptable for initial screening; official transcripts required at time of appointment), sample of scholarly writing, and 3-5 recent letters of professional recommendation to the application address below, postmarked by February 1, 2012. Contact the Search Committee Co-Chair at

[ckim@stcloudstate.edu](mailto:ckim@stcloudstate.edu) for more information.

St. Cloud State University is committed to excellence and actively supports cultural diversity. To promote this endeavor, we invite individuals who contribute to such diversity to apply, including minorities, women, LGBT, persons with disabilities and veterans. St. Cloud State University is a member of Minnesota State Colleges and Universities System. St. Cloud State University is an affirmative action/equal opportunity educator and employer.

## Stockholm University

### English for Academic Purposes:

#### Temporary Lecturer, Stockholm U

<http://linguistlist.org/issues/23/23-806.html>

Rank: Lecturer  
Posted on: 17-Feb-2012  
Deadline: 30-Mar-2012  
Ling Field(s): Applied Linguistics  
English for Academic Purposes  
Language(s): English  
Employer: Stockholm University  
Department: Department of English

#### Job Description

The Department of English at Stockholm University wishes to employ two temporary lecturers in English for Academic Purposes to be affiliated with the Centre for Academic English. The Centre seeks to ensure that the work of students and staff at Stockholm University meets the expectations of the international academic community. It provides specially designed courses in English for academic and research purposes and conducts research on English as an international academic language across different disciplines. Main duties: The successful applicant is expected to teach courses in English for Academic Purposes at the undergraduate and master's level, to take part in developing new course materials, and to take on

language-editing tasks.

Required qualifications: Applicants should have completed a PhD in a relevant field, such as English or Applied Linguistics. Completion of a course in university pedagogy (or equivalent) would be considered an advantage. Applicants should be able to document their teaching abilities and capacity to work with heterogeneous learner groups and students from different disciplinary backgrounds. Applicants must also be able to take on language-editing tasks.

Assessment criteria: In the evaluation of candidates for this post, substantial weight will be given to the applicant's teaching abilities and capacity to work across disciplines. Documented computer and online teaching skills would be considered an advantage. The candidate to be chosen is the one who is considered to possess the

most evident capacity to carry out the duties of the position in question, as well as to contribute to the progress and development of the Centre.

The successful candidate is expected to start on 1 August 2012 at the latest. Employment to this post is limited to a fixed term of one year, subject to extension by another year.

Please send your CV to the Head of Department, Dr Claudia Egerer, email: [claudia.egerer@english.su.se](mailto:claudia.egerer@english.su.se) and Director of the Centre for Academic English, Dr Maria Kuteeva, email: [maria.kuteeva@english.su.se](mailto:maria.kuteeva@english.su.se). For any informal enquiries, please contact Dr Kuteeva.

Rank: Assistant Professor  
Posted on: 14-Oct-2011  
Deadline: Until Filled  
Ling Field(s): General Linguistics  
Language(s):  
Employer: Syracuse University  
Department: Languages, Literatures, and Linguistics

#### Job Description

Assistant Professor of Linguistics (028327)

The Linguistics program in the Department of Languages, Literatures, and Linguistics at Syracuse University invites applications for a tenure-track assistant professor of Linguistics. We seek candidates with research interests in one or more of the following areas of theoretical linguistics: syntax, morphology, phonology, as well as the phonology-morphology and morphology-syntax interfaces. Interest in formal semantics and pragmatics highly desirable. The successful candidate may be expected to teach undergraduate and graduate courses in general linguistic analysis, morphology, syntax, formal semantics, and pragmatics. Ph.D. in theoretical linguistics required in hand by August 2012.

The successful candidate will contribute to the core curriculum of the Linguistics Studies minor, major, and master of arts degree programs, to the linguistic theory concentration, and to a computational linguistics curriculum currently in development.

Applicants must complete a confidential faculty application, and submit a letter of application, CV, and contact information for 3 references at the application URL below to job number 028327. For priority consideration, completed application must be received by 12/1/11; application deadline 12/15/11. Syracuse University is an Affirmative Action/Equal Opportunity institution, and we welcome applications from diverse candidates. Women and minorities are especially encouraged to apply.

Deadline: Until Filled  
Ling Field(s): Discourse Analysis  
Language and Social Interaction  
Language(s):  
Employer: Syracuse University  
Department: Department of Communication and Rhetorical Studies

### Job Description

The Department of Communication and Rhetorical Studies at Syracuse University invites applications for a full-time, tenure-track position in the area of language and social interaction/discourse analysis at the level of assistant professor. Applicants should have a PhD in communication or a related field completed by August, 2012, and a strong record of, or potential for, outstanding teaching, research and service. The department seeks a candidate with expertise in one or more approaches to discourse analysis (e.g. multimodal discourse analysis, interactional sociolinguistics, ethnography of communication, conversation analysis, critical discourse analysis). The department encourages interdisciplinary research and has emerging connections across the university, including in the areas of health, collaborative design, conflict and collaboration, dialogue and citizenship, environmental communication, women's and gender studies, LGBT issues and disability studies, among others. The successful candidate will teach undergraduate and graduate courses in the areas of discourse analysis and language and social interaction, in addition to developing courses in area of specialty and being involved in MA thesis supervision. The Department prides itself in having one of the strongest MA programs in the discipline and in hiring for this position it wishes to strengthen an already growing program with great reputation and potential.

Syracuse University is a private, coeducational and residential university. Its full-time, main campus enrollment of 11,000+ undergraduates and 4,000+ graduate students represent the United States, about 100 foreign countries and varied economic and social backgrounds. The university contains nationally recognized programs in citizenship and mass communication. For more information on the university, please visit <http://www.syr.edu>.

Syracuse University is an Affirmative Action/Equal Employment Opportunity employer.

We will begin reviewing applications on December 1, 2011.

### The American University in Cairo English; Text/Corpus Ling: Asst/Assoc Prof, American U of Cairo

<http://linguistlist.org/issues/22/22-4232.html>

Rank: Asst/Assoc Professor  
Posted on: 26-Oct-2011  
Deadline: Until Filled  
Ling Field(s): Text/Corpus Linguistics  
Computer-Assisted Language Learning  
Language(s): English  
Employer: The American University in Cairo  
Department: Teaching English as a Foreign Language

#### Job Description

The MA in TEFL Program at the American University in Cairo anticipates one opening for a specialist to teach and do research in the areas of Corpus Linguistics and Computer-Assisted Language Learning (CALL). Secondary focus would also be desirable in any of the following areas: sociolinguistics with a cross-linguistic emphasis, second language acquisition, intercultural communication, and in any of the traditional ESL skill areas. Experience or interest in community-based learning and/or online learning would also be an asset. The position primarily involves teaching in the MA in TEFL program, and maintaining an active research agenda.

#### Requirements:

A Ph.D. in Applied Linguistics is required. Successful candidates should have an ongoing program of research and a demonstrated commitment to excellence in teaching. It would be strongly desirable for the candidate to have experience teaching in an MA-level TESOL program. Responsibilities include graduate and possibly some undergraduate teaching, supervising master's theses, maintaining an active program of research and publica-

tions, and service to the Department and the University.

Priority will be given to applications received by January 15, 2012. Position is open until filled. Shortlisted candidates will be interviewed by videoconference beginning in February 2012.

**Additional Information:**

The position is at the rank of Assistant/Associate Professor and is tenure track with initial three-year (renewable) appointment subject to mutual agreement. It will begin in September 2012. Renewal of an appointment depends upon institutional needs and the appointee's performance. Application Instructions:

All applicants must submit the following documents online: a) a current C.V; b) List names & contact information of at least three references familiar with your professional background; c) a letter of interest; d) a statement of teaching philosophy; e) a completed AUC Personal Information Form (PIF); (f) a copy of a recently published article or manuscript chapter in progress; and Note: Please remember your account login enables you to respond to AUC additional questions (if required).

## The American University in Cairo Teaching Methodology in TESOL: Asst Prof, The American U of Cairo

<http://linguistlist.org/issues/22/22-4233.html>

Rank: Assistant Professor  
Posted on: 26-Oct-2011  
Deadline: Until Filled  
Ling Field(s): Applied Linguistics  
Teaching Methodology in TESOL  
Language(s): English  
Employer: The American University in Cairo  
Department: Teaching English as a Foreign  
Language

### Job Description

The MA in TEFL Program at the American University in Cairo anticipates one opening for a specialist in the area of teaching methodology in TESOL, with expertise in one or more of the traditional ESL skill areas. Secondary focus would also be desirable in any of the following areas: English for specific purposes, teaching English to young learners, business English, second language acquisition, curriculum design, or intercultural communication. Experience or interest in community-based learning and/or online learning would also be an asset. The position primarily involves teaching in the MATEFL program, and maintaining an active research agenda.

**Requirements:**

A Ph.D. or Ed.D. in Applied Linguistics, TESOL or a related field. Successful candidates should have an ongoing program of research and a demonstrated commitment to excellence in teaching. The candidate should have extensive experience teaching EFL/ESL. Experience in teaching in an MA-level TESOL program is also desired. Responsibilities include graduate and possibly some undergraduate teaching; maintenance of an ongoing research agenda; supervising teaching practica and master's theses; and service to the Department and the University.

Priority will be given to applications received by January 15, 2012. Position is open until filled. Shortlisted candidates will be interviewed by videoconference beginning in February 2012.

**Additional Information:**

Both professor of practice and assistant professor rank are hired to initial two- or three-year (renewable) appointment subject to mutual agreement. Employment will begin September 2012. Renewal of an appointment depends upon institutional needs and the appointee's performance.

**Application Instructions:**

All applicants must submit the following documents online: a) a current C.V; b) List names & contact information of at least three references familiar with your professional background; c) a letter of interest; d) a statement of teaching philosophy; e) a completed AUC Personal

Information Form (PIF); (f) a copy of a recently published article or manuscript chapter in progress; and Note: Please remember your account login enables you to respond to AUC additional questions (if required).

## The Hong Kong Institute of Education

### Ling & Literature: Asst Prof, The Hong Kong Institute of Education

<http://linguistlist.org/issues/23/23-946.html>

Rank: Assistant Professor, Lecturer  
 Posted on: 24-Feb-2012  
 Deadline: 09-Mar-2012  
 Ling Field(s): Ling & Literature  
 Language(s):  
 Employer: The Hong Kong Institute of Education  
 Department: Department of English

#### Job Description

The Hong Kong Institute of Education is a publicly funded institution offering a full range of academic programmes at doctoral, master, bachelor and post-graduate diploma levels as well as other professional development programmes to over 8,000 students, serving teachers and professionals studying in education and related humanities, social sciences, and arts and culture disciplines. With the Hong Kong SAR Government's support for the Institute to develop into an Education-focused, multidisciplinary institution with strong research capacity, and in line with the Institute's plan to become a University of Education, we continue to strengthen our capacity in new discipline areas.

Through our research, the Institute aspires to become a leading agent of change for education and public policies in the Asia Pacific region. Our vision is clearly focused on innovative, world-class research and development that contributes to solving problems and addressing public policy issues locally and globally. Collaboration, intellectual freedom and innovation are our hallmark values. If you are excited by the prospect of contributing your expertise to the development of a leading multidisciplinary institution at the heart of East Asia, we would like to hear from you. The Institute invites applications for the following post:

Department of English

Assistant Professor/Lecturer (Ref: AsstProf/  
Lect/ENG/0212)

The appointee will participate in teaching, research, knowledge transfer and community service. He/She is required to be actively involved in research that leads to publications in recognized refereed journals; develop and teach in programmes at both the undergraduate and post-graduate levels; give guidance to students in the capacity of academic adviser; supervise students on teaching practice and contribute to departmental activities and management.

Applicants should have a doctoral degree in the discipline of literature or linguistics; a successful record of teaching and research publications in the field; and at least 4 years of teaching or relevant professional experience. Applicants with less substantial relevant experience may be considered for the rank of Lecturer.

Salary will be commensurate with qualifications and experience. Initial appointment will be made on a fixed-term gratuity-bearing contract. Fringe benefits include leave, medical and dental benefits and, where applicable, housing benefits.

Application Forms are obtainable from (a)

<http://www.ied.edu.hk/hro/applyfor.htm>; or (b) the Human Resources Office (address below). The completed Application Form, together with full CV, should be sent to the Human Resources Office by email to the application email address below, by fax (number below), or by post to the application address below on or before 9 March 2012. Please quote the reference number of the position in the application and mark "Strictly Confidential – Job Application" on the envelope.

All applications will be treated in strict confidence. Only those who are shortlisted will be contacted.

Further information about the Institute is available at <http://www.ied.edu.hk>. HKIEd is an Equal Opportunities Employer.

## The Hong Kong Polytechnic University Korean Language Studies: Teaching Fellow, Hong Kong Polytechnic U

<http://linguistlist.org/issues/23/23-493.html>

Rank: Teaching Fellow  
Posted on: 30-Jan-2012  
Deadline: 29-Feb-2012  
Ling Field(s): Applied Linguistics  
Korean Language Studies  
Language(s): Chinese, Mandarin  
English  
Korean  
Employer: The Hong Kong Polytechnic  
University  
Department: Department of Chinese and  
Bilingual Studies

#### Job Description

The Hong Kong Polytechnic University is the largest government-funded tertiary institution in Hong Kong in terms of student number. It offers programmes at Doctorate, Master's, Bachelor's degrees and Higher Diploma levels. It has a full-time academic staff strength of around 1,200. The total consolidated expenditure budget of the University is in excess of HK\$4 billion per year.

#### Teaching Fellow in Korean Language Studies

[Appointment period: twelve months initially, with possibility of further appointment]

The Department of Chinese and Bilingual Studies is strong in Applied Language Studies. It offers bachelor, master, and doctoral programmes in Translating & Interpreting, Bilingual Corporate Communication, Chinese Linguistics, Chinese Language Teaching, and Teaching Chinese as a second language. The Department has a total of 70 academic staff members. Please visit the website at <http://www.cbs.polyu.edu.hk> for more information about the Department.

The appointee will be required to (a) engage in teaching of Korean subjects and is expected to teach various levels and types of subjects offered by the Department; (b) coordinate teaching and contribute to the development of teaching and learning materials, subject and curriculum; and engage in teaching related administrative duties and extra-curricular activities related to the local and/or Korea-related community; (c) engage in scholarly activities and pedagogical exploration in relation to the above area; and (d) undertake administrative duties in academic and

departmental affairs and assist in programme management for the further development of the Department's objectives.

Applicants should have (a) a master's degree or above in an appropriate discipline related to second/foreign language teaching; (b) native or near-native mastery of the Korean language; (c) at least five years' experience in teaching Korean language subjects at tertiary level; (d) experience in deploying varied language teaching methods, developing language teaching materials and subject syllabi and coordinating team teaching. Familiarity with curriculum development is preferred; (e) experience in organising socio-cultural events as part of curricular activities; and (f) a highly proficient level of English and be able to conduct teaching related administration tasks independently. Proficiency in Cantonese/ Putonghua will be an advantage.

#### Remuneration:

Salary offered will be commensurate with qualifications and experience. Applicants should state their current

and expected salary in the application.

**Application:**

Please submit application form via email to [hrstaff@polyu.edu.hk](mailto:hrstaff@polyu.edu.hk); by fax at (852) 2364 2166; or by mail to the application address below. If you would like to provide a separate curriculum vitae, please still complete the application form which will help speed up the recruitment process. Application forms can be obtained via the above channels or downloaded from <http://www.polyu.edu.hk/hro/job.htm>. The closing date for application is Wednesday, 29 February 2012. Applicants who are not invited to an interview within two months of the closing date should consider their applications unsuccessful. Details of the University's Personal Information Collection Statement for recruitment can be found at

<http://www.polyu.edu.hk/hro/jobpics.htm>.

The Open University

Milton Keynes, Buckinghamshire (United Kingdom)

From £60,367 (subject to negotiation)

Ref: 7858

The OU is the largest university in the UK, and is consistently ranked among the top UK universities for the quality of its teaching and research. It is committed to widening participation in higher education and fosters research teams who compete with top-ranked institutions worldwide.

The Centre for Language and Communication is seeking to appoint someone with a significant track record of research and teaching in English language/applied linguistics. We take a broad approach to this academic area, with research covering topics such as professional and academic literacies, educational dialogue, globalisation, language and creativity, metaphor in discourse, and multimodal meaning-making. You will contribute to our research and teaching, and will provide strong academic leadership to a talented team of academic staff.

You should have an outstanding publications record, demonstrable ability to attract external research funding, evidence of research leadership and the ability to motivate and inspire others.

For detailed information, either call or email the

Staffing Team, contact information below, quoting the reference number.

To apply go to the application URL below. Further particulars are available in large print, disk or audiotape (minicom 01908 654901). Closing date: noon on 24 April 2012.

We promote diversity in employment and welcome applications from all sections of the community.

## The Pennsylvania State University

### Applied Ling: ESL/EAP Writing

#### Program Coordinator, Penn State U

<http://linguistlist.org/issues/22/22-3995.html>  
 Rank: Senior Lecturer, ESL/EAP Writing  
 Program Coordinator  
 Posted on: 12-Oct-2011  
 Deadline: Until Filled  
 Ling Field(s): Applied Linguistics  
 Language(s): English  
 Employer: The Pennsylvania State University  
 Department: Applied Linguistics

#### Job Description

The Department of Applied Linguistics at The Pennsylvania State University seeks qualified applicants for a fixed-term, multi-year position as Senior Lecturer in Applied Linguistics. The position begins Fall 2012. The Lecturer will supervise and coordinate the undergraduate and graduate English as a Second Language (ESL) writing program in English for Academic Purposes (EAP), supervise the departmental teaching assistants who teach in the ESL/EAP writing program, and develop and administrate an ESL/EAP writing support center. In addition, the Senior Lecturer will coordinate recruitment for and oversee the Department's On-Line Graduate Certificate in TESOL. Opportunities to teach courses and advise students in the MA TESL and Ph.D. in Applied Linguistics degree programs are available.

Substantial administrative and/or supervisory experience is required in ESL/EAP writing. Ph.D. required at time of appointment in TESOL, applied linguistics or related fields. Applicants with a MA degree in TESOL, applied linguistics or related fields will be considered but must have extensive experience in ESL/EAP writing administration, supervision, and teaching.

Review of dossiers to begin December 1, 2011. Applications will be accepted via the faculty search website (URL below) until the position is filled. Please provide cover letter, CV, three confidential letters of recommendation, and documentation of administrative/supervisory/teaching excellence. Information about the Department of Applied Linguistics can be found at the URL above. Penn State is committed to affirmative action, equal opportunity and the diversity of its workforce.

## The Pennsylvania State University ESL: Program Coordinator/Senior Lecturer, Pennsylvania State U

<http://linguistlist.org/issues/22/22-4234.html>

Rank: Senior Lecturer  
Posted on: 26-Oct-2011  
Deadline: Until Filled  
Ling Field(s): Applied Linguistics  
ESL  
Language(s): English  
Employer: The Pennsylvania State University  
Department: Applied Linguistics

### Job Description

#### ESL/IECP Program Coordinator Position

The Department of Applied Linguistics at Pennsylvania State University seeks a fixed-term, multiyear program coordinator for its Intensive English Communication Program (IECP) starting in Fall 2012. The successful candidate will be committed to international education and will be able to work effectively in a strong team environment to meet and exceed the needs and expectations of international students seeking high quality English academic preparation in a college or university setting.

Primary duties include directing the IECP program, working with Global Programs and other university programs and committees to identify IECP needs, and developing a comprehensive plan for responding to them; developing and updating curriculum, textbook/equipment selection, and instructional materials; scheduling courses; supervising faculty and staff, and leading professional development of faculty. The ESL Program Coordinator will also be a member of the Applied Linguistics graduate faculty and will be eligible for serving on masters and doctoral level committees. Minimum Qualifications:

- A Ph.D. in Teaching English as a Second Language (T.E.S.L.), Applied Linguistics or related field. Applicants with a MA degree in TESOL, applied linguistics or related fields will be considered but must have extensive experience in ESL administration, supervision, and teaching.

- Several years teaching experience in an Intensive

English or Academic English preparation program in a college or university setting where English is the language of instruction.

- Record of on-going professional development.
- Administrative and/or program development, testing and program assessment experience.
- Command of the English language at the level of a native speaker. Preferred qualifications:
  - Experience in teacher development.
  - Experience teaching ESL/EFL abroad.
  - Proficiency in one or more languages other than English.
  - Experience developing, teaching and assessing online courses. Application Procedure:

Review of dossiers to begin March 2, 2012. Applications will be accepted via the faculty search website (application URL below) until the position is filled. Please provide cover letter; CV; three confidential letters of recommendation; transcripts of graduate program(s); documentation of administrative/supervisory/teaching excellence; supporting materials such as observation reports, peer reviews, and student evaluations, and copies of any published materials relevant to this position. Letters of recommendation may be emailed to the application email below or sent via post to the application address below..

#### About the IECP:

The IECP is a dynamic community of outstanding faculty and staff whose mission is to provide quality language instruction to nonnative speakers of English with an emphasis on the skills necessary for academic success. The IECP is affiliated with the Department of Applied Linguistics, which is part of the College of the Liberal Arts. Like the IECP, the Department's mission is to advance understandings of language use and language learning from a range of anthropological, sociological, and psychological perspectives. Department faculty are committed to teaching and mentoring students and are recognized world wide for their topically and geographically diverse research involving a broad spectrum of languages and settings.

Penn State is committed to affirmative action, equal opportunity and the diversity of its workforce.

## The University of New Mexico Hispanic Linguistics: Rank Open, The University of New Mexico

<http://linguistlist.org/issues/22/22-4208.html>

Rank: Rank Open  
 Posted on: 25-Oct-2011  
 Deadline: Until Filled  
 Ling Field(s): Hispanic Linguistics  
 Language(s):  
 Employer: The University of New Mexico  
 Department: Linguistics

#### Job Description

The Department of Spanish and Portuguese and the Department of Linguistics seek applicants for an open rank appointment in Hispanic Linguistics at the University of New Mexico (UNM). The position is contingent upon final budgetary approval. It is expected that the appointment will be made at the Assistant Professor or Associate Professor rank. The position is probationary leading to a tenure decision. Appointment will begin in August 2012. The Ph.D. must be in hand prior to appointment. Responsibilities will include teaching in the areas of specialization at the undergraduate and graduate level, graduate student mentoring, and service. Competitive salary. This is a joint position in two departments that maintain close ties. The Hispanic Linguistics program in the Department of Spanish and Portuguese at UNM specializes in sociolinguistics, language variation and change, second language acquisition, Spanish as a heritage language, and phonology. For further information on the department, please see our website: <http://www.unm.edu/~spanport/>.

The Department of Linguistics specializes in cognitive-functional approaches to the study of language, including corpus and empirically-based studies, cross-linguistic research, and typology. We have special strength in Native American linguistics and language revitalization, the study of signed languages, and Spanish linguistics. The Navajo Language Program is housed in the department, as is the Signed Language Interpreting Program. For further information on the department, please see our website

<http://www.unm.edu/~linguist>.

Minimum qualifications Ph.D. by August 2012 in Linguistics, Hispanic Linguistics or a closely-related field. Primary research focus on Spanish linguistics.

Preferred qualifications: (a) specialization in Corpus Linguistics, particularly spoken corpora; (b) discourse analysis from a functional perspective; (c) bilingualism and/or first language acquisition; (d) research and teaching in Portuguese linguistics; (e) excellence in scholarship in areas of specialization; (f) excellence in teaching.

UNM provides a diversified package of benefits including medical, dental, vision, and life insurance. In addition, UNM offers educational benefits through the tuition remission and dependent education programs. For a more complete explanation of the benefits, please go to <http://hr.unm.edu/> and click on the Benefits link.

Enquiries about this position can be addressed to: Professor William Croft, [wcroft@unm.edu](mailto:wcroft@unm.edu).

For details on application requirements or to apply, visit the UNMJobs website listed below and please reference Posting Number 0813172. University of New Mexico is committed to promoting and supporting the diversity of our campuses. UNM is an Equal Opportunity/Affirmative Action Employer and Educator. Women and underrepresented minorities are encouraged to apply.

## The University of Texas at Dallas Bilingual Communication Dev/Disorders: Prof, U of Texas at Dallas

<http://linguistlist.org/issues/22/22-3991.html>

Rank: Assistant, Associate or Full  
Professor

Posted on: 11-Oct-2011

Deadline: Until Filled

Ling Field(s): Language Acquisition  
Bilingual Communication  
Development and Disorders

Language(s):

Employer: The University of Texas at Dallas

Department: School of Behavioral and Brain  
Sciences

#### Job Description

The School of Behavioral and Brain Sciences at the University of Texas at Dallas seeks candidates in the area of bilingual communication processes, development or disorders for a full-time (9 month) tenure-track or tenured position at the Assistant, Associate, or Full Professor level to begin Fall 2012. Responsibilities include research, teaching, service and directing student research. Applicants should hold a doctorate in a relevant field (e.g., communication sciences and disorders, linguistics, psychology). Applicants at the Associate or Full Professor rank are expected to have a strong record of extramural funding; at the Assistant Professor rank applicants are expected to have initiated a fundable program of research. A competitive salary with an excellent start-up package is available. The School of Behavioral and Brain Sciences provides a strong

interdisciplinary scholarly environment with Ph.D. programs in Cognition and Neuroscience, Psychological Sciences, and Communication Sciences and Disorders, as well as a variety of undergraduate and graduate degrees in these three broad areas. The UT-Dallas Callier Center for Communication Disorders is one of the top-rated speech and hearing programs in the country. The Dallas Independent School District student population is predominantly Hispanic (67%), exceeding the statewide Hispanic population average of 48% and the national average of approximately 20%.

The University of Texas at Dallas is an Equal Opportunity/Affirmative Action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability, age, citizenship status, Vietnam era or special disabled veteran's status, or sexual orientation. Indication of gender and ethnic origin for affirmative action purposes is requested as part of the application process but is not required for consideration. Review of applications will begin January 1, 2012, and will continue until the position is filled; the starting date is September 1, 2012. To apply for this position, applicants should submit (a) their current curriculum vitae, (b) a letter of interest (including research interests), and (c) letters of recommendation from (or the names and contact information for) at least five professional references via the online application form at the application URL below. Upon submitting their preferred email address, applicants will receive instructions to access a personalized application profile website. School hiring officials will receive notification when application materials are posted and are available for review.

## Trinity College Dublin

### English; Applied Linguistics: Asst Prof, Trinity College Dublin

<http://linguistlist.org/issues/23/23-795.html>

Rank: Assistant Professor  
Posted on: 16-Feb-2012  
Deadline: 27-Mar-2012  
Ling Field(s): Applied Linguistics  
Language(s): English  
Employer: Trinity College Dublin  
Department: Linguistic, Speech &  
Communication Sciences

#### Job Description

Post Title: Assistant Professor\* in Applied Linguistics

Post Status: Permanent

Department/Faculty: Centre for Language and Communication Studies / School of Linguistic, Speech and Communication Sciences

Location: CLCS, Arts Building, College Main Campus

Reports to: Head of School

Closing Date: 12 noon Tuesday 27th March 2012

Salary Range: This appointment will be made on the Department of Education and Skills Lecturer Scale in line with current Government pay policy

The School of Linguistic, Speech and Communication Sciences wishes to appoint an assistant professor (equivalent to lecturer) in applied linguistics with expertise in cognitive approaches to second language acquisition. The person appointed will contribute to the undergraduate and

postgraduate teaching of the Centre for Language and Communication Studies (CLCS) in this area. The successful candidate will be expected to teach on the CLCS M.Phil programmes and to supervise postgraduate research at PhD level. She or he will increase Trinity College's research strength in second language acquisition and psycholinguistics. Information about the School is available at <http://www.tcd.ie/slscs/>. For further information about the post and the department please contact the

Head of School, Prof John Saeed at the email address below.

\* The new academic title of Assistant Professor, previously known as Lecturer, as approved by University Council (15 June 2011) and Board (29 June 2011).

#### Background to the Post:

CLCS is an academic department of applied linguistics, linguistics and speech science. CLCS is particularly active at postgraduate level, with around 40 research students and four taught Masters programmes. It is also responsible for the Bachelor in Deaf Studies; the linguistics component of the B.A. in Computing and Language; and provides

modules in linguistics and modern languages for students across the university. Its state-of-the-art language learning facilities and large collection of language learning resources are used for class teaching by the modern language departments and are also open to all members of the university for self-access learning. CLCS has long established research and teaching strengths in applied linguistics. The Centre currently offers taught M.Phil degrees in linguistics, applied linguistics, speech and language processing, and English language teaching and has an increasing number of doctoral students in these areas.

## UCLA

### American Sign Language: Lecturer, UCLA

<http://linguistlist.org/issues/23/23-417.html>

Rank: Lecturer  
Posted on: 25-Jan-2012  
Deadline: Until Filled  
Ling Field(s): American Sign Language  
Language(s):  
Employer: UCLA

Department: Linguistics

#### Job Description

The UCLA Department of Linguistics invites applications for a two-year half time lecturer position in American Sign Language (ASL) starting Fall 2012. This is a teaching position that will involve designing and teaching a one year (three quarter) sequence of ASL instruction (one course per quarter). The salary for the position will range between \$27,000-\$30,000, and position comes with full UCLA benefits. The position requires native or near-native ASL skills and a strong background in ASL teaching.

The individual appointed may also have the possibility of teaching an 8 week intensive summer course in ASL, if there is sufficient enrollment for the course. This 8 week course will carry a salary in the range of \$8,000-\$9,000. Please send applications in electronic form to the ASL Search Committee, [linguisticsasl@humnet.ucla.edu](mailto:linguisticsasl@humnet.ucla.edu). Applications should include a cover letter, resumé/CV, and additional information as evidence of teaching record (these may be course evaluation data, course materials, and/or recommendation letters).

UCLA is an affirmative action/equal opportunity employer. Women and minorities are encouraged to apply.

Application deadline: we will start evaluating applications starting February 20, 2011, but the position is open until filled.

## United Arab Emirates University Phonetics; Phonology: Associate/Full Professor, United Arab Emirates University

<http://linguistlist.org/issues/23/23-1299.html>

Rank: Associate Professor, Full Professor

Posted on: 14-Mar-2012

Deadline: 01-Sep-2012

Ling Field(s): Phonetics  
 Phonology

Language(s):

Employer: United Arab Emirates University

Department: Linguistics

#### Job Description

The Department of Linguistics at the United Arab Emirates University seeks to fill a position in phonology/phonetics at Associate or Full Professor Rank. The ideal candidate will have an earned PhD in linguistics and demonstrate a record of excellence in university-level teaching and research in phonology or phonetics-phonology interface. Applicants with interest in experimental (e.g. speech analysis/synthesis, computational, developmental, neurolinguistic or clinical) approaches to phonology, and those with fieldwork experience, are particularly encouraged to apply. Expertise in Arabic phonology is desirable but not required.

The Department of Linguistics offers undergraduate and PhD level programs in theoretical and applied linguistics. Successful applicants are expected to teach undergraduate courses in any area of linguistics. Faculty members are expected to teach at all levels in the program, to share in general education teaching, and to participate, as appropriate, in graduate teaching and supervision.

Faculty members in the Department of Linguistics are involved in a broad range of research projects in theoretical and applied linguistics. The Department maintains and continues to develop state-of-the-art research facilities housing psycholinguistic behavioral testing suites, an EEG system, and a phonetics laboratory. In the coming

year we will expand our capabilities to fMRI and MEG imaging techniques for neurolinguistic research. The initial appointment will be for a four-year period (renewable) with the first two years probationary. The standard teaching load is 12 hours per semester, modified in varying degrees by course remissions arising from funded research and consultative activities and administrative roles. All faculty members are expected to have an ongoing research agenda and to be engaged in the publication of works that have been subject to external peer review and appear in internationally recognized and cited journals or other volumes.

This appointment will commence in September 2012 or as soon as possible thereafter.

The UAEU offers a competitive tax-free salary commensurate with qualifications and level of appointment. Benefits provided by the university include housing, a furniture allowance, employer-paid comprehensive health insurance, an education allowance for children, annual airline tickets for the employee and family members, and an end-of-service gratuity based on years of service.

Interested applicants should initially submit a CV with names and email addresses of three referees along with a letter of interest describing their teaching and research to Dr. Ali Idrissi at: [ali.idrissi@uaeu.ac.ae](mailto:ali.idrissi@uaeu.ac.ae) For more information about our Department and Program, please visit: [http://www.fhss.uaeu.ac.ae/linguistics/study\\_opportunities.shtml](http://www.fhss.uaeu.ac.ae/linguistics/study_opportunities.shtml) UAE University is the largest federal university in the United Arab Emirates. UAEU has over 12,000 students, primarily based in the city of Al Ain. Al Ain is small garden city of palm trees, grassy parks and low rise buildings set in the mountainous inland region of the UAE. Al Ain is a very safe and clean city with a cosmopolitan population. The larger cities of Abu Dhabi and Dubai are an easy one hour drive on modern highways.

## UnitedHealth Group

### NLP; Ling Software Development:

#### Researcher, UnitedHealth Group

<http://linguistlist.org/issues/23/23-362.html>

Rank: Researcher  
Posted on: 19-Jan-2012  
Deadline: 19-Mar-2012  
Ling Field(s): Computational Linguistics  
General Linguistics  
Natural Language Processing;  
Linguistics Software Development  
Language(s):  
Employer: UnitedHealth Group  
Department: OptumInsight

#### Job Description

The Research Linguist II will work closely with other medical language linguists, NLP Engineers and Clinical Coding Analysts to develop state-of-the-art medical NLP. The Research Linguist II must develop a thorough understanding of all clinical coding applications of LifeCode technology, and be able to apply this knowledge to other types of medical information extraction. Responsibilities will include maintaining and developing domain-specific lexical databases and rules related to multiple coding or information extraction areas, and will also include assessing the application of our software to other disciplines or information extraction projects. This person will apply various techniques from computational linguistics to develop and improve software modules that perform morphological analysis,

tokenization, parsing, and semantic analysis. Linguistic design work on particular areas of semantic or grammatical disambiguation will be required, with constant attention to implementation and a rapid development cycle. The successful candidate will be capable of leading specific NLP development projects as needed, and of mentoring more junior research linguists. The Research Linguist II reports to the Manager of NLP Development.

#### Requirements:

- 2+ years professional work experience with natural language processing or linguistics software development

required

- Working knowledge of concepts in Computational Linguistics; Morphology, Syntax and Semantics; Natural Language Processing

- Working knowledge of C++, JAVA, C#, Perl or Python

- Mastery of regular expressions

- Undergraduate or graduate degree in Linguistics, Cognitive Science, or a linguistics-related discipline with at least 4 years of relevant work experience.

- Mastery of medical vocabulary and the pragmatics of medical documentation for multiple medical specialties is highly desirable.

- Working knowledge of SQL is a plus

To apply for Requisition #371356, please follow the steps below: 1. Go to <http://careers.unitedhealthgroup.com/>

2. Under the "Find Jobs" section, enter the requisition number above in the blank that reads "Enter keyword (e.g. sales) job title or job number" 3. Click "Search" to view the job listing, then click "Apply Online" to apply 4. You may have to create a User ID if you have never done so before. Diversity creates a healthier atmosphere: equal opportunity employer M/F/D/V

UnitedHealth Group is a drug-free workplace. Candidates are required to pass a drug test before beginning employment. In addition, employees in certain positions are subject to random drug testing.

Semantics

Compositionality; Computational  
Distributional Models

Language(s): English

Employer: Università di Trento

Department: Centro Interdipartimentale Mente e Cervello -CIMEC

#### Job Description

3 (Renewable) 2-Year Post-Doc Positions Available

The CIMEC-CLIC laboratory of the University of Trento, an interdisciplinary group of researchers studying language and conceptualization using both computational and cognitive methods (<http://clic.cimec.unitn.it>) announces the availability of at least 3 (renewable) 2-year Post-Doc positions. The scholarships are funded by a 5-year European Research Council Starting Grant awarded to the COMPOSES (COMpositional Operations in SEMantic SPACE) project (<http://clic.cimec.unitn.it/composes>), that aims at modeling composition in distributional semantics. The project is expected to have strong impact on both theoretical and computational semantics, as well as their cognitive underpinnings.

#### \* Desired Profiles \*

Given the interdisciplinary nature of the project, we seek brilliant researchers with any of the following backgrounds:

- Machine learning (areas of special interest: regression, regularization methods, hierarchical regression, autoencoders, curriculum learning, scaling machine learning to large multivariate and multi-level problems, dealing with very sparse data);

- Psycholinguistics, experimental linguistics or

cognitive science (areas of special interest: systematic judgment elicitation methods such as Likert scales or magnitude estimation, crowdsourcing, semantic processing);

- Formal and/or computational semantics (areas of special interest: Montague Grammar and its derivatives, distributional semantics) Advanced programming and mathematical skills are required of candidates from machine learning. Linguists and cognitive scientists must possess at least basic programming skills and a reasonable knowledge of statistics. If you think that your background is relevant to the research program outlined on the project website (<http://clic.cimec.unitn.it/composes>) and you have good programming and quantitative skills, please do get in touch even if you do not fit any of the profiles above.

All researchers are expected to have an interest in working in an interdisciplinary environment.

**\* The Research Environment \***

The CLIC lab (<http://clic.cimec.unitn.it>) is a unit of the University of Trento's Center for Mind/Brain Sciences (CIMEC, <http://www.unitn.it/en/cimec>), an English-speaking, interdisciplinary center for research on brain and cognition whose staff includes neuroscientists, psychologists, (computational) linguists, computer scientists and physicists.

CLIC consists of researchers from the Departments of Computer Science (DISI) and Cognitive Science (DISCOF) carrying out research on a range of topics including concept acquisition, corpus-based computational semantics, combining NLP and computer vision, combining brain and corpus data to study cognition, formal semantics and theoretical linguistics. Modeling composition in distributional semantics is increasingly a focus point of CLIC, and activity in this area will grow considerably thanks to COMPOSES funds. CLIC is part of the larger network of research labs focusing on Natural Language Processing and related domains in the Trento region, that is quickly becoming one of the areas with the highest concentration of researchers in NLP and related fields anywhere in Europe.

The CLIC/CIMEC laboratories are located in beautiful Rovereto, a lively town in the middle of the Alps, famous for its contemporary art museum, the quality of its wine, and the range of outdoors sport and relax opportunities it

offers: <http://en.wikipedia.org/wiki/Rovereto>

**\* Application Information \***

For further information, please send an expression of interest to the application email address below, attaching a CV. Positions are available immediately and open until filled.

## Universität Konstanz

### Neurolinguistics: Postdoctoral Research,

### Universität Konstanz

<http://linguistlist.org/issues/23/23-1272.html>

Rank:	Post Doc
Posted on:	13-Mar-2012
Deadline:	Until Filled
Ling Field(s):	Neurolinguistics
Language(s):	
Employer:	Universität Konstanz
Department:	FB Sprachwissenschaft

#### Job Description

Job Offer No. 2012 / 020

The University of Konstanz is one of the nine Universities of Excellence in the Federal Republic of Germany.

The Department of Linguistics invites applicants for a full-time Postdoctoral Research Position

(Salary scale 13 TV-L)

Applications are invited for 2 years and 3 months in the Neurolinguistics Group at the University of Konstanz. In principle, this position can be divided into two half-time positions.

#### Requirements:

Applicants should hold a PhD in linguistics or psycho-

logy or other disciplines related to the cognitive neuroscience of language. They should have extensive experience with EEG, fMRI and other brain imaging techniques, and should be familiar with statistical analysis and general scientific methodology. Proven skills in scholarly writing will be an advantage.

The successful candidate will share in the management of the

Neurolinguistics Group and will be involved in undergraduate and advanced teaching on human language processing and related topics in the context of a linguistics programme. During the first year, active participation in a current research project on "Language-specific morphological and metrical structure in speech processing: Comparative psycho- and neurolinguistic investigations of French and German" is expected.

The University of Konstanz is an equal opportunity employer and tries to increase the number of women in research and teaching.

The University of Konstanz has been certified by the Hertie Foundation to be a family-friendly institution. The University is committed to promote the compatibility of work and family life.

The University of Konstanz encourages disabled persons to apply. They will be given preference if appropriately qualified (contact + 49(0)7531 / 88- 4895).

Applications should send a cover letter, a full CV and one sample publication or paper to Carsten Eulitz at the application address or application email address below.

Application will be considered until the position is filled. The contract can begin immediately after hiring.

#### Application Address:

Prof. Carsten Eulitz  
Fachbereich Sprachwissenschaft  
Fach 181  
D-78457 Konstanz,  
Germany

#### Contact Information:

## Universitat Pompeu Fabra Syntax/Morphology-Semantics Interface: Post Doc, U Pompeu Fabra

<http://linguistlist.org/issues/22/22-4802.html>

Rank: Post Doc  
Posted on: 02-Dec-2011  
Deadline: Until Filled  
Ling Field(s): Morphology  
Semantics  
Syntax  
Syntax/Morphology-Semantics  
Interface

Language(s):  
Employer: Universitat Pompeu Fabra  
Department: Translation and Language Sciences

#### Job Description

The Formal Linguistics Group (GLIF) of the Department of Translation and Language Sciences at Universitat Pompeu Fabra, Barcelona, announces a one year postdoctoral position in semantics or the syntax/morphology-semantics interface associated with the project 'Natural Language Ontology and the Semantic Representation of Abstract Objects 2' starting no later than September 1, 2012, and possibly earlier, depending on when the position is filled and the availability of the successful candidate.

The ideal candidate will have a research specialization related to at least one of the focal areas of the project: natural language ontology, the semantics of adjectives, participles, or nominalization. Additional skills in corpus linguistic analysis would also be of interest. Job responsibilities will primarily consist in contributing to the development of the project via original research in one or more of these areas and in carrying out supporting tasks related to the project.

Applicants should send a CV, statement of research

interests, two sample publications, and the names and contact information for two references, to Louise McNally (email address below) with the subject line 'postdoc'. Review of applications will start immediately and continue until the position is filled. Inquiries about the project/position should be sent to the same address. Universitat Pompeu Fabra is a research-oriented, highly international institution. For more information about the university, the Department of Translation and Language Sciences, and the GLIF group, see

<http://www.upf.edu>, <http://www.upf.edu/dtcl>, and <http://www.upf.edu/glif>.

Deadline: 20-Mar-2012  
Ling Field(s): Language Acquisition  
Teacher's Training  
Language(s): Spanish  
Employer: Université de Montréal  
Department: Littératures et langues modernes

#### Job Description

Full-time, limited-term position in Teaching Spanish as a second language The Department of Modern Languages and Literatures at Université de Montréal invites applications for a full-time, limited-term position (one year, renewable) in Teaching Spanish as a second language, beginning June 1, 2012. The successful candidate will teach four courses per year at undergraduate and graduate levels, supervise research, and participate in the Department academic activities. Applications for the position will be accepted until March 20, 2012.

Candidates should have a completed Ph.D. in Hispanic

Philology or Applied Linguistics, native or near-native fluency in Spanish, experience in teaching, demonstrated interest in research and publications.

Applicants should send a statement of research interests, an updated curriculum vitae, and copies of their diplomas : They should arrange for three confidential letters of reference to be sent directly to the application address below.

## Université Laval

### English; Applied Linguistics: Professor,

#### Université Laval

<http://linguistlist.org/issues/23/23-1472.html>

Rank: Professor  
Posted on: 22-Mar-2012  
Deadline: 23-Apr-2012  
Ling Field(s): Applied Linguistics  
Language(s): English  
Employer: Université Laval  
Department: Langues, linguistique et traduction

#### Job Description

Didactique de l'anglais langue seconde

Milieu de vie privilégié au cœur de la ville de Québec, l'Université Laval est une grande université reconnue pour sa culture de l'excellence en enseignement et en recherche.

Le Département de langues, linguistique et traduction

de l'Université Laval sollicite des candidatures pour un poste de professeur en didactique de l'anglais langue seconde.

Entrée en fonction : le 1er août 2012

Clôture du concours : le 23 avril 2012

Fonctions:

- enseignement au 1er cycle en didactique de l'anglais langue seconde

- enseignement aux 2e et 3e cycles

- recherche et encadrement d'étudiants de 2e et 3e cycles

- participation active au fonctionnement et à la promotion des programmes Exigences:

- doctorat (obtenu ou en voie de l'être) en linguistique ou en sciences de l'éducation, avec spécialisation en didactique de l'anglais langue seconde

- recherche en didactique de l'anglais langue seconde en milieu scolaire et publications dans le domaine

- expérience de l'enseignement de la didactique de l'anglais en milieu universitaire

- excellente connaissance de l'anglais et très bonne connaissance du français

- expérience de l'enseignement de l'anglais langue seconde au primaire ou au secondaire (brevet d'enseignement souhaité)

- connaissance du milieu scolaire québécois souhaitée

Traitement et conditions de travail selon la convention collective en vigueur. Valorisant la diversité, l'Université Laval invite toutes les personnes qualifiées à présenter leur candidature, en particulier les femmes, les membres de minorités visibles et ethniques, les autochtones et les personnes handicapées. La priorité sera toutefois accordée aux personnes ayant le statut de citoyen canadien ou de résident permanent.

Les personnes intéressées sont priées de faire parvenir une lettre de présentation et un curriculum vitae en français ainsi que les coordonnées de trois répondants au

plus tard le 23 avril 2012.

#### Job Description

##### ESL Teacher Education

Located in the heart of Quebec City, Université Laval is a major university recognized for its culture of excellence in teaching and research. The Département de langues, linguistique et traduction at Université Laval invites applications for a position of professor in ESL (English as a Second Language) Teacher Education, effective August 1, 2012.

Closing date: April 23, 2012

#### Duties:

- Teaching courses in ESL teacher education at the undergraduate level

- Teaching at the master's and doctoral level
- Research and supervision of master's and doctoral students
- Active participation in program provision and promotion

Selection criteria:

- Ph. D. (completed or imminent) in linguistics or in education, with a specialization in teaching ESL
- Research in the area of teaching ESL in schools and publications in the area
- Experience in teaching ESL teacher education courses at the university level
- Excellent proficiency in English and very good proficiency in French

- Experience in teaching English as a second language in elementary or high school (teaching certificate an asset)

- Familiarity with the Quebec school system is considered an asset Remuneration and work conditions are in accordance with the current collective agreement.

Valuing diversity, Université Laval encourages all qualified individuals to apply-particularly women, visible and ethnic minorities, aboriginal persons, and persons with disabilities-but priority will be given to Canadians and Canadian permanent residents.

Applicants should submit a letter of intent, a curriculum vitae in French, and the names and contact information of three respondents by April 23, 2012

## Université Paris Diderot

### French; Experimental Phonetics: Prof, Université Paris Diderot

<http://linguistlist.org/issues/22/22-4230.html>

Rank: Professor  
Posted on: 26-Oct-2011  
Deadline: Until Filled  
Ling Field(s): Phonetics  
Language(s): French  
Employer: Université Paris Diderot  
Department: UFR Linguistique

**Job Description**

Full Professor Position (Paris France)

The University Paris Diderot is offering a full professor position in Experimental Phonetics.

The candidate should have experience in teaching and research in Experimental Phonetics. S/he should already hold a tenured professor position or be registered on the French national qualification lists before October 27th 2011.

S/he should have expertise in experimental phonetics (acoustic and articulatory) and will be responsible for a research program combining phonetics with another linguistic domain such as phonology, morphology, syntax, semantics or discourse. A specialization in prosody or sizable spoken corpora will be a plus.

S/he will teach graduate and undergraduate courses in the Linguistics department (<http://www.univ-paris-diderot.fr>) and will be in charge of the Experimental Phonetics curriculum in the Linguistics Masters and PhD Program (<http://www.linguist.univ-paris-diderot.fr/ed.html>).

This is a permanent life-time position with a civil servant status. Salary will be in accordance with the French state regulated public service salary scale. Please bear in mind the deadline for registration on the national CNU qualification list:

Before October 27th, 2011 on the Antares site of the

French "Ministère de l'Enseignement Supérieur"  
<https://www.galaxie.enseignementsup-recherche.gouv.fr/ensup/candidats.html>.

The position will start on September 1st 2012 and the website for applications will be open in spring 2012.

## University College London

Phonetics; Speech Science: Lecturer,

### University College London

<http://linguistlist.org/issues/23/23-492.html>

Rank: Lecturer  
Posted on: 30-Jan-2012  
Deadline: 09-Mar-2012  
Ling Field(s): Phonetics  
Speech Science  
Language(s):  
Employer: University College London  
Department: Speech Hearing and Phonetic Sciences

#### Job Description

Lecturer in Phonetics/Speech Science, - Ref:1231671

UCL Division of Psychology and Language Sciences

Research Department of Speech, Hearing and Phonetic Sciences

Grades: 7-8 Hours Full Time

Salary (inclusive of London allowance) Grade 7: £35,557-£38,594 per annum or Grade 8: £39,668-£46,822 per annum (according to experience and demonstrated achievement in research and teaching.

We seek to appoint an internationally recognised early-career scientist who will develop an strong research profile in Speech Science. We are seeking candidates who will attract independent funding and build collaborations within UCL, nationally and internationally. The successful candidate will contribute to teaching in Phonetics and also develop new advanced-level teaching

content. The target start date for the post is September 2012.

#### Key Requirements:

Applicants must have a PhD or equivalent in a relevant discipline or the expectation of the award of a PhD before the start of the appointment. Suitable candidates for the post will have an international research profile consistent with career stage, in the area of Speech Science and Phonetics with a specialisation in one or more of the following:

- Developmental aspects of speech perception and/or production, including development in a multilingual environment
- The neuroscience of phonetic processing.

A job description, person specification and further particulars can be accessed at the application URL below. Online applications can also be made from that page.

Informal enquiries can be made to the Head of Department, Dr Andrew Faulkner (a.faulkner@ucl.ac.uk). For queries regarding the vacancy or the application process please contact Mrs Molly Bennett

(m.bennett@ucl.ac.uk).

We particularly welcome female applicants and those from an ethnic minority.

## University College London Speech Hearing/Phonetic Science: PhD Positions, U College London

<http://linguistlist.org/issues/23/23-609.html>

Rank: PhD Positions (Marie Curie Trainee)  
Posted on: 05-Feb-2012  
Deadline: 04-Mar-2012  
Ling Field(s): Speech Hearing and Phonetic Science  
Language(s):  
Employer: University College London  
Department: Speech Hearing and Phonetic Sciences

#### Job Description

We are seeking to appoint two three-year Marie Curie Trainees to complete PhD research projects in the Research Department of Speech Hearing and Phonetic Sciences at UCL, commencing Sept/Oct 2012. In addition to salary, the post will include student fees up to the UK/EU level, research support, and additional allowances.

One post-holder will complete a project under the supervision of Dr. Paul Iverson and Dr. María Luisa García Lecumberri (University of the Basque Country, Spain), which will examine how speakers and listeners modify their phonetic perception and production during speech communication, particularly among second-language learners.

The other post-holder will complete a project under the supervision of Prof. Stuart Rosen and Prof. Torsten Dau (Technical University of Denmark), which will investigate the ability of listeners (normal hearing, hearing-aid users, cochlear-implant users) to perceive speech targets in the background of maskers that manipulate the presence and absence of periodicity.

The post-holders will be members of the FP7 Marie Curie Initial Training Network Investigating Speech Processing In Realistic Environments (INSPIRE; <http://www.ru.nl/clst/projects/speech/INSPIRE/>) which comprises 10 European research institutes and 7 associated partners, and has the aim of training researchers to investigate how people recognise speech in real life under a wide range of conditions that are "non-optimal" relative

to the controlled conditions in laboratory experiments. The Research Department of Speech Hearing and Phonetic Sciences is one of the largest groupings of researchers in this field in the UK, and is part of the Division of Psychology and Language Sciences within the newly formed Brain Sciences Faculty of UCL. Both projects will be based at UCL, but the post-holders will also be required to undertake some work and travel in other countries within the INSPIRE network.

**Key Requirements:**

Applicants must be eligible for the UCL UK/EU student fees rate (normally a national of a European Union country), but must not have resided or performed their main research activity in the UK for more than 12 months in the 3 year period immediately prior to the start date. Applicants, by the start of the post, must hold an undergraduate or masters degree in a relevant discipline (e.g., Psychology, Speech and Hearing Science, Linguistics, or Electrical Engineering) that is equivalent to a 1st class or 2:1 standard in the UK system.

Interested candidates are invited to contact Dr. Paul Iverson

([p.iverson@ucl.ac.uk](mailto:p.iverson@ucl.ac.uk)) or Prof. Stuart Rosen ([s.rosen@ucl.ac.uk](mailto:s.rosen@ucl.ac.uk)) for an informal discussion about these posts. If you have any queries regarding the application process please contact Molly Bennett (+44 207 679 4020, [m.bennett@ucl.ac.uk](mailto:m.bennett@ucl.ac.uk)).

Web address for applications: <http://bit.ly/x8Cmxt>

**Contact Information:**

Molly Bennett  
[m.bennett@ucl.ac.uk](mailto:m.bennett@ucl.ac.uk)  
Phone: +44 207 679 4020

## University of Alaska Anchorage Anthropological Linguistics: Asst Prof, U of Alaska Anchorage

<http://linguistlist.org/issues/22/22-4267.html>

Rank: Assistant Professor  
Posted on: 26-Oct-2011  
Deadline: Until Filled  
Ling Field(s): Anthropological Linguistics  
Language(s):  
Employer: University of Alaska Anchorage  
Department: English and Anthropology (Joint Appointment)

**Job Description**

The Departments of English and Anthropology at the University of Alaska Anchorage invite applications for a joint tenure-track assistant professor position in anthropological linguistics, beginning August 2012. The position requires a PhD in anthropology, English, linguistics, or a related discipline by 1 July 2012. Academic concentration must be in anthropological linguistics, linguistic anthropology, or a very closely allied subfield. We seek someone with a record of ethnographic fieldwork, broadly defined, who is capable of teaching courses in linguistics and anthropology at both the undergraduate and graduate levels. Geographical area of expertise is open, but candidates with a research agenda involving the circumpolar or northern Pacific Rim regions are particularly encouraged to apply. The ideal candidate's application will demonstrate a record of or commitment to research involving indigenous peoples.

The position is a tripartite appointment that will involve teaching two courses in the Department of English and one in the Department of Anthropology each semester; maintaining an active research program in the field of specialization; and providing service to the departments, university, and community. The successful candidate will have the opportunity to develop new courses for both departments, and candidates are invited to address this in their cover letter.

Please apply electronically at the application URL below. Be prepared to attach a cover letter detailing your qualifications for the position, a curriculum vitae, a statement of research interests (including a description of your approach to linguistics), a writing sample (not to exceed

30 pages), a teaching portfolio (including a statement of teaching philosophy, a sample syllabus, and a sample assignment outline), and the names and contact information for three professional references. Please arrange to send hard copies of transcripts and three recommendation letters directly to Dr. David Bowie at the application address below. Review of applications will begin immediately, but screening will continue until the position is filled, with applications received by 1 December 2011 receiving fullest consideration. UAA is an AA/EO Employer and Educational Institution. Applicant must be eligible for employment under the Immigration Reform and Control Act of 1986 and subsequent amendments. Your application for employment with UAA is subject to public disclosure.

#### Application Address:

Dr. David Bowie, Chair  
English/Anthropology Joint Search Committee  
Department of English, 3211 Providence Drive  
Anchorage, AK 99508-4614  
USA

## University of Alaska Southeast

### Spanish: Assistant Professor, University of Alaska Southeast

<http://linguistlist.org/issues/22/22-4544.html>

Rank: Assistant Professor  
Posted on: 11-Nov-2011  
Deadline: Until Filled  
Ling Field(s): Applied Linguistics  
Language(s): Spanish  
Employer: University of Alaska Southeast  
Department: Humanities Department

#### Job Description

The University of Alaska Southeast, Juneau, Department of Humanities, invites applications for a tenure-track, bipartite Assistant Professor of Spanish. The incumbent will be responsible for teaching approximately 12 credits per semester of both lower and upper division courses in Spanish. In addition, university and public service is expected. Other duties include academic advising for undergraduate students, coordinating modern foreign language course offerings, campus committee service, and attendance and involvement with the community in related events and contributions. Experience in teaching a diverse body of students, particularly in teaching Native American students, is preferred.

This is a 9-month, tenure-track position; salary is competitive and commensurate with experience and qualifications. It includes an excellent package of medical and financial benefits. The position is covered by a collective bargaining unit agreement. Position begins in Fall 2012. A detailed position announcement is available at the application URL below, reference posting 0062937. Review of applications begins Dec. 15, 2011 and will continue until filled. UAS is an AA/EO Employer and Educational Institution.

## University of Alberta

### General Linguistics: Chair, University of Alberta

<http://linguistlist.org/issues/22/22-4518.html>

Rank: Chair of Department  
Posted on: 10-Nov-2011  
Deadline: Until Filled  
Ling Field(s): General Linguistics  
Language(s):  
Employer: University of Alberta  
Department: Linguistics

## Job Description

The Department of Linguistics in the Faculty of Arts at the University of Alberta invites applications for the position of Department Chair with tenure at the associate or full professor level. The Department consists of 11 full-time, continuing faculty members and is currently home to 40 graduate students at the Masters & PhD level. Linguistics has a strong commitment to empirical and experimental approaches to linguistic research and faculty conduct investigations in phonetics, the morphosyntax and semantics of Amerindian languages, child bilingual acquisition and impairment, corpus linguistics, psycholinguistics, phonology, cognitive linguistics, L1 and L2 acquisition, language documentation & revitalization, computational historical linguistics, and sociolinguistics. More information about the Department can be found at <http://www.linguistics.ualberta.ca>.

The Chair will be someone with a strong sense of collaborative leadership and a clear commitment to continuing to develop the Department's standing within the University, within Canada, and internationally on the cutting edge of data-centered approaches to the study of human language and linguistic development. The Chair will support a culture of grantsmanship and contribute to the development of graduate and undergraduate programs in the Department and will foster the activities of the in-house research facilities—the Centre for Comparative Psycholinguistics, Language Documentation Research Cluster, Alberta Phonetics Lab, and Language Acquisition Lab; an active participation in one or more of these groups would be expected. Candidates with demonstrated administrative experience will be preferred, and must hold the PhD, together with a distinguished record in university teaching and research (including a strong track record of appropriate grant activity) in areas of interest to the Department. The successful candidate should have strong interpersonal communication skills and a commitment to excellence in teaching and research, as well as a scholarly track record suitable for appointment at a senior rank.

UAlberta, one of Canada's largest and most accomplished research universities, is situated in Edmonton, a metropolitan area of over one million with a vibrant artistic community and excellent standard of living. Established in 1908 as a board-governed public institution, UAlberta has earned the reputation of being one of the top 5 universities in Canada based on its strengths in teaching, research and service. UAlberta serves over

38,000 students in more than 200 undergraduate and 170 graduate programs (<http://www.ualberta.ca>). The Faculty of Arts is the oldest and most diverse faculty on campus, and one of the largest research and teaching centres in western Canada.

This competition will remain open until a suitable candidate is found. The selection committee will begin consideration of candidates 31 Dec 2011. Applications (including an up-to-date curriculum vitae and the names of at least 3 referees), nominations, or expressions of interest should be submitted in confidence to Dean Lesley Cormack. Salary is negotiable and will be commensurate with experience.

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority. UAlberta hires on the basis of merit and is committed to the principle of equity in employment. We welcome diversity and encourage applications from all qualified women and men, including persons with disabilities, members of visible minorities, and Aboriginal persons.

## University of Alberta

### Quantitative Linguistics: Rank Open,

## University of Alberta

<http://linguistlist.org/issues/23/23-1649.html>

Rank: Rank Open  
 Posted on: 30-Mar-2012  
 Deadline: 01-May-2012  
 Ling Field(s): Quantitative Linguistics  
 Language(s):  
 Employer: University of Alberta  
 Department: Linguistics

#### Job Description

The Department of Linguistics in the Faculty of Arts at the University of Alberta invites applications for a tenure-track position in Quantitative Linguistics at an open rank. The successful candidate must hold (or be close to completion of) a PhD in Linguistics or related field and demonstrate outstanding potential for a teaching and research career. A strong research record in the application of quantitative,

statistically-based techniques to the study of language, particularly in the areas of morphosyntax, language processing, and corpus linguistics is desired. Responsibilities will include maintaining an active research program, teaching/supervision in both our undergraduate and graduate linguistics programs, and administrative service.

The Department of Linguistics has a strong commitment to empirical and experimental approaches to linguistic research. The Department consists of eleven full-time, continuing faculty members pursuing research projects in experimental phonetics, phonology, morphosyntax and semantics of Amerindian languages, cognitive linguistics, corpus linguistics, language documentation and revitalization, bilingual 1st and 2nd language acquisition and language impairment, psycholinguistics,

computational/historical linguistics, and sociolinguistics. We usually have 35-40 students in our graduate program at any given time, of which roughly one quarter are pursuing the MSc while the majority are working towards the PhD. More information about the Department can be found at

<http://www.linguistics.ualberta.ca>.

Established in 1908 as a board-governed, public institution, the University of Alberta has earned the reputation of being one of the best universities in Canada based on our strengths in teaching, research, and services. The University of Alberta serves over 38,000 students in more than 200 undergraduate programs and 170 graduate programs (<http://www.ualberta.ca>). The Faculty of Arts is the oldest and most diverse faculty on campus, and one of the largest research and teaching centres in western Canada (<http://www.foa.ualberta.ca>). The University's main campus is located in Edmonton, the vibrant, cosmopolitan capital of the province of Alberta. The Edmonton metropolitan area is the sixth largest in the country with a population of approximately one million. Edmonton is located only a few hours drive from Banff and Jasper National Parks, which offer skiing in winter and excellent hiking and sightseeing in summer.

#### How to Apply:

Applicants must arrange for three letters of reference to be sent in confidence to the Chair. The closing deadline is 1 May 2012. The effective date of employment will be 1 July 2012. Salary is negotiable and will be commensurate with qualifications and experience. Applicants should send curriculum vitae, a letter describing their areas of research interest, samples of publications, and, if available, a teaching dossier and evaluations of teaching performance to Dr Sally Rice, contact information below.

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.

The University of Alberta hires on the basis of merit. We are committed to the principle of equity in employment. We welcome diversity and encourage applications from all qualified women and men, including persons with disabilities, members of visible minorities, and Aboriginal persons.

## University of Amsterdam General Linguistics: Two PhD Positions, University of Amsterdam

<http://linguistlist.org/issues/23/23-1534.html>

Rank: PhD Positions  
Posted on: 26-Mar-2012  
Deadline: 10-Apr-2012  
Ling Field(s): General Linguistics  
Language(s):  
Employer: University of Amsterdam  
Department: Faculty of Humanities/ACLC

### Job Description

The Amsterdam Center for Language and Communication invites

applications for two four-year PhD positions available for excellent candidates, starting September 2012. The application is for one of the two existing project proposals.

#### Positions:

There are two PhD positions available as of September 1st 2012. You can apply for one of the 2 selected PhD projects listed below. The deadline of application is April 10th, 2012 (23:59). The full text of the project descriptions can be found on the ACLC website

(<http://www.hum.uva.nl/aclc>) under Researchers, further under Vacancies.

1) Agreement, verb placement and unlearnable languages

2) Developing semantic networks and language proficiency of Dutch L1 and L2 children

#### Tasks:

The PhD student needs to carry out the research and write a

dissertation within the contract period (4 years, 0,8 fte).

#### Requirements:

MA in linguistics (or equivalent), obtained no longer than five years ago.

#### More information:

The following documents give precise information about the application procedure:

1) Guidelines for applying for an internal PhD position, 2012

2) The selected PhD projects (see above); for information on a particular project please contact the person(s) mentioned in the project description

All these documents can be found on the ACLC website

(<http://www.hum.uva.nl/aclc>).

N.B.: Incomplete applications will be automatically rejected so please read the guidelines carefully.

Further information can be obtained from the managing director of the research institute dr. Els Verheugd-Daatzelaar, contact information below.

#### Position:

The PhD student will be appointed for a period of up to 4 years (80%) at the Faculty of Humanities of the University of Amsterdam under the terms of employment currently valid for the Faculty. A contract will be given in the first instance for one year, with an extension for the following years on the basis of an evaluation of, amongst other things, a written piece of work. The salary (on a full time base) will be EUR 2042 during the first year (gross per month) and will reach EUR 2612 during the fourth year, in accordance with the CAO for Dutch

universities.

#### Application:

Your application should be sent before April 10th, 2012 (23:59 at the latest) to the acting director of the ACLC, dr

R. Schoonen. It should preferably be submitted electronically to the address [aclc-fgw@uva.nl](mailto:aclc-fgw@uva.nl). Please make sure that your name figures in the name of the

document(s) you are submitting. Applications received after this date or those that are incomplete will not be taken into consideration.

#### Contact Information:

Els Verheugd-Daatzelaar  
E.A.B.M.Verheugd-Daatzelaar@uva.nl  
Phone: +31.20.525.2543

## University of Applied Sciences

### Western Switzerland

#### French/Conversation Analysis: PhD

#### Position, U of Applied Sciences

<http://linguistlist.org/issues/22/22-3955.html>

Rank: 1 PhD Position (100%)  
Posted on: 08-Oct-2011  
Deadline: Until Filled  
Ling Field(s): Sociolinguistics  
Conversation Analysis  
Language(s): French  
Employer: University of Applied Sciences  
Western Switzerland  
Department: Haute école de santé Arc

#### Job Description

Haute école de santé Arc - University of Applied Sciences Western Switzerland is accepting applications, in its Research Unit (Neuchâtel campus), for one PhD position (100%).

#### Activities and responsibilities:

The doctoral candidate will complete his or her thesis in the framework of the project New on the job: relevance-making and assessment practices of interactional competences in young nurses' hospital telephone calls. This study involves longitudinal analysis of new nursing graduates' interactions during their first six months of work at a hospital and aims to examine the practices through which the nurses are socialized professionally. The doctoral candidate will also prepare presentations and

publications based on the research results and help organize the team's administrative tasks and scientific activities.

This position was created in the framework of the Sinergia project Interactional competences in institutional practices: young people between school and the workplace (IC-You), which is supported by the Swiss National Science Foundation. It offers a particularly stimulating interdisciplinary work environment as well as a complete postgraduate program (doctorate in sociology at the University of Fribourg).

#### Requirements:

- Licence or master's degree in social sciences, human sciences or nursing sciences
  - Strong interest in scientific research in the area of talk-in-interaction in institutional settings (conversation analysis, multimodal analysis, interactional linguistics)
  - Mastery of French and English (oral and written)
  - Ability to use IT and audiovisual tools
  - Sense of initiative, good organizational skills and ability to work on a team
- Beginning date:

January 1st, 2012. The contract will cover a maximum period of three years. Interested persons are invited to submit an application dossier consisting of an application letter, a curriculum vitae with full contact information, copies of diplomas, academic transcripts and a list of references (all in pdf format) to Prof. Esther González Martínez at the email address below, as well as to contact her for any additional information. The review application will begin on October 17th, 2011 and continue until the position is filled.

#### Contact Information:

Esther Gonzalez Martinez

## University of Arkansas at Little Rock

### General Ling; English Ling: Asst Prof, University of Arkansas

<http://linguistlist.org/issues/22/22-4126.html>

Rank: Assistant Professor  
Posted on: 20-Oct-2011  
Deadline: Until Filled  
Ling Field(s): General Linguistics  
English Linguistics  
Language(s): None  
Employer: University of Arkansas at Little Rock  
Department: English

#### Job Description

The English Department at the University of Arkansas at Little Rock invites applications for a tenure-track position in General or English Linguistics at the rank of Assistant Professor (position R99373). The candidate will be expected to teach such courses as Introduction to Linguistics, Grammatical Analysis, History of the English Language, and to develop the Department's Linguistics Minor. Desired secondary emphases include Medieval Literature (including the Anglo-Saxon period), World Literature, and the digital humanities. Familiarity with the issues related to English-Secondary Education would also be beneficial.

The successful applicant will assume duties August 15, 2012 and must have completed all requirements for a Ph.D. in Linguistics or English before employment commences. The candidate should have a commitment to excellence in teaching, research, and service, and an understanding of technology and online education, and will be expected to advise students, serve on departmental and university committees, and publish in peer-reviewed journals and books.

UALR is a research intensive/doctoral institution with a metropolitan university mission, which offers a competitive salary, a reasonable teaching load, and attractive fringe benefits. To apply, submit an application letter referencing position R99373, a curriculum vita, and three recent reference letters to the application mailing address below. Applications may also be submitted electronically

to the application email address below. Screening of applications will begin November 18, 2011.

The University of Arkansas at Little Rock is an equal opportunity, affirmative action employer and actively seeks the candidacy of minorities, women, and persons with disabilities. Under Arkansas law, all applications are subject to disclosure. Persons hired must have proof of legal authority to work in the United States.

## University of California, Los Angeles (UCLA) General Ling; Syntax: Visiting Assistant Professor, UCLA

<http://linguistlist.org/issues/23/23-1473.html>

Rank: Assistant Professor, Visiting  
Assistant Professor

Posted on: 22-Mar-2012

Deadline: Until Filled

Ling Field(s): General Linguistics  
Syntax

Language(s):

Employer: University of California, Los Angeles (UCLA)

Department: Linguistics

### Job Description

The UCLA Department of Linguistics is conducting a search to fill a one year Visiting Assistant Professor position in Syntax and General Linguistics for the academic year 2012-2013. The 2012-2013 academic year at UCLA starts on September 24, 2012, and it consists of three academic quarters. The appointee will teach five courses over the three quarters covering both undergraduate and graduate levels. Most of the teaching will be in the area of syntax and general linguistics.

Applicants are requested to send application materials by email. This should include a vita, a cover letter describing experience and interests for both teaching and research, sample papers, and documentation of teaching record (including teaching evaluations). Applicants should also request three letters of recommendation to be sent by email to this address from individuals familiar with their work. Questions about the position may be directed to the search committee. We will start reviewing applications on April 10, 2012. The position will remain open until filled.

All applications, material submission, and questions should be sent to the email address below.

UCLA is an affirmative action/equal opportunity employer. Women and minorities are encouraged to apply.

## University of Cambridge

### Syntax: PhD Studentships, University of Cambridge

<http://linguistlist.org/issues/23/23-774.html>

Rank: PhD Studentships

Posted on: 15-Feb-2012

Deadline: 14-Mar-2012

Ling Field(s): Syntax

Language(s):

Employer: University of Cambridge

Department: Department of Theoretical and Applied Linguistics

#### Job Description

Applications are invited for 3 PhD studentships covering the period 1 October 2012 to 30 September 2015, working under the general

supervision of Prof. Ian Roberts in the Faculty of Modern & Medieval Languages (although each student will in fact be assigned to a 4-member PhD committee). This award has become available as a result of an ERC Advanced Grant "Rethinking Comparative Syntax" (see

<http://www.mml.cam.ac.uk/dtal/research/recos/>). Successful applicants for these awards are expected to begin PhD study on 1 October 2012 and will receive a student stipend sufficient to meet the fees and maintenance requirements.

#### Qualification Requirements:

Candidates should hold or be in the process of obtaining a Master's degree (or equivalent) in Linguistics, with a specialisation in Syntax, and have attained or expect to obtain a mark of distinction. Excellent writing skills in English and knowledge of some language(s) other than English are desirable. Eligible candidates must submit an advanced proposal of research relevant to the "Rethinking Comparative Syntax" project, specifying how their research would contribute to the typological and theoretical goals of the project. Applicants are encouraged to look at the project website (<http://www.mml.cam.ac.uk/dtal/research/recos/>) to identify one or more areas of research to which they feel they would be able to contribute via their doctoral work. Applicants can be from the UK, EU or overseas.

#### Application Procedure:

Applications should be made directly to the Faculty of Modern & Medieval Languages. Successful candidates will subsequently be asked to make a formal application through the Board of Graduate Studies. Applications should be made on the University graduate application form (GRADSAF), available at:

<http://www.admin.cam.ac.uk/offices/gradstud/prospec/pdf/gradsaf1213.pdf>, and include the following supporting documents:

- 2 academic references
- Transcripts or degree certificates
- English Language Score Report (if English is not your first language)
- 500-1000 word research proposal

Completed applications should be emailed or posted to Ms Siobhán Carew at the application address below, tel: (01223) 335010, email: [sw334@cam.ac.uk](mailto:sw334@cam.ac.uk), by the closing date of 14 March 2012. Incomplete applications will not be considered.

In the Research Statement, candidates are required to outline their original research proposal and explain how it will fit the Project, "Rethinking Comparative Syntax". Applicants should specify Professor Ian Roberts as supervisor on their application forms and are encouraged to contact Professor Roberts ([igr20@cam.ac.uk](mailto:igr20@cam.ac.uk)) to discuss the ERC project, Cambridge College selection, and their

applications.

For full details of these positions and also of the application procedure, please see:  
[http://www.mml.cam.ac.uk/jobs/PhD\\_Linguistics.pdf](http://www.mml.cam.ac.uk/jobs/PhD_Linguistics.pdf)

## University of Canterbury Movement, Gesture and Language: Post Doc, University of Canterbury

<http://linguistlist.org/issues/23/23-1296.html>

Rank:	Post Doc
Posted on:	13-Mar-2012
Deadline:	10-Apr-2012
Ling Field(s):	General Linguistics Movement, Gesture and Language
Language(s):	
Employer:	University of Canterbury
Department:	College of Arts

#### Job Description

Movement, Gesture and Language

New Zealand Institute of Language, Brain & Behaviour (NZILBB) College of Arts, University of Canterbury

A 2 year Post-doctoral position is available within the general area of research on movement, gesture and language. The successful applicant would join a team of researchers who are undertaking a number of projects looking at the production and perception of movement/gesture whilst speaking.

Ongoing projects are looking at:

- Differences in gesture production by bilingual speakers and the perception of these speakers based on gestures alone

- The coordination of body movement with speech

- Differences in the gestures used by speakers when interacting with members of different ethnic groups

This research is conducted using state-of-the-art audio-visual recording suites at NZILBB (<http://www.nzilbb.canterbury.ac.nz/>) and the vision space facility at the HITLab NZ (<http://www.hitlabnz.org/>). NZILBB also recently acquired a 3D Suit for the inertial recording of body movements. Applications for this position should include a covering letter and CV, research interests and direction, and contact information for 3 professional referees combined into the one document and submitted online at the application URL below.

Up to three reprints of publications should be sent via email to accompany your application to [hr@arts.canterbury.ac.nz](mailto:hr@arts.canterbury.ac.nz)

The closing date for this position is: Tuesday 10 April 2012.

## University of Canterbury Psycholinguistics: Post Doc, University of Canterbury

<http://linguistlist.org/issues/23/23-1294.html>

Rank: Post Doc  
Posted on: 13-Mar-2012  
Deadline: 10-Apr-2012  
Ling Field(s): Psycholinguistics  
Language(s):  
Employer: University of Canterbury  
Department: College of Arts

### Job Description

Psychophysiology of human language and behaviour

New Zealand Institute of Language, Brain & Behaviour  
(NZILBB) College of Arts, University of Canterbury

Exciting opportunity in psycholinguistics and neuroscience in New Zealand Neurophysiological Correlates of Human Behaviour

A 2 year Post-doctoral position is available with the New Zealand Institute of Language, Brain & Behaviour (<http://www.nzilbb.canterbury.ac.nz/>) at the University of Canterbury, New Zealand. We are seeking a full-time postdoctoral fellow to conduct research with institute members on the neurophysiological correlates of human behavior using EEG/ERP. NZILBB research explores human language and information processing across the lifespan.

The fellow will have expertise in psychophysiology, particularly EEG methods, including experimental design, data capture, processing and analysis. We are seeking an innovative person with a background in cognitive science or neuroscience. Experience working with very young children is preferred but not essential. Expertise in eye tracking is an advantage. The fellow will lead the establishment and development of a new ERP lab based on the BioSemi system, Analyzer2 software (Brain Products)

and E- Prime 2 Professional Edition. The fellow will oversee the establishment of the lab and work with team members to design and implement experiments, following through to co-publication. Co-supervision of PhD students is expected. During the tenure of the post the fellow will be provided with an opportunity to publish papers from their PhD (if necessary), to learn grantsmanship and to engage with members across the NZILBB.

Applications for this position should include a covering letter and CV, a statement of prior ERP or EEG experience, research interests and research direction, (including a statement regarding possible collaborations with NZILBB staff) and contact information for 3 professional referees combined into the one document and submitted online at:

<http://www.canterbury.ac.nz/joinus>

Up to three reprints of publications should be sent via email to accompany your application to [hr@arts.canterbury.ac.nz](mailto:hr@arts.canterbury.ac.nz)

The closing date for this position is Tuesday 10 April 2012.

## University of Cape Town African Languages; Sesotho: Part-Time Lecturer, U of Cape Town

<http://linguistlist.org/issues/23/23-53.html>

Rank: Lecturer  
Posted on: 04-Jan-2012  
Deadline: 31-Jan-2012  
Ling Field(s):  
Language(s): Sotho, Southern  
Employer: University of Cape Town  
Department: African Languages and Literatures  
Section

### Job Description

Part-Time Lecturer: Sesotho Language

(3-Year Contract)

African Languages and Literatures Section

School of Languages and Literatures

Faculty of Humanities

The African Languages and Literatures Section of the School of Languages and Literatures invites applications for the above 3-year part-time (up to 20 hours per week) contract post, for appointment as soon as possible.

Requirements are:

- A Master's degree in the field of African Languages/ Linguistics or 2nd Language Pedagogy
- Specialist knowledge of Sesotho would be a strong recommendation
- Experience in teaching Sesotho to non-Sesotho speakers
- At least near native fluency in Sesotho, and proficiency in English

- Proficiency in the use of computers (word-processing, email, internet)

- Experience with using technology in teaching of language would be an advantage

Responsibilities include:

- Teaching of Sesotho to non-Sesotho speakers at beginners' level (senior levels may be introduced at a later stage)

- Review of the curriculum in current Sesotho courses, development of appropriate course materials for teaching Sesotho (including the utilisation of the language laboratory)

- Contribution to the administration of the Sesotho courses offered by the Section at beginners' level

The annual remuneration package, including benefits for 2012, is negotiable between R159 681 – R213 656.

Application requirements:

To apply please email the completed UCT Application form and all other relevant documentation as indicated on the form, to Ms Edith Graham, contact information below.

The application form can be downloaded at

<http://web.uct.ac.za/depts/sapweb/forms/hr201.doc>

An application which does not comply with the above requirements will be regarded as incomplete.

Reference number for this post: SR240/11

UCT is committed to the pursuit of excellence, diversity and redress. Our Employment Equity Policy is available at <http://hr.uct.ac.za/policies/ee.php>.

## University of Central Missouri Applied Ling; TESL: Asst Prof, University of Central Missouri

<http://linguistlist.org/issues/22/22-4209.html>

Rank: Assistant Professor

Posted on: 25-Oct-2011

Deadline: Until Filled

Ling Field(s): Applied Linguistics  
TESL

Language(s):

Employer: University of Central Missouri

Department: English and Philosophy

#### Job Description

Assistant Professor of TESL to join our MA-TESL Program. Tenure-track position to start August 2012. Ph.D. and public-school ESL teaching experience strongly preferred. ABD considered. Must be able to teach introductory linguistics, English grammar, SLA theory, TESL methodology and assessment, and freshman composition. Twelve-hour teaching load.

UCM requires all faculty applicants to complete an on-line faculty profile at the application URL below. Apply to position # 998402 and attach to the profile a letter of application, CV, three letters of recommendation, and black and white scanned transcripts. List on the faculty profile the names, phone numbers, and e-mail addresses for three additional professional references. Questions regarding the position should be sent to Dr. Don Melichar, Chair of English and Philosophy, using the contact information below.

Screening begins November 15, 2011 and will continue until position is filled. For questions about the online application process, contact Human Resources at [jobs@ucmo.edu](mailto:jobs@ucmo.edu) or (660) 543-4225. The University of Central Missouri is an AA/EEO/ADA employer.

## University of Colorado, Boulder NLG; Comp Semantics: Research Scientist, U of Colorado, Boulder

<http://linguistlist.org/issues/22/22-3992.html>

Rank: Research Scientist  
 Posted on: 11-Oct-2011  
 Deadline: Until Filled  
 Ling Field(s): Computational Linguistics  
 Semantics  
 Natural Language Generation;  
 Spoken Dialogue Systems  
 Language(s):  
 Employer: University of Colorado, Boulder  
 Department: Computational Language &  
 Education Research Center

### Job Description

The Companionbots project at the Computational Language & Education Research center, University of Colorado, invites applications for two Research Scientists in Human-Robot Dialogue: one in Natural Language Generation (NLG), the other in Computational Semantics.

#### Project:

CU is leading an NSF-funded project, Companionbots for Proactive Therapeutic Dialog on Depression, to conduct research on a new class of dialog-based, home robotic healthcare assistants to facilitate in-home, real-time care. The immediate project will result in enabling technology that integrates language, vision and emotive technology to proactively recognize situations and dialog with isolated elderly patients suffering from depression. Object and human activity recognition will augment NLP to provide current and historical context important to dynamic dialog. An emotive, physical avatar will provide an interaction mechanism with sufficient trust to extract meaningful information that may not be observable in the immediate environment. The proactive generation of questions will be driven by a user model including context, goals, health, experiences, interests and prior interactions.

#### Positions:

NLG: will span multiple genres from casual conversation to goal-directed mental health education and training,

with an emphasis on question generation. It will explore multiple techniques from typical Spoken Dialogue Systems (SDS) to text-to-text NLG methods.

Computational Semantics: will create a deep understanding and

representation of a situation and spoken dialog based on past and immediate context. The semantics extracted will be used to construct a user model and predict future adverse events and situations.

Both: You will be encouraged to develop independent research ideas within the scope of the project, will play an active role in a variety of project areas and will have the opportunity to apply your expertise to a critical, real-life problem in a multidisciplinary environment.

You will interact closely with the project's clinical experts in understanding subjects and developing health-care-related dialogue strategies, with users to help guide and evaluate research & development, with Vision researchers to enhance contextual understanding, with Automatic Speech Recognition (ASR) experts to improve ASR with semantic context and with mechantronics researchers to ensure contextually appropriate emotive output. Qualifications:

- Expertise in the area you are applying, preferably in the context of conversational SDSs
- A PhD in computer science, computational linguistics, or a closely related discipline
- Skills in the application of Machine Learning to computational linguistics tasks
- Excellent software design and implementation skills
- Good verbal communication and English writing skills
- The ability to work both independently and in a multidisciplinary team
- Working knowledge or publication record in usability, user modeling, discourse analysis and cognitive science related to SDS is a plus To apply follow the instructions at these Jobs at CU links:

NLG - Job Posting Number 815056

[https://www.jobsatcu.com/applicants/jsp/shared/position/JobDetails\\_css.jsp?postingId=266674](https://www.jobsatcu.com/applicants/jsp/shared/position/JobDetails_css.jsp?postingId=266674)

Computational Semantics - Job Posting Number 815059

[https://www.jobsatcu.com/applicants/jsp/shared/position/JobDetails\\_css.jsp?postingId=266569](https://www.jobsatcu.com/applicants/jsp/shared/position/JobDetails_css.jsp?postingId=266569)

CU is an EOE committed to building a diverse workforce. We encourage applications from women, racial & ethnic minorities, individuals with disabilities & veterans. Alternative formats of ad can be provided to individuals with disabilities by contacting the ADA Coordinator at (303) 492-1334. CU conducts background checks on all final candidates.

## University of Colorado School of Medicine

### NLP, Bionlp: Post Doc, University of Colorado School of Medicine

<http://linguistlist.org/issues/23/23-1339.html>

Rank: Post Doc  
Posted on: 15-Mar-2012  
Deadline: Until Filled  
Ling Field(s): Computational Linguistics  
Natural language processing,  
BioNLP  
Language(s):  
Employer: University of Colorado School of Medicine  
Department: Computational Bioscience Program

#### Job Description

The Biomedical Text Mining Group of the Computational Bioscience Program at the University of Colorado School of Medicine has a position open for a post-doctoral fellow to work with Dr. Kevin Cohen for up to three years, beginning July 1, 2012. Projects on which you will work will involve negation, temporality, and information extraction, among others. The ideal candidate will have:

- Experience with genomics journal articles
- Experience with clinical text and medical records
- A background in rule-based systems
- A background in machine learning

Desirable skills include:

- Programming in Java and a scripting language
- Software testing
- Experience with UIMA

Past participation in BioCreative and TREC is also a plus.

Qualifications:

Candidates must have a Ph.D. in hand. The National Library of Medicine training grant that funds this position restricts it to U.S. citizens or permanent residents.

Salary/Benefits:

Successful candidates will be offered the NRSA specified stipend, based on years of experience (see

<http://www.nlm.nih.gov/ep/trainingdirectors.html#stipends>), medical insurance, \$2000 per year in travel support, and \$6500 per year in additional research-related expenses.

To Apply:

Send a cover letter, curriculum vitae, and a statement of research interests to the application email address below; also arrange for three letters of recommendation to be sent to the same email address.

UC Denver School of Medicine is an equal opportunity

employer. Women and minorities are especially encouraged to apply.

## University of Connecticut Semantics: Assistant Professor, University of Connecticut

<http://linguistlist.org/issues/22/22-4619.html>

Rank: Assistant Professor  
 Posted on: 17-Nov-2011  
 Deadline: Until Filled  
 Ling Field(s): Semantics  
 Language(s):  
 Employer: University of Connecticut  
 Department: Linguistics

#### Job Description

The Department of Linguistics, in the College of Liberal Arts and Sciences at the University of Connecticut, Storrs, is accepting applications for a tenure-track position in semantics at the Assistant Professor level, expected to start August 23, 2012.

Minimum qualifications: a Ph.D. in Linguistics or a related field, completed by start date of employment; primary research focus on formal semantics within a generative framework; evidence or promise of a strong research/publication record; ability to teach graduate courses in formal semantics, and a range of courses in the Department's undergraduate curriculum; and research interests meshing well with those of the Department's current faculty members. Equivalent foreign degrees are acceptable.

Preferred qualifications: the ability to teach graduate courses in a second area of linguistics; the ability to contribute through research, teaching, and/or public engagement to the diversity and excellence of the learning experience.

Appointment terms: The successful candidate's primary

academic appointment will be in the Department of Linguistics at the Storrs campus with the possibility of work at UConn's regional campuses across the state. Salary will be commensurate with background, qualifications and experience.

While an appointment at the Assistant Professor rank is preferred, qualified candidates whose research, teaching, or service will make an exceptional contribution to UConn's commitment to diversity and inclusion in higher education may be appointed at a higher rank.

To apply: Applicants should visit Husky Hire at <http://www.jobs.uconn.edu> to upload their application materials (search #: 2012235). Screening of applications will begin on December 16, 2011 and continue until the position is filled.

The application package should include: a cover letter, a statement of research interests, CV, evidence of teaching ability and at least three samples of scholarly writing. In addition, three letters of recommendation should be sent directly from the referees to Jon Gajewski at

[linguisticssearch@uconn.edu](mailto:linguisticssearch@uconn.edu). Inquiries may also be sent to that email address.

Preliminary interviews will be conducted at the 86th annual meeting of the Linguistic Society of America, January 5-8, 2012. Applicants should indicate in their cover letters whether they plan to attend.

The University of Connecticut is an EEO/AA employer.

## University of Delaware

### General Ling; Communication Disorders: Visiting Asst Prof, U of Delaware

<http://linguistlist.org/issues/23/23-1627.html>

Rank: Visiting Assistant Professor

Posted on: 30-Mar-2012

Deadline: 15-May-2012

Ling Field(s): General Linguistics  
Cognitive Science  
Communication Disorders

Language(s):

Employer: University of Delaware

Department:

#### Job Description

The University of Delaware Department of Linguistics and Cognitive Science invites applications for a one-year (9 months) temporary assistant professor position, to support the Department's

undergraduate teaching needs in the cognitive science and linguistics majors. In particular, we seek candidates who can bridge the

undergraduate curriculum in speech pathology with the theoretical linguistics curriculum.

Rank: Assistant Professor, non-tenure track (9-month hire); salary competitive and commensurate with qualifications and experience. Responsibilities: The responsibility of the position is to teach a 3 + 3 load that will include a subset of these undergraduate courses:

- Introduction to communication disorders
- Audiology
- Laboratory phonetics
- Introduction to acoustic phonetics
- Anatomy and physiology of speech
- Clinical principles and procedures in speech pathology

- Language acquisition

- Introduction to linguistics

- Sociolinguistics.

Qualifications: Applicants for this position should have a Ph.D. in hand or expect to complete their degree requirements prior to appointment. The degree can be in linguistics, communication disorders, or related fields.

The University: The University of Delaware is a private state-assisted research university, enrolling approximately 20,000 students. The city of Newark, with a population of approximately 30,000 is located in northeastern Delaware, fourteen miles southwest of Wilmington, the principal city of the state. Students and faculty enjoy easy access to cultural events in Philadelphia, New York, Baltimore and Washington, D.C.

The Department: The Department of Linguistics and Cognitive Science (<http://www.ling.udel.edu>) offers a PhD in Linguistics, a Master's degree in Cognitive Science, a Bachelor of Science degree in Cognitive Science, and a Bachelor of Arts degree in Linguistics. The Department is comprised of 9 full-time faculty and enrolls approximately 26 PhD students, 7 MA students, 172 undergraduate majors and 58 minors. Application: Applicants should apply at <http://www.udel.edu/udjobs/> by attaching a letter of interest, curriculum vitae (including telephone number and email address) and names, addresses, and phone

numbers of three references in one PDF document by May 15, 2012. Additional information may be requested at a later date. Inquiries should be addressed to Dr. Irene Vogel, contact information below. Or Apply Here: <http://www.Click2Apply.net/wfyskbc>

Web address for applications:  
<http://www.Click2Apply.net/wfyskbc>

#### Contact Information:

## University of Eastern Finland

### English for Academic Purposes: Senior Lecturer, U of Eastern Finland

<http://linguistlist.org/issues/23/23-1423.html>

Rank: Senior Lecturer  
 Posted on: 20-Mar-2012  
 Deadline: 04-Apr-2012  
 Ling Field(s): Applied Linguistics  
 English for Academic Purposes  
 Language(s): English  
 Employer: University of Eastern Finland  
 Department: Language Centre

#### Job Description

The University of Eastern Finland (UEF) is one of the largest universities in Finland. The UEF is a multidisciplinary university, which offers teaching in more than 100 major subjects. The university has approximately 15,000 students and some 2,800 members of staff, and the university's campuses are located in Joensuu, Kuopio and Savonlinna.

The University of Eastern Finland is inviting applications for the following position:

Language Centre

English Senior Lecturer (position no 31739), Kuopio Campus

The duties of the Senior Lecturer (the University Lecturer) will mainly focus on teaching academic and professional English and advanced writing and communication skills to postgraduate and undergraduate students and staff members of the University of Eastern Finland on both of its main campuses Kuopio and Joensuu. In addition, the lecturer participates in administration related to teaching, language testing, development of teaching and other activities at the Language Centre, and encourages research in related fields.

The position will be filled with an open-ended contract as from 1 August 2012 and it is subject to a trial period of four months (general regulations on the employment relationship at the University of Eastern Finland, 30 Nov. 2009.)

The salary of the position is based on level 6 (EUR

3254,17/month) of the job requirement level chart for teaching and research staff in the universities' salary system. In addition, a performance-based salary component of up to 46.3 % of the job requirement component will be paid. According to the UEF Administrative Regulations, the appointee to the position of the Senior Lecturer (the University Lecturer) is required to have a suitable doctoral degree related to field of the position, in this case English language and advanced LSP-teaching, an ability to use English to a native speaker's academic standard and to have good teaching skills. Experience in teaching on tertiary level, skills in using modern teaching technology, and research work relevant to the position will be considered as extra merits.

To successfully attend to the duties of the position, the lecturer should be cooperative, flexible and willing to develop both his/her own work and the activities of the Language Centre. An interest in applied linguistic research is desirable.

The teaching skills of the applicants will be evaluated on the basis of pedagogical studies, teaching experience, portfolio of teaching merits and demonstration lecture. The applicants will be informed of the dates and times of personal interviews and demonstration lectures later. For further information, please contact either Director Raija Elsinen +358 50 582 8838 ([raija.elsinen@uef.fi](mailto:raija.elsinen@uef.fi)) or Deputy Director Minna Hirvonen +358 40 353 2790 ([minna.hirvonen@uef.fi](mailto:minna.hirvonen@uef.fi)).

The application period closes on 4 April at 3 pm (Finnish time). The application should be addressed to the Language Centre and be accompanied by the following documents:

- A certified résumé or CV
- Copies of applicant's academic degree certificates/diplomas
- Copies of certificates/diplomas relating to the applicant's language proficiency, if not indicated in the academic degree certificates/diplomas
- A list of publications
- A portfolio of teaching merits (instructions)

### Application Address:

University of Eastern Finland Registry Office  
P.O. Box 1627  
Kuopio, FI-70211  
Finland

## University of Glasgow Phonetics; Socioling: Research Asst (Part Time), U of Glasgow

<http://linguistlist.org/issues/23/23-694.html>

Rank: Research Assistant (Part Time)  
Posted on: 09-Feb-2012  
Deadline: 09-Mar-2012  
Ling Field(s): Phonetics  
Sociolinguistics  
Language(s): None  
Employer: University of Glasgow  
Department: English Language, School of  
Critical Studies

### Job Description

University of Glasgow  
College of Arts  
School of Critical Studies  
English Language/Glasgow University Laboratory of  
Phonetics

Research Assistant (Part Time)

Ref: 001267

Salary: £25,854 - £33,734 (Grade 6 and up to point 34 of Grade 7). This post is to carry out a high-quality research project to conduct fundamental research on the role of fine phonetic variation in sound change by: helping to develop a real-time corpus of Glaswegian vernacular speech; adapting an existing discourse analytical technique for the Glasgow corpus for data compar-

ison; contributing to the development of appropriate acoustic measures for analysing coda /r/ and /l/; providing and comparing quantitative real- and apparent-time accounts of variation and change in Glaswegian over the past 40 years on the basis of continuous acoustic phonetic measures for both vowels and consonants. The project also aims to contribute more generally to theories of cognitive representations of speech over time. The post is a fixed term contract (April 2011 until September 2014) with a defined series of outcomes that is financed by a Leverhulme Trust Research Project Grant.

Apply online at the application URL below.

The University is committed to equality of opportunity in employment. The University of Glasgow, charity number SC004401.

## University of Guam Applied Linguistics: Asst Prof, University of Guam

<http://linguistlist.org/issues/22/22-4645.html>

Rank: Assistant Professor  
Posted on: 20-Nov-2011  
Deadline: Until Filled  
Ling Field(s): Applied Linguistics  
Language(s):  
Employer: University of Guam  
Department: Division of English & Applied Linguistics

#### Job Description

The Division of English & Applied Linguistics seeks a tenure-track Applied Linguistics / Linguistics Specialist to begin August 2012.

The ideal candidate will: 1) Contribute to and teach a variety of undergraduate and graduate applied linguistics and linguistics courses as well as developmental and

freshman composition classes; 2) Assist in building our Linguistics course offerings as needs are identified; 3) Assist with advances in student-learning outcome assessment in the English and Applied Linguistics Program; 5) Maintain a continuous record of scholarly/ creative activity; and 6) Be willing to undergo training in order to teach a Distance Education course.

The duties include: 1) Teaching 12 credit hours per semester (faculty may apply for a one-course load reduction for research, instructional innovation, or service); 2) Student advisement; and 3) Division, college, and university service.

**Qualifications:**

Required: 1) Ph.D. in English, Applied Linguistics, Linguistics, or a closely related field from an institution with US regional accreditation or foreign equivalent by August 2012 (ABDs welcome to apply, granted the doctorate is attained by the time employment begins); 2) A record of scholarly publications and activities in the areas of interest and expertise; 3) Teaching experience at the university level, with evidence of teaching ability / scholarship through student evaluations.

Preference will be given to candidates with broad experiences in: 1) English developmental and freshman composition; 2) Second Language Acquisition; 3) Language Assessment; 4) English phonology, morphology, syntax, semantics; 5) Psycholinguistics; or an interest in cancer research, outreach, or education.

**Salary Level:**

Salary will be commensurate with qualifications and experience relevant to this nine-month position.

**Benefits:**

Fringe benefits include subsidized hospitalization-and-medical plan, life insurance, cafeteria (flexible tax-benefit) plan, and Government of Guam retirement plan.

**Application Process:**

All applicants must submit: (1) A letter of application that describes the candidate's qualifications; (2) Curriculum vitae; (3) Complete contact information, including fax number and email address, for three professional references; (4) Unofficial undergraduate and

graduate transcripts; (5) Evidence of excellence in teaching (e.g., student evaluation ratings; pedagogical materials such as syllabi and rubrics, copies of peer-observation reports; student testimonials; and a statement of teaching philosophy); (6) three recommendation letters that address the applicant's teaching, research, & collegiality, and (7) Writing sample (preferably published, maximum 30 pages) to the email address listed below.

Short-listed candidates must submit: 1) Government of Guam application form (available at UOG Human Resources Office link:

<http://www.uoghro.com>).

The selected candidate must submit official undergraduate and graduate transcripts sent directly from the awarding institution to the University of Guam Human Resources Office, UOG Station, Mangilao, Guam 96923. All application materials should be sent to the application address below. For further information, please email

[risaquan@yahoo.com](mailto:risaquan@yahoo.com) and [hhahm@uguam.uog.edu](mailto:hhahm@uguam.uog.edu).

Review of applications begins on January 16, 2012 and continues until the position is filled.

## University of Hong Kong Asian Englishes; Language Contact:

### PhD, U of Hong Kong

<http://linguistlist.org/issues/23/23-1273.html>

Rank: PhD  
 Posted on: 13-Mar-2012  
 Deadline: 30-Apr-2012  
 Ling Field(s): Historical Linguistics  
 Sociolinguistics  
 Anthropological Linguistics  
 Language(s): English  
 Employer: University of Hong Kong  
 Department: School of English

#### Job Description

Applications are invited for a full-time 3-year PhD position in Asian Englishes. This position is situated within the project 'The ecology and evolution of Asian Englishes', directed by Dr Lisa Lim

(<http://www.english.hku.hk/staff/lisalim.htm>), and funded by the Hong Kong Research Grant Council's General Research Fund (GRF). In general, the Asian Englishes project aims to provide a comprehensive understanding of the linguistic features of varieties of English in Asia, focussing on postcolonial multilingual ecologies such as Singapore, Hong Kong and Sri Lanka, and relying on two complementary investigative thrusts: (i) a consideration of sociohistorical aspects, in particular demography and language policies during different eras, from the (pre-)colonial period through post-independence and into the new millennium; and (ii) a close examination of the linguistic features of the (local) languages that have come into contact with English as it has evolved.

It is expected that the PhD student will work on one variety of Asian English, preferably Hong Kong or Sri Lankan English, though a proposal to work on other Asian Englishes is equally welcome. While the PhD dissertation will be an independent discrete topic (e.g. on certain linguistic feature(s) of the Asian English investigated), it will in general be situated in the spirit of the larger Asian Englishes project and will preferably involve (i) sociohistorical investigation, including immigration patterns, language policy, etc, and (ii) structural analysis, with an eye on contact dynamics, potentially involving the collection of data, and will contribute to and be an integral

part of the larger Asian Englishes project. The specifics of the project will vary depending on the variety of English being worked on. The position is available for 36 months, starting 1 Sept 2012 or as soon as possible thereafter.

Applications for an MPhil position will also be considered.

Candidates should have background in linguistics and preferably familiarity with World/New/Asian Englishes. Previous fieldwork experience is desirable but not a prerequisite.

Applications have to be via the standard application process for the University of Hong Kong, and must be made online. Please see

[http://www.gradsch.hku.hk/gradsch/web/apply/index\\_ps.htm](http://www.gradsch.hku.hk/gradsch/web/apply/index_ps.htm) for more information on research degrees at HKU, and

<http://www.gradsch.hku.hk/gradsch/web/apply/> for application procedures. The deadline for applications for the 1st Clearing Round of admissions is 30 April 2012.

Full-time PhD students who hold a first degree with second-class honours first division (or equivalent) or above are normally considered eligible to receive a Post-graduate Studentship during the normative study period. Candidates' results in Master's degrees may also be considered. The basic level of studentship is HK\$13,600 (US\$1,740) per month for the 2011-2012 academic year (w.e.f. September 1, 2011) (subject to revision). Support is available for conferences and fieldwork from the university and the GRF project grant. More information on awards and financial assistance may be found at

[http://www.gradsch.hku.hk/gradsch/web/apply/index\\_ps4.htm](http://www.gradsch.hku.hk/gradsch/web/apply/index_ps4.htm)

Enquiries about the PhD position or the larger Asian Englishes project should be directed to Dr Lisa Lim at [lisa.ls.lim@gmail.com](mailto:lisa.ls.lim@gmail.com)

Because the actual application submission is to a central university pool, applicants should in addition send a brief email to Dr Lisa Lim ([lisalim@hku.hk](mailto:lisalim@hku.hk)) just to inform her that they have applied for this position.

Web address for applications:

<http://www.gradsch.hku.hk/gradsch/web/apply/>

University of Houston  
English; Applied Ling: Asst/Assoc Prof,  
University of Houston

<http://linguistlist.org/issues/22/22-4726.html>

Rank: Asst/Assoc Professor  
Posted on: 22-Nov-2011  
Deadline: Until Filled  
Ling Field(s): Applied Linguistics  
Language(s): English  
Employer: University of Houston  
Department: The Department of English

Job Description

The Department of English at the University of Houston invites applications for a tenure-track position in areas of Applied Linguistics. We are interested in candidates whose work is informed by sociocultural or critical approaches to language use and has central relevance to real world issues or contexts. Candidates should have a record of successful scholarship and research, as well as effective teaching in areas of applied linguistics, such as ESL, Educational Linguistics, or Linguistic Anthropology. Secondary areas of teaching and research might include World Englishes or Multilingualism. These research and teaching interests should complement the strengths of the Department's concentration in Rhetoric, Composition, and Pedagogy, and our Intensive English Program, the Language and Culture Center

The University of Houston is Houston's Carnegie-designated Tier-One public research university. Located in the nation's fourth largest city, the University of Houston has one of the most diverse student bodies among Tier-One institutions. Please send a letter of application, a curriculum vitae, and a dossier including three letters of recommendation, graduate transcripts, a teaching statement and evidence of successful teaching (sample evaluations and/or course syllabi), and a writing sample of no more than twenty pages to Professor Wyman H. Herendeen at the application address below. Review of

applications will begin on 6 January 2012 and will continue until the position is filled. The University of Houston is an equal opportunity/affirmative action employer. Minorities, women, veterans, and persons with disabilities are encouraged to apply.

Application Address:

Dr. Wyman H. Herendeen, Chair  
Department of English  
University of Houston  
Houston, TX 77204-3013  
USA

University of Illinois  
German; Language Program  
Coordination: Visiting

Lecturer/Instructor, U of Illinois

<http://linguistlist.org/issues/23/23-1617.html>

Rank: Visiting Lecturer/Instructor  
Posted on: 29-Mar-2012  
Deadline: 30-Apr-2012  
Ling Field(s): Applied Linguistics  
Language Program Coordination  
Language(s): German  
Employer: University of Illinois  
Department: Germanic Languages and Literatures

Job Description

The Department of Germanic Languages and Literatures, at the

University of Illinois at Urbana Champaign, invites applications for a Visiting Lecturer/Instructor for 2012-2013, with a target start date of August 16, 2012.

This is a non-renewable, 9 month full-time, non-tenure track position with an additional 1 month summer salary.

The position involves coordination of the Basic Language Program in German and supervision of teaching assistants. Conducting pre-

semester teaching orientation. 2/2 teaching load which may include a teaching methods course for graduate students, courses in the basic language program and in the undergraduate curriculum. Some service in the department is expected.

**Required:**

- Ph.D. or MA in Applied Linguistics or German (specialization open but applied linguistics or linguistics preferred)
- Experience in training and supervising teaching assistants
- Expertise in the application of technologies in language instruction, for example, web-based delivery and experience with course management systems
- Minimum of 2 years of experience in teaching German in a North American context
- Evidence of teaching excellence
- Native or near-native ability in German and English

Title will depend on level of education; Lecturer must have a PhD, Instructor must have an MA. Salary is competitive and commensurate with experience.

To apply, create your candidate profile through the University of Illinois application login page at the application URL below and upload your application materials: application letter, CV, and names and contact information for three professional references who can address

teaching and supervision abilities. Referees will be

contacted electronically upon submission of the application. Only electronic applications submitted through <https://jobs.illinois.edu> will be accepted. Additional supportive materials may be requested at a future time.

To ensure full consideration, all required applicant materials must be received no later than April 30, 2012. Letters of reference must be received no later than May 7, 2012. The department highly

recommends that complete applications be submitted prior to April 30, to ensure that referees have enough time to submit their letters of recommendation.

Applicants may be interviewed before the closing date; however, no hiring decision will be made until after that date. For further information please contact Prof. Andrea Golato, contact information below.

Illinois is an Affirmative Action /Equal Opportunity Employer and welcomes individuals with diverse backgrounds, experiences, and ideas who embrace and value diversity and inclusivity.

**University of Illinois**  
**Modern Greek; Applied Linguistics:**  
**Lecturer, University of Illinois**

<http://linguistlist.org/issues/23/23-1379.html>

Rank: Lecturer  
 Posted on: 19-Mar-2012  
 Deadline: 15-Apr-2012  
 Ling Field(s): Applied Linguistics  
 Language(s): Greek, Modern  
 Employer: University of Illinois

Department: Department of Linguistics

#### Job Description

The Department of Linguistics at the University of Illinois at Urbana-Champaign invites applications for a three-year, full-time position as Lecturer in Modern Greek Studies with a target start date of

08/16/2012. The position is renewable each year and is contingent on funding and strong performance reviews. Renewal of the position after the third year is contingent on the level of external support generated. The position involves teaching six Modern Greek language and Greek-related courses per year. In addition to teaching duties, the new Lecturer will be responsible for coordinating all aspects of the Modern Greek Studies program on campus, including student and community outreach. The Modern Greek Studies program at the University of Illinois at Urbana-Champaign is one of the youngest and most dynamic programs on campus. We are seeking a highly competent and dynamic individual who will be able to actively promote Modern Greek Studies and successfully carry out broader liaison responsibilities pertaining to the advancement of Modern Greek studies at the state and national levels. For further information about the program, please see: <http://www.moderngreek.illinois.edu>

Required are native or near-native command of Modern Greek,

experience teaching Greek as a second language, and Ph.D. in hand by date of appointment. Experience with course development and instructional and web technology is highly desirable. Salary competitive and commensurate with experience; full benefits are included.

To apply, create your candidate profile through the application URL below and upload your application materials: application letter, CV, teaching evaluations (if available), and names and contact information for three professional references. Referees will be contacted

electronically upon submission of the application. Only electronic applications submitted through the application URL below will be accepted.

To ensure full consideration, all required applicant materials must be received no later than April 15, 2012. Letters of reference must be received no later than April

22, 2012. The department highly

recommends that complete applications be submitted prior to April 15, to ensure that referees have enough time to submit their letters of recommendation. For further information regarding application

procedures, please contact [slcl-hr@illinois.edu](mailto:slcl-hr@illinois.edu). Applicants may be interviewed before the closing date; however, no hiring decision will be made until after that date.

Illinois is an Affirmative Action/Equal Opportunity Employer and welcomes individuals with diverse backgrounds, experiences, and ideas who embrace and value diversity and inclusivity.

## University of Kassel

English; Pre-sessional/Introductory Lang:  
Teacher/Lecturer, University of Kassel

<http://linguistlist.org/issues/23/23-1340.html>

Rank: Teacher, Lecturer in English  
Language/TESOL

Posted on: 16-Mar-2012

Deadline: 18-Apr-2012

Ling Field(s): Applied Linguistics  
Teaching pre-sessional and  
introductory language courses

Language(s): English

Employer: University of Kassel

Department: Faculty of Humanities, Inst. of  
Engl. & Am.

### Job Description

Lecturer in English Language / TESOL

University of Kassel, Faculty of Humanities, Institute  
of English and American Studies.

Ref. No. 18157

Fixed term contract begins asap, ends 31.12.2016, 0.5  
FTE.

Salary according to EG 13 TV-H

The Institute of English and American Studies at the University of Kassel offers BA, MA and teacher-training degree courses to over 1000 students. We are currently looking to reinforce our language teaching staff with someone who will focus primarily on teaching pre-sessional and introductory language courses (level of language competence upper-intermediate, B2/C1) with a

current teaching load of 7 hours per week. You will be involved with all aspects of setting and marking written and oral exams at this level and will be expected to contribute overall towards the improvement of our English language programme.

You will also be expected to take on responsibility for informing prospective students of our language requirements, helping them to assess realistically whether they meet these, setting up a cooperation with international language testing organisations and developing and coordinating practice materials. A further focus will be on counselling students who show weaknesses in specific language areas in their early semesters and on developing and organising a suitable remedial programme.

Candidates must be native speakers of English with an MA, PGCE or equivalent in a relevant field. Teaching experience is essential; EAP experience in a university context is highly desirable. A good knowledge of spoken and written German is particularly important for this post. Informal inquiries should be addressed to Professor Holden Härtl, using the contact information below.

Applications quoting Ref. No. 18157 should be sent to The President, University of Kassel, 34109 Kassel, or to [bewerbungen@uni-kassel.de](mailto:bewerbungen@uni-kassel.de). Please note that documents cannot be returned and will be destroyed after use.

The University of Kassel aims to be an equal opportunities employer and is committed to increasing the number of women in teaching and research positions.

## University of Kent (UK) General Linguistics: Chair of Department/Full Professor, U of Kent

<http://linguistlist.org/issues/23/23-1279.html>

Rank: Chair of Department  
Posted on: 13-Mar-2012  
Deadline: 09-Apr-2012  
Ling Field(s): General Linguistics  
Language(s):  
Employer: University of Kent (UK)  
Department: English Language & Linguistics

#### Job Description

Ref: HUM0242

Location: Canterbury

Job Type: Academic

Contract Type: Open Ended

Salary Type: Per Annum

Salary: (£) 58570

Closing date: 9 Apr 2012

The Role:

The School of European Culture and Languages is seeking to appoint a Professor and Head of the Department of English Language and

Linguistics to provide research, strategic, and operational leadership for the development of English Language and Linguistics. The new Professor will make an outstanding research contribution and build on the department's existing strengths by guiding its future strategic development. The Person:

The successful candidate will have a PhD in Linguistics, with a sustained record of international excellence in research and publication. A strong submission for the 2014 REF (3\*- 4\* level) and a record of invitations to speak at national and international conferences are essential. The successful candidate will also have experience developing taught programmes of study at Undergraduate and Postgraduate levels and the ability to lead the Department, as demonstrated by previous leadership experience

within an academic institution.

The School of European Culture and Languages:

The School of European Culture and Languages (SECL) is one of the largest academic schools at the University of Kent, embracing four modern language subjects (French, German, Hispanic Studies and Italian), English Language and Linguistics, Classical and Archaeological Studies, Comparative Literature, Philosophy and Religious Studies. It offers an extensive range of undergraduate and postgraduate programmes and a wide variety of research opportunities.

A highly regarded multidisciplinary school with top quality teaching by enthusiastic, inspirational and passionate lecturers in a great learning atmosphere, the School is also home to six research centres where both specialist and multidisciplinary research takes place. Full information about the School can be found at <http://www.kent.ac.uk/secl>.

Further Information:

Closing date for applications: 9 April 2012

Interviews are to be held: 3 May 2012

The University is keen to ensure we meet our obligations under the Equality Act 2010. We encourage anyone who has the necessary skills, qualities and experience to apply. Currently women are under-represented in this area so we would welcome applications from women.

Web address for applications: <http://www.kent.ac.uk/jobs/>

## University of Konstanz Semitic Langs; Contact Linguistics: PhD, University of Konstanz

<http://linguistlist.org/issues/22/22-4166.html>

Rank: PhD  
 Posted on: 20-Oct-2011  
 Deadline: Until Filled  
 Ling Field(s): Language Documentation  
 Contact Linguistics  
 Language(s):  
 Employer: University of Konstanz  
 Department: Linguistics/Zukunftskolleg

#### Job Description

The University of Konstanz is one of the nine Universities of Excellence in the Federal Republic of Germany.

The Zukunftskolleg/Department of Linguistics invites applications for a Ph.D. Position in Semitic Linguistics.

The position is available for 36 months starting March 2012 or as soon as possible thereafter. The appointment is at 65% of Salary Scale 13 TV-L. The research position is available within the project 'Neo-Aramaic Morphosyntax in its Areal-linguistic Context' (Neuaramäische Morphosyntax im areallinguistischen Kontext), funded by the German Research Foundation (DFG). The aim of the project is to document and investigate the morphosyntax of a selection of North-eastern Neo-Aramaic (NENA) dialects, focusing on their role in a linguistic area. The PhD student will investigate one dialect in depth, with the opportunity to complete a PhD dissertation. The research project is based at the Department of Linguistics and the Zukunftskolleg of the University of Konstanz.

The successful candidate will have a background in both Linguistics and Semitic Languages (preferably including a living one) and an MA in either one of these subjects. Previous experience in fieldwork is not a prerequisite, as training will be provided. A good command of English is required. A knowledge of German would also be advantageous (much of the academic literature on Neo-Aramaic is in this language).

Candidates are requested to apply with the following documents:

- Letter of motivation describing research interests
- CV
- MA grades transcript
- One MA thesis or other sample of writing
- Letter(s) of recommendation (sent directly by referee) or names and addresses of people who may be contacted.

The University of Konstanz encourages disabled persons to apply. They will be given preference if appropriately qualified (contact +49(0)7531/88-4895). The University of Konstanz has been certified by the Hertie Foundation to be a family-friendly institution. The University is committed to further the compatibility of work and family life.

The University of Konstanz is an equal opportunity employer and tries to increase the number of women in research and teaching.

E-mail applications using pdf documents are welcome.

Please send your applications or enquiries to Dr. Eleanor Coghill. Applications including the reference number 2011 / 155 received by the 20th November, 2011 will receive full consideration. Later applications may also be considered, until the position has been filled.

**Job Description**

The School of Modern Languages and Cultures is seeking an exceptional individual who combines internationally leading research and innovation with an outstanding record in student education for the position of Chair in Corpus Linguistics, as part of a £23m investment in academic leadership at the University of Leeds.

This new appointment, located in the School of Modern Languages and Cultures, will lead and develop the new Faculty-based strategic Language@Leeds initiative (see below) with the aim of building on substantial existing successes and making Leeds an international leader in language-related research, scholarship and teaching. The

structures of this initiative will bring together and enhance language studies in the School (the largest of its kind in the country), in the Faculty (notably English Language) and in the wider University (including Computing).

Within the School, this will particularly involve staff in Translation Studies, Linguistics and Phonetics and the Language Centre. The role will require excellent leadership and team skills and the ability to encourage and develop interdisciplinary links between the various areas represented in Language@Leeds.

The successful candidate will have an outstanding research record with a specialism within the broad of corpus linguistics, already of significant importance within the School. This should include an excellent track record in the construction and analysis of large corpora, experience with multilingual corpora and expertise in quantitative methods, including statistics. A strong commitment to interdisciplinarity should also be demonstrated. The Chair is expected to enhance existing research in corpus linguistics in the School and to foster research collaboration within language studies at Leeds, while also making an innovative contribution to related teaching on the School's undergraduate and postgraduate programmes.

Further information and details of the application procedure are available at the application URL below.

Informal inquiries about the post should be directed to: Dr Claire E. Honess, Head of the School of Modern Languages and Cultures, University of Leeds, UK.

Language@Leeds

Language@Leeds is a recently articulated initiative that brings together the study of language, both in terms of teaching and research. Within this, the Language@Leeds Research Hub aims to link up existing research groups from the Faculties of Arts, Engineering, Medicine and Health, and Education and provide them with (i) a coherent outward-facing identity with the potential to make Leeds an internationally recognised centre of excellence for the study of language, (ii) centralised research support (within the Faculty of Arts) to better enable the incremental growth of expertise, (iii) the infrastructure necessary to enable more and better inter-disciplinary research.

The Chair will be expected to develop further the

Language@Leeds Research Hub within the proposed framework and in conjunction with the team that defined it (comprising the research directors from Linguistics & Phonetics, the Centre for Translation Studies, the language group of the School of English, and the director of the Language, Linguistics & Translation research group within the School of Modern Languages and Cultures).

## University of Lille 3

French; Psycholing; Lexical Sem; Sign

Lang: Lecturer, U of Lille3

<http://linguistlist.org/issues/22/22-3977.html>

Rank: Lecturer

Posted on: 06-Oct-2011

Deadline: Until Filled

Ling Field(s): Psycholinguistics

Lexical Semantics; Sign Languages; Data Mining

Language(s): French

Employer: University of Lille 3

Department: Department of French & Linguistics

### Job Description

\*Please note that this issue has been modified from the original. Linguistic subfields and links have been updated.

Pending official approval, the University of Lille 3, France (research centre UMR 8163 STL 'Savoirs, Textes, Langage'.) will be hiring three lecturers (Maître de Conférences, MCF; Department of French & Linguistics) starting Sept 1, 2012 in the following areas:

- Lexical semantics and data mining

- Psycholinguistics
- Sign languages

There will also be a one-year position (English Department) for someone (MCF or Professor) with a specialization in ESL or ELT ('didactique')

#### Requirements:

The candidate should have a PhD. The successful candidate must be authorized to work legally in France by Sept. 1, 2012, the start date of these positions (if approved).

#### Teaching:

The candidate appointed will be expected to teach at the undergraduate level and he/she will integrate the research group STL (<http://stl.recherche.univ-lille3.fr/>).

#### Procedure:

The vacant positions will be officially announced in February or March 2012 in the 'Journal Officiel de la République Française'. They will also be published on the Lille 3 web site. In principle (in accordance with recent changes in the regulations), it is possible to apply directly to the University that is opening positions, provided the candidate holds a comparable position. However, it is strongly recommended to apply for a 'qualification' by the 'Conseil National des Universités' (CNU). The 'liste de qualification' is essentially a shortlist of candidates considered to be eligible for vacant positions.

In order to get qualified, it is necessary to register on the official site of the Ministère de l'Enseignement supérieur et de la Recherche before October 27 (16h, Paris time), stating your intention to apply for a qualification at the desired level (MCF). Candidates applying for a job in the French department should ask for a qualification in the 7th section ('Sciences du Langage'). The submission of the actual application file, both electronically and on paper, will be the second stage in the process.

#### Schematically:

- Creation of login on the Galaxy platform

<https://www.galaxie.enseignementsup-recherche.gouv.fr/ensup/candidats.html> Right click on 'accès Galaxie/qualification'

- Registration for qualification (needed for the designation of reviewers by the CNU) (deadline October 27, 2011; 16h, Paris time)

- Publication (on Galaxy platform) of the names & addresses of the designated reviewers (November 25, 2011)

- Full submission of an electronic file and hard copies to be sent to the two reviewers (one for each): deadline December 16, 2011; 00:00 (midnight, Paris time)

- The application usually proceeds in two steps:

\* The candidate goes through a qualification procedure at the national level (deadlines October 27, 2011 and 16 December, 2011)

\* The candidate has to apply at the University level early 2012 For further information, please contact Georgette Dal ([georgette.dal@univ-lille3.fr](mailto:georgette.dal@univ-lille3.fr)) for positions in the French department, Maarten Lemmens ([maarten.lemmens@univ-lille3.fr](mailto:maarten.lemmens@univ-lille3.fr)) for ESL/EFL - 'didactique'.

For information about Lettres Modernes, SDL (Sciences du Langage)  
<http://www.univ-lille3.fr/fr/ufr-lettres-modernes/>

For information about Angellier (English Department)  
<http://www.univ-lille3.fr/fr/universite/composantes-formation/angellier/> For information about the 'qualification', Professor/MCF status and salary, consult the webpage of the French Ministry of Education:

## University of Louisville Spanish; Interpreting: Assistant Professor, U of Louisville

<http://linguistlist.org/issues/22/22-4781.html>

Rank: Assistant Professor  
Posted on: 30-Nov-2011  
Deadline: Until Filled  
Ling Field(s): Translation  
Interpreting  
Language(s): Spanish  
Employer: University of Louisville  
Department: Classical & Modern Languages

### Job Description

University of Louisville

Classical and Modern Languages, Humanities 322

Assistant Professor of Spanish: Interpreting Studies.  
Tenure-track. To begin fall 2012.

The Department of Classical and Modern Languages invites applications from a dedicated professional to teach courses in simultaneous and consecutive interpreting. Language pair Spanish-English--native or near-native proficiency in both required; third language desirable. Ph.D. or equivalent (i.e., terminal degree in the field) necessary.

Commitment to teaching excellence and scholarship essential. Record of successful recent professional interpreting experience required. Applicants must present an active research agenda, provide evidence of teaching effectiveness and be willing to work collaboratively with administrators, colleagues, and students as the department continues to develop a new graduate program in translation and interpreting.

Dossiers received by December 31, 2011 will have full consideration but review of applications will continue until position has been filled. Initial interviews will be conducted by phone in early December. Please fill out our online application form at the University of Louisville Human Resources website, application URL below. Select Job ID # 90015569. You will be asked to upload your CV. Then send a cover letter, a hard copy of your CV, evidence of teaching excellence, and an official

graduate transcript to Professor Clare Sullivan at the application address below. Please also have three letters of recommendation sent to Professor Sullivan.

The University of Louisville is a nationally recognized research university located in the largest Metropolitan area of Kentucky. It is an Affirmative Action, Equal Opportunity, Americans with Disabilities Employer, committed to diversity. If you are an individual with a disability and need reasonable accommodations to participate in the hiring process, please contact the Employment Office at (502) 852-6538.

## University of Macau

### English Language & Ling: Full Professor, University of Macau

<http://linguistlist.org/issues/23/23-797.html>

Rank: Full Professor  
Posted on: 16-Feb-2012  
Deadline: Until Filled  
Ling Field(s): General Linguistics  
Language(s): English  
Employer: University of Macau  
Department: Department of English

## Job Description

The Department of English of the Faculty of Social Sciences and Humanities invites applications for the position of Full Professor in English Language and Linguistics.

The Department of English is an expanding and lively scholarly community with a strong international profile comprising three main fields of interest: linguistics, literature and translation studies. In addition to its undergraduate BA programme in English Studies (including English Language and Linguistics), the department offers a Minor in Translation, and MA programmes in English Studies (with a substantial linguistics component) and in Translation Studies, as well as PhD supervision across the range of the department's expertise.

In Linguistics the department has particular strengths in Bilingualism, Comparative Linguistics, Cognitive Linguistics, Corpus Linguistics, Discourse Analysis of Media Texts, Sociolinguistics, and World Englishes. Applications in all areas of English Language and

Linguistics will be considered, but those in the areas of Language Policy and Planning, Forensic Linguistics, Literary Linguistics or Pedagogical Linguistics will be particularly welcome.

To find out more about the post, interested candidates may contact the Head of the Department of English, Professor Martin Montgomery (Email: [mmontgomery@umac.mo](mailto:mmontgomery@umac.mo)).

**Qualifications:**

Applicants must hold a PhD degree in English Language and Linguistics or in related areas and should have a distinguished record of research and publication at an international level, as well as a demonstrable record of excellence in teaching and supervising both postgraduates and

undergraduates. An appointment may be offered at Associate Professor rank if the appointment panel considers this more appropriate to a candidate's qualifications.

The selected candidate is expected to assume duty in August 2012. Position and Remuneration:

The remuneration and appointment rank offered will be competitive and commensurate with the successful applicants' academic qualifications, current position and professional experience. The current local maximum income tax rate is 12%, while after various discretionary exemptions the effective income tax rate has been around 5% - 7%.

**Application Procedure:**

Applicants should visit <http://www.umac.mo/vacancy> for more details, and apply ONLINE at [Jobs@UM](mailto:Jobs@UM) (<https://isw.umac.mo/recruitment>) (Ref. No.: FSH/DENG/FP/ELL/11/2012). Review of applications will commence on 29 February 2012 and continue until the position is filled. Other contact points are:

Website: <https://isw.umac.mo/recruitment>

Email: [vacancy@umac.mo](mailto:vacancy@umac.mo)

Tel: +853 8397 8593 or +853 8397 8592

Fax: +853 8397 8694 or +853 2883 1694

The effective position and salary index are subject to

the Personnel Statute of the University of Macau in force. The University of Macau reserves the right not to appoint a candidate. Applicants with less qualification and experience can be offered lower positions under special circumstances.

\*\*\*Personal data provided by applicants will be kept confidential and used for recruitment purpose only\*\*\*

**English Ling: Wissenschaftliche/r**  
**Mitarbeiter/in (0,75 part-time), U of**  
**Mainz**

<http://linguistlist.org/issues/23/23-1137.html>

Rank: Wissenschaftliche/r Mitarbeiter/in  
(0,75 part-time)

Posted on: 06-Mar-2012

Deadline: 20-Mar-2012

Ling Field(s): General Linguistics  
Specifically English Linguistics

Language(s): English

Employer: University of Mainz

Department: Department of English and  
Linguistics

**Job Description**

Candidates should:

- hold a PhD in English Linguistics

- have teaching experience in synchronic and

diachronic linguistics

- have experience with corpus-based or experimental methods

- have (near-) native speaker competence in English

Applicants are expected to:

- teach three 2-hour courses in English Linguistics
- be able to function in a German-speaking working environment
- actively contribute to the implementation of new study programmes
- take part in administrative work

Contract will be for four years.

As an equal opportunity employer Mainz University wishes to increase the proportion of female academic staff, particularly welcoming applications from women. Severely challenged persons will be given preference in case of equal qualifications.

Please send your letter of application, CV, publication record and teaching record to the application address below.

## University of Marburg German; Neurolinguistics: Postdoctoral Researcher, U of Marburg

<http://linguistlist.org/issues/22/22-4614.html>

Rank: Post Doc  
Posted on: 17-Nov-2011  
Deadline: Until Filled  
Ling Field(s): Neurolinguistics  
Language(s): German  
Employer: University of Marburg  
Department: Department of Germanic Linguistics

#### Job Description

The Department of Germanic Linguistics at the University of Marburg is seeking to fill the position of a postdoctoral researcher (salary according to EG 13 TV-H; i.e. approx. EUR 3110-3640 / month before taxes

commensurate with experience, amounting to approx. EUR 1844-2082 / month after taxes and including health insurance) for the duration of three years. Starting date: January 1st 2012 or soon thereafter.

The position is part of the research unit 'Exploring the building blocks of language' ('Fundierung linguistischer Basiskategorien'; financed by the German state of Hesse as part of the LOEWE programme), which aims to identify empirically grounded concepts and categories for linguistic theorising by combining empirical insights from neurolinguistics, language acquisition, language variation and change as well as linguistic typology. The postdoctoral researcher will conduct experiments on the learnability (plasticity) of hypothesised fundamental building blocks in the domains of phonology and the syntax-semantics interface using EEG and fMRI. He/she will also assist other projects within the research unit with experimental design and other methodology-related issues.

We offer excellent facilities for the study of language from a neuroscientific perspective, including two EEG laboratories plus a mobile EEG setup, a new research-dedicated 3T MRI scanner as well as eye-tracking and reaction time laboratories.

The successful candidate will hold a PhD in linguistics, psychology or a related field and will have prior experi-

ence with neuroscientific methodologies in language processing. Experience with EEG-based measures is particularly important, but additional familiarity with fMRI would be beneficial. He/she will have a good knowledge of experimental design and statistics and good programming skills. As some of the experimental work within the research unit will involve different German dialects, a willingness to travel and conduct mobile EEG experiments is essential. The candidate should also have an excellent command of English, good interpersonal skills and the ability to supervise students and research assistants. Knowledge of German is not required when taking up the position, but we do expect an interest in learning the language. Applications should include the names and contact details of three referees.

Any questions about the position may be directed to Prof. Ina Bornkessel-Schlesewsky (iboke@staff.uni-marburg.de). Please send your application via e-mail to Prof. Ina Bornkessel-Schlesewsky (iboke@staff.uni-marburg.de), quoting reference fb09-0019-wmz-2011. Review of

applications will begin immediately, but will continue until the position is filled.

commensurate with experience, amounting to approx. EUR 1844-2082 / month after taxes and including health insurance) for the duration of three years. Starting date: January 1st 2012 or soon thereafter.

The position is part of the research unit 'Exploring the building blocks of language' ('Fundierung linguistischer Basiskategorien'; financed by the German state of Hesse as part of the LOEWE programme), which aims to identify empirically grounded concepts and categories for linguistic theorising by combining empirical insights from neurolinguistics, language acquisition, language variation and change as well as linguistic typology. The postdoctoral researcher will work within the sub-project 'Boundary signals for foot and word', a project aiming at the analysis of the ways and means of signalling boundary signals for prosodic categories, especially for the foot and word. The role of the prosodic boundaries for lexical processing will be studied as well. Linguistic analyses and neurolinguistic experiments (especially by means of event-related potentials) will be performed. Co-operation with other projects in the same programme are expected as well.

The successful candidate will hold a PhD in linguistics or a related field (phonetics, psychology) and will have prior experience with phonological analysis, especially prosody, corpus studies and/or neuroscientific methodologies in language processing. Experience with EEG-based measures is particularly important. He/she will have a good knowledge of experimental design and statistics. The candidate should also have a good command of English, good interpersonal skills and the ability to supervise students and research assistants. ## University of Maryland Syntax: Post Doc, University of Maryland

<http://linguistlist.org/issues/23/23-245.html>

Rank: Post Doc  
Posted on: 12-Jan-2012  
Deadline: Until Filled  
Ling Field(s): Syntax  
Language(s):  
Employer: University of Maryland  
Department: Linguistics

#### Job Description

The Linguistics Department at the University of Maryland invites applications for a one year (renewable for a second year) post doc position in syntax beginning August 2012. Applicants for the position should already have a PhD or expect to have one by August 2012, should be prepared to teach courses at both the undergraduate and graduate level, and should have a solid foundation in linguistic theory. The ideal candidate should have broader interests that interface with one or more of the department's strengths in psycholinguistics, neurolinguistics, or computational linguistics. Letters of application should be sent to the application address or email address below. Applicants should (i) send a current cv (ii) samples of written work, (iii) teaching evaluations (if available) and (iv) arrange to have three letters of reference sent. For best consideration, applications should arrive March 15 2012. EO/AAE.

## University of Maryland Less Commonly Taught Langs & Tech Use: Researcher, U of Maryland

<http://linguistlist.org/issues/22/22-4520.html>

Rank: Researcher  
Posted on: 11-Nov-2011  
Deadline: Until Filled  
Ling Field(s): Less Commonly Taught Languages  
and Technology Use  
Language(s):  
Employer: University of Maryland  
Department: Center for Advanced Study of  
Language (CASL)

#### Job Description

The University of Maryland Center for Advanced Study of Language (CASL) is seeking a faculty research assistant (FRA) to join in linguistic research in Less Commonly Taught Languages and in Technology Use. The projects in these two areas support CASL's mission to conduct state-of-the-art research that will result in improved performance on language tasks relevant to the work of government language professionals.

Duties: The FRA will assist with research on various aspects of critical languages such as Pashto, Punjabi, and Bangla. Responsibilities include literature reviews, linguistic analysis, contributing to descriptive grammars of critical languages, and computational linguistics. The FRA will also perform project administrative duties, such as helping to prepare progress reports and schedule meet-

ings.

Qualifications: Bachelor's degree or higher in linguistics or a related field with training in computer science and computational linguistics, or in computer science with training in linguistics and natural language processing. Background in Linux is essential. Coursework in or knowledge of a less commonly taught language, particularly a Middle Eastern, Central Asian, or South Asian language, is helpful. Also desirable is an ability and willingness to learn to work with computer applications for linguistic research, quantitative research methods, and corpus linguistics. The successful candidate will work as a member of a larger team and be motivated to receive training as needed. \*\*Candidates must hold U.S. citizenship and be willing to obtain the appropriate security clearance.\*\*

CASL, established in 2003, is the nation's 10th university-affiliated research center. Its mission is to conduct state-of-the-science research that results in improved performance on language tasks relevant to the work of government language professionals. Our research focuses on improving knowledge of less commonly taught languages; enhancing the acquisition and maintenance of foreign language capability by government professionals; advancing the capacity to use foreign language skills in government professions; and improving the quality of human language technology.

Compensation for this position is competitive commensurate with experience and education, plus fantastic benefits (e.g., healthcare, excellent retirement plans, 22 days for annual leave, 3 personal days, and 14 scheduled holiday leave days per University schedule).

Application: For earliest consideration, apply online. You will need to create an account and submit a cover letter, resume, list of references containing the contact information for three professional referees, and up to three writing samples.

The University of Maryland is an affirmative action, equal opportunity employer. Women and minorities are encouraged to apply.

## University of Maryland Computational Linguistics; NLP: Researcher, U of Maryland

<http://linguistlist.org/issues/23/23-495.html>

Rank: Researcher  
Posted on: 30-Jan-2012  
Deadline: Until Filled  
Ling Field(s): Computational Linguistics  
Natural Language Processing  
Language(s):  
Employer: University of Maryland  
Department: Center for Advanced Study of  
Language (CASL)

#### Job Description

The University of Maryland Center for Advanced Study of Language (CASL) is seeking a Faculty Research Assistant to join the CASL Technology Use team. The Technology Use team engages in cutting-edge research in the fields of Computational Linguistics (CL) and Natural Language Processing (NLP). The successful candidate will work with a multidisciplinary team on research projects that enable government employees, especially foreign language professionals, to improve their performance.

Duties: The successful candidate will collaborate with research scientists from computer science, linguistics, and other disciplines in applying NLP methods to specific problems. Successful collaboration will include programming, developing algorithms, coordinating workflow of multi-disciplinary teams, and researching relevant work in CL/NLP literature in support of projects involving linguistic analysis, language technology, and machine learning.

Qualifications: A Bachelor's degree in Computer Science, Software Engineering, Electrical Engineering, Systems Engineering, Computer Engineering, Computational Linguistics, or related technical field is required. A Master's degree is a plus.

We seek a researcher with strong computational and mathematical problem-solving skills. Significant programming skills (preferably in Perl, Python, Matlab,

R, Java, C, or C++) in a UNIX or Linux environment are a must. Web development skills (HTML and Javascript) and/or experience with LaTeX, Unicode, and XML are desirable. Additional desirable characteristics include:

- Demonstrated interest in natural language processing (NLP) and statistical machine learning
- Flexibility to learn and interface with unfamiliar programming languages
- Ability to communicate with experts in a multidisciplinary environment Candidates must hold U.S. citizenship and be willing to obtain the appropriate security clearance.

The position is available for a one-year term. This is a full-time, non-tenure track faculty position. Compensation for this position is competitive commensurate with experience and education, plus fantastic benefits (e.g., health-care, excellent retirement plans, 22 days for annual leave, 3 personal days, and 14 scheduled holiday leave days per University schedule).

CASL, established in 2003, is the nation's 10th university-affiliated research center. Its mission is to conduct state-of-the-science research that results in improved performance on language tasks relevant to the work of government language professionals. Our research focuses on improving knowledge of less commonly taught languages; enhancing the acquisition and maintenance of foreign language capability by government

professionals; advancing the capacity to use foreign language skills in government professions; and improving the quality of human language technology.

Application: For earliest consideration, apply online by going to <https://jobs.umd.edu> and clicking on "Faculty", or use the application URL below for a direct link. You will need to create an account and submit a cover letter, resume, and list of references containing the contact information for three professional referees.

The University of Maryland is an affirmative action, equal opportunity employer. Women and minorities are encouraged to apply.

## University of Maryland Language Disorders: Rank Open, University of Maryland

<http://linguistlist.org/issues/22/22-4923.html>

Rank: Rank Open  
Posted on: 08-Dec-2011  
Deadline: Until Filled  
Ling Field(s): Cognitive Science  
Language Disorders  
Language(s):  
Employer: University of Maryland  
Department: Hearing & Speech Sciences

### Job Description

Open Rank (Assistant/Associate/Full) Professor,  
University of Maryland, College Park

The Department of Hearing and Speech Sciences (CAA-accredited) invites applicants for a tenured/tenure-track position in Language Sciences or Disorders, beginning August 2012. Qualifications for the faculty position include an earned doctorate in speech-language pathology, language sciences, or related neuroscience or cognitive science areas. All relevant areas of expertise will be considered. Applicants should demonstrate a publication record, teaching experience, and history of external funding commensurate with level of appointment. CCC and/or a research focus on language disorders is strongly preferred. Responsibilities include establishing an independent research program, teaching undergraduate and graduate courses, mentoring graduate students, and participating in departmental and university activities. Colleagues who would be interested in furthering research ties with interdisciplinary initiatives on campus (such as the Neuroscience and Cognitive Science Program, Language Science at Maryland, and/or the Maryland Neuroimaging Center), or who will strengthen connections with other departments on campus (such as human development, special education, linguistics, or psychology), are strongly encouraged to apply. Salary is negotiable, depending upon qualifications and experience.

The department offers highly-ranked programs leading to BA, MA, AudD and PhD degrees, and is a key contributor to the largest language science community in North America (<http://www.bsos.umd.edu/hesp>,

<http://languagescience.umd.edu>). The College Park campus is located in the Baltimore-Washington metropolitan area in close proximity to numerous world-renowned medical institutions and research facilities including the NIH, Walter Reed National Military Medical Center, Johns Hopkins University, and the University of Maryland School of Medicine. We will begin reviewing applications on January 25, but expect this to be an ongoing process, and thus would encourage applications that arrive after this date. Please complete the online application at the application URL below (job position # 104604).

Required application materials include a letter of application, curriculum vita, statements of research and teaching interests, 2 or 3 selected articles (uploaded as supplemental documents), and names and email address of three references who may be asked for letters of recommendation. For questions about the position, please contact Dr. Rochelle Newman (301-405-4226; [rnewman1@umd.edu](mailto:rnewman1@umd.edu)).

The University of Maryland, College Park, actively subscribes to a policy of equal employment opportunity, and will not discriminate against any employee or applicant because of race, age, sex, color, sexual orientation, physical or mental disability, religion, ancestry or national origin, marital status, genetic information, or political affiliation. Minorities and women are encouraged to apply.

## University of Maryland Cognitive Science: Researcher, University of Maryland

<http://linguistlist.org/issues/23/23-363.html>

Rank: Researcher  
Posted on: 19-Jan-2012  
Deadline: Until Filled  
Ling Field(s): Cognitive Science  
Language(s):  
Employer: University of Maryland  
Department: Center for Advanced Study of Language (CASL)

#### Job Description

The University of Maryland Center for Advanced Study of Language (CASL) is seeking a faculty research assistant (FRA) to join its Cognitive Neuroscience and Cognitive Psychology Teams. The FRA will assist with all aspects of behavioral and/or neuroimaging studies examining working memory, creative problem solving, and possibly other topics. Duties include assisting with study design, creating experimental stimulus materials, implementing testing procedures, subject recruitment, data collection, data analysis, and documentation and presentation of results. The FRA will also provide research administrative support, such as preparing IRB applications, progress reports, quarterly reviews, and scheduling meetings. Qualifications: Bachelor's or Master's degree in Psychology or related field, such as Cognitive Neuroscience, Cognitive Science, Neuroscience, Second Language Acquisition, or Linguistics. A background in human subjects' research, especially in experimentation and psychological testing, is necessary. Experience with electroencephalography (EEG) and/or Magnetic Resonance Imaging, and MATLAB programming, is preferred but not required. Candidates must be willing to be trained to perform all requisite duties of the position. Candidates must demonstrate an ability to work collaboratively in a team setting.

Candidates must hold U.S. citizenship and be willing to obtain the appropriate security clearance.

CASL, established in 2003, is the nation's 10th university-affiliated research center. Its mission is to conduct state-of-the-science research that results in improved performance on language and analysis tasks

relevant to the work of government language professionals. Our research focuses on improving knowledge of less commonly taught languages; enhancing the acquisition and maintenance of foreign language capability by government language professionals; advancing the capacity to use foreign language and analysis skills in government professions; and improving the quality of human language technology.

Compensation for this position is competitive commensurate with experience and education, plus fantastic benefits (e.g., healthcare, excellent retirement plans, 22 days for annual leave, 3 personal days, and 14 scheduled holiday leave days per University schedule).

Application: For earliest consideration, apply online by going to <http://jobs.umd.edu> and clicking on "Faculty". (Direct link:

<http://jobs.umd.edu/applicants/Central?quickFind=56081>)

You will need to create an account and submit a cover letter, resume, list of references containing the contact information for three professional referees, and up to three writing samples.

The University of Maryland is an affirmative action, equal opportunity employer. Women and minorities are encouraged to apply.

## University of Maryland Language Acquisition: Faculty Research Assistant, U of Maryland

<http://linguistlist.org/issues/22/22-4111.html>

Rank: Researcher, Faculty Research Assistant  
Posted on: 20-Oct-2011  
Deadline: Until Filled  
Ling Field(s): Language Acquisition  
Language(s):  
Employer: University of Maryland

Department: Center for Advanced Study of Language

#### Job Description

\* This position has been filled.

The University of Maryland Center for Advanced Study of Language (CASL) is seeking a Faculty Research Assistant (FRA) to join the CASL Aptitude for High-Level Language research team. The research team investigates second language acquisition, focusing in particular on: predicting success in achieving high-level or near-native proficiency, identifying the cognitive and perceptual abilities relevant to high-level language skills, and tailoring language training to match learners' aptitude profiles.

Duties: The FRA will work with the research team on all aspects of a research project designed to predict the likelihood of developing near-native proficiency in a foreign language. The FRA will assist with participant recruitment, scheduling, and testing as part of an on-going validation study. Duties will include both administrative and research tasks. Administrative tasks include organizing meetings, taking minutes, coordinating schedules, as well as assisting in the preparation of status reports, briefings, and technical reports. Research activities will include, but are not limited to, working with the research team to develop testing protocols, writing IRB applications, piloting and validating assessments, managing the team library, meeting with government and military personnel, technical editing, as well as data collection, organization, and analysis. \*Travel is required. Qualifications: Bachelor's degree required in a research field involving human participants such as Psychology, Sociology, Cognitive Science, Statistics, or Program Evaluation. Master's degree preferred with a concentration in Second Language Acquisition, Language Assessment, Psychology, or Linguistics. Expertise in Microsoft Office is required. Experience with, or willingness to learn, R and LaTeX is a plus. Previous research experience assessing cognitive and/or linguistic knowledge, with knowledge of statistical analysis, is desirable. Candidates must be willing to be trained to perform all requisite duties of the position and demonstrate an ability to work in a fast-paced, interdisciplinary and intercultural environment. Candidates must hold U.S. citizenship and be willing to obtain the appropriate security clearance.

CASL, established in 2003, is the nation's 10th university-affiliated research center. Its mission is to conduct state-of-the-science research that results in improved performance on language tasks relevant to the work of government language professionals. Our research focuses on improving knowledge of less commonly taught languages; enhancing the acquisition and maintenance of foreign language capability by government professionals; advancing the capacity to use foreign language skills in government professions; and improving the quality of human language technology.

Application: For earliest consideration, please apply online at the application web address listed below. You will need to create an account and submit a cover letter, resume, list of references containing the contact information for three professional referees, and up to three writing samples.

The University of Maryland is an affirmative action, equal opportunity employer. Women and minorities are encouraged to apply.

## University of Maryland Cognitive Science; General Ling: Post-Bac Researchers, U of Maryland

<http://linguistlist.org/issues/23/23-1535.html>

Rank: Post-Bac Researchers  
Posted on: 26-Mar-2012  
Deadline: Until Filled  
Ling Field(s): General Linguistics  
Cognitive Science  
Language(s):  
Employer: University of Maryland  
Department: Linguistics

#### Job Description

The University of Maryland is looking to fill up to five full-time positions for post-bac researchers. Starting date: Summer/Fall 2012. Salary competitive, with benefits. The positions are ideal for graduates interested in gaining research experience in a very active lab as preparation for a research career. US or Canadian citizens or

permanent residents only; BA or BS required by time of appointment. The ability to interact comfortably with a wide variety of people (and machines) is a distinct advantage. Applicants may request to be considered for all five positions. Positions are open until filled, but best consideration date is April 20th.

#### Positions #1-#2: Baggett Research Fellowships

Baggett Fellowships are full-time positions. Fellows can pursue research in linguistics, cognitive (neuro-)science, or computational modeling of language. 1-2 positions are available for 2012-2013. Positions are for 1 year and not renewable. Contact: Andrea Zukowski, [zukowski@umd.edu](mailto:zukowski@umd.edu). Further details including faculty mentor list at: <http://www.ling.umd.edu/baggett>

#### Position #3: Research Assistant in Psycholinguistics/ Cognitive Neuroscience

This person will be involved in studies of language comprehension using behavioral and electrophysiological techniques (training provided). The person will also contribute to Maryland's IGERT training program in Language Science, <http://languagescience.umd.edu>.

Previous research experience preferred. 1 year initial appointment, possibility of extension. Contact: Colin Phillips, [colin@umd.edu](mailto:colin@umd.edu). Position #4: Research Assistant in Psycholinguistics/Cognitive Neuroscience

This person will be involved in projects examining language

comprehension with behavioral and neurophysiological methods

including ERP, MEG, and fMRI (training provided). Previous experience in linguistics and/or language processing is preferred; reasonable comfort with basic programming and statistics is a significant plus. 1 year initial appointment with possibility of extension. Contact: Ellen Lau, [ellenlau@umd.edu](mailto:ellenlau@umd.edu).

#### Position #5: MEG Laboratory Manager

This person will play a leading role in the operation of an MEG facility managed by the Department of Linguistics but serving researchers from many departments. The person will be trained as an expert user and will guide other users, coordinate resources, and manage the smooth daily operation of the lab. The person will also help to coordinate the relocation of the lab to the new Maryland Neuroimaging Center. Opportunities to participate in research projects and a range of other intellectual activities in language and cognitive neuroscience. Previous lab experience preferred. Prior experience with MEG is NOT required. 1 year initial appointment, with the possibility of extension. Contact: lab co-directors Colin Phillips (Linguistics, [colin@umd.edu](mailto:colin@umd.edu)) or Jonathan Simon (Electrical Engineering, [jzsimon@umd.edu](mailto:jzsimon@umd.edu)).

Applicants for any of the positions should submit a cover letter outlining relevant background and interests, including potential faculty mentors; current CV; writing sample; names and contact information for 3 referees. Letters are not needed for the initial application. All application materials should be submitted electronically. Individuals may submit one application and specify which positions they are interested in.

The Department of Linguistics has facilities for testing of infants, children and adults, 2 eye-tracking labs, ERP and MEG labs. The department is part of a vibrant language science community of 200 researchers across 10 departments.

## University of Massachusetts Amherst

### Semantics: Lecturer, University of Massachusetts Amherst

<http://linguistlist.org/issues/23/23-32.html>

Rank: Lecturer  
Posted on: 03-Jan-2012  
Deadline: Until Filled  
Ling Field(s): Semantics  
Language(s):  
Employer: University of Massachusetts  
Amherst  
Department: Linguistics

#### Job Description

The Linguistics Department of the University of Massachusetts Amherst invites applications for a one-year Lecturer position in Semantic Theory, starting September 1, 2012. Duties for this position include advising students, pursuing independent research, participating in departmental research initiatives and teaching one course each semester. We seek applicants with a vibrant research program that complements the research interests of the current Linguistics faculty.

Qualified applicants should have a Ph.D. in Linguistics by time of appointment. Salary is \$48,520.

Applicants should submit a letter of application, statement of research and teaching interests, curriculum vitae, copies of research papers and three letters of recommendation, in either electronic or hard copy form, to the application email address or application address below.

Review of applications will begin on February 1, 2012 and continue until the position is filled.

UMass Amherst is a member of the Academic Career Network, a resource for dual-career couples (<http://acn.fivecolleges.edu>) and a member of the Five College Consortium along with Amherst, Hampshire, Smith and Mt. Holyoke Colleges. The University of Massachusetts Amherst is an Affirmative Action/Equal Opportunity Employer. The Linguistics Department is committed to increasing the diversity of the faculty, student body, and curriculum. Women and members of minority groups are strongly encouraged to apply.

### Application Address:

Semantics Search  
Department of Linguistics, 226 South College Bldg.  
University of Massachusetts  
Amherst, MA 01003-9274  
USA

### Contact Information:

Sarah Vega-Liros, Search Administrator,  
sarahv@linguist.umass.edu  
Phone: 413-545-0889  
Fax: 413-545-2792

Qualifications: Ph.D. in linguistics or related field by August 31, 2012 strongly preferred; but firm expectation of ABD by August 31, 2012 will be considered. Salary commensurate with qualifications and experience. The standard teaching load is two courses per semester.

Applicants should submit a letter of application, statement of research and teaching interests, curriculum vitae, copies of research papers, and evidence of teaching ability, and they should arrange for three letters of reference to be sent. Materials can be submitted online at the application URL below.

Electronic submissions preferred. If unable to submit application online, applications can be mailed to the application address below.

Questions about the application process may be directed to the Search Administrator, Sarah Vega-Liros, contact information below.

Review of applications will begin on December 2, 2011 and continue until the position is filled.

## University of Massachusetts Amherst

### Language Acquisition: Assistant Professor, U of Massachusetts

<http://linguistlist.org/issues/22/22-3924.html>

Rank: Assistant Professor  
Posted on: 07-Oct-2011  
Deadline: Until Filled  
Ling Field(s): Language Acquisition  
Language(s):  
Employer: University of Massachusetts  
Amherst  
Department: Linguistics

### Job Description

The Linguistics Department of the University of Massachusetts Amherst and Commonwealth Honors College invite applications for a joint tenure-track position for a theoretical linguist with a specialization in language acquisition at the assistant professor level, starting September 1, 2012. The position will involve advising and teaching at the graduate and undergraduate levels as well as participating in initiatives to enrich the offerings of Commonwealth Honors College. Commonwealth Honors College is the undergraduate honors college at UMass Amherst, and as such half of the teaching load for this position will be undergraduate honors courses offered by the Linguistics Department. We seek applicants who can develop and supervise experimental studies and whose research interests complement those of the current Linguistics faculty.

## University of Memphis Cognitive Science: Associate Professor, University of Memphis

<http://linguistlist.org/issues/22/22-4822.html>

Rank: Associate Professor  
Posted on: 02-Dec-2011  
Deadline: Until Filled  
Ling Field(s): Cognitive Science  
Language(s):  
Employer: University of Memphis  
Department: Psychology

### Job Description

The Department of Psychology at the University of Memphis invites applications for a tenure-track position at the associate level in the area of cognitive science, and related areas in psychology. While the specific area of specialization within cognitive psychology is open, we are particularly interested in candidates whose research investigates computational models of cognition, intelligent tutoring systems, and language, text and discourse. The Department has 35 full-time faculty and houses Ph.D. programs in experimental psychology, clinical psychology (APA-accredited and member of the Academy of Psychological Clinical Science), and school psychology as well as a master's program in general psychology. As a State of Tennessee Center of Excellence, the Department is able to provide competitive salaries and strong support for faculty research and professional development. Candidates are required to have a doctoral degree in psychology or any related area. Preference will be given to candidates who have a strong record of published research, external research support, and who can teach undergraduate and graduate courses in research design and statistics.

Application review will begin January 6, 2012 and will continue until the position is filled. Position will begin Fall 2012.

To apply, please send letter of interest, curriculum vitae, three letters of recommendation, and reprints/preprints using the application URL below. Please contact the Chair of the Search Committee, Dr. Art Graesser (email address below), if you have questions or desire further information.

The University of Memphis is an Equal Opportunity/Affirmative Action Employer and encourages applications from women, ethnic minorities, and persons with disabilities.

### Contact Information:

Dr. Art Graesser  
[graesser@memphis.edu](mailto:graesser@memphis.edu)  
Phone: 901-678-4857  
Fax: 901-678-2579

## University of Memphis Communication Sciences and Disorders: Asst Prof, U of Memphis

<http://linguistlist.org/issues/22/22-3878.html>

Rank: Assistant Professor  
Posted on: 04-Oct-2011  
Deadline: Until Filled  
Ling Field(s): Cognitive Science  
Communication Sciences and Disorders; Interdisciplinary  
Language(s):  
Employer: University of Memphis  
Department: Communication Sciences and Disorders/IIS

#### Job Description

The Institute for Intelligent Systems (IIS) and the School of Communication Sciences and Disorders at the University of Memphis invite applications for a tenure-track Assistant Professor position to begin in August 2012. The position is a 9 month appointment to the IIS with a home in the School of Communication Sciences and Disorders.

Applicants must have completed (or be completing) a Ph.D. in

communication sciences and disorders, cognitive science, or a related field, and must have a record of interdisciplinary research. Salary is competitive and commensurate with qualifications. A successful candidate will be expected to spearhead new externally funded research initiatives, to build and lead a team of graduate students in Ph.D. research, and to teach courses at the graduate and undergraduate levels.

All candidates with empirical interdisciplinary research related to communication and/or the identification and treatment of communication disorders will be considered. General areas of research could be in speech, language, or hearing sciences, with a variety of possible emphases in development, modeling, genetics, imaging, engineering or other related interdisciplinary fields. Specific content areas of interest might include autism, literacy, speech perception, or dialog and discourse, among others. Candidates whose research areas strengthen existing areas of IIS researchers are particularly encouraged to apply.

The Institute for Intelligent Systems consists of 28 faculty members across 9 departments including Communication Sciences and Disorders, Computer Science, Engineering, Education, Linguistics, Philosophy and Psychology. The IIS offers a graduate certificate in Cognitive Science and is affiliated with BA and MS programs in other departments. The IIS has received over \$20 million in external awards in the past four years. Further information about the Institute for Intelligent Systems can be found at <http://iis.memphis.edu>. The University of Memphis School of Communication Sciences and Disorders is a highly ranked program nationally, offering graduate degrees in Speech-Language Pathology (MA), Audiology (AuD), and Communication Sciences and Disorders (PhD). The School is also the home of the Center for Research Initiatives and Strategies for the Communicatively Impaired, which was created

under the State of Tennessee's Centers of Excellence program to foster growth in research. The CSD School website may be found at <http://www.memphis.edu/csd/>.

Please complete an on-line application at the application URL below. Click on the faculty box to find the posting for Assistant Professor. You will be required to upload a cover letter, research and teaching statements, curriculum vitae, and three letters of recommendation. Application review will begin December 15, 2011, and will continue until the position is filled. The University of Memphis is an Equal Opportunity/Affirmative Action Employer. We urge all qualified applicants to apply for this position. Appointment will be based on qualifications as they relate to position requirements without regard to race, color, national origin, religion, age, gender, handicap or veteran status. Successful candidates must meet guidelines of the Immigration Reform and Control Act of 1986. For any questions regarding this position, please contact the chair of the search committee, Dr. Eugene H. Buder, contact information below.

#### Contact Information:

Dr. Eugene Buder

## University of Minnesota Phonology or Syntax: Assistant Professor, University of Minnesota

<http://linguistlist.org/issues/23/23-798.html>

Rank: Assistant Professor

Posted on: 16-Feb-2012

Deadline: Until Filled

Ling Field(s): Phonology  
Syntax

Language(s):

Employer: University of Minnesota

Department: Linguistics

#### Job Description

The Linguistics Program in the Institute of Linguistics at the University of Minnesota, Twin Cities, invites applications for a tenure-track Assistant Professor position, with specialization in phonological theory or syntactic theory, approached from a cognitive/biological perspective. A PhD in Linguistics is required. The appointment is expected to begin fall semester 2012 (August 27, 2012).

The successful candidate will have demonstrated excellence in research and evidence of, or potential for, successful teaching at the University level, both undergraduate and graduate. A secondary specialization in one or more of the following: neurolinguistics, psycholinguistics (including language acquisition), or computational linguistics is highly desirable. Applicants should submit (1) a letter of application; (2) curriculum vitae; (3) research paper(s) (2 max); and (4) evidence of teaching ability, at the following application URL:

<http://employment.umn.edu/applicants/Central?quickFind=100843>

In addition to the materials mentioned above, applicants should arrange to have 3 letters of recommendation mailed directly to the search committee at the address below.

The committee will begin reviewing applications on March 2, 2012. The position is open until filled.

The University of Minnesota is an equal opportunity educator and employer.

## University of Nova Gorica

### NLP; Data/Text Mining:

### Post-Doc/Open-Rank Prof, U of Nova Gorica

<http://linguistlist.org/issues/23/23-241.html>

Rank: Post-Doc/Open-Rank Professor  
Posted on: 11-Jan-2012  
Deadline: Until Filled  
Ling Field(s): Computational Linguistics  
Natural Language Processing; Data  
(Text) Mining

Language(s):  
Employer: University of Nova Gorica  
Department: Center for Systems and Information  
Technologies

#### Job Description

The University of University of Nova Gorica (CSIT and the linguistic section of ICS) is looking for an 'experienced researcher' (post-doc or open-rank professor) in the field of data (text) mining and natural language processing. The position is open within the SUNGREEN project cofinanced under Framework Programme 7 (Call: FP7-REGPOT-2011-1) with duration until 30.9.2014.

Conversion to a tenure-track position is possible.

Application Deadline: January 30, 2012/ open until filled.

Fields of work and research:

- Development of algorithms and software for text mining systems and carrying out experiments in text

mining applications using large data sets

- Development of information extraction, text classification and text mining algorithms for energy and environmental research areas, performing data extraction, manipulation, cleaning, text mining and link analysis

- Analysis and interpretation of today's plethora of data sources and thus support energy and environmental scientists in the process of knowledge discovery

- The recruited researcher will also work with younger researchers and students to develop a team that can continue with these activities after the termination of this project

Qualifications:

- A Ph.D. in Computer or Information Science or equivalent degree

- At least two years of postdoctoral experience from the fields related to the job description

- Excellent knowledge of natural language processing and text mining

- A distinguished publication record

- Very good oral and written communication skills in English are essential

- Experience with text mining in applications related to energy and environmental research is an advantage

The application should include:

- Cover letter

- CV including contact details

- List of relevant publications

- Two letters of recommendation

- A max. 2-page description of proposed research activities (desirable, not mandatory)

## University of Oregon

### Second Lang Teaching & Acquisition:

#### Asst/Assoc Prof, U of Oregon

<http://linguistlist.org/issues/22/22-4780.html>

Rank: Asst/Assoc Professor

Posted on: 29-Nov-2011

Deadline: Until Filled

Ling Field(s): Applied Linguistics  
Language Acquisition

Language(s):

Employer: University of Oregon

Department: Linguistics

## Job Description

The Department of Linguistics, University of Oregon is seeking an assistant or associate professor with a specialization in second language acquisition and/or teaching, beginning 16 September 2012. This position will be closely associated with our Language Teaching Specialization MA program with both teaching and some administrative requirements in that program. This MA program attracts many international students, and prepares students for careers in teaching any second/foreign language, including English, Swahili, Portuguese, Korean, Farsi, and several Native American languages. The Department also offers core courses in the undergraduate Second Language Acquisition and Teaching Certificate program (<http://slat.uoregon.edu>), and contains the American English Institute (<http://aei.uoregon.edu>), providing additional opportunities for interaction with SLT faculty and students. We seek a candidate with experience and demonstrated strength in second or foreign language teaching across proficiency levels and/or teaching settings, as well as a commitment to graduate and undergraduate teaching and mentoring, including teacher education. Candidates should have established research in SLT and/or SLA, and should connect well with our international outlook, emphasis on empirical research methodologies, experience in minority language preservation and revitalization, and other existing strengths of our department. We are particularly seeking candidates with expertise and a strong record of research and publication in one or more of the following areas: Applications of current research to language teaching methods, e.g., testing and assessment, curriculum design, instructional technology; psycholinguistics or sociolinguistics of second language acquisition and/or bilingualism; endangered language revitalization; teaching and learning of less commonly taught languages.

The successful candidate will be expected to maintain an active research profile and contribute to service requirements. Teaching expectations include: undergraduate courses in general linguistics and second language teaching/acquisition; teacher preparation courses; graduate level courses in SLA/SLT, and development of other courses, including graduate seminars, plus mentoring graduate student research at MA and PhD levels. While this appointment is wholly within Linguistics, there will be opportunity to interact with faculty and students in allied departments and programs, e.g. language teaching departments, Psychology, the

Center for Applied Second Language Studies (<http://casls.uoregon.edu/>), Northwest Indian Language Institute (<http://pages.uoregon.edu/nwili/>) and the World Languages Academy (<http://wla.uoregon.edu/>).

PhD in Second Language Acquisition/Teaching, Linguistics or related field required by September 16, 2012. Salary commensurate with qualifications. Applications only accepted via <http://academicjobsonline.org>. Include cover letter, research and teaching statements, representative publications, and names and contact information for three references, including at least one who can address your teaching. Letters of reference and teaching evaluations are not required with the initial application.

Position open until filled. Review begins December 28, 2011. We will conduct preliminary interviews at the LSA in Portland, January 2012. The University of Oregon is an Equal Opportunity/Affirmative Action institution committed to cultural diversity and compliance with the Americans with Disabilities Act. The successful candidate will support and enhance a diverse learning and working environment.

## University of Oregon Swahili; Applied Linguistics: Instructor, University of Oregon

<http://linguistlist.org/issues/23/23-1168.html>

Rank:	Instructor
Posted on:	07-Mar-2012
Deadline:	Until Filled
Ling Field(s):	Applied Linguistics
Language(s):	Swahili
Employer:	University of Oregon
Department:	Linguistics

## Job Description

The Department of Linguistics at the University of Oregon invites applications for a career-track non-tenure related instructor of Swahili, with a start date of September 16, 2012. The initial contract is for one year, and the appointment is contingent on performance, funding, and need. We seek a candidate who is able to teach Kiswahili courses at all levels (first, second, third year), design advanced curricula, and participate in a full range of activities to grow the Kiswahili program on the University of Oregon campus.

The UO Swahili Program currently has 50 students at three levels of instruction. The Department of Linguistics has strong interest in documentary work on little-studied languages, language cognition, language pedagogy, and second language acquisition. The interdisciplinary African Studies Program at the UO currently offers a Minor and is active in promoting student internships and study abroad in Africa. Though this is a teaching rather than research hire, we are interested to find the best possible fit with the Linguistics and African Studies programs at the UO. Job Duties:

- Teach three courses per term, or equivalent load (we are on a quarter system)
- Assess students for appropriate placement in courses
- Help us establish a nationally-competitive Kiswahili program, including the recruitment of students into language study and articulation with the African Studies and Study Abroad programs

### Job Qualifications Required:

- Ph.D. by the time of hire in linguistics, applied linguistics, second language acquisition or teaching, or related field
- Native or near-native fluency in Kiswahili and English
- Minimum of three years Kiswahili language teaching experience including university (or equivalent) courses at the intermediate and advanced level
- Record of excellence in teaching
- Conversant with national proficiency standards and assessment Desired:

- Experience in designing intermediate and advanced curricula

- Ability and interest in developing content courses relevant to the UO African Studies program and/or the candidate's disciplinary specialization Salary is competitive and commensurate with experience. Review of applications will begin March 28, 2012, but the position remains open until filled (however, to ensure fullest consideration applications should be complete by March 28, 2012).

To apply, submit the following to the application URL below:

- Cover letter
- Curriculum Vitae
- Teaching statement, discussing your teaching philosophy, approach, and experience
- Representative sample of teaching materials which reflect your teaching philosophy (e.g. a unit of study)
- Statement of research interests
- Names and contact information for three professional referees The University of Oregon is committed to a campus environment that is enriched and informed by the personal, cultural, and cultural differences of its students, faculty, staff and visitors. The UO is an equal opportunity, affirmative action institution, committed to cultural diversity and compliance with the Americans with Disability Act. Candidates with experience serving the needs of diverse populations are strongly desired.

## University of Oxford Psycholinguistics: Lecturer, University of Oxford

<http://linguistlist.org/issues/23/23-640.html>

Rank: Lecturer  
Posted on: 07-Feb-2012  
Deadline: 09-Mar-2012  
Ling Field(s): Psycholinguistics  
Language(s):  
Employer: University of Oxford  
Department: Faculty of Linguistics, Philology  
and Phonetics

### Job Description

The Faculty of Linguistics, Philology and Phonetics and St Hugh's College propose to appoint to a University Lecturership in Psycholinguistics, in association with a Tutorial Fellowship, with effect from 1 October 2012, or as soon as possible thereafter.

Applications for the post will be invited from suitably qualified scholars in Psycholinguistics, preferably specialising in adult experimental psycholinguistics, and with expertise in both neuroimaging and behavioural aspects. Candidates should have an outstanding research reputation and a publication record of international quality which will contribute substantially to the submission of the Faculty of Linguistics, Philology and Phonetics for the Research Excellence Framework. Early career applicants should show outstanding research potential.

The successful candidate will be able to deliver Faculty and College teaching in Psycholinguistics in all undergraduate courses involving Linguistics. The successful candidate will also be expected to assist in the recruitment of graduate students in Psycholinguistics, to contribute to the M.St./M.Phil. in Comparative Philology and General Linguistics, and to undertake graduate supervision in the area of Psycholinguistics. Candidates should have received the degree of PhD by 1 October 2012. The successful candidate must demonstrate a research record of international standing appropriate to the stage of his or her career; the ability to deliver excellent tutorial teaching and to give lectures and classes; the ability to act as an examiner; the ability to supervise graduate students; and a willingness to undertake administration and pastoral responsibilities on behalf of both the college and the

University.

The combined college and University salary for this post will be on a scale from £42,733 to £57,431 p.a. Additional college allowances are available as set out in the further particulars.

Further particulars, including details of how to apply, can be obtained from the Linguistics, Philology and Phonetics Faculty website (<http://www.ling-phil.ox.ac.uk>),

from the college website (<http://www.st-hughs.ox.ac.uk>), or by email to the Faculty Administrator: [lindsay.rudge@ling-phil.ox.ac.uk](mailto:lindsay.rudge@ling-phil.ox.ac.uk). Applications must be submitted by email to the Faculty Administrator at the above address by no later than 12.00 noon on 9 March 2012.

## University of Pennsylvania Phonetics: Lecturer, University of Pennsylvania

<http://linguistlist.org/issues/23/23-1209.html>

Rank: Lecturer  
Posted on: 09-Mar-2012  
Deadline: Until Filled  
Ling Field(s): Phonetics  
Language(s):  
Employer: University of Pennsylvania  
Department: Linguistics

### Job Description

The Department of Linguistics at the University of Pennsylvania invites applications for a one-year full-time lecturer position in Phonetics, lasting from July 1, 2012 to June 30, 2013. The successful candidate should have the Ph.D. completed before taking the position.

Applicants should present a proven record of research and evidence of excellence in teaching. Duties will include supervising the phonetics laboratory. The department particularly encourages applications from scholars

who can contribute to Penn's tradition of cooperation across subdisciplines within linguistics and can participate actively in interdisciplinary research in cognitive science.

Candidates are to apply at the application URL below. Applications must include a curriculum vitae, a statement of research and teaching interests, and representative publications. Also, applicants must submit the names and contact information of three referees who have agreed to provide letters of reference. The University will contact the referees with instructions on how to submit their letters.

Review of applications will begin on April 2, 2012, and will continue until the position is filled. It is to every candidate's advantage to apply as early as possible. Inquiries may be sent to the email address in the contact information below.

The University of Pennsylvania is an affirmative action / equal opportunity employer.

## University of Potsdam Information Structure: PhD Position, University of Potsdam

<http://linguistlist.org/issues/23/23-1302.html>

Rank: PhD Position; Short-Term Grant (1 year)

Posted on: 14-Mar-2012

Deadline: 20-May-2012

Ling Field(s): General Linguistics  
Information Structure

Language(s):

Employer: University of Potsdam

Department: Collaborative Research Centre SFB 632

#### Job Description

University of Potsdam

Collaborative Research Centre SFB 632

[http://www.sfb632.uni-potsdam.de/index\\_en.html](http://www.sfb632.uni-potsdam.de/index_en.html)

Job Rank: PhD Position; 3 Short-Term Grants (1 year)

Specialty Areas: Information Structure

The Integrated Graduate School of the Collaborative Research Centre SFB 632 Information Structure at the University of Potsdam and Humboldt University Berlin ([http://www.sfb632.uni-potsdam.de/index\\_en.html](http://www.sfb632.uni-potsdam.de/index_en.html)) invites applications for three short-term grants for PhD students covering the period 1 October 2012 to 30 September 2013. The grants are meant to enable PhD candidates with an interest in information structure to carry out some of their research in the Collaborative Research Centre, which has played a prominent role in the international research on information structure over the past 9 years.

Of particular interest to the research centre are PhD candidates from outside Germany and/or with a focus on lesser-studied non-European languages that will help to extend the cross-linguistic coverage and will ideally help to build up stable cooperations with the applicants' home universities. The research centre also encourages candidates from German universities with a migrant background to apply.

Grant holders are expected to affiliate with one or (at most) two of the research projects in the centre. They participate in the integrated graduate school, which offers classes on information structure, research visits of internationally renowned researchers from the field, and PhD days with presentations in front of a peer-audience. In addition, the research centre supports participation in summer or winter schools and conference visits. More information on the aims and objectives of the integrated graduate school can be found here ([http://www.sfb632.uni-potsdam.de/projects\\_mgkeng.html](http://www.sfb632.uni-potsdam.de/projects_mgkeng.html)). Grant holders will receive a (tax-free) grant of 1000 EUR per month plus 103 EUR per month for additional costs. On an individual base, there may be the possibility of finding additional funding for the time after the grant runs out. Qualification Requirements:

Candidates are expected to hold a Master's degree (or equivalent) in Linguistics and have a research focus on information structure from a theoretical (syntactic, phonological, semantic), typological, diachronic, variationist, computer-linguistic or psycho/neuro-linguistic

perspective, which is ideally manifest in earlier research activities in the form of presentations/publications or a carefully worked out plan for a dissertation project.

**Application Procedure:**

Interested candidates are invited to send their electronic applications, including their Master's degree or equivalent (scan), a CV, a short sketch of the planned dissertation project (1-2 pages), and an accompanying letter outlining the candidates' motivation for applying at the collaborative research centre to the coordinator of the integrated graduate school Dr. Stella Gryllia ([gryllia@uni-potsdam.de](mailto:gryllia@uni-potsdam.de)). Candidates should also indicate one or two projects that they want to be affiliated with.

**Application Deadline:** 20 May 2012

The selection of grant holders will be carried out by the board of the collaborative research centre by the end of June 2012.

Please application mailing address and contact information below.

**Application Address:**

Dr. Stella Gryllia  
Universität Potsdam Institut für Linguistik

## University of Queensland, Brisbane, Australia

### Applied Linguistics: Lecturer, University of Queensland

<http://linguistlist.org/issues/23/23-870.html>

Rank: Lecturer  
Posted on: 20-Feb-2012  
Deadline: 16-Mar-2012  
Ling Field(s): Applied Linguistics  
Language(s):  
Employer: University of Queensland, Brisbane, Australia  
Department: School of Languages & Comparative Cultural Studies

#### Job Description

The School of Languages and Comparative Cultural Studies (LCCS) has grown rapidly in recent years and now has over 1000 EFTSL (8,000 course enrolments). It is one of the largest Schools of language instruction in Australia with some 47 full-time academic staff. LCCS teaches Chinese, French, German, Indonesian, Japanese, Korean, Portuguese, Russian and Spanish, as well as Linguistics and Applied Linguistics, to students in the Bachelor of Arts, Bachelor of International Studies, the university-wide concurrent Diploma in Languages, the Diploma of Arts, and dual degree programs. At post-graduate level the School offers two NAATI-accredited Masters programs in Translation and Interpreting and growing programs in Linguistics, Applied Linguistics and TESOL. Staff research and supervise PhD students in these fields and also in Australian Aboriginal languages. The School leads the Brisbane Universities Language Alliance which manages cross-institutional LOTE enrolments between UQ and the other two major Universities in south-east Queensland: the Queensland University of Technology, and Griffith University.

The program in Applied Linguistics at The University of Queensland is dedicated to research on the development and use of non-native language in all its complexity, including the acquisition and structure of second languages, adult language pedagogy, and the social, cultural, and political contexts of second language learning and use. The program offers a Masters in Applied Linguistics and Applied Linguistics (TESOL

Studies), as well as undergraduate offerings in Cross-cultural Communication, Second Language Teaching, and Language & Technology.

Further information on the School of Languages and Comparative Cultural Studies and its staff and research interests may be found at:

<http://www.slccs.uq.edu.au>

**The Role:** The School wishes to appoint a Lecturer in Applied Linguistics to commence in semester 2, 2012. They will be expected to engage as Lecturer, in undergraduate and postgraduate teaching, postgraduate supervision, and the further development of the School's Applied Linguistics program. This will be in addition to conducting research, and performing administrative tasks and other activities associated with the School and the program. **The Person:** Applicants should possess a PhD in an area of Applied Linguistics, preferably with a specialisation in the Applied Linguistics of one of the languages currently taught in the School: Chinese, French, German, Indonesian, Japanese, Korean, Spanish, Russian, and Portuguese. Applicants should also be able to show evidence of successful teaching and administration, as well as an ongoing research and publication profile. **Remuneration:** The remuneration package will be in the range AUD\$79,861 - \$94,834 p.a., plus employer superannuation contributions of 17% (total package will be in the range AUD\$93,437 - \$110,956 p.a.). This is a full-time, continuing appointment at Academic Level B.

**Contact:** To discuss this role, please contact Associate Professor Morris Low, Acting Head of School, telephone +61-7-3365-6935 or email

[m.low@uq.edu.au](mailto:m.low@uq.edu.au). To submit an application for this role, go to

<http://www.uq.edu.au/uqjobs/> and use the Apply button. All applicants must supply the following documents: Cover letter, Resume and Selection Criteria responses.

Reference No: 493056

UQ is an equal opportunity employer.

## University of Rochester Pragmatics; Semantics: Visiting Assistant Prof, U of Rochester

<http://linguistlist.org/issues/23/23-497.html>

Rank: Visiting Assistant Professor  
Posted on: 31-Jan-2012  
Deadline: Until Filled  
Ling Field(s): Pragmatics  
Semantics

Language(s):  
Employer: University of Rochester  
Department: Linguistics

### Job Description

The Department of Linguistics at the University of Rochester invites applications for a one year non-tenure track appointment as a visiting assistant professor to begin July 1, 2012; possibility of renewal. We seek candidates with a proven record of research in formal pragmatics and semantics, a record of excellence in teaching, and strong evidence of interest in interdisciplinary work. Applicants must have a Ph.D. in hand before the appointment starts. Duties include teaching established courses in the undergraduate and graduate curriculum and working with graduate students in allied fields such as experimental psychology and computer science.

Excellence in teaching is required, and breadth of teaching interest is highly desirable. The Department of Linguistics is part of a larger active interdisciplinary community consisting of faculty and students doing research in cognitive science, philosophy, computer science, and neuroscience. We seek candidates who are likely to further those connections. Salary is competitive and commensurate with experience. Applicants should send a cover letter, a curriculum vitae, teaching evaluations if possible, and arrange to have three letters of recommendation sent to: Professor Joyce McDonough, c/o Carla Gottschalk

(linguistics@rochester.edu). Review of applications will begin on March 1, 2012 and continue until the position is filled.

The University of Rochester, an Equal Opportunity Employer, has a commitment to diversity and encourages applications from candidates from groups underrepresented in higher education.

## University of Rochester Language Sciences: Post Doc, University of Rochester

<http://linguistlist.org/issues/23/23-432.html>

Rank: Post Doc  
Posted on: 27-Jan-2012  
Deadline: Until Filled  
Ling Field(s): Language Sciences  
Language(s):  
Employer: University of Rochester  
Department: Center for Language Sciences

#### Job Description

The Center for the Language Sciences at the University of Rochester seeks one outstanding postdoctoral fellow for a NIH-funded training grant. The Center brings together faculty and students with interests in spoken and signed languages from the Departments of Brain and Cognitive Sciences, Computer Science, Linguistics, and Philosophy, as well as the

interdepartmental program in Neuroscience. We encourage applicants from any of these or related disciplines who have expertise in any area of natural language. The training faculty has combined expertise in formal, behavioral, computational and imaging (fMRI, ultrasound) approaches to understanding the structure, processing, production and acquisition of natural language, and we encourage applicants who work in any of these areas. We are particularly interested in postdoctoral fellows who want to contribute to an interdiscip-

linary community.

NIH fellowships are open only to US citizens or permanent residents. Applicants should send a letter describing their graduate training and research interests, a curriculum vitae, and arrange to have three letters of recommendation sent to: Professor Jeffrey T. Runner, c/o Kathy Corser (kcorser@bcs.rochester.edu). Review of applications will begin on February 20, 2012 and continue until the position is filled. Appointees must have successfully defended their dissertation prior to the start date, which is after July 1, 2012. We strongly encourage applications from women and members of under-represented minorities.

## University of Sheffield Medieval/Anglo Saxon English: Lecturer, University of Sheffield

<http://linguistlist.org/issues/23/23-574.html>

Rank: Lecturer  
Posted on: 03-Feb-2012  
Deadline: 20-Feb-2012  
Ling Field(s): Applied Linguistics  
Language(s): English  
Employer: University of Sheffield  
Department: Faculty of Arts and Humanities

#### Job Description

Faculty of Arts and Humanities

School of English Literature, Language and Linguistics

Lecturer in Medieval/Anglo Saxon English

Grade 8: £37,012 - £44,166 p.a. Potential to progress to £49,689 p.a. through sustained exceptional contribution. Fixed term for 3 years. Colleagues in the School of English Literature, Language and Linguistics are known for their international-quality research in English Language, English Literature, Cultures of the British Isles, Applied Linguistics, Theatre and Performance, and

Creative Writing. And much of this activity is passed onto students through our research-led approach to learning and teaching. With over 50 members of academic staff, the School of English is able to offer outstanding teaching across a wide range of subject areas. In recent years five members of staff have received Senate Awards for Teaching Excellence, and one of our staff has been awarded a National Teaching Fellowship. The School is housed in a new Faculty of Arts building which features modern flexible learning, teaching and research facilities - and a cafe. The School of English plays an active role in the local community, and our students are encouraged to venture outside the University to see how some of the ideas they are learning about can apply in the wider world. We have excellent links with local schools, libraries and museums, and we regularly undertake a range of different projects and activities in partnership with these organisations.

The University of Sheffield has been named UK University of the Year in the 2011 Times Higher Education Awards. We've won this prestigious award because we're a world-class university in a unique city. We are a community true to our civic roots and our straightforward approach informs everything we do, both close to home and around the world. This is an ideal opportunity for a scholar with an outstanding publication record and excellent teaching ability to join one of the major centres for English Language and Linguistics scholarship in the United Kingdom.

The post-holders will design and deliver teaching on the BA in English Language and Linguistics, the MA in English Language Studies, and the MA in Culture of the British Isles. They will develop the School's research profile through the production of high quality publications and through attracting external research funding. Post-holders will be expected to contribute to the School's presence within the Faculty of Arts and Humanities, the wider University and, through outreach and knowledge exchange, in Sheffield and beyond and to carrying out appropriate administrative duties to a high standard.

You will have (or be close to completing) a PhD in Medieval/Anglo Saxon English (or have equivalent experience). You will have proven teaching ability, and be able to contribute to existing modules in Old English and History of English at both undergraduate and postgraduate levels, as well as developing new modules in your

research period and specialism. The ability to link with comparable teaching and research interests in the Faculty of Arts and Humanities is essential for this position. Evidence of public engagement activities will also be an advantage.

For further information, please refer to the departmental website: <http://www.shef.ac.uk/english>.

### French; Second Language Pedagogy: Teacher, U Sheffield

<http://linguistlist.org/issues/23/23-533.html>

Rank: Teacher  
Posted on: 01-Feb-2012  
Deadline: 21-Feb-2012  
Ling Field(s): Applied Linguistics  
Second Language Pedagogy  
Language(s): French  
Employer: University of Sheffield  
Department: Modern Languages Teaching  
Centre

#### Job Description

Job Reference Number: UOS003918

Job Title: Director IWLP/University Teacher or Senior University Teacher Faculty: Faculty of Arts and Humanities

Department: Modern Languages Teaching Centre,  
School of Modern Languages and Linguistics

Salary: Grade 8: £37,012 - £44,166 per annum. Potential to progress to £49,689 per annum through sustained exceptional contribution. Grade 9: £46,846 - £52,706 per annum. Potential to progress to £61,078 per annum through sustained exceptional contribution.

The School of Modern Languages and Linguistics wishes to recruit a University Teacher, possibly at Senior University Teacher level, who will also serve one or more terms as Director of the Modern Languages Teaching Centre, contributing to a range of critical language initiatives.

ives that will shape non-specialist provision and specialist provision for non-linguists at the University for the coming generation. The post-holder will also be able to lead one of the major language programmes within our Centre, preferably the French programme, teaching a range of language modules and overseeing the work of a team of teachers.

In addition to running a thriving programme catering to non-specialists and to engineers, mathematicians and scientists with language minors, the post-holder will, as Director of the Centre contribute to the shaping of the University's unique Languages for All programme, which aims to see half our undergraduates studying a language by 2015, and to the ongoing expansion of our language lab facilities into a new Learning Hub by autumn 2012 and to satellite sites thereafter. The Director will provide strategic direction, guidance, and effective line management for the Centre, and will represent the Centre on School, Faculty and University bodies.

The post-holder should have an MA or PhD in a relevant subject area (or equivalent experience), as well as proven teaching ability at

undergraduate level, ideally with a teaching qualification and experience of teaching one of our major languages, preferably French, to non-native speakers at all levels. Additionally, Senior University Teachers will have a national or international profile in language teaching development or teaching-related research.

The Modern Languages Teaching Centre provides teaching in French, Spanish, German, Italian, Latin, Arabic, Greek and Irish. MLTC staff are involved in a range of innovative teaching and other activities, including: tandem learning; intercultural communication; local schools outreach; and Foreign Languages at Work certificates.

The University of Sheffield has been named UK University of the Year in the 2011 Times Higher Education Awards. Beating five other shortlisted universities, the University was rewarded for having a strategy 'based on its values and rooted in its founding principles', as well as on its exceptional performance in research, teaching, access, business performance, and involvement in the local community.

With over 50 members of academic staff, the School of English is able to offer outstanding teaching across a wide range of subject areas. In recent years five members of staff have received Senate Awards for Teaching Excellence, and one of our staff has been

awarded a National Teaching Fellowship. The School is housed in a new Faculty of Arts building which features modern flexible learning, teaching and research facilities - and a cafe. The School of English plays an active role in the local community, and our students are encouraged to venture outside the University to see how some of the ideas they are learning about can apply in the wider world. We have excellent links with local schools, libraries and museums, and we regularly undertake a range of different projects and activities in partnership with these organisations. The University of Sheffield has been named UK University of the Year in the 2011 Times Higher Education Awards. We achieved this prestigious award because of our many imaginative and innovative initiatives as well as our exceptional performance in research, teaching and outreach. This is an ideal opportunity for a scholar with an outstanding publication record and excellent teaching ability to join one of the major centres for English Language and Literature scholarship in the UK.

The post-holder will design and deliver teaching on the BA in English Language and Literature and the MA in English Language Studies (Literary Linguistic Pathway). He/she will develop the School's research profile through the production of high quality publications and through attracting external research funding. The post-holder will be expected to contribute to the School's presence within the Faculty of Arts and Humanities, the wider University and, through outreach and knowledge exchange, in Sheffield and beyond and to carry out appropriate administrative duties to a high standard.

You will have (or be close to completing) a PhD (or have equivalent experience) in English Language and Literature a strong research profile in literary linguistics in a field of research which will complement the existing research strengths of the Language and Literature team. You will have experience in working at the interface of English Language and English Literature, and will be competent to undertake undergraduate teaching in both disciplines, as well as the interdisciplinary core modules. You will have proven teaching ability, and be able to contribute to the core literary linguistic modules at both undergraduate and postgraduate levels, as well as contributing to teaching elsewhere in the School.

## University of Sheffield English; History of Ling: Lecturer, University of Sheffield

<http://linguistlist.org/issues/23/23-576.html>

Rank: Lecturer  
Posted on: 03-Feb-2012  
Deadline: 17-Feb-2012  
Ling Field(s): History of Linguistics  
Language(s): English  
Employer: University of Sheffield  
Department: Faculty of Arts and Humanities

#### Job Description

Faculty of Arts and Humanities

School of English Literature, Language and Linguistics

Lecturer in the History of English

£37,012 - £44,166 p.a. Potential to progress to £49,689 per annum through sustained exceptional contribution.

Colleagues in the School of English Literature, Language and Linguistics are known for their international-quality research in English Language, English Literature, Literary Linguistics, Cultures of the British Isles, Applied Linguistics, Theatre and Performance, and Creative Writing. And much of this activity is passed onto students through our research-led approach to learning and teaching. In recent years five members of staff have received Senate Awards for Teaching Excellence, and one of our staff has been awarded a National Teaching Fellowship. The School is housed in a new Faculty of Arts building which features modern flexible learning, teaching and research facilities - and a cafe. The School of

English plays an active role in the local community, and our students are encouraged to venture outside the University to see how some of the ideas they are learning about can apply in the wider world. We have excellent links with local schools, libraries and museums, and we regularly undertake a range of different projects and activities in partnership with these organisations. The University of Sheffield has been named UK University of the Year in the 2011 Times Higher Education Awards. We've won this prestigious award because we're a world-class university in a unique city. We are a community true to our civic roots and our straightforward approach informs everything we do, both close to home and around the world. This is an ideal opportunity for a scholar with an outstanding publication record and excellent teaching ability to join one of the major centres for English Language and Linguistics scholarship in the United Kingdom.

The post-holder will design and deliver teaching on the BA in English Language and Linguistics, the MA in English Language Studies, and the MA in Culture of the British Isles. He/she will develop the School's research profile through the production of high quality publications and through attracting external research funding. The post-holder will be expected to contribute to the School's presence within the Faculty of Arts and Humanities, the wider University and, through outreach and knowledge exchange, in Sheffield and beyond and to carry out appropriate administrative duties to a high standard.

You will have (or be close to completing) a PhD in the History of English (or have equivalent experience), proven teaching ability, and be able to contribute to existing modules on language change and the History of English at both undergraduate and postgraduate levels, as well as developing new modules in your research period and specialism. The ability to link with comparable teaching and research interests in the Faculty of Arts and Humanities is essential for this position. Evidence of public engagement activities will also be an advantage.

For further information, please refer to the departmental website: <http://www.shef.ac.uk/english>.

## University of Sheffield French; General Linguistics: Lecturer, University of Sheffield

<http://linguistlist.org/issues/23/23-534.html>

Rank: Lecturer  
 Posted on: 01-Feb-2012  
 Deadline: 16-Feb-2012  
 Ling Field(s): General Linguistics  
 Language(s): French  
 Employer: University of Sheffield  
 Department: Department of French, School of Modern Languages a

#### Job Description

Job Reference Number: UOS003882

Job Title: Lecturer in French Studies

Faculty: Faculty of Arts and Humanities

Department: Department of French, School of Modern Languages and Linguistics

Salary: Grade 8: £37,012 - £44,166 per annum. Potential to progress to £49,689 per annum through sustained exceptional contribution.

The School of Modern Languages and Linguistics wishes to recruit a Lecturer in French Studies in any area of the discipline with effect from September 2012. Applications in the areas of twentieth-century French or Francophone literature and society, and in French linguistics, are particularly welcome.

The Department of French has an excellent reputation for the quality and innovation of its teaching and research. We ranked second nationally in the 2008 Research Assessment Exercise, and in the 2011 National Student Survey, students rated us among the top five French departments in the UK. Staff within the department have a

wide range of teaching and research interests ranging from medieval studies through to contemporary visual culture.

The post-holder will teach a range of modules at undergraduate and postgraduate level, supervise PhD students, engage in high quality research, undertake administrative duties and contribute fully to the life of the Department and the School.

Successful applicants will have proven skills and experience in a majority of the above areas with a record of published work appropriate to their career stage. Candidates should have (or be near to completion of) a PhD in a relevant subject area (or have equivalent experience). You will be committed to high quality teaching, including the teaching of French language, and to excellence in research.

The University of Sheffield has been named UK University of the Year in the 2011 Times Higher Education Awards. Beating five other shortlisted universities, the University was rewarded for having a strategy 'based on its values and rooted in its founding principles', as well as on its exceptional performance in research, teaching, access, business performance, and involvement in the local community.

## University of Southampton Applied Linguistics: Full Professor, University of Southampton

<http://linguistlist.org/issues/23/23-1313.html>

Rank: Full Professor  
Posted on: 14-Mar-2012  
Deadline: 12-Apr-2012  
Ling Field(s): Applied Linguistics  
Language Acquisition  
SLA, Second Language Education  
and/or English Linguistics  
Language(s):  
Employer: University of Southampton  
Department: Modern Languages

#### Job Description

Chair in Applied Linguistics (Second Language Acquisition, Second Language Education and/or English Language/Linguistics)

Full Time Permanent

Salary: £58,474 to £82,503

Closing Date: Thursday 12 April 2012

Interview Date: To be confirmed

Reference: 104412F4

The University of Southampton, one of the UK's leading research-intensive universities and a member of the Russell Group, invites applications for a Chair in Applied Linguistics (UK equivalent of Full Professor) from candidates who have an excellent international track record of leadership, research and publication. We are particularly interested in highly experienced and well established individuals with interests in the fields of Second Language Acquisition, Second Language Education and/or English

Language/Linguistics to complement and strengthen the existing research expertise of staff in the department of Modern Languages in the Faculty of Humanities.

The new Chair is expected to possess publications at a level appropriate for an excellent submission to the 2014 Research Excellence Framework. Candidates for this post

should be outstanding scholars with an excellent research profile in their specific area of specialisation. Applicants should demonstrate:

- Evidence of internationally leading research in one or more areas of applied linguistics
- Ability to supervise and train research staff and students and to enhance the research reputation of the Faculty of Humanities
- Ability to secure substantial research funding from diverse sources
- Enthusiasm and capability to contribute strongly to UG and PG teaching programmes
- Capability to play a leading role in the management of Modern Languages.

The closing date for this post is 12 April 2012. Please apply online through the application URL below or alternatively telephone 023 8059 2750 for an application form. Please quote vacancy reference number 104412F4 on all correspondence.

To find out more about this job please visit [www.jobs.soton.ac.uk](http://www.jobs.soton.ac.uk) To find out more about Modern Languages please visit:

<http://www.southampton.ac.uk/ml/index.page?>

We aim to be an equal opportunities employer and welcome applications from all sections of the community. Please note that applications from agencies will not be accepted unless indicated in the job advert.

## University of Stuttgart General Ling; Syntax; Morphology: PhD Student, U of Stuttgart

<http://linguistlist.org/issues/22/22-3920.html>

Rank: PhD Student  
Posted on: 06-Oct-2011  
Deadline: Until Filled  
Ling Field(s): General Linguistics  
Morphology  
Syntax

Language(s):  
Employer: University of Stuttgart  
Department: Institute of English Linguistics

#### Job Description

The chair of Theoretical and English Linguistics at the Institute of Linguistics, University

of Stuttgart, Germany, invites applications for one Ph.D. position in theoretical linguistics,

available from November 1st (or later). Salary is according to the German TV-L E13 (50%) scale.

The candidate will contribute to the project B6 of the Sonderforschungsbereich (collaborative research center) 732, (<http://www.uni-stuttgart.de/linguistik/sfb732/>), 'Incremental Specification in Context'. The project investigates the relation between syntactic Voice alternations (and syntactic configurations more generally) and Voice morphology, and its implication for theories of Voice and theories of morphology/syntax interactions.

#### Desired qualifications:

- Excellent university degree in Linguistics
- Specialization in/interest in Romance languages and comparative linguistics in general
- Previous exposure to syntactic and morphological theory

We offer the opportunity to work on cutting-edge research projects in a dynamic and international research team with up-to-date infrastructure and resources. English is the working language; nevertheless, an ability to speak, or willingness to learn German is appreciated.

Please send inquiries and applications to Artemis Alexiadou (see contact information below).

Applications should be in PDF format and include a short statement of research interests, a CV, and the names of two references. The position is open until filled. The University of Stuttgart is committed to increasing the proportion of women in research and teaching. Qualified women are encouraged to apply. According to German law, disabled candidates with equal qualification will be given preference.

#### Contact Information:

## University of Stuttgart General and German Linguistics: Full Professor, U of Stuttgart

<http://linguistlist.org/issues/23/23-1274.html>

Rank: Full Professor  
Posted on: 13-Mar-2012  
Deadline: 18-Apr-2012  
Ling Field(s): General Linguistics  
German Linguistics  
Language(s): German  
Employer: University of Stuttgart  
Department: Institute of Linguistics

#### Job Description

The linguistics department of the University of Stuttgart, Germany, invites applications for a tenured W3 Professorship in German Linguistics starting in the 2012/2013 Winter Term.

The candidate will be responsible for research and teaching in theoretical and German linguistics in the following courses of study: German (for the state teachers' examination), linguistics (Bachelor), German (Bachelor), and language theory and comparison (Master). Interested applicants should be specialized in at least one field of theoretical and German linguistics with a view to language comparison.

The research profile of the candidate should fit into the

interdisciplinary nature of the Linguistics Department in Stuttgart (<http://www.uni-stuttgart.de/linguistik/>);

the candidate is also expected to contribute to the close cooperation between the departments Linguistics and Natural Language Processing. Participation is expected in the Collaborative Research Project (Sonderforschungsbereich 732), Incremental Specification in Context (see: <http://www.uni-stuttgart.de/linguistik/sfb732/>), as well as in other projects related to language and cognition (see: <http://www.fsk.uni-stuttgart.de/>). Experience in obtaining third-party funding and an international profile is desirable.

The requirements for employment listed in § 47 and § 50 Baden-

Württemberg university law apply.

Applications should be sent by April 18, 2012 to Prof. Dr. Artemis Alexiadou, at the application address below, and as PDF attachments to the application email address below.

The University of Stuttgart has established a Dual Career Program to offer assistance to partners of those moving to Stuttgart. For more information please visit the web-page under <http://www.uni-stuttgart.de/dual-career/>. The University of Stuttgart is an equal opportunity employer. Women are strongly encouraged to apply. Severely challenged persons will be given preference in the case of equal qualifications.

## University of Texas - Pan American Applied Ling; Lang Acquisition: Asst Prof, University of Texas

<http://linguistlist.org/issues/22/22-4125.html>

Rank: Assistant Professor  
 Posted on: 20-Oct-2011  
 Deadline: Until Filled  
 Ling Field(s): Applied Linguistics  
 Language Acquisition  
 Language(s):  
 Employer: University of Texas - Pan  
 American  
 Department: College of Arts and Humanities,  
 English

### Job Description

The University of Texas-Pan American

Assistant Professor (F11/12-016)

The University of Texas – Pan American (UTPA) English Department seeks an Assistant Professor – Applied Linguistics for graduate and undergraduate programs in English as a second language, applied linguistics, linguistics, and language studies. Position begins in Fall 2012.

Required: PhD in Applied Linguistics or closely related field required by August 2012, demonstrated evidence of and potential for continuing scholarship in an applied area of linguistics and interest in program development. Graduate coursework in theoretical and applied areas of linguistics. Position begins in Fall 2012. Preferred: applied emphasis in second language acquisition theory and practice and/or theoretical emphasis in phonology, semantics/pragmatics or syntax as applied to linguistics courses; experience working with minority students, teaching ESL, developmental writing and/or reading; interest in distance learning, web-based and computer assisted instruction.

Applications are invited from candidates with strong records and potential as teachers and scholars. We are looking for a colleague with an interest in and enthusiasm for developing new programs and curricula in a rapidly growing and expanding department.

To apply send: Letter of Interest and curriculum vitae. After initial consideration, additional documents will be required including official transcripts of all university degrees, names of three references, and sample of published/presented scholarly work. Incomplete applications will not be considered. Review of applications will begin November 1st, 2011. Send materials to the application address below.

Screening of applications will begin immediately. Position open until filled. For the complete ad, see

[http://portal.utpa.edu/utpa\\_main/dba\\_home/hr\\_home/hr\\_emppop](http://portal.utpa.edu/utpa_main/dba_home/hr_home/hr_emppop)

For more information about our department please visit our website: (<http://www.utpa.edu/dept/english>).

Note: UTPA is an Affirmative Action/Equal Opportunity Employer. Women, minorities, and qualified individuals with disabilities are encouraged to apply. This position is security-sensitive as defined by Texas Government Code 411.09 (a) (2). All UTPA employees are required to have a criminal background check (CBC) Texas law requires faculty members whose primary language is not English to demonstrate proficiency in English as determined by a satisfactory paper-based test score of 500 (computer-based of 173 or internet-based of 61) on the Test of English as a Foreign Language (TOEFL) or a satisfactory test score of 6.0 on the International English Language Testing System (IELTS).

## University of Tromsø Lang Acq; Phonology; Syntax: 6 Funded PhD Positions, U of Tromsø

<http://linguistlist.org/issues/23/23-568.html>

Rank: 6 Fully Funded PhD Positions  
Posted on: 02-Feb-2012  
Deadline: 07-Mar-2012  
Ling Field(s): Phonology  
Syntax  
Language Acquisition  
Language(s):  
Employer: University of Tromsø  
Department: CASTL

### Job Description

Six PhD positions in syntax, phonology and language acquisition at CASTL (Center for Advanced Study in Theoretical Linguistics) at the Faculty of Humanities, Social Sciences and Education

The following reference no. must be quoted in your application: 11/6079 The University of Tromsø currently has six vacant research fellow positions for applicants who want to pursue a PhD degree in theoretical and/or experimental linguistics. The successful applicant will propose a research project that is compatible with ongoing work at CASTL (see

<http://castl.uit.no>) in the areas of syntax, phonology or language acquisition. There will be two positions in each of the three subdisciplines (syntax, phonology, language

acquisition). This distribution may be adjusted in case there are not enough suitable candidates in each of the subdisciplines. For further information, please contact:

Professor and Center Director Marit Westergaard, phone number (+ 47) 776 44256, e-mail: [marit.westergaard@uit.no](mailto:marit.westergaard@uit.no) or Head of Administration Tore Bentz, phone number (+ 47) 776 44751, e-mail: [tore.bentz@uit.no](mailto:tore.bentz@uit.no) The Center for Advanced Study in Theoretical Linguistics (CASTL) is a Norwegian Center of Excellence funded by The Research Council of Norway and the University of Tromsø. The academic group at the center currently consists of 6 senior researchers, 8 researchers/post-doctoral research fellows and 14 PhD students. Several other researchers and PhD students with other sources of funding are connected to CASTL as affiliates or guest researchers, so that the CASTL community today consists of about 50 researchers and PhD students.

CASTL's primary research activity is within generative grammar with a focus on syntax, phonology, and language acquisition. CASTL also runs a Graduate School. The candidates hired in the advertised research fellowships are expected to follow the program of the Graduate School and to complete a doctoral dissertation within the four years. A more detailed plan for coursework, research, and teaching will be developed by the employee together with the Graduate School Coordinator shortly after appointment. More information about our research and the Graduate School may be found here:

[http://castl.uit.no/index.php?option=com\\_content&view=article&id=66&Itemid=169](http://castl.uit.no/index.php?option=com_content&view=article&id=66&Itemid=169)

The successful applicant will have to document qualifications in theoretical and/or experimental linguistics at the Master's level.

The appointment will include teaching in the Department of Language and Linguistics at the Faculty of Humanities, Social Sciences and Education. The normal period of appointment is four years. The PhD study is standardized to three years. The fourth year consists of teaching or other duties for the university, organized according to a distribution formula of 25 % per year. The university may fund a shorter period of appointment if the research fellow has already completed parts of his/her research education, or when previous appointments to educational positions (research fellow, research assistant

or the equivalent) may be considered as part of the education. The combined research education must add up to three years in total.

## University of Virginia American Sign Language; Deaf Studies: Lecturer, U of Virginia

<http://linguistlist.org/issues/22/22-4030.html>

Rank: Lecturer  
Posted on: 14-Oct-2011  
Deadline: Until Filled  
Ling Field(s): American Sign Language; Deaf Studies  
Language(s):  
Employer: University of Virginia  
Department: American Sign Language Program

#### Job Description

The American Sign Language Program at the University of Virginia invites applications for a three-year (9 month, non-tenure-track) Lecturer position, with chance of renewal, in ASL and Deaf Studies. The appointment begins August 25, 2012. Applicants may work in Anthropology, Education, History, Linguistics, Psychology, Sociology, or a similar field. The teaching load is three courses per semester; candidates should be prepared to teach advanced ASL language and Deaf Studies courses, with the opportunity to design new courses related to their general fields. The successful candidate will be expected to enhance the University's rigorous ASL Program and perform appropriate university, professional, and community service. Qualifications:

An earned doctorate in hand by August 25, 2012 and

native or near-native ASL skills. Demonstrated theoretical or interdisciplinary interests are desirable. Candidates should be familiar with current Deaf Studies scholarship and have extensive experience with the Deaf community. Experience teaching ASL on the college level, familiarity with VISTA Signing Naturally curriculum, and American Sign Language Teaching Association (ASLTA) certification preferred.

The University of Virginia provides reasonable accommodations under the ADA.

To apply, qualified candidates must submit a Candidate Profile through [Jobs@UVa](mailto:Jobs@UVa) (see application URL below); search on posting 0608694 and electronically attach the following: Cover letter of application, CV, and the names and contact information of three references.

Review of applications will begin December 1, 2011; however, the position will remain open until filled.

Questions regarding the position should be directed to:

Christopher Krentz, Director

American Sign Language Program

[ck9m@Virginia.EDU](mailto:ck9m@Virginia.EDU)

Questions regarding the application process in [Jobs@UVa](mailto:Jobs@UVa) should be directed to:

Anne Zook

[rz@Virginia.EDU](mailto:rz@Virginia.EDU)

The University of Virginia is an Equal Opportunity/Affirmative Action Employer. Deaf people, women, minorities, veterans, and people with disabilities are encouraged to apply.

**University of  
 Wisconsin–Milwaukee  
 Phonology: Assistant Professor,  
 University of Wisconsin–Milwaukee**

<http://linguistlist.org/issues/22/22-4387.html>

Rank: Assistant Professor  
 Posted on: 03-Nov-2011  
 Deadline: Until Filled  
 Ling Field(s): Phonology  
 Language(s):  
 Employer: University of  
 Wisconsin–Milwaukee  
 Department: Linguistics

**Job Description**

The Department of Linguistics at the University of Wisconsin–Milwaukee invites applications for a full-time, tenure-track appointment in phonology at the rank of assistant professor. Duties will include developing and teaching courses in phonological theory, description and typology, supervising graduate students at both the M.A. and Ph.D. level and conducting research in the appointee's area of specialization. Prospective applicants must have a Ph.D. in linguistics or some other relevant field at the time of appointment, with a specialization in phonology, and must show evidence of quality teaching and excellent scholarly promise. The ability to teach courses in related areas, especially undergraduate core distribution offerings in linguistics is also required. Expertise over a range of disparate languages is preferred. The department particularly encourages applications from candidates with specific research interests in experimental or laboratory phonology, as well as from candidates who could supplement the department's existing strengths in first and second language acquisition. Salary will be commensurate with qualifications and experience.

To apply visit the application URL below to submit an up-to-date curriculum vitae, a letter of application, and one or two sample publications. Please arrange for three letters of recommendation to be sent electronically to the application email address below.

Though review of applications will continue until the position is filled, those received by December 15, 2011 will be assured of full consideration. E-mail inquiries may be addressed to [ouali@uwm.edu](mailto:ouali@uwm.edu) or [iverson@uwm.edu](mailto:iverson@uwm.edu).  
 Position start date: August 2012

The University of Wisconsin–Milwaukee is an affirmative action, equal- opportunity employer.

2 PhD studentships in the Department of Psychology at the University of York, UK, under the supervision of Professor Sven Mattys

Topic: Speech recognition in adverse conditions

The studentships are funded by the Marie Curie Foundation through an Initial Training Network (ITN) called 'Investigating Speech Processing In Realistic Environments' (INSPIRE,

<http://www.ru.nl/clst/projects/speech/INSPIRE/>). The network consists of 10 European research institutes and 7 associated non-academic partners. The senior researchers in the network are academics in psychology, computer science, engineering, linguistics, hearing science, as well as R&D scientists from leading businesses in acoustics and hearing instruments, and ENT specialists.

In an attempt to stimulate international cooperation and mobility, each PhD candidate will spend a portion of his/her training time at another academic site within the network and at one of the industrial or clinical sites. The PhD candidates will carry out an individual research project related to one of the following two topics, broadly construed:

(1) Effect of noise on phonetic processing vs. lexical-semantic integration. Main host: Prof. Sven Mattys (Sven.Mattys@bris.ac.uk), Department of Psychology, University of York, UK (<http://www.york.ac.uk/psychology/>). Second host: Dr.

Odette Scharenborg (Odette.Scharenborg@mpi.nl), Max Planck Institute, Nijmegen, The Netherlands (<http://www.mpi.nl/>). (2) Measuring cognitive effort during speech recognition in noise. Main host: Prof. Sven Mattys (Sven.Mattys@bris.ac.uk), Department of Psychology, University of York, UK (<http://www.york.ac.uk/psychology/>). Second host: Prof. Torsten Dau (tda@elektro.dtu.dk), Department of Electrical Engineering, Hearing Systems Group, Technical University of Denmark, Denmark (<http://www.dtu.dk/centre/hea/English.aspx>).

### Eligibility:

- Applicants must be eligible to work in the UK but should not have resided or performed their main research activity in the UK for more than 12 months within the 3 years immediately preceding the start date.

- Applicants must be within four years (full-time equivalent) of the end of the degree which would formally entitle them to embark on a doctoral degree either in their home country or in the UK.

- Applicants should have a strong undergraduate or Masters degree in psycholinguistics, cognitive psychology, hearing science or related field. Excellent numerical skills and a good command of English are essential. Experience with testing software, script writing, and speech editing is desirable. Applicants should be willing to work temporarily in at least one other country within the INSPIRE network.

### How to Apply:

Applications should be sent directly to Professor Mattys

(sven.mattys@bris.ac.uk). Applications should include a CV, university transcripts, names and e-mail addresses of two academic referees, and a 2-page cover letter summarising your research interests, your relevance to this particular project, and your fit with the goals of the INSPIRE network. Female candidates are strongly encouraged to apply.

Start date: 1 October 2012

PhD duration: 3 years

**University of York**

**Area Open: Research Lecturer,**

**University of York**

<http://linguistlist.org/issues/23/23-941.html>

Rank: Research Lecturer  
 Posted on: 23-Feb-2012  
 Deadline: 22-Mar-2012  
 Ling Field(s): General Linguistics  
 Area Open  
 Language(s):  
 Employer: University of York  
 Department: Language and Linguistic Science

**Job Description**

To mark the occasion of York's 50th anniversary, the University intends to create up to twenty new Research Lectureships. These positions are aimed at providing outstanding postdoctoral researchers with an opportunity for an extended period of research and a permanent career path. The positions offer the opportunity of a 3-year period to concentrate on establishing a strong personal research profile, followed by a transfer to an established academic post; subject to successful completion of probation, appointments will be made at Grade 7 (the entry-level academic grade of Lecturer). Each Anniversary Research Lecturer will have a mentor in the host department and the University will make available a comprehensive training programme. The Department of Language and Linguistic Science invites applications from junior scholars whose research interests will complement our current major specialisations, or will increase the breadth of study within the department. Please see <http://www.york.ac.uk/language/> for more information about the department.

To apply, follow the link 'Academic' at <https://jobs.york.ac.uk> to 'Anniversary Research Lectureships'. Please consult the Candidate Brief, especially sections 4 and 5.

**University of Zurich**

**Comp Ling; Information Extraction:**

**Researcher/PhD Student, U of Zurich**

<http://linguistlist.org/issues/23/23-948.html>

Rank: Researcher, PhD student  
 Posted on: 24-Feb-2012  
 Deadline: 10-Mar-2012  
 Ling Field(s): Computational Linguistics  
 Information Extraction; Text Mining  
 Language(s): English  
 German  
 Employer: University of Zurich  
 Department: Institute of Computational Linguistics

**Job Description**

The Institute of Computational Linguistics at the University of Zurich is looking for a PhD student to carry out research in Information Extraction and Text Mining with applications in the biomedical domain and in the banking domain.

**Qualifications:**

- Master degree in Computational Linguistics, Computer Science or a related field
- Languages: good command of English and German
- Good programming skills
- Experience with Information Extraction, Text Mining or Question Answering is a plus

The PhD student will be expected to work closely with the members of the OntoGene team (<http://www.ontogene.org/>) on:

- Automated Processing of scientific publications and software requests

- Requirement analysis for applications in the domain of banking software

- Developing novel Information Extraction strategies

Benefits:

- Salary according to the Swiss National Science Foundation rules (41,000 CHF - 47,000 CHF annually)

- Additional earnings through teaching assignments possible

- Support for conference and summer school attendance

- Small and enthusiastic team

- High standard of living in one of the most attractive European cities: Zurich

Supervisors: Dr Fabio Rinaldi, Prof. Martin Volk

The position can be filled immediately and has secured funding for 24 months (funds for a 3rd year pending but likely).

Please send (by email) your CV, your academic record and a short statement of interest by March 10th, 2012 to Dr. Fabio Rinaldi at the email address below.

#### Application Address:

## University Paris Diderot

### Morphology; Syntax: Associate

### Professor, University Paris Diderot

<http://linguistlist.org/issues/22/22-3966.html>

Rank: Associate Professor

Posted on: 10-Oct-2011

Deadline: Until Filled

Ling Field(s): Morphology  
Syntax

Language(s):

Employer: University Paris Diderot

Department: Linguistics

#### Job Description

The University Paris Diderot is offering an associate professor position with the following profile:

Morphology and Syntax : theory and experimental methods

The candidate should have a PhD in Linguistics (or equivalent) defended before December 13th 2011 and be registered on the French CNU

qualification list before October 27th 2011.

S/he should have expertise in contemporary morphological and syntactic theories, as well as experience of quantitative or psycholinguistic methods. S/he should be able to promote an innovative interdisciplinary research program with linguists, psycholinguists and computational linguists, and become a member of the research lab Laboratoire de Linguistique formelle (<http://www.llf.cnrs.fr/>) or Alpage (<http://alpage.inria.fr>). S/he may become a member of the 10 year project, LabEx Empirical Foundations of Linguistics (<http://www.labex-efl.org/>).

S/he will have to teach graduate and undergraduate courses in the Linguistic department (<http://www.univ-paris-diderot.fr>) and will be paid in accordance with the French state regulated public service salary scale. This is a permanent life time position with a civil servant status. Please mind the deadline for registration on the national CNU qualification list : October 27th 2011 on the Antares site of the French Ministère de l'Enseignement Supérieur

<https://www.galaxie.enseignementsup-recherche.gouv.fr/ensup/candidats.html>. The position will start on September 1st 2012 and the website for applications will be open in the spring 2012.

For information about the qualification procedure, please look at <http://www.cpcnu.fr/section.htm?numeroSection=07>.

## Utrecht University Dutch; Psycholinguistics: 2 PhD Students, Utrecht University

<http://linguistlist.org/issues/23/23-642.html>

Rank: 2 PhD Students  
 Posted on: 07-Feb-2012  
 Deadline: 01-Mar-2012  
 Ling Field(s): Psycholinguistics  
 Language(s): Dutch  
 Employer: Utrecht University  
 Department: UiL OTS and Dept. of Dutch

#### Job Description

The Utrecht Institute of Linguistics OTS and the Department of Dutch are offering two PhD positions for research on affective factors in language comprehension.

The PhD projects are part of the Dutch Science Foundation Vici programme "Moving the language user: Affect and perspective in discourse processing". In this programme, we explore the interfaces between the language system and affect ('emotion'), while taking into account that linguistic communication involves multiple perspectives. Using cognitive neuroscience and behavioral methods, we ask four questions about how language interfaces with affect: (1) How do linguistic and affective representations interact as people read a simple sentence? (2) How do readers deal with the affective stance of the author, implied by the choice of words and expressions? (3) How do readers balance their own feelings, and the value systems beneath them, with those of protagonists as

narrative develops? (4) Which ingredients of persuasive communication modulate reader involvement, and how can we make our insights relevant to the needs of society (e.g., to mobilize empathy)? The two PhD students will work on the 3rd and 4th project, in a team with 2 postdocs and the programme coordinator (Jos van Berkum).

Deadline March 1, 2012, 9:00 AM local time. Only native speakers of Dutch can apply. For further details, please visit the university jobs pages (in Dutch): <http://www.uu.nl/NL/Informatie/sollicitanten/Pages/vacatures.aspx>

Web address for applications:

**Vicomtech**

**Computational Linguistics: Researcher,  
Vicomtech**

<http://linguistlist.org/issues/22/22-4128.html>  
Rank: Researcher, Senior Researcher  
Posted on: 21-Oct-2011  
Deadline: Until Filled  
Ling Field(s): Computational Linguistics  
Language(s): English  
Employer: Vicomtech  
Department: Human Speech and Language Technologies

## Job Description

Vicomtech-IK4, an international applied research centre in Visual Interaction and Communication Technologies located in San Sebastian (Spain) is looking for a Senior Researcher in Computational Linguistics. We are looking for someone who combines experience in linguistics and software engineering, with research interests in multilingual Information Extraction, Opinion Mining/Sentiment Analysis and Named Entity Recognition, and also motivated by the transfer of this knowledge into real world applications by building advanced research prototypes developed to solve real needs. The selected candidate will have an important role in the Human Speech and Language Technologies Department, including advanced research, project management responsibilities and technical leadership in high profile EU projects.

### Requirements:

- Ph.D. in Computational Linguistics or related field.
- Experience in Information Extraction, Opinion Mining, Sentiment Analysis or Named Entity Recognition is desired.
- Good Written and Spoken English. Spanish and any other languages will be valued.

### If you are:

- An accomplished researcher with management abilities and interests.
- A team player with an ambitious and creative personality.

### We offer:

- A multi-cultural research environment.
- A multidisciplinary research team.
- A group active in the international Human Speech and Language Technologies research field.
- The opportunity to develop management as well as research skills. To apply, please submit your CV and a cover letter describing your experience and interest in the position to Dr.-Ing. Jorge Posada (Associate Director) at the application email address provided.

## VirtuOz

### French; Spanish; Computational Linguistics: Linguist, VirtuOz

<http://linguistlist.org/issues/23/23-391.html>

Rank: Linguist  
 Posted on: 22-Jan-2012  
 Deadline: Until Filled  
 Ling Field(s): Computational Linguistics  
 Language(s): French  
 Spanish  
 Employer: VirtuOz  
 Department: Linguistics/Product Operations

## Job Description

This position reports directly to a Linguistics Manager within our Paris Linguistics team. The position will be responsible for creating and improving the dictionary for existing and new languages, the optimization of grammar rules, and the handling of the linguistic aspects of new customer projects.

### Responsibilities:

- Contribute to English linguistics
- \* Creating and improving the dictionary for English
- \* Optimization of grammar rules
- \* Handling of the linguistic aspects of new customer projects
- \* Maintain English linguistics for existing English agents
- Responsible for Spanish linguistics

- \* Creating and improving the dictionary for Spanish
- \* Optimization of grammar rules
- \* Handling of the linguistic aspects of new customer projects
- Participates in the recruiting, hiring, on-boarding, and mentoring of linguists
- Liaison with linguists in our Paris office, enabling effective on-time delivery of linguistics knowledge within project and service mode processes

Requirements:

- Bachelors in Computational Linguistics or related degree (or equivalent work experience)
- Minimum 3 years experience in dependency and unification grammar, and also in semantics (management of ontologies) and syntax-semantics interfaces
- A blend of technology background, customer focus, and in quality
- Experience with data mining and information retrieval
- Working knowledge of XML and MySQL
- Experience with at least one object-oriented programming language
- High proficiency in French, English and Spanish communication skills, both verbal and written
- Strong problem solving and analytical skills
- Ability to work independently with minimal supervision, but confidence to know when to ask for help

## VL247

### Various Languages; Applied Linguistics: Instructor, VL247

<http://linguistlist.org/issues/22/22-4617.html>

Rank: Instructor  
Posted on: 17-Nov-2011  
Deadline: Until Filled  
Ling Field(s): Applied Linguistics  
Language(s):  
Employer: VL247  
Department:

Job Description

VL247 is hiring qualified native speakers of any language and culture to facilitate language training to a diverse range of students. Languages include but are not limited to:

- Arabic
- Chinese Mandarin
- Dari
- Farsi
- French
- Pashto
- Russian
- Spanish
- Tagalog
- Somali
- Urdu
- Portuguese
- and more!

Minimum requirements include a Bachelor's degree; native fluency in the language; basic English language skills; and computer/technical proficiency is strongly recommended. Further, it is preferred that applicants possess knowledge and understanding of the ILR proficiency scale (Interagency Language Roundtable). Candid-

ates should also demonstrate knowledge of the respective area's history, culture, politics and economy; possess the ability to use the latest technology; and be open to new teaching techniques. Also desired is experience in teaching language skills to a wide range of students, from beginners to those at a more advanced proficiency level.

Instructors for VL247 will be part of a team approach that develops training content that realistically relates to the student's interests and needs. Not only will the instructor's responsibility be to foster an environment that promotes language learning and cultural enrichment but also to demonstrate and incorporate knowledge of the student's interests and needs into every session.

Candidates can submit a resume to the application email address below.

## Wheaton College

### Applied Ling; First-Year Writing: Post Doc, Wheaton College

<http://linguistlist.org/issues/23/23-943.html>

Rank: Post Doc  
Posted on: 23-Feb-2012  
Deadline: 14-Mar-2012  
Ling Field(s): Applied Linguistics  
First-Year Writing  
Language(s):  
Employer: Wheaton College  
Department: English

#### Job Description

Mellon Post-Doctoral Fellowship in Applied Linguistics

Department of English, Wheaton College, Norton, MA

Duration: 2 years

Teaching Load: 3 courses per year

Salary: \$50,000 + benefits + research stipend.

Wheaton College, a highly selective liberal arts college in Norton, Massachusetts, invites applications for a two-year Andrew W. Mellon Post- Doctoral Fellowship in Applied Linguistics, to begin Fall, 2012. We seek a

colleague with a PhD in Linguistics or a related field who is interested in joining the English department of a small liberal arts college and who can enrich our curriculum with contemporary perspectives and new research. Over the two-year appointment the Mellon Fellow will teach two sections of first-year writing and four linguistics courses (3 courses per year). One course, which will be taught both years, will be on Global Englishes. The others may be on Structure and Grammar of English, the History of the English Language, or other topics in applied linguistics that will help our students develop as scholars, writers and teachers of writing. The design of individual courses is left to the Fellow, although the department mentor can assist with course development. Fellows are expected to participate in the life of the department and are encouraged both to make connections across the curriculum and to participate in trans-disciplinary research that links English, Mathematics, Computer Science, Psychology, Anthropology and Modern Languages.

Fellows are allocated salaries of \$50,000 with full benefits and additional research funds as well as inter- and intra-departmental mentoring. Applications are due by March 15, 2012; early applications are encouraged. We anticipate that interviews will be conducted via Skype. Candidates must apply on line at the application URL below.

Wheaton College seeks educational excellence through diversity and strongly encourages applications from women and men of minority groups. Inquiries may be sent to Professor Lisa Lebduska, Director of College Writing, at the email address below.

## Word of Mouth

### Cantonese; Comp Ling; Phonetics: Project Manager, Word of Mouth

<http://linguistlist.org/issues/22/22-4856.html>

Rank: Linguistic Project Manager

Posted on: 05-Dec-2011

Deadline: Until Filled

Ling Field(s): Computational Linguistics

General Linguistics

Phonetics

Asian Languages; Natural

Language Processing

Language(s): Chinese, Yue

Employer: Word of Mouth

Department:

#### Job Description

The Linguistic Project Manager will oversee and manage speech projects for Hong Kong, China. The candidate will manage a team of Data Evaluators and work on analyzing textnorm performance, overseeing lexicon/phoneset, basic text decoding, and QA studio recordings. This includes:

- Assisting/mentoring Data Evaluators on the following tasks:

- (i) Semiotic classification/disambiguation work

- (ii) Phonetic transcription (to create new lexicon entries) using our phoneset and our standards

- (iii) Proofreading script for voice talent, and editing for readability

- Create verbalization rules, such as expanding URLs, email addresses, numbers

- Provide expertise on pronunciations

- Annotate pronunciation for new lexicon entries after familiarizing themselves with our phoneme set and transcription standards

- Perform basic text normalization task on a huge amount of text data

- Work with QA tools according to the guidelines

#### Job Requirements:

- Native-level speaker of Cantonese (Hong Kong preferred) - must have attended elementary school in Hong Kong China

- Linguistic (phonetics) background helpful

- Keen ear for phonetic nuances

- Previous experience in managing external resources

- Ability to quickly grasp technical concepts

- Proficiency with key project management and tracking tools

- Excellent oral and written communicator

- Proficiency with HTML, Python, and experience building internal tools a plus

- Experience working with Voice Talents and recording studios

- Studies in Linguistics, Computational Linguistics preferred

The candidate will work on-site at the Hong Kong Google office. Project duration: 1 year (with potential for extension); available to start full time in January, 2012.

## Xerox Research Centre Europe (XRCE)

### Natural Lang Processing: Manager, Xerox Research Centre Europe

<http://linguistlist.org/issues/22/22-4598.html>

Rank: Manager  
Posted on: 17-Nov-2011  
Deadline: Until Filled  
Ling Field(s): Computational Linguistics  
Natural Language Processing  
Language(s):  
Employer: Xerox Research Centre Europe  
(XRCE)  
Department: Parsing & Semantics

#### Job Description

The European branch of Xerox global research, Xerox Research Centre Europe (XRCE) set in the heart of the French Alps near Grenoble has an open position for a Research Area Manager in Natural Language Processing. As manager of a research area, the candidate will define research directions in the field and drive a team of experienced researchers. The candidate will contribute to XRCE excellence as a leading research organisation at Xerox and will work in close collaboration with the other areas of XRCE as well as the other Xerox research centres at the USA and in India; Xerox Palo Alto Research Center (PARC), Xerox Research Center Webster, NY (XRCW) and in Bangalore, India (XRCI).

#### Roles and responsibilities include:

- Definition and leadership of the research agenda for the area which projects a 3-5 year vision of scientific directions, identifies the major scientific challenges to be addressed and describes the associated approaches, value of the research results targeted and the relevance to the business.

- Managing a team of researchers (includes day to day guidance and support, definition and assessment of yearly objectives, regular reviews with the team and with management, etc)

- Representative of the research area in customer and senior management visits and scientific communities including academic, industrial, EU, etc

- Be an interface with Business Groups, understanding the challenges in terms of research, and defining projects to address those challenges

- Lead the team for the definition and execution of projects to be delivered to European Union and/or French research/industry ministry

- Empower and mentor project leaders and researchers

As Area Manager you will report to the lab manager and be a member of the centre leadership team.

Directions for research agenda (to be discussed with the candidate): Building upon the team expertise and leading edge unique technologies, the challenges to address consist of strengthening our NLP capabilities with extensions in two scientific directions:

- Knowledge representation and inference, to generate new critical information enabling actions

- Hybrid methods mixing symbolic and statistical approaches

#### Required Experience and /qualifications:

- Ph.D. in a relevant field, or equivalent
- At least 10 years of experience in research, with strong connections in the research community and with industry
- Strong skills and experience in project management, involving multidisciplinary teams
- Significant experience in managing people
- Proven capability in communicating with senior management
- Team player
- Fully fluent in English, another language is a plus

Starting date: November 2011

Duration: Permanent position

## Yale University

### Syntax: Post Doc, Yale University

<http://linguistlist.org/issues/23/23-1281.html>

Rank: Post Doc  
Posted on: 13-Mar-2012  
Deadline: Until Filled  
Ling Field(s): Syntax  
Language(s):  
Employer: Yale University  
Department: Linguistics

#### Job Description

The Department of Linguistics at Yale is seeking to appoint a postdoctoral associate in syntax for a period of up to two years (non-renewable) beginning 1 September 2012. The postdoctoral associate will participate fully in and contribute to the intellectual life of the department. S/he will interact with faculty and students on research and teach at least one course or seminar per year (possibly jointly).

Applicants should submit a cover letter describing their research interests, a current CV, two or three representative pieces of research to

<https://academicjobsonline.org/ajo/jobs/1472>, and should arrange for three reference letters to be submitted

as well.

Applications received by 2 April 2012 will receive the fullest consideration, although we will continue to review candidates until the position is filled. All requirements for the doctoral degree must be completed by the start of the appointment.

Salary is competitive.

Yale University is an Affirmative Action/Equal Opportunity Employer, and we especially encourage applications from women and members of under-represented minorities.

### Phonology: Asst Prof, Yale University

<http://linguistlist.org/issues/22/22-4658.html>

Rank: Assistant Professor  
Posted on: 21-Nov-2011  
Deadline: Until Filled  
Ling Field(s): Phonology  
Language(s):  
Employer: Yale University  
Department: Linguistics

#### Job Description

The Department of Linguistics at Yale University invites applications for a tenure-track appointment at the junior level in the field of Phonology, effective July 1, 2012. The successful candidate will have an outstanding research record and promising research program in Phonological Theory, and will be in a position to contribute to the Department's undergraduate and graduate teaching in Phonology and more generally. The requirements for the PhD must be completed by the start of the appointment.

For full consideration, applicants should submit to the application URL below a current CV, research statement, evidence regarding teaching qualifications, and two or three representative pieces of research by December 15, 2011. Applicants should also arrange for three letters of reference to be submitted to this website. We expect to interview candidates for this position at the Linguistic Society of America Annual Meeting in Portland, OR in January 2012. Applicants should therefore say in their application whether they would be available for such an interview. Yale University is an Affirmative Action/Equal Opportunity Employer, and especially encourages applications from women and members of underrepresented minorities.

Questions concerning this position should be directed to Chris McDaniel at the contact information provided below.

**English as a Second Language: Lecturer, Yale University**

<http://linguistlist.org/issues/22/22-4554.html>

Rank: Lecturer  
Posted on: 14-Nov-2011  
Deadline: Until Filled  
Ling Field(s): Applied Linguistics  
English as a Second Language  
Language(s):  
Employer: Yale University  
Department: Center for Language Study

**Job Description**

Lector of English as a Second Language

Yale University English Language Program seeks to hire a full-time lector of English as a Second Language in a 10-month academic year appointment beginning August 1, 2012. Minimum requirements are: Master's degree in

TESOL/TEFL/TESL, (Applied) Linguistics or related field, and two years experience. Initial one-year appointment with possibility of renewal. The successful candidate will have native proficiency in English, teaching experience showing a strong commitment to English as a Second

Language instruction/pedagogy, experience developing curriculum and assessment tools, and experience teaching graduate and professional students. Preference will be given to candidates with prior experience teaching English for Professional Purposes in an academic setting, particularly Business English.

The lector's teaching responsibility consists of three to four courses per semester of intermediate and advanced-level academic English language courses and includes developing innovative teaching materials and integrating computer-assisted instruction within a communicative framework. Salary commensurate with experience and qualifications. Yale University is an Affirmative Action/Equal Opportunity Employer. Yale values diversity in its faculty, students, and staff and strongly encourages applications from underrepresented minority professionals.

Please complete an online portfolio for Lector of English as a Second Language at the application URL below. The following documents are required in your portfolio: letter of application, curriculum vitae, a one-page statement of teaching philosophy, and evidence of teaching excellence. Finalists for the position will be asked to submit three letters of reference to the application address below. Applications will be reviewed beginning December 15, 2011, until position is filled.

Interviews may be scheduled at the MLA Convention in Seattle, January 5- 8, 2012.

## Yale University Historical Linguistics: Post Doc, Yale University

<http://linguistlist.org/issues/23/23-1282.html>

Rank: Post Doc  
 Posted on: 13-Mar-2012  
 Deadline: 01-Jun-2012  
 Ling Field(s): Historical Linguistics  
 Language(s):  
 Employer: Yale University  
 Department: Linguistics

#### Job Description

The Department of Linguistics at Yale University invites applications for a one-year (non-renewable) Postdoctoral Associate position in historical linguistics. Duties include both research and teaching (one course in each semester, including an introduction to historical linguistics in Fall, 2012). The position is partially funded through NSF grant BCS-920114 "Dynamics of Hunter-Gatherer Language Change". This interdisciplinary project compares language histories from Northern Australia, California and the Great Basin, and Northern Amazonia in order to test claims about correlates between aspects of language change and social and

demographic features. The Postdoctoral Associate will be joining the project in the final year of the grant, and will contribute as an author to the preparation of grant-related publications.

The successful candidate will have experience in historical reconstruction. Preference will be given to candidates with experience in quantitative methodologies and/or first-hand experience with languages in (or near) one of the case study regions. Strong writing skills are essential. The starting date for this position is July 1 or soon thereafter. Requirements for the PhD must be completed by the start date. Review of applicants will begin on April 2 and will continue until the position is filled. For full consideration, by April 2 please submit to

<http://academicjobsonline.org/ajo/jobs/1473> a letter of application which addresses research experience, current research goals, teaching experience, and how you see yourself contributing to the project; please also submit a current CV and 2 writing samples, and arrange for two letters of reference to be sent to <http://academicjobsonline.org>.

Yale University is an Affirmative Action/Equal Opportunity Employer, and especially encourages applications from women and members of

underrepresented minorities.

## ZHAW Zürcher Hochschule für Angewandte Wissenschaften Applied Linguistics: Researcher, Zürich U of Applied Sciences

<http://linguistlist.org/issues/23/23-573.html>

Rank: Researcher  
Posted on: 03-Feb-2012  
Deadline: 20-Feb-2012  
Ling Field(s): Applied Linguistics  
Language(s):  
Employer: ZHAW Zürcher Hochschule für  
Angewandte Wissenschaften  
Department: Departement Angewandte  
Linguistik

#### Job Description

\*This position has been filled.

Die ZHAW Zürcher Hochschule für Angewandte Wissenschaften ist eine der grössten Mehrsparten-Fachhochschulen der Schweiz mit rund 9000 Studierenden.

Am Departement Angewandte Linguistik der ZHAW ist zum 1.4.2012 (oder nach Vereinbarung) die Stelle

einer wissenschaftlichen Assistentin / eines wissenschaftlichen Assistenten (50%)

am Arbeits- und Forschungsbereich "Interkulturalität und Sprachdiversität" (Leitung: Prof. Dr. Christiane Hohenstein) zu besetzen (Befristung auf ein Jahr, mit der Möglichkeit zur Verlängerung).

Mittelbaustellen am Departement Angewandte Linguistik sind

Qualifikationsstellen, i.d.R. im Umfang von 50%. Die Anstellung erfolgt im Rahmen einer individuellen Laufbahnplanung. Wir erwarten, dass Angehörige des Mittelbaus neben der Anstellung an der ZHAW an der eigenen akademischen Weiterqualifikation arbeiten (Promotion).  
Aufgaben:

- Mitarbeit im Forschungsprojekt "Sprachliche Diversität in Arbeitsprozessen"

- Bearbeitung von qualitativen empirischen Sprachdaten (Audio und Video), Transkription, Überarbeitung von Transkriptionen, deutsch und englisch

- Analyse der Gesprächsdaten nach funktional-pragmatischen,

handlungstheoretischen sowie inhaltsanalytischen Kriterien

- Mitarbeit an Projektpublikationen (auch englischsprachig),

Tagungspräsentationen

- Organisatorische Aufgaben im Projekt und im Arbeitsbereich, Mitarbeit bei der Organisation von Workshops, wissenschaftlichen Tagungen, Unterstützung in der Lehre, Umsetzung von Forschungsergebnissen in die Lehre

Anforderungen:

- Einschlägige linguistisch-pragmatische Ausbildung mit abgeschlossenem Studium (MA oder äquivalenter Abschluss) der Germanistischen Linguistik, Allgemeinen Sprachwissenschaft oder Angewandten Sprachwissenschaft (Hauptfach)

- Fundierte Kenntnisse im Bereich der Forschung zur gesprochenen Sprache des Deutschen, vorzugsweise ausserdem des Englischen bzw. des Englischen als Lingua Franca

- Kenntnisse in Funktionaler Pragmatik oder kontrastiver Pragmatik, interaktionaler Linguistik; Kenntnisse in Korpuslinguistik, Sprachtypologie, allgemeiner und vergleichender Sprachwissenschaft oder Sprachpolitik sind von Vorteil

- Deutsche Muttersprache, sehr gute Englischkenntnisse in Wort und Schrift und gute Kenntnisse einer weiteren Sprache

Bei der Besetzung von Stellen folgen wir dem Gleichstellungsgrundsatz in seiner rechtlich gültigen Fassung. Bewerbungen (mit Lebenslauf, Zeugnissen in Kopie, ev. Schriftenverzeichnis) richten Sie bitte bis zum 20. Februar 2012 an Prisca Pedrun, ZHAW Zürcher Hochschule für

Angewandte Wissenschaften, Postfach, CH-8401 Winterthur,

prisca.pedrun@zhaw.ch. Auskünfte zur Anstellung erteilt Prof. Dr. Christiane Hohenstein, christiane.hohenstein@zhaw.ch, Tel. +41 58 934 62 25.

Weitere Informationen finden Sie unter <http://www.zhaw.ch>.

## Zurich University

### Spanish; Iberoromance Linguistics: Full Professor, Zurich U

<http://linguistlist.org/issues/23/23-427.html>

Rank: Full Professor  
Posted on: 27-Jan-2012  
Deadline: 09-Mar-2012  
Ling Field(s): General Linguistics  
Iberoromance Linguistics  
Language(s): Spanish  
Employer: Zurich University  
Department: Institute of Romance Languages

#### Job Description

La Facultad de Filosofía y Letras de la Universidad de Zúrich (Suiza) convoca una Cátedra de Filología Románica, especializada en Lingüística Iberorrománica, que habrá de ser cubierta a partir del 1 de agosto de 2013. La Cátedra se centrará en la Lingüística Española en toda su amplitud - diacrónica y sincrónica, lingüística variacional y sistémica-, así como en la enseñanza de Lingüística Portuguesa. Asimismo, se espera la colaboración en los proyectos y programas interdisciplinarios de la Facultad, en el ámbito de la Lingüística Románica, la Lingüística General y/o Teórica. La enseñanza se impartirá en castellano o, en su caso, en portugués. La lengua administrativa es el alemán.

Para optar a esta plaza las/os interesadas/os deberán estar habilitadas/os o acreditadas/os para cátedra, o poseer una cualificación equivalente. Según la cualificación de la persona seleccionada la Cátedra será Ordinaria, Extraordinaria o Asistente con Tenure Track. La Universidad de Zúrich se ha propuesto aumentar el porcentaje de catedráticas y ruega por ello encarecidamente a las candidatas con la cualificación necesaria que presenten su solicitud.

Los interesados deberán enviar su documentación (curriculum vitae, lista de publicaciones –y no las publicaciones mismas– así como un elenco de asignaturas impartidas y un esquema orientativo acerca de cómo la/el candidata/o estructuraría la Cátedra tanto en el campo de la investigación como en el de la enseñanza) hasta el 9 de marzo de 2012 por correo postal a: Dekanat der Philosophischen Fakultät der Universität Zürich, Rämistrasse 69, CH-8001 Zürich. La documentación deberá enviarse

al mismo tiempo en forma electrónica (reunida en un solo  
fichero pdf, a ser posible) a la dirección:  
dekanat@phil.uzh.ch.

**Application Address:**

Dekanat  
der Philosophischen Fakultät der  
Universität Zürich  
Zürich, 8001  
Switzerland
